RELIEF FUNDS
FOR COUNTIESLocalities Must Match Fund
with 60 Per Cent.

Arthur W. James, State Commissioner of Public Welfare, has just announced a complete list of relief funds for the counties and cities of Virginia for the fiscal year beginning next July 1. The amounts each county and city must put up in order to receive the additional fund is also stated, it being necessary for them to segregate in their budgets a sum for outdoor poor relief equal to sixty per cent of the amount allotted to them by the State.

A State total of \$950,000 has been set up out of which \$25,000 is set aside for administration. It is also stipulated that 10 per cent of the allotment to each locality shall go to defray local administrative expense. The State Department of Public Welfare is assisting the localities in developing the most efficient administration possible. This is believed in Richmond to lie in the formation of county welfare units as recommended but not made mandatory by the law. It is stated that no part of the State allocation or local matching fund may be used for the support of the inmates of any almshouse, district home or similar institution.

The allocations and the amount required locally for localities in this immediate section of Virginia are as follows:

Arlington \$10,165.31 — \$6,099.18,
Culpeper \$5,082.08 — \$3,049.25, Fairfax
\$9,649.31 — \$5,789.59, Fauquier

BULL RUN GRANGE

A very successful open meeting was held by Bull Run Grange on Wednesday evening, March 25.

A prominent feature was a debate on the subject, "Resolved, that the lack of wise united action by farmers retards rural prosperity more than all other forces combined."

This debate was based on the growing feeling that rural prosperity cannot be achieved without united economic and political action by farmers. Those who have carefully studied the situation also feel that the Grange is best fitted to assist farmers and rural-minded people in the struggle to obtain such a desirable object.

Friends and members of the Grange provided enjoyable music and readings.

The program was followed by refreshments and dancing.

WOMAN'S CLUB
URGES CLEAN-UPProject Endorsed by Manassas
Prince William Chamber of
Commerce.

At the meeting of the Manassas Prince William Chamber of Commerce held Wednesday, March 25, in the Town Hall, the idea of a "Clean-up, Paint-up, Fix-up" campaign for Prince William County was brought up by the chairman of the civic committee of the Woman's Club, which committee has a membership in the Chamber. This matter was brought to the attention of the civic committee chairman earlier in the week by Mr. Cocke, acting secretary of the Chamber of Commerce, and it was to get the approval of the Chamber and their backing that the matter was brought up and discussed at some length.

All present were heartily in favor of this campaign and Mr. Cloe appointed a chairman from each district of the county, who in turn are to appoint two other members to work with them to put this campaign across successfully. They are as follows:

Dumfries district, Mrs. Jane Abel; Manassas district, Mrs. A. L. Mylander; Occoquan district, Mrs. Powell Davis; Coles district, Mrs. E. L. Herring; Gainesville district, Mrs. J. N. Kerr; Nokesville district, Mrs. L. J. Bowman.

A letter is to be sent to each of these chairmen by the Chamber of Commerce, informing them of their appointment and outlining details of the campaign.

Mr. R. C. Haydon, superintendent of public schools in this county, pledged his support to the movement, and the general chairman of the campaign is going to work out details with him during the next week, so as to bring this matter before all the schools in the county.

We are going to ask for, and feel sure we will receive, the co-operation of all merchants in Manassas by displaying advertising material calling attention to the benefits of such a campaign. The other chairmen will ask this same co-operation from the merchants in their respective districts. This advertising material will be distributed by the Chamber of Commerce.

Other publicity regarding this campaign will be found in the Journal next week. The week of April 13 has been set aside as the time for this "Clean-up, Fix-up, Paint-up" campaign and this will be officially opened by a proclamation issued by the Mayor, in the Manassas Journal prior to the week of the 13th. Watch for it, and let's all abide by it.

The full support of your Chamber of Commerce, and the civic committee of the Woman's Club is behind this movement, and since the secret of success in this campaign is not the only community-wide but county-wide co-operative effort, let's all get enthused, plan what we will do during that campaign week, and just see how much improvement we can bring about in Prince William County.

