## County School News and Notes

### Keep in Touch With Your Schools

At his request, R. L. Vetter, Supervisor of School Transportation and Maintenance, has been relieved from his position by the County School Board as of April 30, 1944. Mr. Vetter gave as his reason for requesting the release the fact that he expects to be inducted in the armed service in the near future.

Certificates of credit by the State Department of Education have been received in the office of Superintendent of Schools R. C. Haydon for the Brentsville District High School, Nokesville, Virginia; Occoquan High School, Occoquan, Virginia; Osbourn High School, Manassas, Virginia; Quantico Post High School, Marine Barracks, Quantico, Virginia, and the Regional High School, Manassas, Virginia. The statements showed that these high schools met the requirements for accrediting by the State Department of Education in every particular. Certificates of credit have been forwarded to each high school.

Much interest is being exhibited by the various county schools in the prospect of doing more extensive work in Visual Education. Plans are being worked out whereby the individual large schools may have moving picture projectors. The Superintendent's Office has one that can be used by the Elementary supervisor for the small schools and gradually a central film library can be worked out whereby the films may be distributed from the central library to the schools as needed. Definite plans are under way for putting such a program into operation during session 1944-45.

At a meeting of the County Board of Supervisors held March 9, a definite advance in the County Health Program was made when that Board appropriated the money to purchase an X-ray machine for the Health Department. This machine will be available for chest examinations to detect tuberculosis, also for minor fractures, etc.

Surveys are now under way to determine the extent of the enrollment for the Vocational School which will open at Manassas under the War Training Program on June 15.

At an interesting meeting of the Occoquan P.T.A. Thursday, March 9, Dr. Podolnick, of the County Health Department, explained in detail many interesting points about communicable diseases, and protection against them. Many questions were asked and much interest was shown on this part of the program. Among other things, he explained the administering of the Patch Test for detecting infection in reference to tuberculosis, and stated that this test was going to be given in the County schools during the month of April and those showing a positive reaction would be X-rayed May 1. R. C. Haydon, Superintendent of Schools, discussed the added responsibilities of Parents Organizations cooperating with the schools during the war period. He also discussed briefly the results of the recent session of the Legislature in reference to education, and discussed briefly the plans for opening the Vocational School at Manassas June 15.

Information has just been released in reference to the District P.T.A. meeting which will be held in Leesburg April 12. A very interesting program has been arranged and it is hoped that representatives from all of the communities will be present to benefit from this important meeting.

Mrs. Lucy A. Lewis has been appointed Office Assistant in the School Board Office.

### FOOD SALE

The senior group of the Auxiliary of Trinity Episcopal Church will hold a food sale Saturday, April 8, 1944, at Dowell's Drug Store from 9:30 a. m. to 1 p. m.

### RUMMAGE SALE

The Junior Auxiliary of the Episcopal Church is having a rummage sale in the Farm Loan office on Saturday, April 1, from 9 a. m. to 3 p. m.

Hit Hitler With Bonds

### TO BE DEDICATED SUNDAY

The Service Plaque, with its honor roll which has reached the number of 40 names of young men and women who are serving their country, will be dedicated at Sudley Church on Sunday morning, March 28, at 11 o'clock. All parents and friends are most earnestly requested to be present for this service.

### Kiwanis Urge Banner Year

#### Manassas Club To Observe Week Here

Urging farmers to make 1944 a banner year in the production of crops and livestock, Kiwanis International today announced that its 2,200 clubs throughout the United States and Canada would observe the period from Monday, March 27, to Saturday, April 1, as Victory Farm Week.

During the week, farmers of the two nations will be given Victory Farm plaques to encourage them to meet their record-breaking production quotas in the year ahead.

Officials of the Manassas Kiwanis Club announced that the week will be observed here and farmers will be asked to pledge the continuance of their wholehearted cooperation in the war effort.

"As my contribution to achieving early and complete victory," the farmer will pledge:

1. To produce my farm's maximum of crops;
2. To maintain a Victory Garden for home needs;
3. To participate in salvage programs;
4. To cooperate with war relief agencies;
5. To invest in war bonds and stamps;
6. To do all in my power to win the war.

A majority of the farmers of the United States and Canada already are participating in these various activities and thus will be eligible for Victory Farm plaques. Edgar Parrish, president of the Manassas Kiwanis Club, said:

In observing the week here, Mr. Parrish said that Victory Farm headquarters will be established at some convenient location where farmers may sign the patriotic pledge and receive their plaques.

The club also is mapping plans for a special meeting to which all farmers in this area will be invited, it was learned. The principal speaker will be a widely known authority on agriculture, club officials indicated.

The weekly meeting of the Manassas Kiwanis Club on Friday evening, March 10, was devoted to a discussion of Victory Gardens. Guest speakers included L. C. Beamer, Vegetable Specialist, and Dr. Edward K. Vaughan, Plant Pathologist, both of V. P. I.

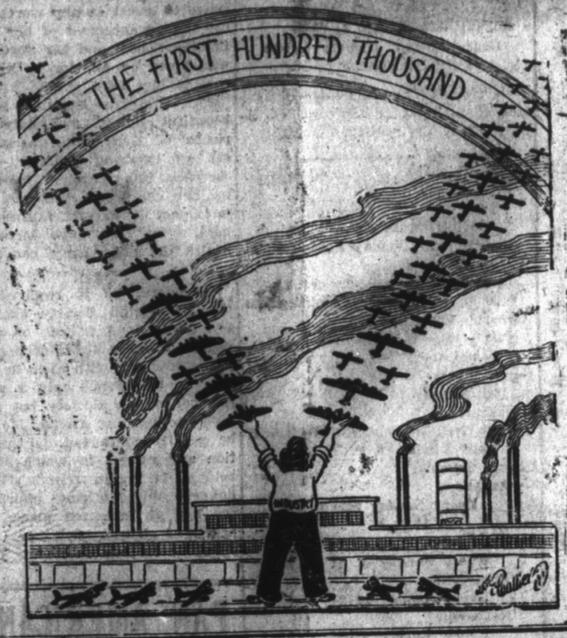

The need for continued production of Victory Gardens to assure an adequate supply of food was emphasized by Mr. Beamer. Mention was made of the incentive offered by storage and conservation facilities being planned for the county including the canning plant now under construction at Nokesville and the frozen food locker plant at Manassas for which applications for lockers are now being taken by the Prince William Electric Cooperative. The use of successive seedings to provide early, mid-season and late gardens was recommended. Dr. Vaughan called attention to the insect and disease identification and control information available through his department.

