

WHAT'S WHAT IN COUNTY BASE BALL

Manassas Noses Out Culpeper While Haymarket Swamps Nokesville.

Local athletics had a strong boost on Friday last when the Manassas High lads gathered in the strong Culpeper team by a score of 9-8.

Mayor Davis graced the occasion with his presence and threw out the first ball of the season to be used in a league game.

The rain of the day previous probably added to the number of errors charged to the two teams, there being a total of twenty. Culpeper's errors were general but those by Manassas were more concentrated. Slightly uneven ground furnished mean bouncers to handle. There were several hard runs and flashy catches which took the kinks out of the game.

The crowd was not nearly as large as had been hoped for, but those who braved the chilly winds had plenty of enthusiasm to make up the difference.

The game looked rather dubious until the last half of the ninth when Brawner broke things up with a double that drove in the winning run. The game had seen-awed all the way up to that time. Earlier in the game, Brawner contributed to the scoring with a nice home run.

Conner and Taylor paired off nearly evenly, the local slabman having a little the edge on his opponent, who was rather wild at times. Both allowed four free passes and both fanned four batters but Connor tightened enough to keep the hitting scattered, while his teammates were bunching things on Taylor.

Following is a box score of the game:

Box score table with columns for Manassas and Ab. H. E. and rows for various players like Ambrose, Gilroy, Hopkins, Taylor, etc.

Doublet players, Culpeper, (Walters to Gunn); Manassas, Ambrose, unassisted. Two base hits, Hopkins, Herndon, Humphries. Three base hits, Brawner, Humphries. Home run, Brawner. Hit by pitched ball, Taylor, three (Monroe, Dodson and Taylor). Bases on ball, off Taylor, four, off Conner, four. Umpires, Davis (plate), Carr, (Swavely) on the bases.

Too Much Herrell

Ray Swank found last week that he couldn't win a baseball game and an oratory contest in the same breath. He did his best, however, by helping pull a double play, getting two clean singles, and one of the two lonesome runs garnered by Nokesville.

Herrell romped around on the mound, mowing his opponents down at will, having ten Nokesville scalps on his belt when the sun was low. Bodine deserved a better fate but his wildness kept him in hot water and the failure of his team mates to hit the Haymarket whirlwind showed in the final results.

Haymarket has a heavy hitting combination this year which bids fair to give it the county championship, and with Herrell going good in the box, most any team is going to have trouble getting a decision over them. Manassas High goes up this week, and much will be decided by the outcome of this contest.

Score by innings: Nokesville 0 0 0 0 2 0 0 - 2; Haymarket 1 0 5 0 3 2 0 5 - 17. Three base hits, Reading, Harrover. Two base hits, McMichael, Senseney, Herrell. Base on balls, off Bodine, 16, off Herrell, 4. Hit by pitcher, Bodine (Garrison (2)), R. McCuin, Rollins. Double plays, Bodine to Swank to Wilkins; Garrison to R. McCuin to Lightner. Struck out by Bodine (7) by Herrell (10). Umpires, Fitzwaters and Shaffer.

SMITH ENTERS RACE

Howard W. Smith has tendered his resignation to the Governor to take effect on April 19th. After that date he will begin his campaign for Congress.

If he conducts this campaign with the same tenacious application to business and honorable methods that have marked his record as a jurist his opponents will have to buckle down to keep the pace with him.

PATRONS LEAGUE SPONSORS DANCE

High School to Be Scene of One of the Easter Season's Most Brilliant Affairs.

On Saturday evening, April 26th, Manassas and environs will turn out en masse to assist the High School Patron's League in the dance which it is giving at that time for the benefit of the school.

One of the best orchestras in the section has been secured to render the harmony, and every effort will be made to furnish the most attractive decorations. The usual tasty refreshments will be in order. It is needless to add that the pulchritude of our local maidens should be sufficient inducement to anyone to come without mentioning such things as music, refreshments, or the like.