A CALL TO OUR PEOPLE

By Inno McGill

One of the finest things ever suggested to the people of Prince William for the protection of their homes is the proposition to purchase a light-weight fire-fighting apparatus suitable for combating fires in the rural sections of the county, for which the muddy roads of the past Winter would alone bespeak the needs.

This worthy proposition needs nothing to commend it. It requires only the hearty support of every resident who is alive to the needs of fire-protection for his home, together with the co-operation of our county supervisors. And everyone so interested is urged to attend the balance-the-budget meeting (open to the public) which will be held at the court house in Manassas, Wednesday morning, April 8, at 10 o'clock.

The record of the Manassas Fire Department shows that over fifty per cent of the calls have been to out-of-town fires, or fifty-six such calls as against forty-four within the town limits. These figures speak for themselves when a call goes forth for a "Light Apparatus" for use in the country; especially in the season of muddy roads when fires are more numerous.

This equipment, it is understood, will cost only \$2,500 and who knows, as a man has said, "but one trip with the lighter apparatus may save many times that amount to a tax-payer living miles away." Anyhow, to save a home from destruction is to save that which cannot be reckoned in dollars and cents, and it is due the volunteers of our fire department to aid them in their heroic work by supplying whatever equipment may be needed.

So humane, however, is the interest of the Manassas "fire-ladies" in the welfare of our people that they are not asking to have this "Light Apparatus" housed in Manassas.

should residents of other towns in Prince William voice the wish to have it kept elsewhere. They are anxious, chiefly, to secure the equipment that is deemed essential for use in curbing country fires and suitable for travel over muddy roads.

It is hard to suppose this urgent need can be ignored by those whose interests are at stake—and this includes every man and woman who has a home to protect outside the town of Manassas. With only the heavy apparatus now in use it has been impossible, at times, to respond to the fire calls on muddy roads, and the men have had to ignore many distressing appeals from homes not on sand-gravel, or hard-surface road, because of their inability to reach the burning dwellings.

The offer of a time-allowance in payments on the apparatus, now wanted will appeal to those who are willing to help in securing the sum of its cost. We hope the people of our county will do all in their power to procure the needed equipment without delay, and we look to our supervisors to sanction this worthy undertaking.

At the meeting of the Chamber of Commerce, held here, January 9 of this year, the following motion was adopted:

"Whereas, the only fire fighting equipment now available for combating fires in the county is the heavy equipment of the Town of Manassas Fire Department, which is not suited for rural work, therefore

"Be it resolved that the Manassas Prince William County Chamber of Commerce, at a regular meeting . . . does respectfully petition the Board of Supervisors of the County of Prince William, Virginia, to purchase a suitable piece of fire-fighting apparatus for combating fires in the rural sections of the county."

AID SOUGHT FOR
DAMAGED BRIDGESP. W. A. Asked for Aid to Re-
build Wrecked Bridges.

The State Highway Commission this week asked aid of the Works Progress Administration in rebuilding the important bridges washed out and damaged in the recent floods. Application has been made through the Virginia Works Progress Administration for the following items:

Potomac bridge at Point of Rocks on Route 55, \$28,740; Shenandoah bridge at Front Royal on Route 3, \$88,345; bridge on North Fork of Shenandoah at Strasburg, \$28,740, and for replacement of the trestle approach to bridge on North Fork of Shenandoah at Mount Jackson, \$5,190. A number of smaller repairs will also have to be made immediately on other bridges, it is stated.

BUS LINE TO EXTEND SERVICE

In a letter addressed to the Prince William Chamber of Commerce, Mr. S. A. Jessup of the Virginia Stage Line states that it is the purpose of his company to shortly inaugurate service between Manassas and Richmond and to improve service from this point to Washington with provisions for commuters' service. The company will make announcements very shortly in the Journal.

KIWANIS GUEST
TELLS OF FLOODGovernor Jones Arouses Local
Interest for Aid.

Edgar C. Jones, lieutenant of the Capitol District, Kiwanis International, was the guest speaker last Friday evening.

