EDUCATION WEEK PROGRAM AT MHS

An assembly program for Education Week was held last Thursday at Manassas High School. The main feature of the program was a fine and earnest address on the great objectives of education by Rev. A. Stuart Gibson. Interesting readings and talks were also given by the following students:

"History of Education Week," John Waters; "Our Ideal," Jane Lynn; "Good Schools in Bad Times," Evelyn Frame; "Statistics Showing Effects of the Depression on the Schools," Virginia Conner; exhibit of posters from the National Educational Association, Washington, D. C., by Catherine Luck; "Education versus Crime," a talk by Henry Peters, giving the relative cost of education and crime, as for instance that the cost to the country is three times as much to keep a prisoner in jail for a year as to educate a child for a year. Education in the long run is our best and most economical method of crime prevention.

The high school wishes to take this opportunity to express its appreciation and thanks to the ministers of the Manassas churches for their interest in the occasion, and for their kindness in giving sermons on the Sunday theme assigned by the sponsors for the celebration—the National Education Association, the United States Bureau of Education and the American Legion.

JUNIOR CLUB WELL REPRESENTED

The Junior Music Study Club was well represented at the 4th District convention of the Virginia Federation of Music Clubs, of which the local club is a member. All reported an enjoyable and profitable day.

Those attending from the Manassas Club were: Sidney Ann Bunalduie, president; Jessie Mae Conner, vice-president; Edla Blakemore, secretary; Miriam Blough, treasurer, and Margaret Goode, Hilda Lion, Helen Lion, Sara Margaret Senseney, Ruth Breeden and Irene Dellinger.

SCOUT OFFICIAL ADDRESSES CLUB

Junior Woman's Club to Sponsor Movement.

The Junior Woman's Club of Manassas held their October meeting at the home of their sponsor, Mrs. J. P. Lyon, with Misses Marion Lynn and Christine Meetze acting as hostesses. The meeting was called to order promptly at 7:30 and all business was discussed as quickly as possible. Misses Rena Bevans and Helen Lloyd volunteered to solicit Red Cross subscription from the business men in town.

Then Mrs. A. A. Hooff introduced Mrs. Geiber, of Washington, a national officer of the Girl Scouts. Mrs. Geiber gave a very informal talk as to the organization of a Girl Scout troop in Manassas. The club decided to sponsor this movement and it was suggested that two troops be begun. Miss Virginia Frazier was chosen as captain of one troop with Misses Rena Bevans, Esther Warren Pattie, and Pattie Hatcher as lieutenants, and Miss Helen Lloyd as captain of the other troop with Lieutenants Frances Bushong and Christine Meetze. These girls will go to Washington for the regular training and as soon as their lessons have begun the troops will be organized. Any girls interested in joining should see one of the captains and the date for the first meeting will be announced in a few days.

VIRGINIAN APPOINTED

George H. Wells, of Charlottesville, Va., organizer of the Public Works program in Mississippi, has been appointed State Public Works engineer for Tennessee to succeed Harry S. Berry, who was dismissed because he sent out a circular stating that municipalities asking for Public Works loans would not be expected to repay. Secretary of the Interior Ickes has definitely ruled that all loans to municipalities must be repaid.

FORMER SUPERVISOR HERE

Miss Grace Moran is spending the week-end with Mrs. J. B. T. Thornton. Tomorrow night she will address the school leagues here.

Miss Moran will be remembered as having been rural school supervisor. She is now located at the State Normal College at Farmville.

BOARD TO AID LOANS ON FARMERS' HOMES

In an effort to save many farmers' homes in Fairfax County a county farm debt conciliatory committee will be formed to help negotiate loans through the Federal Land Bank of Baltimore, it was announced by H. B. Derr, county farm agent.

Loans to pay off mortgages can be made through the committee which will act for the farmers' interests.

NATIONAL UDC CONVENTION

Baltimore Entertains Daughters of Confederacy.

The annual convention of the United Daughters of the Confederacy formally opened in Baltimore Tuesday night with about 500 women, representing chapters in all Confederate and a number of Union States, present for a dinner in honor of past presidents-general.

The consensus of the delegates was that Mrs. William E. Massey of Hot Springs, Ark., candidate to succeed Mrs. William E. R. Byrne of Charleston, W. Va., as president-general, would have no opposition at the biennial election of officers, to be held today.

Mrs. Massey is an active club woman of her State. She has been president of the Arkansas Federation of Woman's Clubs, State parliamentarian of the Daughters of the American Revolution and State president of the U. D. C. She has served the parent organization as secretary-general and third vice-president in charge of the Children of the Confederacy.

Mrs. Massey is the daughter of Captain C. R. Quinn of the Confederate army.

Though the convention did not formally open until Tuesday night, there have been a number of early events. Tuesday there was a conference of historians in preparation for historical day, today, at which time Mrs. Lucy Huske Anderson of Raleigh, N. C., historian-general, will announce the names of historical essay winners from every State of the late Confederacy.

There also were meetings of the directors of the Lee-Stratford memorial, to which a pilgrimage will be made Sunday, and of the State chairmen of the Mrs. Norman B. Randolph fund for needy Confederate women.

After the committee meetings the delegates went to Annapolis where they were entertained at luncheon by the Maryland Division of which Mrs. Charles O'Donnell Mackall is president, at St. John's College.

After luncheon the Daughters were the guests of the United States Naval Academy, being taken on a tour of the buildings and grounds.

DINNER PARTY

Shady Hill, the home of Mrs. Susie D. Metz, was the scene of a delightful dinner party on November 5, in honor of her eighty-second birthday. Guests present on this occasion were:

Mr. and Mrs. Murray G. Metz, Maryland; Mr. and Mrs. J. T. Stephenson and daughter, Front Royal, Va.; Mr. and Mrs. Powell M. Metz and children, Clarendon, Va.; Mr. and Mrs. Luther Lynn and daughter, Catfarrin, Va.; Mr. H. Elmer Metz and Miss Mary C. Leaman, Washington, D. C.; Mrs. George Phillips and son and Mr. William Iden, Washington; Miss Eugenia H. Osbourn, Mrs. C. E. L. Hodge, Mr. T. A. Metz and daughters, Virginia and Louise Beverley; Miss Lulu D. Metz, Miss Grace E. Metz, all of Manassas.