An efficient committee is superintending the preparations, as follows: Mrs. Stewart Pattie, Mrs. W. L. Compton, Mrs. J. Bradford, and Miss Marjorie Lacy.

HON AUSTIN O. WEEDON.

Hon. Austin Ogilvie Weedon, former mayor of Warrenton and native of Prince William County, died early Monday at his home in Warrenton at the age of seventy years and six months.

He spent most of his life in Fauquier, holding many important public posts. In addition to serving as mayor of Warrenton for several terms, he was president of the Peoples' Bank there, chairman of the county Democratic executive committee, and was at the time of his death, head of the Fauquier Bor.

In 1893, he married Miss Elizabeth W. Nelson, daughter of Captain Edwin Nelson, of Manassas. Of this union, there are three children, all of whom survive the deceased.

About a year ago, ill health forced Mr. Weedon to relinquish active work as head of the bank, but realizing his great value, the directors persuaded him to remain as head of the board, which position he still held when he died.

The funeral was held yesterday at the Episcopal Church in Warrenton with interment in the family lot at Warrenton. All of the ministers of Warrenton took part in the obsequies. Perhaps no greater crowd has been present at any funeral in Northern Virginia in recent years. The active pallbearers were Messrs. Clarence Carter, Turner Day, G. W. Hurst, J. M. McMicken, Walter Robertson and C. E. Tiffany.

Mr. Austin had many friends and relatives in Prince William, all of whom greatly mourn the passing of such a useful and beloved citizen.

Miss Elizabeth Lloyd was home for several days on account of a bad cold but has gone back to work now. Mr. Emory Lloyd and Miss Lorraine Abel have announced their engagement for June 4, 1930.

HELEN EVANS WINS CLUB PRIZE

Woman's Club Makes Announcement Regarding Contest. Garden Section To Give Special Lecture Soon.

The regular meeting of the Woman's Club was held at the High School Wednesday, April 9th, at 2:30 p. m. It was reported that a check for \$2.50 has been presented to Miss Helen Evans, and honorable mention given to Miss Hilda Moser for essays submitted in the recent contest sponsored by the Woman's Club on the subject: "The Kind of Home Surroundings I Like Best."

Another report was read about the Charity Work being done in the county in cooperation with representatives from other local organizations, so that the charity needs of the county may be met more equitably.

The Garden Section invited all members of the Woman's Club to a lecture on "Landscaping and Gardening" to be given at the Parish Hall on May 5 at 2:30 p. m.

The club had the pleasure of listening to a most interesting talk by Mr. Charles Callahan of Alexandria. Mr. Callahan sketched the development of the county from the time of the Indians and told how rich in historical lore we are in this Prince George county.

The various committee chairmen reported that they were working with their committees and it is hoped that the Charity Ball to be held on Easter Monday will be a most successful affair. The Decorating Committee plans to transform the Gymnasium into a Fairy Bower for the occasion. Several prize dances will be held so that it is hoped that there will be a large crowd.

The proceeds of this ball are to be used in charity needs throughout the county and it is hoped that a considerable sum may be used in the clinic which is to be held in the early summer for the benefit of the 700 or 800 children in the county who are in need of physicians' services.

HICKMAN SCHOOL OPENS HOME STUDY DEPARTMENT

The Hickman School of Speech and Expression, one of the old established institutions of Washington, has recently added a Home Study department for the teaching of Self Expression and Public Speaking to students at a distance unable to attend the school in Washington in person. A unique feature of this particular Home Study course is that a limited amount of class instruction is included in the course, an instructor from the Washington school visiting each section at intervals for this purpose. The opportunity for such training should appeal to many in our community, especially to Kiwanis and other lodge members wishing to acquire the ability to express themselves on their feet. It will no doubt also appeal to many wishing to improve their powers of expression in other ways, in social and business intercourse. The school is now in its twenty-seventh year in Washington, having been established in 1904.

ALWAYS READY TO GO.

(The Volunteer Fireman.) "A friend in need is a friend indeed", is never more apropos, As when said of the Volunteer Fireman, Who is always ready to go.