The social period was used for practice on the Minstrel program to be presented by the Kiwanians at the Manassas High School auditorium on April 14. A new member, Mr. Dennis Baker, was welcomed into the club by Kiwanian Dick Haydon.

It was announced by Secretary Jack Boyer that the local club was leading in 1944 attendance in the Capital District and 100 per cent attendance at all meetings was urged. The importance of every Kiwanian attending the Tuesday and Thursday Minstrel rehearsals was emphasized by Mrs. Vincent Davis, who commended the members on their progress in preparing for the performance which promises to be the outstanding entertainment event of the year.

W. L. Lloyd is visiting his son and daughter-in-law, Mr. and Mrs. W. E. Lloyd, at their home in Richmond.

### NOW IT CAN BE TOLD

#### LETTER OF APPRECIATION

I want to thank the good people for the fine spirit of cooperation they gave me while soliciting funds for Religious Education recently. Our teacher's salary was in arrears and after talking the situation over with the finance committees of Manassas and Occoquan District and others, I spent eleven hours in Manassas, Occoquan, and Brentsville Districts to try to raise some funds. I knew of the fine Christian spirit which had been shown in the past in the Sunday School work, but the people I contacted, and I didn't see half the people I would have liked to, showed an even better spirit of being interested in our Master's work.

In soliciting, I talked over the work with many people. All but three contributed generously. Some I did not even ask, but on finding out my mission they would say, "I want to contribute something."

I only asked for contributions from two Sunday Schools as it was just my purpose to contact individuals. Many who contributed said they gave through their Sunday School but were glad they had an opportunity to make a personal contribution.

\$319.50 was given me which made it possible to pay Miss Sanders' salary to March 1, with over \$125 in the county treasury. A complete list of all those who contributed is in the hands of Rev. O. D. Mitchell, Brentsville District, Mr. Orrin Kline, Manassas, Mrs. John Powell, Occoquan, and Mr. J. J. Conner, Manassas.

MRS. L. J. BOWMAN

#### PATCH TESTING SURVEY STARTED

The tuberculosis patch testing survey sponsored by the Prince William County Tuberculosis Association in cooperation with the County Health Department commenced Monday, March 13, at the Manassas High School. The survey will cover a four week period, will include the three thousand school children in the county, and will be the first mass tuberculosis case finding survey to be undertaken in the county.

Dr. Nelson Podolnick, health officer for the Prince William-Fairfax area, will have charge of the tests and readings and will make educational talks and show motion pictures in connection with the work. The schedule as arranged to date is as follows:

- Manassas High School: talk, March 13; patch tests, March 16; readings, March 21; Bennett Graded School will be surveyed with the high school; Occoquan High School and Graded School: talk, March 20, tests, March 23; readings, March 28; Brentsville District High School, Nokesville: talk, March 27; test, March 30; readings, April 4; Regional High School, Manassas, (colored): talk, April 3; tests, April 7; readings, April 11. The survey of colored elementary schools will be announced later.

Plans have been made for an X-ray clinic to be held May 1 for students who show positive reactions to the tests. Miss Eleanor Gayle Curran, field supervisor of the Virginia Tuberculosis Association, was in Manassas on Monday and Tuesday to assist the local Association with its work. The survey and clinic will be a part of the 1944 program to prevent and control tuberculosis in the county.

#### PRICE SURVEY A SUCCESS

The local War Price and Rationing Board conducted an emergency price check on all food stores in Prince William County March 13 and 14. This was not only a local project, but was done throughout the nation. This survey was conducted by the Price Panel members, Price Panel assistants, the chief clerk, the price clerk of the local board and Mr. O. D. Waters, Field Price Officer of the OPA Field Office in Warrenton, Virginia.

The results of this check were most satisfactory due to the splendid cooperation on the part of the merchants. We have reason to feel that the merchants of our county are trying to do their part on the home-front by complying with regulations and helping to hold the line on food prices.

The local board wishes to thank all those who gave so much of their time to make this price program a success. They have accepted their responsibility and have proved they are the soldiers on the home-front.

Minter Field, Army Air Forces Pilot School (Basic) in Bakersfield, California, has reported that 2nd Lieutenant Robert Norton Tyler, formerly of Haymarket, Virginia, has recently taken up his duties at Minter as a flying instructor of Aviation Cadets.

### SELECTIONS

On Wednesday morning 104 selectees from Prince William County left Manassas by bus for Richmond where they will be given pre-induction physical examinations. The names of those passing the examinations and called for induction will be announced at a later date.

On Friday night, March 10, a Civilian Defense Pre-induction meeting was held at the Town Hall for the purpose of instructing and informing the prospective inductees and their families as to how to meet adjustment problems which arise when men are called into the service. The group was addressed by C. C. Cloe, Chairman of the Selective Service Board; Mayor Davis, who discussed insurance for servicemen, and Edgar G. Parish, Home Service Chairman of the Prince William County Chapter, American Red Cross, who explained that the Red Cross Field Directors at posts all over the country and the Home Service workers at home stand ready to assist servicemen, ex-servicemen and their families in arranging for furloughs, filing of allotment forms, claim forms, communications and emergency financial assistance.