Mrs. Metz was the recipient of a number of gifts and many expressions of good will and wishes for her continued good health and happiness.

E. R. Conner headed a delegation from the county this morning which attended the ceremonies at which Mr. Hazen was sworn into office.

SMITH FAVORS HYBLA VALLEY

Demands Public Hearings on Zeppelin Project.

The project to allot \$13,000,000 of public works money for the building of a great Zeppelin airport has aroused much speculation as to the best location. Richmond is a prominent contender, and Hybla Valley, in Fairfax County, has also been found by scientific investigation to possess necessary requirements.

Believing that such a location should not be made along political lines, Representative Howard W. Smith has demanded a full hearing in the matter before any such allocation of funds are made by the Public Works Administration. According to a brief prepared by the Alexandria Chamber of Commerce, the Hybla Valley location is superior to Richmond in any international project because of its proximity to Washington and accessibility to other important places. It is pointed out that Doctor Hugh Eckener, commander of the Graf Zeppelin, personally inspected the Hybla Valley location and spoke in enthusiastic terms of its suitability. Experts from the Good-year-Zeppelin factory in Ohio have also approved the Hybla Valley site as well as the prevailing weather conditions found there.

Establishments of a huge Zeppelin airport so near to Prince William County as Hybla Valley would be a matter of great interest on account of the opportunities for employment and purchase of materials and Judge Smith's statement, therefore, is very readable to Prince William folks, when he says:

"With the strong endorsements this location at Hybla Valley has received, it seemed to be settled that it would be selected. The application for allocation of funds from the Public Works Board is a new development. Advocates of the Hybla Valley location are confident that public hearings will establish its superiority over other proposed sites."

RAILROADS CUT MILEAGE COSTS

Fare Reduction to 2 Cents Adopted by Three Railroads.

Four railway systems in the South reduced their fare to two cents per mile and others are expected to follow, it was announced in Atlanta on Monday.

They are the Atlantic Coast Line, Seaboard Air Line, the Georgia Central, and the Louisville and Nashville. The reductions are for three months.

Traffic Manager C. A. Kline, of the Southern, stated that his road, with 8000 miles of track in the South, had as yet made no decision, but that the company had the matter under consideration as an experimental proposition.

POLLARD AND PEERY CONFER

Governor Pollard and Governor-elect Peery were in conference in Richmond Monday, where they spent the day going over budget considerations, with special reference to educational matters, it was stated.

MORE MEN AT CAMP

Capt. T. H. May reports that his C.G.C. Company is now only 16 short of regular army strength, and that the remainder will be here most any time.

SOUTHERN R. R. OFFICIALS GO THROUGH ON SPECIAL

On Monday last, November 13, the Southern Railway Special, Second No. 25, went through Culpeper carrying President Fairfax Harrison, Vice-President Norris and other Southern Railroad officials who are making an official tour of the South. The Division run from Alexandria to Monroe, a distance of one hundred and sixty-five miles, was made in one hundred and seventy-two minutes, the engine coaling up at Wayburn, which took up five minutes of this time.

The engine drawing this important train was in charge of Engineer Campbell with H. Carroll Coons, of Culpeper, as fireman.—The Virginia Star.

RED CROSS DRIVE IS PROGRESSING

Junior Women's Club Is Assisting.

The annual Red Cross roll call was ushered in by addresses at the Kiwanis Club on Friday evening when Miss Neel, county Red Cross nurse, told of the work among the underprivileged children, giving many interesting details. Mrs. Lloyd, chapter president for the county, told of the work of the local chapter and the help given by the national organization.

On Saturday the members of the young women's club canvassed much of Manassas and were met with fairly good response. No figures are available as this goes to press but will be given later.

The need this winter will likely be nearly as great as it has been in the past two or three years and it is hoped that the drive will be fully successful by the time allotted for its conclusion.

MISS WALLACE TO ADDRESS PR. WM. WOMEN

Exhibits Add Interest to Program.

Miss Maude E. Wallace, director of home demonstration activities for the State of Virginia, will be the guest speaker at the County Home Demonstration Achievement program on November 22. The meeting will be held in the Sunday school department of the Methodist Church, Manassas, beginning at 1:30 o'clock.

Miss Wallace has chosen as her topic "A New Day for Homemakers." The program will include reports from home demonstration groups: Nokesville by Mrs. Ernest Spitzer; Greenwell, Mrs. Raymond Ellis; Haymarket, Mrs. M. S. Melton; Aden, Mrs. Mark Kerlin; Dumfries, Mrs. McGrunder Keys; Bethel, Mrs. Egbert Thompson. Mrs. Dewey Shaeffer, Woodbridge, will give a report on the year-round garden campaign while Mrs. Nimrod Lightner, Haymarket, will tell of garden relief work done in the county. The report on hot lunch project will include a report of work done in Woodbine community, to be given by Mrs. J. M. Russell. Community singing will be led by Mrs. John Clark, Haymarket. Mrs. Robert Logan, accompanied by Miss Virginia Speiden, both of Manassas, will provide special music.

An interesting feature of the program will be the display of handwork which will include: hand-made quilts, quilt blocks, hand-made spreads, blocks for spreads, hand-made rugs, loaf bread and rolls from hard and soft wheat flour; tomato juice and cheese. Misses Geraldine Shepherd and Wilda Bourne will have charge of exhibits. Miss R. Belle Burke, Charlottesville, will judge exhibits.

The Home Demonstration Advisory Board will meet at 10:30 on the morning of November 22 to outline the program of work for 1934. This meeting will be held in the assembly room, postoffice building, Manassas.