Mr. Jones, a native of Hagerstown, gave a most interesting picture of the terrible results of the week's flood, particularly with regard to the town of Cumberland. He stated that sixteen feet of water rushed through the main business street, literally ruining many thousands in goods of various types. On that day, he said, the street was still under nearly three feet of mud and muck.

Mr. Jones, an active Red Cross and civic worker, made an eloquent appeal for direct assistance and President Dick appointed Bill Cocke to take charge of the shipment which was made out on Saturday evening.

OD appealed for Red Cross funds, which Mr. Jones thought should better be directed immediately in that channel.

Fred Hynson threw out a tip to the members to wear their "evening" clothes this Friday (tomorrow) when the annual Ladies Night will be staged.

The meeting will be at the high school.

STUDENTS STAR
AT MANASSASSenior Class Draws Capacity
House on Bad Night.

The Senior Class at Manassas High presented a charming love story in the drama, "Oh Susan" last Friday evening.

It was a rather difficult play, both in setting and in performance but the youthful Thespians kept their audience deeply interested every moment of the hour and a half they were there.

Esther Akers, the pseudo housemaid, was a delightful heroine. Her acting was aided by the hero (Lloyd Compton) whose natural ease and splendid control of his lines were unsurpassed. His duty was to portray the young, unattached millionaire and his methods of love making.

The statuesque poses of Nelson Lynn as the butler and his agility in disarming the rough necks made him an integral factor in the play's success. His role was greatly augmented by the real acting of Margaret Breeden as the housekeeper.

The society trio, Misses Virginia Hurst, Virginia Newman and Margaret White, had several melodramatic entrances, all of which were equally entertaining and really pleasing.

The squad of "crooks" (Louise Kincheole, Paul Cooksey and Robert Jenkins) did not have quite as many cues but their task was so far out of the usual line as to make it an extremely difficult job. Bobby Jenkins was dressed in an imitable fashion and got a big laugh from the packed house which had turned out despite the heavy down pour which had set in around midnight.

The school made a neat sum and that was what counted most after all.

YOUNG AVIATOR AT MANASSAS

On Tuesday of this week Mr. Francis Compton, of Manassas, flew to his home town and made a graceful landing on the Portner field near his home. When he took off he had as his companion his young friend, Billy Blakemore, who was given a thrilling ride over the town. Mr. Compton as a boy used to fly model planes on a vacant lot near the place where he landed so skillfully. He has recently been granted a regular pilot's license.

MANASSAS CLUB LADIES
HEAR NATIONAL PRESIDENT

Several members of the Manassas Woman's Club journeyed to Alexandria yesterday to attend an all-day session of the Fourth District Institute which was held at Gadsby's Tavern in Alexandria.

The morning was totally turned into a business meeting. At noon the Alexandria club entertained the local club at a delightful luncheon at the George Mason Hotel.

In the afternoon several interesting speakers were heard, the most outstanding one being Mrs. Roberta Campbell Lawson, national president. Other speakers were Miss Helen Norris Cummings of Alexandria, Mrs. W. B. Brookings, president of the Alexandria club, and Dr. Mary Baker of Fredericksburg.

Those attending from Manassas were Mesdames Fred Hynson, Margaret Lewis, W. F. Cocke, W. L. Lloyd, C. C. Lynn, A. A. Hooff, T. J. Broadbent, Tom Howard, Paul Cooksey and Miss Margaret Lynch.

WORKING GROUPS
NAMED THIS WEEKE. R. Conner Head Executive
Committee and Mayor Davis
Is General Chairman.

In response to call by Honorable Harry P. Davis, Mayor of Manassas, issued to the steering committee and others, a group of interested citizens, most of whom are members of the Chamber of Commerce, assembled at the town hall last night to form the first steps of organization for the observation of the 75th Anniversary of the First Battle of Manassas.

E. R. Conner, who has more or less directed the affair up to this time, was appointed chairman of the executive committee and also the grounds committee. On the executive committee he will have to assist him, Mayor Davis, A. S. Boatwright and Hon. C. A. Sinclair.