### X-Ray Machine Ordered For Co.

#### Supervisors Provide Funds For Purchase Of Equipment

The Prince William County Board of Supervisors at the monthly meeting passed a resolution to purchase a chest x-ray machine for the County Health Office and authorized Dr. Nelson Podolnick, Health Officer for the Prince William-Fairfax-Stafford area, to order the new equipment immediately.

A delegation of officers and members of the County Tuberculosis Association attended the meeting and presented a request for a chest x-ray machine to the Board. The Rev. Stanley A. Knupp, chairman of the Association, and Dr. Podolnick explained the need of the apparatus in the county.

The machine will be used for all tuberculosis diagnosis clinics at the Health Office, in the schools, and other places. It is to be a portable type and will cost approximately \$1,325. Dr. Podolnick stated that Prince William is the second county in the State to acquire a chest x-ray machine, Fairfax having been the first county to order one.

The equipment is considered an important forward step in the prevention and control of tuberculosis in the county. It will enable prompt diagnosis of all suspect cases, will provide a means of holding mass clinics in all parts of the county, will furnish a method of x-raying patients who could not be transported to clinics, and will be available to physicians in their work. Heretofore, x-ray units from the State Department of Health have been obtained for local diagnosis clinics, but due to the shortage of technicians, it is difficult to secure this service when needed. Specialists from the Health Department will be furnished to make the x-ray readings, however. The County Tuberculosis Association in cooperation with the County Health Department has done valuable work in controlling tuberculosis and will be in a position to expand its program considerably with access to the new machine which will be an asset of great worth to the county and the community.

#### RED CROSS WAR FUND

Volunteer workers in the county are busy with the Red Cross War Fund, and interesting plans for raising money for this worthy cause are reaching the ears of the Publicity Department.

Nokesville has been especially busy during the past week, with benefits being given by both the Women's Club and the Rotary Club, as well as a basket-ball game with proceeds for the War Fund.

Don't wait to be solicited. Send your contribution to Mr. O. D. Waters, chairman of the drive.

### Greece Portrayed At Club Meeting

#### Mrs. Shirley Weber Interestingly Spoke On This Famous Place

A special treat was in store for those attending the Manassas Woman's Club meeting on Monday afternoon, when the Education Committee presented the program. Mrs. Shirley Weber, who had lived in Greece for several years when her husband was doing special library research work in Athens, delighted her audience with a colorful description of her life there and her impression of the people and their customs.

She described Greece as a sort of link between Europe and Asia, rather than as a part of either country. Her vivid portrayal of the ship's landing in drowsy mid-afternoon, the beautiful mountain scenery, the blue waters of the sea, the spacious vineyards, the beautiful buildings, the Parthenon, the priceless museums, the beautiful little squares where delicious outdoor meals are served, all painted a glowing picture of a picturesque country.

Mrs. Weber was most enthusiastic in her praise of the spirit governing the Greek people, who, though so often under domination of a more powerful nation, really never give up their sense of freedom or become subject slaves. On the contrary, while never endowed with the riches enjoyed by countries having larger export trade, the Greeks, as described by the speaker, are a gayety loving people, much interested in higher education, good music, fine architecture, and beautiful and intricate handicraft. She told of the custom of having the girls at an early age begin work on their trousseaux, each piece a masterpiece of detailed and often very colorful needlework. Mrs. Weber further portrayed them as a people endowed with courage, determination and endless patience, and above all as highly religious, with special ceremonial processions and very rigid fasts preceding Christmas and Easter.

The speaker told briefly of the brave struggle put up by this courageous little country until mechanized German troops forced them into submission, looted their stores, food markets and often their homes. In closing, Mrs. Weber told of the desperate need for clothing, particularly children's clothes, shoes and any warm clothing, and asked that anyone desiring to contribute do so through the Greek Relief Society in New York, or bring clothing to a designated place in this community. A silver offering was taken at this meeting.

An added attraction was the excellent and most interesting exhibit of Greek handicraft, which had been arranged through the efforts of Miss Sue Ayres, with the splendid cooperation of Greek children of Dumfries and Quantico schools.

During the business session, the president, Mrs. Carper, asked that all committee chairmen be prepared to submit a brief report of the year's work at the April meeting. Plans for continuing the local Service Club, both as a club for service men and as a meeting place for the Girls' Service Organization, were discussed, and members were urged to attend the Town Council meeting on Monday evening, March 20, when this matter will receive further consideration.

The Civic Committee reported a contribution toward the Latin-American Scholarship to be given by the Virginia Federation of Woman's Clubs and to be used at the University of Virginia next year.

Twenty-five dollars was appropriated for the Red Cross War Fund, while donations from other branches of the club, together with the purchase of end tables for the recreation room of Vint Hill Hospital, were also reported as Red Cross contributions.

#### DON'T FORGET THE CHINESE SUPPER

The Sunday School of Trinity Episcopal Church will have a Chinese supper in the Parish Hall on Thursday, March 23, from 6 to 7 p. m. for the benefit of foreign missions.

Mrs. Paul Cooksey will attend a meeting of the Executive Board of the State Federation of Garden Clubs on Friday at the John Marshall Hotel, Richmond, Va.

**RESOLUTION**

Whereas: It has pleased God in His Infinite Wisdom to remove from our midst Charter Member of the Kensington Society, Mrs. Mamie Rebecca Varner. She departed this life on December 14, 1943.

Whereas: She was always ready and willing to lend a helping hand wherever it was needed, and contributed liberally to any good cause and her society.