ATTEMPTED ROBBERY AT REMINGTON

Yesterday morning it was discovered when employees entered the State Bank of Remington that an attempt had been made during the night to rob the bank. The front door had been forced and a big hole had been burned with an acetylene torch into the vault door, but not sufficient to gain entrance. Failing, the robbers left without getting any of the bank's money.

YOUR RED CROSS DOLLAR WILL HELP THE POOR OF YOUR OWN COUNTY.

HAZEN NAMED COMMISSIONER

District Surveyor for Many Years Is Promoted.

Tuesday night, Mel Hazen came to the county fresh with his new honors as one of the Board of Commissioners for the Capital of the United States.

That night a party of several scores gathered at the home of W. F. Hale to wish Mr. Hazen many happy returns of his birthday. Mr. Hazen and his old-time friends, Ed Earhart, John Kerlin and Tom Lion were also there.

Yesterday morning, for the twenty-ninth consecutive year, Mel and the Sheriff went hunting on the first day of the season. They are the lone survivors of a hunting club formed many, many years ago. Mel shot a sparrow anyhow along with other things.

Last night, over radio, Mr. Hazen expressed his appreciation of the honors which have been awarded him. His election as chairman of the Board is said to be a certainty. He will have charge of the police and fire departments.

The new Commissioner is 66 years of age, a graduate of the University of Maryland, and a distinguished civil engineer. He has been Surveyor for the District of Columbia since 1908. His ancestral estate, "Pillgrim's Rest," which has been in his family for 200 years, is located at Nokesville. As a sportsman, Mr. Hazen is well known. He established the National Capital Horse Show and is secretary-treasurer of the Washington Riding and Hunt Club, of which Admiral Cary Grayson is president.

No history of Mel Hazen is necessary in Prince William. Everybody knows him and everybody likes him. He has invited everybody down and it is known of old that Mel never gets a "swell head."

Congratulations, Mr. Hazen!

ALL JOBLESS TO GET WORK

Pollard Says Federal Funds Will Bring Relief.

All able bodied men in Virginia seeking work will be able to find it, according to statements issued in Richmond this week. And it will not be necessary for the State of Virginia to match federal money with State appropriations, it is also reliably stated in Richmond.

Governor Pollard and other important State officials journeyed to Washington Wednesday to confer with Public Works officials and the broad statement regarding the relief of unemployment is the result of this conference.

The plans call for the creation of an Emergency Relief Bureau and the money will come from the \$400,000,000 Civil Works Fund which has just been authorized in Washington. In order to prevent conflict with the Public Works program, all projects will clear through the State-organization.

For some time it has been a problem in Virginia as to how the State could avail itself of Federal appropriations, without making inroads upon its own resources, but the creation of this new relief fund solves the greatest relief problem in the State and will bring employment to the thousands in Virginia who are able and willing to work, but who have had no opportunity.

The gigantic project contemplates the employment of four million men thirty hours a week throughout the nation. The administration expects immediately to remove two million heads of families from relief agency support and to hire another two million men by December 16. The project is said to be one of the greatest that has been devised in these days of big humanitarian enterprises.

ADEN

The Rev. Dr. Wells, presiding elder of the Washington District of the Southern Methodist Church, preached a most excellent sermon at Orlando on Sunday and to a large congregation. Everyone should esteem it a real privilege to hear such sermons as Dr. Wells preaches.

The U. B. Sunday school was well attended on Sunday morning and the Rev. Mr. Kesner preached on Christian Educational Work, thus observing National Education Week.

The school put on a program on Friday observing Education Week.

The Kensington ladies will hold the annual oyster supper at the home of Mrs. Cecil Smith on Nov. 23.

Mr. E. Parker Fielding of Baltimore, Md., spent the week-end with Rev. and Mrs. Lawson.

The Ladies Aid Society of the U. B. Church at Aden are sponsoring an oyster supper at the hall Saturday night, Nov. 18. There will be plenty of good things to eat and you are invited to come and enjoy the evening.

BACK TO GOLD MINES!
 In Virginia and Maryland, near the Nation's Capital, the old gold mines are being reopened, the creeks are being panned for precious metal—and there is a boom in gold! Read the interesting article on this subject in the Magazine of The Washington Star for Sunday, November 19. Order your copy of next Sunday's Star from your newsdealer today.

CATHARPIN

The Rev. A. B. Sapp, the new pastor at Sudley, delivered an excellent missionary discourse anent the week of prayer being observed by the missionary societies thruout Southern Methodism, giving much information new to the society and which will be very helpful to the work.

Lieut. C. P. MacDonald of V.M.I. and Miss Alice Perry of Chevy Chase, Md., were dinner guests at Oakwood on Sunday.

The Rev. J. E. Truman of Washington, D. C., will occupy the pulpit at Sudley next Sunday morning at 11 a.m. This is an innovation since third Sunday is not regularly scheduled for preaching services, the pastor being engaged elsewhere on the circuit on that day.

The first quarterly conference of the Sudley circuit was held at Gainesville on Saturday, Nov. 11, and much business transacted relative to the new conference year just beginning. Everything is starting off well and a good year's work is anticipated.

'Tis strange to contemplate what our "Watchful Waiting" seems to be developing from that long line of "initialdom" of which the NRA, at the moment, is most in mind, and which are supposed to be majoring along so many lines to circumvent the ills of mankind. We were told that all our woes would vanish if we would just begin spending our money so that the old ball could start rolling, but no sooner had we parted with our last penny than the NRA sent us word that they had doubled the price for cleaning and pressing our pants and vests so that we are now in bad shape for the old gravy and applesauce spots on the north side of our anatomy may have to remain. Well it's just too bad to put us in such a fix but worst of all everything we have to buy is going higher and higher and the things we sell are going lower and lower: So what in thunder and Tom Walker and Sam Hill and Old Billy Patterson are we going to do about it? We can't keep on this way for ever. The dissatisfaction with all these 17 "commissions" which requires more than two alphabets to supply letters enough to designate them, is becoming more and more acute and if some of them do not soon break loose and help us we shall all become inmates of the County Home.