It may be in the hot Summer time, Or streets filled with ice and snow; He is looking out for your interests, And is always ready to go.

It matters little the time of day, Or how far the fires glow, Or how late or dark may be the night, He is always ready to go.

So give him a smile and your support, And let words of praises flow, You know not the hour when you may need The man always ready to go.

KIWANIS WORK REPORTED ON

Children's Clinic Aided by Generosity of Dr. Swavely.

HAYDON REPORTS ON "BIG BROTHER" WORK

Meeting Last Friday Conceded to be One of the Most Interesting in Club's History.

There were two outstanding features of the program of the Manassas Kiwanis Club at its weekly session last Friday evening.

The first was the report of Dr. C. R. C. Johnson on the proposed clinic for the relief of the disabled children of the county, to be held in June, this year. A county wide survey has disclosed that a large number of children suffer from diseased tonsils and kindred troubles. In some cases, the parents are able to pay for treatment. In many cases the parents are able to defray but a part of the expense of proper treatment; and in many cases they are unable to pay anything.

To meet this condition, the Swavely School will tender the school dormitory as a hospital; the services of capable surgeons will be donated, and other assistance given. But medical supplies, board, transportation and nurses will have to be provided. To meet the costs of these and other items, the Kiwanis Club will co-operate with other organizations to raise the necessary funds, in order that all of the children of the county may profit by the proposed clinic.

Prof. R. C. Haydon, chairman of the committee on Vocational Guidance and Placement, held his audience spell bound as he told of the work of his committee in its effort to aid the boys of high school age of the Manassas community in selecting their life work. Mr. Haydon has associated with him some of the most prominent business men of the county, in this work, and in addition to the personal work which is done by the members of this committee, it is arranging to have experienced and successful men of affairs from out of the county, deliver lectures to these boys.

While Mr. Haydon reported that the efforts of his committee had met with the most enthusiastic response, and he had been called on to extend the work, he felt that inasmuch as the work is a new one in this county, it should be confined to a restricted area for the first year. Doubtless, in another year, the efforts of this, or a similar committee, will extend all over the county.

It was strongly stressed that particularly in the matter of the clinic, the work undertaken is a county wide task, in which all the families of the county are immediately interested, and that the entire county should co-operate in the relief of these children.

For Economical Transportation

It's wise to choose a SIX!

After all, it is a perfectly simple matter to decide which automobile to buy. Only two questions must be answered to your satisfaction—

First: Which car gives the most for my money?

Second: Which car represents the soundest investment in satisfaction and pride of ownership?

Six-Cylinder Motor

In buying a low-priced car consider the following facts: It is wise to choose a six-cylinder motor—for six cylinders are necessary to take out vibration and roughness. Six-cylinder smoothness will save the motor, the whole chassis, the body, the passengers, and the driver.

The Chevrolet is a six. And yet it sells at a price that anyone can afford to pay.

This very low-priced car lasts longer, not only because of fine materials and oversize parts, but also because it is a six. Its big, smooth, 50-horsepower six-cylinder engine is always "taking it easy." There is no feeling of strain at any speed.

With all its six-cylinder smoothness and power the New Chevrolet Six uses no extra gasoline or oil. Efficient design makes this possible—overhead valves—high compression power from any fuel—very latest high-acceleration carburetor—close-fitting, long-

wearing pistons—crankcase ventilation—air cleaner. You can really have extreme economy and still satisfy your ideal of truly modern transportation.

Chevrolet economy is also the mark of Chevrolet sincerity in manufacture. To illustrate:

Chevrolet valves are readily accessible and adjustable. This saves replacing valves, and also makes it possible to preserve efficiency.

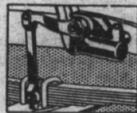

Fully Enclosed Brake

A similar example is found in Chevrolet's molded brake lining—reducing the necessity of frequent replacement, and consequent expense.

Furthermore, there is a rear axle inspection plate on the new Chevrolet Six. This makes it unnecessary to take the axle apart to examine it or clean it.