Therefore, be it resolved: That we deeply feel the passing of Mrs. Varner, she will be keenly missed by all for she was a most excellent society member, neighbor and friend.

Be it further resolved: That we extend to her family our sincere sympathy, and pray God's blessings upon them.

Also that a copy of these resolutions be placed upon the record of our society, a copy sent to the Manassas Journal, and a copy be sent to the bereaved family.

Resolution Committee:  
MRS. JOHN SEYMOUR,  
Chairman

MRS. NETTIE MASS  
MRS. DELLA EGAN  
GREEK WAR RELIEF

While we are helping the various war relief projects, this newspaper especially invites attention to the needs of Greek sufferers.

All civilized people know of the tragic fate of Greece and of the desperate plight of the heroic people of that unfortunate country.

**RESOLUTIONS**

Whereas: Mrs. K. M. Bradshaw, a member of the Kensington Society, departed this life on December 17, 1943;

Whereas: The Kensington Society has lost by death one of its most earnest and active workers and members. Mrs. Bradshaw joined the Kensington Society soon after it was organized in June 1919. She was ready and willing at all times to assist in any worthy cause for the advancement of her Church, Sunday School and her Society. She was loved by all, for to know her was to love her.

Mrs. Bradshaw knew the secret of beautiful living, and carried the riches of God within herself. She set an inspiring example of self-sacrifice. Many excellent traits made up her character. She was one of our most loved and faithful members, only about five months her health did not permit her meeting with us.

Therefore, be it resolved: That the Kensington Society extends to the family and friends of our departed member their deepest sympathy, and join with them in mourning the loss of not only a valuable member of our Society but a most kind mother and friend. May they be greatly comforted by the affection and esteem in which she was held by her many friends. Her willingness and untiring efforts won for her an endeared place in the hearts of all who knew her.

Be it further resolved: That a

## PAN AMERICAN TANKER SKIPPER DECORATED BY ADMIRAL LAND

350 Members of the Propeller Club of New York Witness Award of the Merchant Marine Distinguished Service Medal

Comdr. John Lund, master of tanker, S. S. Pan Maryland, receiving from Rear Admiral Emory S. Land the Merchant Marine Distinguished Service Medal for heroic service at sea.

New York—Commander John Lund, master of the Pan American tanker, S. S. Pan Maryland, was honored at a luncheon held in the Waldorf-Astoria, and presented with the Merchant Marine Distinguished Service Medal. The presentation, on behalf of President Roosevelt, was made by Rear Admiral Emory S. Land, Chairman of the U. S. Maritime Commission, before 350 members and guests of the Propeller Club of New York.

After reading the presidential citation dealing with his heroic rescue of 27 Norwegian seamen, Admiral Land paid the high compliment to Lund by calling him "the salt of the earth"—"And I know of no higher compliment which can be bestowed on a man," he added.

Further honors were paid to Captain Lund by James Patterson, general marine manager of Pan American Petroleum & Transport Company, who presented the skipper with the original drawing of a tanker on canvas at sea. Captain Lund was almost as pleased with this drawing, executed by the famous marine artist Hunter Wood, now of the U. S. Coast Guard, as he was with the medal. He said he would treasure them both, and the drawing would soon hang on the wall of his home.

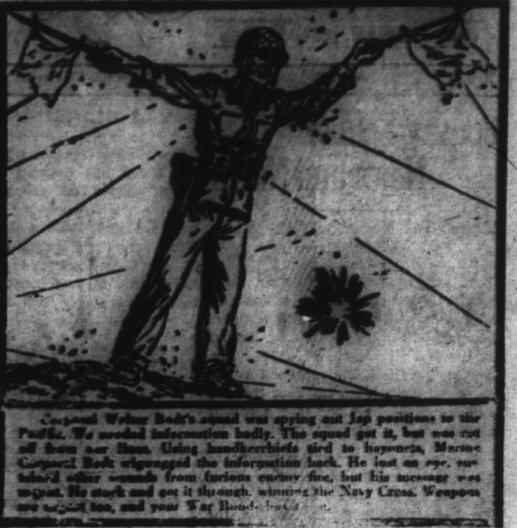

Captain Lund, a native of Denmark, started his sea career in 1916 on schooners. During World War I he sailed as an ordinary seaman on old wooden ships. He left the Old World in 1919 and arrived here, fittingly enough, on July 4th, Independence Day. Also fitting is the fact that he joined Pan American Petroleum & Transport Company on October 12, 1926, the birthday of another great navigator, Christopher Columbus.

An interesting fact is that the ship, GEORG STAGE, a full-rigged Danish training ship which gave Captain Lund his early seamanship, is now known as the JOSEPH CONRAD, in service in this war training cadets for the U. S. War Shipping Administration.

In addition to a dais full of high-

## AMERICAN HEROES

BY LEFF

Captain Walter Bell's squad was springing out lap positions to the Pacific. We needed information badly. The squad got it, but was cut off from our lines. Using handkerchiefs tied to his neck, Marine Captain Bell crawled the information back. He lost an eye, sustained other wounds from British mortar fire, but his message was urgent. He stuck and got it through, winning the Navy Cross. Weapons were scarce, and your War Bonds helped.

Attention Please

## Coating of Soft Grease Prevents Rust Damage

"Authorities agree that weather often takes more out of farm machinery than use, and rust has a way of creeping in even under good storage conditions," says W. C. Krueger of Rutgers University.

Tests have shown that crank case and transmission oil will prevent rusting from 7 to 30 days outdoors, Krueger reports. Aze grease and pressure gun grease gave protection from 60 to 90 days; five samples of rust preventive compounds for 275 days and nine samples for 365 days or more.

On the basis of these tests, the best type of rust preventive is the soft grease type which may be brushed on metal surfaces to give protection for 10 months to a year.