Mrs. W. S. Brower of Lone Oak was a Washington shopper one day last week.

As we go to press this Tuesday morning we are witnessing the first snow of the season. Roofs are covered and temperature and all outdoors taking on an air of winter, so this is your official notification to hunt up "you alls" flannels, woolens, etc., and get that old comfort out of the moth balls, stuff up the cracks around the windows and paste up the broken window panes and do all that is necessary to insure a good, comfortable winter. We are advised by those who probably don't know any more about it than you do, that we are in for a long, hard season; that the corn shucks and acorns and hickory nut hulls and many other like "prognosticators" are giving us due warning of what to expect. So if we allow ourselves to be caught napping and all these things come to pass you can not blame us for we have adopted the NRA slogan in the past tense, "We have done our part" to warn you.

MUDDIMAN-CARRICO

A small wedding but one of much interest took place on September 1 when Miss Mary Virginia Carrico, daughter of Mr. and Mrs. F. C. Carrico, was married to Wm. Lafayette Muddiman of Manassas. The ceremony was performed at 4 o'clock in Bristol before an improvised altar of two palms and ferns. White chrysanthemums and pink roses were used for decoration.

The bride who was given in marriage by her father wore a becoming gown of royal blue velvet made on long simple lines with a high neckline and long full sleeves. She wore a pink chiffon velvet turban and carried a bouquet of pink roses.

Only members of the bride's family and a few close friends were present for the ceremony and the informal tea that followed.

Mr. and Mrs. W. L. Muddiman left for a short wedding trip and will reside at the bride's home for a while until they make their future home in Manassas for Christmas.

HONEST FINLAND

When our boys went out to fight and die on the fields of France we were told that it was necessary to preserve honor among nations; that any nation regarding a solemn obligation as a "scrap of paper" must be subjugated. Since then all of our creditor nations have defaulted in their financial obligations but little Finland which today is arranging to pay the sum of \$229,632.

VICTOR JORY TRIUMPHS IN "THE DEVIL'S IN LOVE"

The hopes that the Fox studio has been holding out for Victor Jory are now justified. His first performance as a screen star in "The Devil's In Love," the film that opens at the Dixie Theatre in Manassas next Monday, is proof of his ability. Jory gives a performance that should long be remembered.

The story he has been given for his initial stellar performance contains the elements for complete dramatic portrayal. The characterization would require any actor to give everything of which he was capable. Jory comes through with better than flying colors. He is an actor of rare ability.

The plot of "The Devil's In Love" is laid in Africa. The various phases of its story center at a Foreign Legion post in the desert, in a busy seaport town, in a common hostelry and in the revivifying atmosphere of a mission. The story takes its hero from an honorable position as a surgeon to that of a derelict among derelicts. It shows him on the downgrade where step by step he loses station to reach the deepest of despair. It shows him being galvanized into action by an emergency that calls forth the small spark of courage left in him. And it brings him back to success and a large share of happiness. Loretta Young has the leading feminine role opposite Jory in a romance that will make you respond with whole-hearted sympathy.

VIRGINIA FARMERS GET WHEAT CHECKS

When 368 Loudoun county farmers opened their mail Monday morning they found glad tidings from Uncle Sam in the form of \$19,443 for co-operating in the wheat allotment program.

The Agricultural Adjustment Administration pays the farmers 30 cents a bushel for estimated wheat raised on the 15 per cent of their curtailed acreage.

Other Virginia county farmers who were sent checks Monday include Frederick, 213, \$7,917; Clarke, 122, \$7,336; Wythe, 148, \$4,921; Orange, 186, \$6,841; Carroll, 42, \$640; Warren, 138, \$8,492, and Culpeper, 216, \$10,274. The total amount given Virginia farmers so far in the acreage reduction program is \$65,912.

DEATH OF LORTON MAN DECLARED ACCIDENT

Dr. C. A. Ransom, Fairfax County coroner, has issued a certificate of accidental death in connection with the fatal injury Monday night of Marshall Lee English, 20, of Lorton. English was killed when the truck of coal on which he was riding overturned after leaving the Lee highway near Merrifield. Witnesses told Dr. Ransom that the truck driven by Chester Brown, 21, also of Lorton, swerved from the road in order to avoid a collision, as one car tried to pass another as they came abreast of the truck.

If parents will have their children memorize the daily Bible solutions, it will prove a priceless heritage to them in after years.

THE WAY TO SAFETY: The Lord knoweth the way of the righteous; but the way of the wicked shall perish. — Psalm 1:6.

MELVIN C. HAZEN

It affords us great satisfaction to announce to our readers the appointment of a Prince William man as District Commissioner. He is a capable business man and a Virginian of old and distinguished family. This is the type of man that Washingtonians of the Old School delight to honor. We know that he will serve with dignity and ability and we wish him the popularity and success that we know will be his.

MORE BEYOND

The burden of the presidential office has been on Franklin D. Roosevelt one year today. He was not inaugurated of course, until March 4, but he was elected Nov. 8, 1932, and from the hour he heard the decisive returns he was battling with the problems he knew his election would place upon his shoulders. For twelve months there has not been a waking hour during which he has not given his best thought to the welfare of a nation sunk deep in a cruel depression.

Doubtless he has made his mistakes, some of them inevitable, some of them perhaps the result of mistaken reasoning from wrong premises. He has, as yet, been unable to return to work more than 3,000,000 or possibly 3,500,000 of those who took office. Much of what remains to be done is doubtless as obscure to him as to the rest of us.

Yet this, we think, can be fairly said: No President has faced so great an economic crisis with more of courage, of candor, or of determination. Never in this generation has the presidency been brought so close to the people, and never have great powers been more honestly exercised for the welfare of the man in the streets. Opposition will grow, but honor will grow with opposition. — Richmond News-Leader.

