THE THINGS OF THE SOIL
The Manassas Journal's Complete Agricultural Service

By DAN VAN GORDER

Question of irrigation, manuring, and general farming are discussed in this department each week. Readers of The Manassas Journal are urged to ask their questions and the solution of their problems. Address all inquiries to The Manassas Journal, Box O, Manassas Service, Manassas, Virginia.

Successful Alfalfa Growing.

Alfalfa has come to be looked upon as synonymous with good farming by many farmers because of the prosperity of its owner. Often production of alfalfa is affected when a crop of alfalfa is growing. A large number of seeds are required to produce plants on the same amount of land that an ordinary crop of alfalfa is grown. This is due to the fact that the plants require a heavy growth to withstand the stress of the alfalfa crop. Many farmers have failed to realize this fact.

Alfalfa hay is equal, and by many is considered superior, to any other form of hay produced. This is especially true in the fall of the year and in the winter months. Alfalfa hay can be fed with better results than any other form of hay. Alfalfa hay has the ability to withstand the stresses of the winter months and provide better feed for livestock.

Alfalfa seed and hay are worth. Its phenomenal increase in labor.

POWER AND NATIONAL SECURITY

Under the Hawley tariff bill, and for the economy of great central
factors, the Better Business Bureau and the national organization for
the Better Business willendeavortoemphasizethatmostofthearticles
that make up the average family's household will be paying money on
additional taxes to the cost of the consumer, as the Hawley tariff bill
was called. This does not begin to enumerate all of the items for which
one has to pay more, but it gives a fairly comprehensive picture:

- 30 books above $1 each—value at
$30; one suit, $40; one
silk dress, $25; one
hat, $15; one sack coat,
$10; one pair of shoes,
$25; one pair of stockings,
$5; one handkerchief,
$3; one table. 

- One pair of securities which
would be purchased on the
New York market for
$135, or $5 more a year.

- One pair of securities which
would be purchased on the
New York market for
$1,200, or $40 more a year.

- One pair of securities which
would be purchased on the
New York market for
$2,500, or $80 more a year.

- One pair of securities which
would be purchased on the
New York market for
$5,000, or $160 more a year.

- One pair of securities which
would be purchased on the
New York market for
$10,000, or $320 more a year.

The fraudulent stock salesmen
are among his best work. "There
are 23,000,000 families in the
United States who have been
advised by the Better Business
Bureau to refrain from buying
the securities which are listed by
the fraudulent stock salesmen.

The average investor lacks the
information to make an informed
investment. The Better Business
Bureau is working hard to
increase the knowledge of
investors in the United States.

The power of the Hawley tariff
bill is a threat to the national
security. If the bill is enacted,
the economy of the country will
be severely affected. The
Better Business Bureau is
strongly opposed to the Hawley
tariff bill and is working to
educate the public on the
implications of such a bill.

SUNDAY SCHOOL LESSON

Title: "The Story of People Who Gave Their Lives for Others"

Date: July 21, 2014

Teacher: Mr. and Mrs. W. S. Keys

Members: The lesson is geared towards young children.

The lesson is based on the story of the Old Testament prophet
Elisha and his servant, Naaman.

Lesson:

Elisha, the servant of the prophet
Elisha, was sent to Naaman, a
sick man, by the prophet. Naaman
was a leader in the army of Syria.

Elisha told Naaman to take a bath
in the Jordan River.

The lesson holds the moral of
selflessness and obedience.

The lesson is aimed at
teaching young children about
the importance of selflessness
and obedience.

The lesson is part of a series
of lessons on the Old Testament
prophet Elisha.

BRENTSVILLE

Relief Bill

Springfield Republican—There is a
relief bill which is being debated in
the House of Representatives.

The relief bill is aimed at
providing financial relief to
unknown aged and infirm
residents.

The relief bill is supported by
many members of the House.

The relief bill is expected to
pass the House of Representatives.

Rumors have been circulating
that the relief bill may be
amended to include
provisions for
health care.

FIRE RATE CASE DIRECTIONS

(Continued from page 3)

Mr. Valentine, who was serving as
an expert witness for the
insurance companies, opposes
the proposed rate increases.

Mr. Valentine contends that
the rate increases are unfair and
will disproportionately affect
the lower-income families.

Judge L. H. Smith, who is
considering the fire rate case,
will issue his ruling on the
matter in the coming weeks.

The ruling is expected to
have a significant impact on
the insurance market in
the area.

The hearing is expected to
continue for several more
weeks.

The outcome of the fire rate
case is uncertain and
remains to be seen.

The insurance companies are
expected to appeal the judge's
ruling if they are dissatisfied.

Until then, the insurance
companies are expected to
continue to charge the
proposed rates.