## High-Bred Eggs Sell For a Dollar a Piece

Joseph H. Jones, a newspaper man, started a chicken farm near Springfield, Ill., three years ago, and now he is getting \$1 apiece—not a dozen—for his eggs. They are for breeding stock.

He paid \$80 for a rooster and two hens from Oregon. The rooster was the grandson of Orange Blossom, a hen which laid over 1,600 eggs during her career, and one of the hens was granddaughter of a hen that laid 230 eggs in one year.

## Feed Cows on Record

"In one herd of 73 milking cows, there was a saving of more than four tons of feed a month—or 117 pounds of grain a month per cow—when the entire herd was fed grain according to milk production," Dr. George Taylor, Rutgers U. animal husbandry expert, reports. The total pounds of milk produced per month remained about the same and, the total fat production was increased slightly, compared with previous months.

### NOKESVILLE

Wednesday.  
Mrs. Max O. Shepherd spent the week end with Mr. and Mrs. Willard Mohler at Bull Run.  
Mr. and Mrs. J. C. Snider and Betty Jane spent several days with their family in Washington. Pfc. Mr. and Mrs. C. O. Bittle, Miss Stewart, Ga., has been on furlough

for ten days and left for camp on Howard Snider, stationed at Camp Beattie Tule, Lois Sloop and Louise McNair spent Sunday with John Walter Bittle in Norfolk. Jay is to be moved soon.

Lt. Philip Reading, stationed in Trinidad since May, 1942, is visiting his family here. His many friends share in his happiness in seeing his beautiful little daughter Joan for the first time.

Mr. Luther Allen of Catlett is visiting his daughter, Mrs. Ira Ridgely, for some time.

The V. M. Zirkle family is moving to their farm this week.  
Mrs. Ernest Hale and Mrs. Bertha Van Nort attended the funeral of an aunt in Pennsylvania last week.

Mrs. M. J. Shepherd, Mrs. Ted J. Shepherd and family, Mrs. Fred T. Shepherd and Peggy, Mrs. Mary Shepherd, Miss Louise Shepherd, Mrs. Christine Shaeffer and Gayle were among those who spent last Thursday with Mrs. C. E. Rice, when she entertained the Bristow Home Demonstration Club.

Mr. and Mrs. Cleve Sherman have moved to their new home near Bristersburg.

The Red Cross Benefit baseball game between the Nokesville girls' team and the Ruritan Club on Saturday night proved a big success. The men won by two points, although the girls did their share to make the game very entertaining and hilariously funny. The band was really enjoyed, while the ladies

"eat" added enjoyment to the evening. With the rummage sale earlier in the day, nearly \$100 was made for the Red Cross.

Mrs. George Thayer, with Mrs. John Harpine and Mrs. Ernest Goff, entertained the Nokesville Home Demonstration Club on Tuesday. Among many other items of business, plans were started for a miscellaneous program to be given at the high school on March 28. More about this program will be in next week's paper.

Mrs. Lucy Smith visited her mother in Front Royal last week.

Please let us have local news by noon Wednesday. This will be greatly appreciated.

### TRAIL'S END LABORATORY

BLOOD TESTED

From high egg blooded breeders that live and produce results. Let us show you the proofs of these results secured from our famous White Leghorns and other varieties. Leghorns, Rocks, Reds, Broun Chicks, East Wood Lines in the United States introduced through the years of our breeding program. Hundreds of testimonials received during the past year. Make extra profits by buying our strong and healthy, high egg bred chicks. PLEASE WRITE FOR OUR LOW PRICES, FREE RECORD OF RESULTS, TRUE FACTS, SEXED OR AS MATCHED.

### Julia's How to make good things with cereals

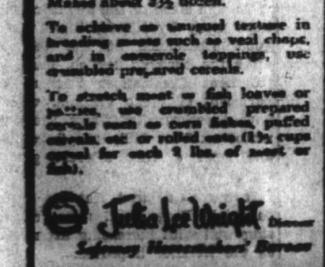

1. Measure into my pan... the other day, and noticed the imposing array of packaged cereals which filled a whole shelf. It reminded me that I had been hearing a number of suggestions to be made with cereals, for instance:

**HONEY SAUCE COOKIES**  
2 cups enriched flour 1 egg  
1/2 cup sugar 1/2 cup strained  
1/2 cup baking powder 1/2 cup milk  
1/2 tsp. salt 1/2 tsp. melted  
1/2 cup bran 1/2 cup shortening  
1/2 cup finely chopped walnut meats  
Sift and measure flour; sift with  
baking powder, salt. Combine  
sifted flour, sugar, salt and  
meats (the latter may be omitted).  
Beat egg slightly; add honey, milk,  
and shortening; combine with flour-  
meat mixture; mix just enough to  
incorporate all flour. Pour into well-  
greased muffin pans, filling two-  
thirds full. Bake in moderately hot  
oven (325° F.) 25 to 30 minutes, or  
until done. Makes 16 large muffins.

**LEMON OATMEAL COOKIES**  
1 cup enriched flour 1/2 cup brown  
sugar, firmly  
1/2 cup baking powder 1 egg  
1/2 tsp. salt 1/2 cup milk  
1/2 cup soda 2 1/2 cups. grated  
1 1/2 cups regular lowen peel  
rolled oats 1/2 tsp. vanilla  
1/2 cup shortening extract  
Sift and measure flour; sift again  
with baking powder, salt and soda.  
Add oats. Cream shortening and  
sugar together until light and fluffy.  
Add egg to creamed mixture, beat-  
ing well. Add flour mixture and milk  
alternately, mixing well after each  
addition. Add lemon peel and flavor-  
ing. Drop by teaspoonfuls on lightly  
greased cookie sheet. Bake each  
cookie with diagonally cut wedges  
of lemon peel arranged in a three-  
leaf design. Bake in moderate  
oven (375° F.) 15 minutes or until  
lightly browned. Remove cookies  
immediately to rack; cool; store.  
Makes about 3 1/2 dozen.