ANOTHER BIG VEGETABLE

George Shoemaker, of Lucasville, presented us with a nice Rutabaga this week. The specimen weighs thirteen ounces and is fifteen inches in circumference.

No one can save all and have all. But!—who spends everything WILL have nothing. A Bank Account in this Savings Institution will prove the best balance wheel one could find for exacting the most out of money that comes to his hand—the most out of the life that is drifting over the shoulder! The Start means everything. Make it, here, now!

SHORT DAYS

We are fast coming into the time of early dark. Long winter evenings are close on us. We miss the effect of sunlight. We need all those life giving rays, and the increase in physical ailments that always comes with winter tells a story of what the loss of sunlight means.

If we lived wholly normal lives as nature meant us to, we should be out in the sunlight so much in the short days that we would come near getting a normal amount of it. But all that many indoor workers get out of the sun is what little they can absorb in the brief walk or ride to shop or store. No wonder that such folks look pale by spring. Let us not be afraid to venture into sunlight because of chilling winds and low temperatures.

Eye strain increases in winter. Lighting facilities are far better than they used to be, but many people economize on light. It is poor policy to get headaches and hurt our eyes by lack of good light. — Exchange.

SWAVELY NOTES

The address at vespers on Sunday was delivered by Dr. James Tryon, director of admissions at the Massachusetts Institute of Technology, who was the guest of Mr. Swavely.

Mr. Robt. Walter and Miss Jane Walter, of Washington, were Sunday visitors at the school.

A football will be played here on Saturday afternoon against Staunton Military Academy.

The editors of the "Swavely Sentinel" are to be congratulated on their first issue, just published, which is a creditable and interesting number.

The Junior Class will sponsor a dance here on Thanksgiving evening. Mid-term examinations are being held this week.

Robert Weston paid the school a hurried visit last Friday. He is now a freshman at Duke University.

Mr. and Mrs. Swavely are spending a day or two as the guests of Capt. and Mrs. Crenshaw at Yorktown, Pa.

A WORD OF THANKS

Availing of the privileges of The Journal, the Catholic Woman's Club of Prince William wishes to thank the residents of Manassas for their generous patronage of the cake and pie sale held at the office of the Manassas Motor Company for the benefit of All Saints' Church.

Returns from the sale were gratifying. It was the first affair of its kind under the auspices of the new club, and the first function held in Manassas for the benefit of the church since the appointment of Father John C. Ryan as pastor of All Saints.

IN MEMORIAM

The Manassas Baptist Church wishes to express its regret at the passing of one of its members, Rev. Westwood Hutchison, from our midst to the Home beyond.

We wish to extend our sympathy to his dear ones, who realize their great loss in the family ties.

Bro. Hutchison served this Church as a deacon and Sunday School Superintendent.

He was prominent in denominational work in the State, having been Moderator in the Potomac Association, also in the General Association. He held many other positions in the councils of his church.

He is gone, but not forgotten, to the Home to which we are all hastening.

Tornado Is Most Frequent Disaster; Causes Heavy Loss of Lives

What type of disaster occurs most frequently in the United States?

This question is answered from the relief annals of the American Red Cross which show over a period of years that the tornado, or cyclone as it is called in some sections, is the most frequent and claims a heavy toll of life. It swoops almost without warning, and in the terrific whirlpool of its fierce winds it destroys all in its path.

The Red Cross gave relief in 44 tornadoes in eighteen states last year. The tornadoes killed 326 persons, injured 2,755 and the Red Cross gave aid to 21,738 who were homeless, injured or otherwise victims of the storms.

Inventory

AT THE end of each fiscal year a merchant or business man usually makes a list of his stock of merchandise in order to obtain definite information as to the actual worth of his business. The process is called an inventory of merchandise. The thoughtful merchant does not attempt to deceive himself into believing that all the merchandise on his shelves is worth what he paid for it, and so he culls out the worthless stock, marks down whatever is shopworn, and adjusts his gains and losses accordingly. Thus he commences the new year with a balance sheet of correct values.

This question of correct values sooner or later confronts all mankind; and, like the business man, every individual who is eager to advance in the right direction will take account of his personal stock by making a careful analysis of his spiritual, mental, and moral condition. He will devote himself resolutely to the task of eliminating from his storehouse of thinking whatever is undesirable or destructive to health, holiness, and success, and seek to replace it with that which will bring peace and happiness not only to himself but to all upon whom his thoughts may rest.

While a business man may take stock only once or twice during the year, in the textbook of Christian Science, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, we read (p. 233): "Every day makes its demands upon us for higher proofs rather than professions of Christian power. These proofs consist solely in the destruction of sin, sickness, and death by the power of Spirit, as Jesus destroyed them. This is an element of progress, and progress is the law of God, whose law demands of us only what we can certainly fulfill."

Necessarily we must progress, since that is God's law. Then if that law, the law of divine Love, demands of us what we can fulfill, we need not hesitate, or even be in doubt, for no problem is too difficult for a true understanding of Mind to solve, and no error too subtle for Truth to uncover. It is our part simply to be obedient to God's behest and to relinquish in thought, as fast as practical, aught that is unloving, selfish, unkind, dishonest, and impure.

The merchant, in going through his shelves, may find an accumulation of "dead stock" or worthless merchandise; and, again, he may find hidden away many articles of value which he did not know were there.

He discards the unworthy and bring the good to the front, having placed a proper estimate upon them. And in order to supply the demands of his customers he is ready to secure more merchandise of good quality.

Many times in her writings Mrs. Eddy alludes to the parable of the tares and the wheat. On page 117 of "Miscellaneous Writings," for instance, she says, "The student of Christian Science must first separate the tares from the wheat; discern between the thought, motive, and act superinduced by the wrong motive of the true—the God-given intent and volition—arrest the former, and obey the latter."

So the individual knows that he must make a determined effort to eliminate the tares, erroneous thoughts, self-will, criticism, and a host of other useless beliefs that should have been discarded long ago, and tenderly cherish the wheat, good thoughts, such as love, courage, kindness, unselfishness, forgiveness, and kindly consideration of others, confident that his stock taking will show a balance on the right side.