Other committees appointed by Mayor Davis, as general chairman, were announced as follows: Finance, A. S. Boatwright; traffic, William F. Cocke, John Kerlin, John S. Arnold, L. M. Larkin, and Eppa Kirby; grounds, E. R. Conner, Jack Ratcliffe, and Dudley Martin; publicity, Ray E. Hall, Roger Wharton and Walser Conner; military provisions, C. C. Cloe, A. E. McIner, H. Ewing Wall and Lt. Beverly Coleman; concessions, C. C. Lynn; invitation, John W. Rust; reception, Howard W. Smith; disbursing officer, C. A. Sinclair.

One of the features of the evening was the presence of Lt. Beverly Coleman of the U. S. Naval Reserve, grandson of Major John Strode Mosby, who offered his services to the executive committee which were promptly accepted with thanks.

Mr. Coleman had with him maps and plans covering the entire battle section and will work with his committee in co-operation with Mr. Branch Spaulding on this feature of the celebration. It has already been announced by Mr. Conner that Branch Spaulding, superintendent of the National Parks of Virginia, would supervise the whole proceedings of the celebration. Mr. Spaulding is in close contact with Honorable Wilbur C. Hall, chairman of the State Commission on Conservation and Development.

The general committee, as comprised herewith, will extend its formations to include various sub-committees which will be appointed in the near future. To that end General Chairman Harry Davis announced that a meeting will be held at Triangle in the near future.

It is to be noted that Mr. Ray Hall, secretary of the Fredericksburg Chamber of Commerce, has been retained in his capacity as publicity expert due to the generosity of the Fredericksburg Chamber of Commerce which is releasing a portion of his services gratis through the request of Mr. C. C. Cloe, president of the Prince William Chamber.

It is understood in this connection that a permanent young business man of Manassas will shortly be named secretary of the Prince William Chamber of Commerce which is about to enter upon a drive to secure new members and renew memberships for another year.

The continuance of Mr. Conner in his executive capacity was the worthy recognition of the fact that he has been largely instrumental for the opportunity to carry to a more successful completion the celebration of one of the most memorable dates in the history of this locality.

Work on the battlefield itself will near future, probably through the assistance of C. C. C. workers.

More announcements will be made through the columns of the Journal in the near future and developments will materialize rapidly.

APPLICATIONS FOR SEED
AND FERTILIZER LOANS

Mr. J. Gray Beverley, emergency seed and fertilizer loan field supervisor, will be at the county agent's office at Manassas from 9 a.m. to noon, Thursday, April 2, to receive applications for seed and fertilizer loans.

FIRM REORGANIZES

Last-minute announcement was made over phone to the Journal this morning that Mr. R. S. Hall of Occoquan had purchased the interest of Mr. Dellinger in the funeral parlors operated by him and Mr. Robert Cross in Manassas.

There will be extensive improvements made in the business, announcements of which will be made in an advertisement to appear in an early issue of the Journal.

on the

Beatitudes

by Dr. James T. Marshall

SEEING GOD

"Blessed are the pure in heart for they shall see God." (Matt. 5:8)
Holiness is an internal quality. There never was a pure life where there was an impure heart.

Our Lord centered all sin in the heart. To Him ceremonial purity had little meaning. He declared that a man is not defiled by the food which enters into him but by the thoughts proceed out of him. Lustful imagination on his view is adultery and angry passion is murder.

He declares in this beatitude that none but the pure in heart shall see God. The expression "shall see God," as used here, does not mean going to heaven. Much less does it mean seeing God with our physical senses as we might see King Edward VIII or President Roosevelt, for "no man hath seen God at any time." What our Lord is saying here is that the pure in heart shall be endowed with vision and discover those things which are unseen and eternal. Sin blinds the eyes of the soul, and evil-minded men are incapable of comprehending God's revelation of Himself in His holiness and His love.

It is true everywhere that one's spiritual sensitiveness is in proportion to His soul purity. The great saints of the ages saw and heard many things which have been hidden from the most of us. We are not in a position to deny the reality of the lofty experiences claimed by such saints as Thomas a Kempis or St. Catherine of Vienna, though the latter tells us that Jesus appeared to her in bodily form and spoke in an audible voice.