To achieve an unaged texture in  
breadings, meats such as veal chops,  
and in casserole toppings, use  
crumbled prepared cereals.

To stretch meat or fish loaves or  
patties, use crumbled prepared  
cereals such as corn flakes, puffed  
cereals, oat or rolled oats (1 1/2 cups  
equal for each 1 lb. of meat or  
fish).

BIBLE THOUGHT AND PRAYER
By prayer we will have their children's hearts...

We then, as co-workers together with him beseech you also that ye receive not the grace of God in vain 2 Cor. 6: 1

SPIRITUAL RATIONS

From now on, cases of K-rations for troops in combat areas will contain not only food for material needs but a stimulus to courage and confidence, in the form of pocket-sized hymn books. For men on the battlefields are turning to more serious songs, and chaplains are encouraging them to borrow a leaf from the war journals of the wise old fighters of Bible days.

Consider the multitude that faced Jehosphaphat and his people, and how after Jehosphaphat had prayed and appointed singers unto the Lord, the enemy was defeated and the men of Judah and Jerusalem returned unscathed.

This is not whistling in the dark to keep up one's courage, but singing in the light of the knowledge of God's ever presence and protection in a righteous cause.

I love Thy way of freedom, Lord, To serve Thee is my choice, In Thy clear light of Truth I rise And, listening for Thy voice, I hear Thy promise old and new That bids all fear to cease: My presence still shall go with thee And I will give thee peace.

It is good to know that American fighting men are to be fortified with these spiritual "rations."—Exchange.

OUT OF YOUR FRYING PAN INTO THE FIRING LINE

HOW MANY JAPS can you kill in your kitchen? Waste fats are needed for glycerine, which is needed for gun powder, which is needed... and how it's needed!

P.S.: And for every pound of waste fat you bring to your butcher, he'll give you two more ration points!

BRIEF LOCAL NEWS

Mrs. Samuel T. Weir, who has been visiting relatives in Charlottesville and Richmond, has returned to her home on West Street.

The Misses Nancy Leigh and Betty Gore Didlake are spending the spring holidays at the home of their parents, Mr. and Mrs. T. E. Didlake. The Misses Didlake are attending St. Anne's School in Charlottesville as are also the Misses Dorcas and Barbara Leachman who are vacationing with their mother, Mrs. Betty Leachman.

Miss Carolyn Rohr of Mary Washington College is expected to be at the home of her parents, Mr. and Mrs. L. S. Rohr, this coming week end. Their son, Lt. Edgar Rohr, now stationed in Philadelphia, was at home on leave this past week end.

Major and Mrs. Joseph Mills Hanson were Washington visitors on Tuesday.

Mr. Roy Allen Muddman spent the week end with Mr. Ben Bowen of Clarendon, Va.

Mrs. Gary Wods will entertain the members of the Postal Clerk's Wives' Club on Monday night at eight o'clock at her home on West Street. Mrs. R. J. Davis and Mrs. L. B. Williams will have charge of the program.

Charles Stickle of Redford, Va., was a Manassas visitor this week.

Mrs. Eugene Curtis left Friday (March 17) for Miami Beach, Florida, where she will join her husband, Officer Candidate Curtis, for a two-week stay.

Mrs. W. B. Long of Wilmington, N. C., is the guest of her brother-in-law and sister, Mr. and Mrs. Arthur Pence.

Mr. and Mrs. Robert G. Van Meter of Middletown, Va., are guests of Mr. and Mrs. J. L. Bushong for several weeks.

Pvt. Douglas Merchant of Fort Dix, N. J., has returned to his station after spending a week's furlough with his mother, Mrs. Vera Merchant.

Roger Cross, Jr., who has been sent to Asbury Park for Navy training, was a recent guest of his parents, Mr. and Mrs. Roger Cross.

Mrs. C. J. Prillanan and daughter Norma Jean have been visiting in Roanoke, Va. Mrs. Prillanan is now at the home of her parents, Mr. and Mrs. R. H. Jones of Manassas.

MISCELLANEOUS PROGRAM AT KIWANIS

Corson Woodford, at the request of R. C. Haydon, gave a report of the meeting of the various committees that met to decide what is to be done concerning the U.S.O., whose lease on the building on Center is expiring. His report was complete except for what is the final decision on the matter.

Carl Kincheloe read an editorial on the relation of teachers to the community. The central figure was of a teacher who loved his job but the result of his work was that he had but one suit to wear for all purposes. He was practically an object of charity. Finally, he secured a war job which gave him a real salary and a new suit. But he yearned to be back at teaching.

Ed Conner's contribution was an article as it appeared to "The Cavalier" in the Richmond Times Dispatch. It made an appeal to Mr. Conner's poetic disposition and he read it as if he loved it.

Between mouthfuls at dinner, Mrs. Vincent had the Kiwanians singing tunefully on parts that they have in the forthcoming minstrel show on April 14. One part of this she pronounced "perfect".

Comic strip panels with dialogue about weather and meat. One panel says: 'LOSER, HOW DO YOU FEEL ABOUT THE COLD WEATHER LINE YOU DO? YOUR FAMILY NEVER HAS COLDS LIKE MINE DOES --'. Another says: 'WELL, BETH, I'LL TELL YOU WHAT I THINK HAS A LOT TO DO WITH IT, I FEED MY BARNY LOTS OF MEAT IN COLD WEATHER. IT STEPS UP THE VITALITY WHEN THE MERCURY IS DOWN'. A third says: '- AND THEY HAVE SUCH LOVELY MEATS WHERE I TRADE - THAT WINTER SHOPPING IS REALLY A PLEASURE.' Below the panels is a sign: 'of course she is referring to CONNER'S MARKET'.