One of the tares to be exterminated is a false sense of responsibility. When we realize that all responsibility belongs to God and that we can reflect divine wisdom and power, we are freed from anxiety, fear, and worry. "Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths." The relinquishment of fear and discontent is possible only as the assurance is gained that God, divine Love, is tenderly caring for all His creation.

We are told that once a rich young man asked Jesus what he should do that he might have eternal life. Jesus answered, "Sell whatsoever thou hast, and give to the poor, and thou shalt have treasure in heaven." It is as if he had said, Dispose of everything that would prevent the establishment of eternal life in your consciousness. Later the Master added, "How hard is it for them that trust in riches to enter into the kingdom of God!" It is evident that the riches referred to were treasured beliefs that are not substantial, while true wealth consists of spiritual ideas, which are enduring.

Learning something of the value of spiritual riches, we find with Paul that "our sufficiency is of God," and that beliefs of lack, discouragement, and fear are the merchandise of mortal thought, to be replaced with more substantial, more spiritual, thinking. As one's thinking improves, he finds changes for the better inevitably taking place in his daily activity. — The Christian Science Monitor.

SOUND BANKING requires that self-liquidating loans be made to borrowers and that depositors maintain profitable accounts with the bank. It is freely admitted that a profitable bank is the only safe bank over a period of time.

Whenever we have insisted upon further information about a borrower's condition, more collateral, or that a loan be reduced, you may rest assured that we were doing only what any good business man would have done were he lending his own money directly to the borrower. The money we lend belongs to our depositors, and the bank in lending their money must have due regard for its depositors' interests.

When we have insisted that more adequate balances be maintained on an account or that service charges be made, you may rest assured that we have done so simply because of our obligation to our Depositors and Stockholders to do what a good business man would have done were he conducting his own affairs under similar circumstances.

COLORED 4-H CLUB OF MANASSAS

Dear Friends,
As we colored children of Brown School, were thinking what we could do to help our community and town, I thought I would organize a colored 4-H club as there is not another one in this county. There are 46 members in our club.

President, Clara Alexandria; vice-president, Constance Willis; secretary, Theresa Wells; treasurer, Esther Smith; instructors, L. Ford and

L. L. Lewis.

We organized this club to do better, go places and do things.

Next summer we can go places we did not go this summer. In the fall we can do things we didn't do last fall. Now we hope you colored parents and friends will think a lot of our club and help us out in every way you can.

We do our part for the sick and poor.

Respectfully yours,
Constance Willis.

I carry in stock a nice line of Waltham, Elgin and Hamilton Watches, both pocket and wrist, at lowest prices.

Finds Fortune Hidden In Telephone Bellbox

Installer Restores Securities Before Owner Misses Them

Using a telephone bellbox as a safety depository is not considered advisable. But that is exactly what a Lynn, Mass., telephone user did a short time ago.

This unique "safety deposit box" was discovered one day recently by A. E. Miller, an installer of the New England Telephone and Telegraph Company, who had been sent to remove some telephone equipment from a residence. After he had left the premises and was placing the removal tag on the telephone equipment, he discovered a wad of paper in the bellbox which aroused his curiosity. It turned out to be stock certificates worth about \$2,500, including ten shares of American Telephone and Telegraph stock.

In endeavoring to trace the rightful owner, telephone officials found that the name on the stock certificate did not correspond with the name in which the telephone had been listed. Inquiry at the American Telephone and Telegraph Company's headquarters in New York revealed the address to which the dividends for the telephone stock were sent, with the result that the stock certificates were returned to the owner before he even knew that they were misplaced.

HUNTING SEASON

OPENED NOV. 15

The hunting season opened Wednesday, Nov. 15, for Virginia with mighty bad days in store for the game, if the number of licenses issued is any indication of the devastation that will be made by hunters. It is stated that more than 500 licenses have been issued in Fairfax.

The season continues until the first of the year on rabbits, quail, squirrel, coons and possums. In the matter of handling rabbits, health officials are warning the public of the prevalence of tularemia or rabbit fever which has caused a number of deaths recently. The infection is caused by handling the raw meat. It is advised that rubber gloves should be used in dressing rabbits and that there is no danger from the disease after thorough cooking.

Have you read the Clark and Arrington History of Prince William County? Every citizen who takes pride in local institutions should possess a copy of this charming book, which is on sale for 40 cents at the office of the Prince William County School Board, Manassas, Va., or will be sent postpaid for 50 cents.

GUILD REORGANIZED

Despite the high winds and cold, eleven ladies met with Mrs. Lucy Groves at Centreville yesterday and reorganized the Guild of St. John's Diocesan Mission. Mrs. Gibson, wife of the rector, was present to aid in the organization.

Mrs. William Powers was elected president and Mrs. Groves secretary-treasurer. Dues were set at five cents a month for the time being and meetings will be held on the first Wednesday of each month at 3 o'clock. The next meeting will be held at the home of Mrs. A. W. Radford on the Chantilly road.

"THE WHIRLWIND" ACTION-PACKED OUTDOOR FILM

Stilted drawing room conversation is forgotten in the action-packed Tim McCoy picture, "The Whirlwind," at the Dixie Theatre in Manassas tomorrow and Saturday. The Columbia western star has the advantage of an unusually excellent story and makes the most of its possibilities as does his splendid supporting cast.

Tim is again the misunderstood hero, but this time he portrays a care-free rider of the open ranges who clears himself of suspicion when he exposes the dishonesty of a crooked sheriff and a shady banker. Tim is aided immeasurably in his thrills by Pat O'Malley and J. Carrol Naish, two grand old troupers, who along with Tim form a romantic trio of modern western musketeers. Matthew Betz leaves little to be desired in the important heavy characterization. Alice Dahl, film newcomer, plays opposite the star.