We are prone to deny or at least to doubt all that does not come within the range of our own experience. You may enter one of our art galleries and there see a painting of the sea done by an eminent artist in which the water has a peculiar color and may that you never saw water look that. Perhaps you have not, but the artist has.

The most important task to which we may address ourselves is the task of keeping our own hearts pure, for out of the heart are the issues of life. Purity is by no means easy in an age like ours. We should remember this in our judgment of our young people, who are faced by temptations of which their parents were ignorant.

Uncleaness seeks to penetrate our souls through many channels and it is hard to protect ourselves from the evil suggestions which come to us daily through the printed page, the movies and the radio. Our American humor, so called, is fast degenerating into crass vulgarity and is demoralizing to mind and soul.

The human brain is a very delicate bit of divine handiwork, and we should have too much respect for the dignity of our own minds to be willing to debase them with cheap and unworthy thoughts, specially when we are surrounded a vast wealth of literature which is refining and uplifting.

Think on the things which are pure and lovely and of good report and aspire after visions worthy of sons of God.

SANITARY GROUP ELECTS OFFICERS

Meeting and Banquet at Leesburg Much Enjoyed.

Last Monday night a new section was added to the already large number of such groups of the Sanitary Grocery Company's employees, known as the Sanitary Employees Association. Mr. W. E. Chevrolet's high-compression valve-in-head engine gives economy without equal!

The Chevrolet engine is the most economical automobile engine produced today, because (1) it is a six-cylinder engine, and (2) it is a valve-in-head six-cylinder engine.

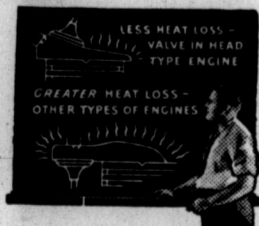

Its six cylinders use less gas and oil—in fact, use the least gas and oil—for six cylinders are the most economical combination used in modern automobiles.

CHEVROLET

A GENERAL MOTORS VALUE

Its valve-in-head design cuts gasoline consumption still lower because there is less loss of heat through the walls of the combustion chamber in valve-in-head engines, and the advanced construction of the Chevrolet engine gives maximum heat (or power) saving.

Most important of all, Chevrolet's more efficient cooling system, pressure stream oiling and the greater accessibility of all working parts result in more dependable operation, over a longer period of time, with the lowest maintenance costs. Thus, Chevrolet's valve-in-head engine—only one of its kind in Chevrolet's price range—gives economy without equal.

CHRIST FOR ALL—ALL FOR CHRIST

The Word of God

If you want to know what God says, read the Bible. It is the word of God. It is the word of life. It is the word of truth. It is the word of peace. It is the word of love. It is the word of hope. It is the word of power. It is the word of glory. It is the word of God.

BIBLE THOUGHT AND PRAYER

If parents will have their children memorize the daily Bible selections, it will prove a priceless heritage to them in after years.

THE CROWNING KINGDOM: For the earth bringeth forth fruit of herself; first the blade, then the ear, after that the full corn in the ear.—Mark 4:28.

MR. SPALDING'S APPOINTMENT

It is good news to historically-minded Virginians that Branch Spalding has been named coordinating superintendent of all the national battlefield parks in the State, embracing the important fields of the War Between the States around Richmond, Fredericksburg and Petersburg, and at Manassas and Appomattox.

Mr. Spalding is a Virginian whose background, personality and technical knowledge fit him admirably for this work. As historical technician of the Richmond National Battlefield Park and the Petersburg and Fredericksburg National Military Parks he impressed those who came into contact with him as scholarly, thorough, efficient and courteous. His record was so satisfactory that he was promoted to the superintendency of the Fredericksburg National Military Park, which includes the four fields of Fredericksburg, Chancellorsville, Spotsylvania and the Wilderness. In that capacity, he had an important part in arranging the remarkably fine re-enactment of the battle of Chancellorsville last May.