AMERICAN LEGION

At the meeting of the American Legion Post No. 158 which was held Monday night, March 13, the 25th birthday of the American Legion was celebrated. The Post was assisted in the celebration by their Auxiliary, and one of the speakers was Maj. Joseph Mills Hanson who is an "American Legion Founder" and who was a delegate from General Headquarters, A. E. F., Chaumont, at the Paris Caucus in March 1919.

After all had feasted their eyes upon a beautiful birthday cake baked by Mrs. J. H. Boley, Commander Burchard was asked to cut the cake, assisted by Mrs. A. O. Beane, vice-president of the Auxiliary, and all enjoyed the delicious refreshments prepared by the committee composed of Mrs. M. S. Burchard, Mrs. W. L. Coverston, and Miss Emily Johnson. Commander Burchard then called upon Major Hanson to tell of the Paris Caucus, and those who know the Major know what a god talk he can make.

Though some of the members were kept away by illness, there was a good attendance at the meeting, after the business session, Past Department Commander Turner, Department of West Virginia, who is now American Red Cross Field Director at Vint Hill, was introduced and gave a very interesting talk which was most enjoyed.

It was announced that the Saturday night Bingo parties are progressing well with increasing attendance as the weather improves.

Arrangements are being made for the meeting of the 8th District, American Legion Department of Virginia, to be held in Manassas at the Town Hall, Sunday, April 16.

Many New Uses Found For Chicken Feathers

The government is taking all elder duck down and geese feathers, leaving chicken and turkey feathers for civilian use. About 80 per cent of feathers for pillows, quilts and cushions came from Europe and China in peacetime—forcing manufacturers during the war to improve domestic supply sources, which now also must be tapped for increased war needs.

Public prejudice against chicken feathers for pillows and cushion stuffing has waned somewhat because of improved methods of preparing them, manufacturers said, adding that now they are more sanitary, while a curling process has made them softer.

More than 100,000,000 pounds of feathers now are produced annually from American poultry flocks, compared with only about 20,000,000 pounds before the war. About 95 per cent of the total is made up of chicken feathers.

Even in surgery, feathers have taken on a new value. Chemists have developed a method for dissolving them and producing a protein plastic. Threads of this plastic can be used as sutures for sewing wounds because they are strong and are absorbed by the body.

Trade sources say that down makes ideal sleeping bags for soldiers and for fliers' jackets. Kapok, formerly used extensively in America as pillow-stuffing, now is unobtainable from the Dutch East Indies and available supplies on hand are used by the government.

Poultry flock owners get about five cents a pound for chicken and turkey feathers and approximately \$1 a pound for down from waterfowl.

FDR says: Curtail spending. Put your savings into war bonds every payday.

JOIN YOUR VOCATIONAL SCHOOL

Many men who have delayed too long in volunteering for the Navy now regret it. Don't wait until it's too late. Choose your service while you are free to do so. Remember, if you are between 17 and 18 years of age you can now enlist in your Navy and take advantage of the valuable vocational training offered you by the Navy trade schools and training ships. Thousands of young men are now being trained to be expert machinists, electricians, carpenters, metal-smiths, radiomen, radarmen, radio technicians, pharmacists, aviation mechanics of all kinds and many other valuable and worthwhile trades in the Navy trade schools and training ships. For full details contact your Navy Recruiting Representative at the Post Office Building in Manassas any Thursday.

Women Assume New Responsibilities

Take Over Men's Jobs To Meet Food Goals

The big push will come in 1944—for farm women as well as the boys in uniform.

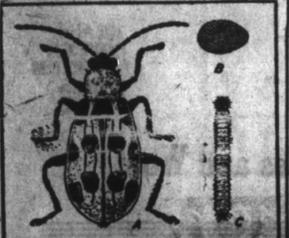

The farm woman's 1944 job will be new in many ways, too. To reach food production objectives, the War Food Administration points out, farm families must continually change their farming operations in line with shifting developments on the home front and on the battle fronts.

Take the higher goals for egg production, for instance. That's a special concern of farm women, since about 90 per cent of the eggs come from farm flocks and since the womenfolk usually tend the poultry. The old way of increasing egg production would be merely to build additional hen houses, increase the size of the flocks of laying hens and lay in an extra supply of feed. But the 1944 way to increase egg production is to give the hens tip-top care and to build up the quality of the flocks by culling out the poor layers and buying better chicks. Such a program is calculated to result in more eggs from fewer hens, at the same time helping to economize on feed supplies.

Larger Herds Urged. Good milk cows—well cared for—are one of the most efficient converters of feed into high quality protein foodstuffs. That is why Uncle Sam is urging farmers to increase their dairy herds by 7 per cent and to step up total milk production by a like amount.

Women will help more with this job, too—keeping records, feeding the livestock, milking and caring for the milk.

Gardening is one of the chores that usually falls to the farm homemaker. This year, as last, the aim will be a garden on every one of the nation's farms. Furthermore, families usually planting small gardens are asked to increase their vegetable plots so as to supply most of the family needs for fresh and home-canned vegetables.

The western spotted cucumber beetle. A, adult; B, eggs; C, larva. The cucumber beetle attacks almost all vegetation. It is a serious pest in Pacific coast orchards.

Stick With Your Plow, Advises Soil Expert

Farmers should think twice before they place too much reliance in widely published reports that the mold-board plow is bad for the soil and should be discarded, M. A. Thorfinnson, soil conservation specialist at the U. of Minnesota, pointed out. He says that tests of the plow vs. subsurface tillage have been conducted in Minnesota and so far the score gives the old-fashioned plow an advantage of eight bushels of corn to the acre. Thorfinnson reports that in field tests conducted on farms in erosion areas of the state, the mold-board plow had a distinct advantage over other tillage methods. In heavier soils where drifting is not a major problem, this advantage would be even greater.