AUTO INSPECTIONS

ARE DUE AGAIN

The semi-annual automobile inspection and "Save-a-Life" campaign of the Virginia Division of Motor Vehi-

cles opened the first of November, and according to Officer Giles C. Upshur there is now every indication of a last minute rush as but a small percentage of owners have had their cars inspected to date.

"KING OF JAZZ" COMBINES SEVERAL PRODUCTIONS IN ONE

In "King of Jazz," the Paul Whiteman feature which Universal has re-issued and which comes to the Dixie Theatre in Manassas next Wednesday, are really seven shows in one, in addition to several clever black-outs, comedy sketches and specialty song and dance numbers. Each one of the revues could very readily be sold as a show in itself, for each has been executed with infinite care, attention to detail and a lavish production hand. There is a novelty and diversity of style which is very refreshing in "King of Jazz." John Murray Anderson, who is master of stage revues and who has to his credit many of the popular New York stage hits of the past ten years, gave the best of his talent and creative genius to the revues and ensemble numbers of the Whiteman picture.

"The Melting Pot" number is perhaps the most pretentious of all the units of "King of Jazz." Huge revolving stages were especially built to accommodate the hundreds of extras and principals required in this colorful episode which is a composite of many short national numbers. The spectacle takes place in a huge melting pot set upon an elevated terrace, beneath which are golden gates leading from a subterranean chamber below. Eight changes of costumes were required for the dancers to interpret the various nationalistic sequences—English, French, Spanish, Scotch, Italian, Russian, German and American, music especially arranged by Ferde Grofe, based upon national anthems and folk songs and played by the incomparable Whiteman and his band. The Russell Markert Dancers with their perfect precision work are a feature of "The Melting Pot." Two thousand musical instruments were employed by the orchestra in this number.

An entirely different number is the Monterey sequence, which introduces the exquisite song, "It Happened in Monterey," written by Mabel Wayne and Billy Rose, and sung by John Boles.

Music equally as memorable and beautiful is heard in the "Song of the Dawn" episode, which is sung by Boles and a chorus of male voices known as the Cowboy Chorus.

TWIN CITY GOSSIP
by Geo. Dent

Some of my good old friends are getting old, at least they think they are . . . They hunt a shady spot and try to amuse 'emselves by watching shadows instead of sunshine . . . Yes, it is true—sunshine makes the shadows just as a tall mountain makes the valley . . . But we must drop our sunshade now and then, we must climb the mountain if we ever expect to enjoy the valley . . .

The only way to grow old gracefully is to grow with the young ones, and not expect the young ones to grow old with us . . . Sometimes we can reach higher by stooping than we can by standing on a ladder . . .

Sunshine and a Baby's Smile

There he comes, see him peeping over the hill—
Come here, look! he is painting the window sill;
And now he gently creeps into baby's bed

And lovingly caresses each curl on baby's head . . .
At a shell pink ear he seems to smile,
But keeps moving all the while—
And touching baby ever so lightly under the chin

He peeps 'twix two rosy lips, and within
Finds two pearly teeth brand new
That were nearly hidden from view.
And then he tickles baby's nose—
Peeps under the cover at ten little toes;

Just then baby gives a yawn and a blink,
Waves a pudgy hand, gives a knowing wink
With half-open eyes—a dreamy smile,
The sunshine kissing him all the while,

He reaches out with a chubby hand
And catches a ray of sunshine—
dreamland!

Sunshine and a baby's smile
Makes life worth while;
A young heart and a golden ray
Gives us courage for another day . . .

PARK PROJECT IS APPROVED

Senator Byrd Announces Acceptance of Plan by Ickes.

Senator Harry Byrd announced this morning that the project of building a great scenic highway between the Shenandoah National Park of Virginia and the Great Smoky National Park of Tennessee and North Carolina has been approved by Secretary of the Interior Ickes, who in his capacity as Public Works Administrator has stated that the states of Virginia, North Carolina and Tennessee will be allotted "whatever it takes" to build this great scenic highway.

Governor Pollard, who was in Washington this morning, stated that the project authorized the Secretary of Interior to survey a 200-foot roadway across the crest of the Blue Ridge Mountains and into the Great Smokies, leading up to the present Skyline Drive from Front Royal to Waynesboro and then down the mountain crest into Tennessee and North Carolina. Governor Pollard and the governments of North Carolina and Tennessee have pledged the government that the respective states will acquire the necessary rights-of-way and the route will be worked out in detail by the National Park Service. The cost is estimated at around \$16,000,000.

The project has been characterized as the greatest scenic highway undertaking ever authorized and will open up the greatest vacation area in America. The project is of much interest to citizens of Prince William, Fairfax, Fauquier and other neighboring counties because the main approach to this great parkway will be through their territory and they will benefit by the great increase of traffic from the big population centers of eastern United States which will be served by the huge playground.

THREE MILLION HOGS TO BE PURCHASED FOR NEEDY

A maximum of approximately 300,000,000 pounds of cured hog products, the equivalent of about 3,000,000 live hog, are to be purchased this winter for distribution to needy families, under plans jointly formulated by the Agricultural Adjustment Administration and the Federal Emergency Relief Administration, federal officials have just announced.

Bids at intervals up to July 1, 1934, will be submitted by processors; the first, for 75,000,000 pounds for January delivery, will be received November 17 at Washington headquarters. Only good quality live hogs weighing between 100 and 215 pounds may be used for this purpose. Government inspection services will see that standard food requirements will be met.

The program serves the double purpose of supplying food to needy families and of removing surpluses of hog products. It supplements the \$350,000,000 corn and hog production adjustment plan recently announced, and, added to the emergency hog marketing season up to 10,000,000 head, or over 20 per cent of the average annual slaughter federally inspected.

The processing tax recently levied on hog products will be refunded to processors making successful bids in accordance with the amount of these purchases for relief purposes. The estimated total cost of this buying program will be about \$50,000,000.