In his new post, he will be charged with the duty of formulating and carrying out a well-integrated program for the entire Virginia battlefield park system, including research activities, the development of educational and tourist service, the location of roads, trails, buildings and restorations, and the mapping out of a long-time program, designed to preserve these important battlefields for posterity.

The Times-Dispatch congratulates the National Park Service on its selection of Branch Spalding for this extremely important post. We find it difficult to believe that any one else, equally well-fitted for these duties, could have been named.

DEMAND FEED ANALYSIS TAGS

For their protection, buyers of feed should demand stamped analysis tags. Agents or manufacturers selling untagged feeds are violating the State Feeding Stuffs Law, enacted to protect the buyer, and the fact that they are delivering untagged feeds would naturally lead to the conclusion that they might be inferior grades. A sample of untagged distillers grains, represented as being from corn, recently sent to the Dairy and Food Division at Richmond, was reported as being principally from rye and of low analysis.

MRS. TRIMMER'S PUPILS IN SPRING RECITAL

The Manassas High School auditorium was crowded to capacity last night when Mrs. Eloise Compton

Trimmer presented her pupils in a spring recital.

There were two sections to the program, ten numbers in the first and eight numbers in the second.

The scenes reported as receiving special applause were the Waltz Interpretations by Betty Ann Ritter and the Temple school children; original tap numbers by Mildred Parrish, Edla and Margaret Blakemore and Shirley Hynson and Lucy Morris; the free rhythm by the Temple school tots; top hat number and the final number, "Old Fashioned Memories" by the senior group, which ended with the singing of "Silver Threads Among the Gold." This number was most colorful and well played.

Various numbers were presented by the Senior group of five pupils, the intermediate group of eleven pupils, the Temple school group of twelve pupils and the boys' group of six pupils.

Mrs. Trimmer, who began her classes some two years ago, has had remarkable success in her work due to her own artistic ability and the thorough training she received in Washington.

It is rather unusual for a town of this size to have a talented instructor of this type who can teach youngsters of the town and render it unnecessary for them to seek much of this sort of training outside of their own community.

(QUESTIONS THAT ARE ASKED ABOUT BANKING)

"Who charts a Bank to do business?"

Every incorporated bank in the United States conducts its business under a charter issued either by its state government or by the Federal Government. Before a bank charter is issued specific requirements must be met such as minimum paid in capital and in many cases, paid in surplus.

A charter is the bank's authority from the government, state or Federal, to carry on a banking business, but under the regulation of banking laws and supervision of government authorities. For this reason, it is much more accurate to say that the United States has a "chartered banking system," rather than a "private banking system," the term used by many speakers and writers.

COUNTY AGENT'S COLUMN

Prince William Farmers to Receive 1936 Wheat Payments.

The Act of Congress approved February 11, 1936, authorizes the Secretary of Agriculture to make rental and benefit payments for adjustment of acreage and other substantial compliance prior to January 6, 1936. This authority has been interpreted as applying to producers who, prior to January 6, 1936, had signed and filed application for a wheat adjustment contract, had made the required adjustment, and who had made approved use of their designated contracted acreage.

At an early date, the County Wheat Production Control Association will start operations to measure wheat seeded on farms whose operators signed and filed applications for 1936-1939 wheat contracts. The number of acres designated as adjusted (contracted) acreage on each farm and the use to which they have been put will also be determined.

Lost Weight, Strength

Mrs. Nora Conklin of 1019 - 13th St., West, Huntington, W. Va., said: "I had no appetite, was losing weight and was so weak I was scarcely able to do my housework. I certainly was miserable and sometimes I would have dizzy spells. Dr. Pierce's Golden Medical Discovery surely did me a world of good. I picked right up, gained weight and strength after I used the 'Discovery.' Also I felt like eating again." Buy now!

SOCIAL SERVICE WORK EXPLAINED

(Continued from last week)

"The PWA or Public Works as the name implies has at times supplied employment on a larger scale, the workers being furnished by the Reemployment office.