The Chevrolet Six is full of such evidence that true motor car economy comes from advancement and refinement.

Delco-Lovejoy Shock Absorbers

Like the finest cars, the Chevrolet Six provides the comfort and protection of four springs controlled by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, and self-adjusting spring shackles maintain quiet.

Safety Gasoline Tank

Its impressive front view is distinguished by the genuine honeycomb radiator, another mark of modern cars.

The gasoline tank is in the rear, for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—costly car style, with the permanent quiet of Fisher composite steel-and-wood construction.

Body by Fisher also gives you a genuine non-glare windshield, adjustable driver's seat, more space, deeper cushions, clearer vision, finer fabrics and fitments.

There is just as much extra value everywhere in the car. BY ANY STANDARD the Chevrolet Six is the greatest value in the low-price field.

It is wise to choose the Chevrolet Six with its six-cylinder valve-in-head motor... with full scientific equipment... with its Body by Fisher... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gasoline tank, honeycomb radiator and all the many other features of this day and age.

See your nearest Chevrolet dealer today and drive a Chevrolet Six. Ten minutes at the wheel will show you what a remarkable difference six cylinders make.

BIBLE THOUGHT AND PRAYER
If parents will have their children memorize a Bible selection each week, it will prove a priceless heritage to them in after years.

NOBLE SERVICE—Therefore if thine enemy hunger, feed him; if he thirst give him drink; for in so doing thou shalt heap coals of fire on his head.—Romans 12:20.

PRAYER:
May Thy Grace, Lord, be sufficient for us.

AFTER APPOMATTOX—WHAT?

Sixty-five years have passed since the Confederate soldier laid down his arms after four dreary years of the most heroic warfare of all the ages. Sixty-five years have seen the Confederate soldier and the woman of the South walk through the fires of hatred, jealousy and contumely and emerge triumphant before the civilized world. Every cause for which the South fought and upheld has long since been conceded by Christendom as right, and the once despised Confederate veteran stands now in the sunset of the glowing west, a figure of glory, a survivor of the greatest army that the world has ever produced—a product of the new world that neither the heat of battle nor the oppression of the conquerer could subdue.

With malice toward none and charity for all, he has been the Phoenix of modern times. He can look upon his work with justifiable pride. Honored and revered, the rising generations have lifted from his stooped shoulders the burden, and may they well preserve the heritage that has been given them!

The Record for POPULARITY

—held by Goodyear Tires

The single record that, in our opinion, really counts with careful tire-buyers is the popularity record which Goodyear has held for fifteen years: "More people ride on Goodyear Tires than on any other kind."

It simply says that an overwhelming percentage of your fellow-motorists get the most value and every-day satisfaction out of Goodyear Tires.

IMPROVED Fordson Agricultural Tractor

More Power—Easier Starting

The improved Fordson develops 30 brake horsepower at 1000 revolutions per minute—the recommended engine speed. This represents an increase of 27.5 per cent over the former model—thus providing ample power for any farm need. This additional power was made possible by increasing the engine displacement and redesigning the cylinder head. Many other improvements have been made in the Fordson power plant, such as changing the ignition, cooling and lubrication systems, the transmission, the crankshaft, the air washer.

Of particular interest is the installation of a high tension magneto which, together with the new hot spot manifold, makes the Fordson very easy to start. This manifold and the new carburetor is for gasoline fuel only. A kerosene vaporizer system is furnished optionally.

These and many other changes have been incorporated. The same high quality of materials and close limits of accuracy have been maintained. The short wheelbase, the enclosed construction, the simplicity and compactness of design which have always characterized the Fordson, are still evident throughout the tractor. These are attained by the use of the frameless or unit construction. The housings act not only as frame and load-carrying members but enclose the working parts as well.

The fewer parts make for reliability and ease of adjustment. The accuracy with which parts are made facilitates repair work when necessary. Parts are interchangeable and no adjustment is needed when replacing them. Thus, efficiency, economy and reliability are characteristics of the Fordson tractor in a more marked degree than ever before.