BRIGHT TOBACCO

U. S. Types 11, 12, 13, 14.

BURLEY TOBACCO

U. S. Type 31.

SOUTHERN MARYLAND TOBACCO

U. S. Type 32.

U. S. Type 11 is produced in the Piedmont Belt of Virginia and part of North Carolina.

U. S. Type 12 is produced in eastern North Carolina.

U. S. Type 13 grows in South Carolina.

U. S. Type 14 is produced mostly in southern Georgia—a few million pounds in northern Florida and Alabama.

U. S. Type 31 includes what is called White Burley tobacco. It was first produced by George Webb in 1864. It

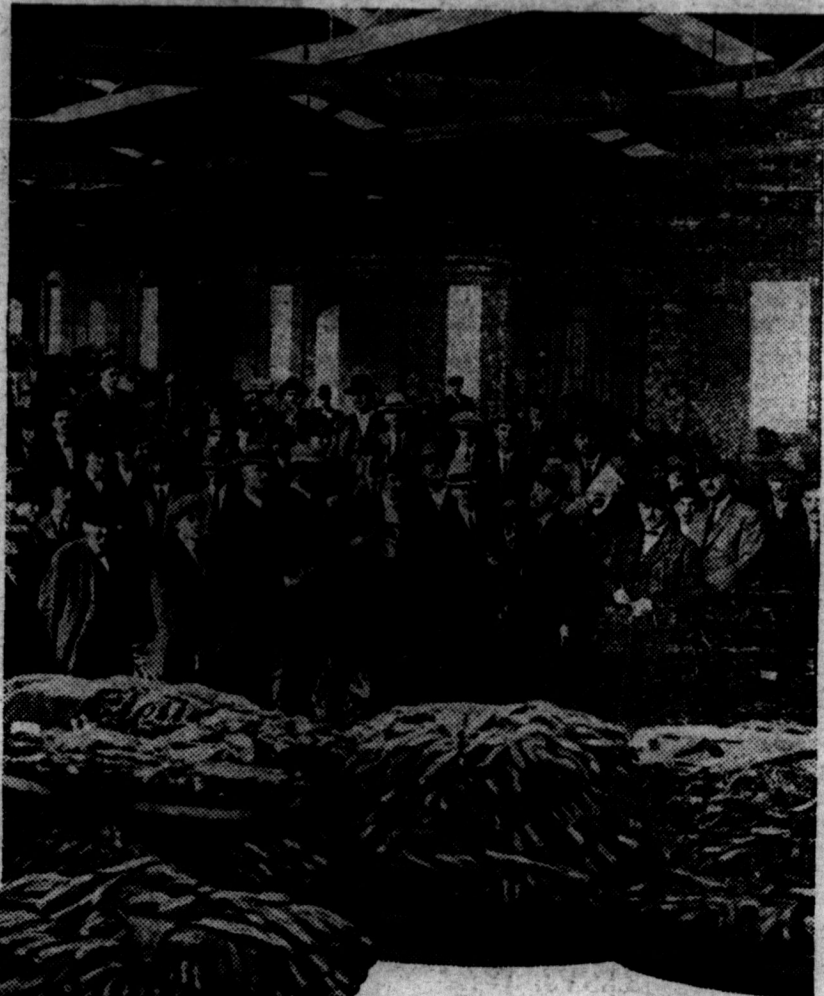

is light in color and body, and is milder than the Burley used for pipes.

U. S. Type 32, Maryland tobacco, is noted for its "burn". In this respect Maryland excels most other tobaccos.

These are the kinds of home-grown tobaccos used for making Chesterfield Cigarettes.

Then Chesterfield adds aromatic Turkish tobacco to give just the right seasoning or spice.

Chesterfield ages these tobaccos for 30 months — 2½ years — to make sure that they are milder and taste better.

Facts And Figures On Your Telephone

By EDWIN F. HILL

Uses of extension telephones are varied, but Jerry B. Fenton, an attorney, at Springfield, Mo., is convinced that an extension telephone in his home was instrumental in saving the lives of Mrs. Fenton and their two-year-old daughter, Nancy Jane, according to newspaper dispatches.

Edwin F. Hill

Fire broke out in the basement of the house and Mrs. Fenton and her small daughter were trapped by dense smoke in a second-floor bedroom. The smoke was so dense that she could not see and breathing was difficult, but there was an extension telephone in the room to which she made her way and summoned help.

That extension telephones are today recognized as great factors in emergencies is emphasized by the statement that sixty-five per cent of the 71,000 extension telephones operated by the Chesapeake and Potomac Telephone Companies in Maryland, Virginia, West Virginia and the District of Columbia are in residences. These companies now operate 603,800 telephones, of which about twelve per cent are extensions.

Another instance of the use of the telephone in an emergency was that of a Cincinnati lady who went to St. Louis on a visit. Upon her arrival in that city, she suddenly remembered that she had failed to turn off the hot water heater in her apartment. She placed a long distance telephone call for the Cincinnati Fire Department, requesting that someone be sent to break into her apartment and turn off the heater.

A fireman went to the address, arriving at a most opportune time, preventing a serious explosion which would have occurred if the steam had not soon been released. He found the gas under hot water tank burning full blast and for almost half an hour after the gas had been turned off, steam poured from both the hot and cold water faucets which he had opened.

Thousands have Ended their Bowel Worries by taking this advice!

Can constipation actually be overcome? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice and know.

You are not likely to cure your constipation with salts, pills, tablets, or any of the habit-forming cathartics. But you can correct this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:

This is the way many men and women have made their bowels as regular as clockwork in a very short time.

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without

using force. An approved liquid laxative (one which is most widely used for both adults and children) is syrup pepsin. Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe. Its laxative action is based on senna—a natural laxative. The bowels will not become dependent on this form of help, as in the case of mineral drugs.

Hospitals and doctors have always used liquid laxatives. The dose can be measured, and the action controlled. Pills and tablets containing drugs of violent action are hard on the bowels.

If there are children in your household, don't give them any form of laxative, but use a healthful, helpful preparation like syrup pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.