"This WPA work is now being absorbed by the Federal projects on the land purchased by the government in Dumfries district and on the Battlefield Park, nonrelief and relief workers being supplied by the U. S. Employment Service.

"In the present program no provision has been made for the ill, aged and unemployable and if these cannot secure county aid which is necessarily inadequate due to the lack of available county funds, the suffering is great in many instances.

"At the present time in Prince William there is:

"1. A Board of Supervisors, which is the legislative body.
"2. Board of Education.
"3. Board of Health.
"4. Overseers of poor.

"There are six overseers of poor who receive a salary of \$20 per year, and who issue "poor" orders ranging from \$3 to \$10 per month. In one instance in Prince William an overseer issued in one month an order to two sons and one son-in-law, all

of whom were young, strong men. By this, you may see the need for thorough investigation. In the more progressive counties a superintendent of public welfare is being appointed who works under the Department of Public Welfare in Richmond in a systematic manner and in a way which is as important as teaching public health. It has been found that it is better to take care of persons in first stages of dependency than to have them wards of the county for years.

"We cannot treat people individually or in groups as if they were dependent and domestic animals without crippling them.

"The treatment of the individual rather than punishment is the duty of the trial justice who has so many duties that without a trained social worker is very much handicapped.

"The highest test of social work is growth in personality. Emotional insecurity causes fear which in turn produces symptoms of worry, anxiety or depression. To feel emotionally secure, first one must really belong to someone whether in family, neighborhood or community. Second, one must have a feeling that one has lived up to one's own self appointed standard.

"In the Department of Public Welfare are found the following divisions: Children's Bureau, for the reception and placement of delinquent children committed to the state by the courts; mental hygiene bureau, including the state mental hygiene clinic which examines all children committed to the care of the state in addition to its general state wide service in the child guidance field; bureau of county and city organization (of local public and private social agencies); war service, for the benefit of all Virginia veterans of all wars; mothers aid, in charge of the state program of caring for dependent children in their homes by mothers aid, the state paying 1-3 the cost; jail inspection and accounts; medical advisory service.

"In order to establish a Board of Public Welfare the Supervisors must send a copy of a resolution requesting it to the Department of Public Welfare, this will then be submitted to the judge who will appoint a Board of Public Welfare for the county. The social service worker will have to be approved by the department and must work under the direction of the department at Richmond."

4-H CLUB MEETING

The Woodbine 4-H Club met on March 5. In the absence of the club leader Miss Sarah Pitts, county home demonstration agent, had charge of the work. Eva Gallahan, Ruby Cornwell, Annie Mae Roles, Sophia Duritz, Dorothy Jones, Louise Beavers, Rachel Harris, and Edith Sholtis gave reports on some of the best trees for planting. Miss Pitts checked the girls health charts.

On March 19, the club held its "Project Meeting." Mrs. McManaway gave out pin cushions, pillow covers and luncheon sets for the girls. The boys reported that they had finished their bird houses. Recreation in the form of games, stunts and singing followed.

The Car that Needs NO BREAKING IN!

WHAT a joy it is to know you can get into a brand new Ford V-8 and drive it as you usually drive — without having to keep your eye glued on the speedometer. What a relief to realize that here is a car that doesn't have to be "babied along" at slow speeds for the first 500 or 1000 miles.

Back of the Ford V-8's ability to "go places" from the moment your foot touches the starter is a story of precision engineering that sets standards of accuracy not only for the low priced car field, but for cars of every price class. It is a story of gauges that measure a millionth of an inch — of machines that polish cylinder

walls to a mirror finish — of moving parts so uniform that they don't have to be "worn in" to get the proper fit.

Drive a new Ford V-8 today and learn for yourself what this precision means in smoother performance and quieter operation. Then consider how much it must mean in longer life and greater all-round economy. Ask for a demonstration.

Your Ford Dealer.

\$25 A MONTH after usual low down payment buys any new Ford V-8 passenger car or light commercial unit under new authorized Ford finance plan of Universal Credit Co. 6% for 12 months or 4% for longer periods figured on total unpaid balance, plus insurance. Attractive UCC terms on used cars also.