For the lighter soils the one-way disc plow proved to be effective and gave the added protection of leaving part of the stubble above ground to hinder soil drifting. The "sweep" which stirs up the subsurface without turning under the stubble appeared to be definitely inferior to the plow in the tests.

Black Mold in Onions

Black mold, a disease of onions, caused by the fungus Aspergillus niger, frequently develops in spots and streaks between the outer bulb scales, usually on onions in storage. Appearance and keeping quality may be seriously injured. Affected bulbs should not be placed in storage. Sound bulbs if stored should be thoroughly dried. Black mold should not be confused with smut.

Agricultural Notes

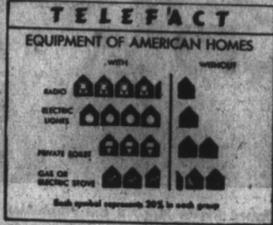

During the first seven months of last year, 264,000,000 pounds of edible fats and oils were sent into Russia from the United States.

Norelac is the name of a new film-coating resin, derived from soybean oil, which is expected to become valuable in making containers for anything requiring moisture-proof packaging.

KEEP ON Backing the Attack WITH WAR BONDS

Don't Use Too Much Seed

In buying seed, it is wise to plan the amount needed for the space to be planted. A half-ounce of carrot seed, for example, might all be put into a single 100-foot row. The half-ounce of seed would contain about 12,000 seeds, and if 90 per cent of them were to grow, according to the germination test, that would mean nearly 11,000 plants in the row, or about 100 to 110 little carrot plants to each foot of row. Actually 25 seeds to the foot is about right.

SCALE FOR SALE

Jane—What's Mabel so mad about? Joan—Oh, she stepped on that new weighing machine that has a speaker attachment that tells you weight and immediately the voice called out: "One at a time, please!"

VISITING PARENTS

Corporal Susan Peters Crabtree, WAC, is on furlough at the home of her parents, Mr. and Mrs. M. J. Peters, Manassas Corp. Crabtree received her basic training at Ft. Devens, Mass., last April. From there she went to Administrative School at Ft. Des Moines, Iowa; from there, after completion of her course, she was sent to Walla Walla, Washington, and is now stationed at Wendover Field, Utah. Before coming to Manassas Corp. Crabtree spent a week at Bowling Green, Ky., with her husband, Lt. William Crabtree, who is stationed at Camp Claiborne, La.

WHEN LOADING AND UNLOADING

At the 1942 General Assembly the law relating to meeting or passing a school bus while was amended, and may be found in section 61 (b) 5 of the Motor Vehicle's Code as follows:

Any person who fails to stop at a school bus while taking on or discharging school children whether going in the same direction or the opposite direction and to remain stopped until all school children are clear of the highway is guilty of reckless driving.

WON'T YOU HELP US ENFORCE HIS LAW FOR THE SAFETY OF YOUR CHILDREN?

'Action in the North Atlantic' TIMELY SAGA OF MERCHANT MARINE

Vigorous, forceful and inspired, "Action in the North Atlantic" which opened at the Strand Theatre yesterday, tells the timely and glorious saga of the men of the United States Merchant Marine. Thanks to the Warner Bros., they are no longer the "unsung heroes" of the war, and never have Hollywood's Kleig lights shone on a group of men more deserving of recognition and praise.

These are the men who make it possible to "hit the enemy wherever he can be found" by delivering the needed oil, munitions and supplies through sub-infested seas. The story deserves and receives a strong cast headed by Humphrey Bogart, Raymond Massey, Allan Hale, Julie Bishop and Ruth Gordon.

We meet the men first on a tanker, heavy with its cargo of high-octane gasoline, plodding cautiously through a thick Atlantic fog. The terrifying crash of a torpedo launches them into an inferno of flaming oil that pursues them even on the surface of the sea. The undersea foe comes to the surface to ram and sink the survivors' lifeboat. It is the kind of wanton injury the survivors of the crew do not forget.

Thus, when they are rescued and back in New York they are ready to leave the safety and pleasures of land to go back to danger on the next ship out. This trip, on the

Also—News

"Sea Witch" is in a convoy bound for Murmansk, groping through the fog, storms and ice-fields of North Atlantic waters and evading the gauntlet of lurking subs and plodding into the range of Nazi bombers. The adventures of the "Sea Witch" as it splits away from to convoy are a swift succession of tense episodes highlighted by the outstanding seamanship of Captain Jarvis (Raymond Massey) and the daring ruse by which his first mate Joe Rossi (Humphrey Bogart) lures an attacking U-boat to the surface and rams it to pay off an old score.

The men are presented boldly and robustly, without gilding or glamour, and authentic ship's crew. Humphrey Bogart is convincingly at home in his assignment of first mate, turning in a strong, memorable performance. Raymond Massey measures his role capably as Captain Jarvis and Allan Hale is tough and hearty as the seaman with remarkable proclivity for woman trouble. In a thoroughly competent cast, Director Lloyd Bacon has found a proper place for Julie Bishop, who is particularly good as the girl Bogart woos, weds and leaves behind when he ships off for Murmansk.

"Action in the North Atlantic" was prepared for the screen by John Howard Lawson from a story by Guy Gilpatrick, noted writer of sea tales. Ruth Gordon, Dane Clark, a new recruit from the stage; Sam Levene, Peter Whitney and Minor Watson head the strong supporting cast.

LEGAL NOTICES

VIRGINIA: In the Clerk's Office of the Circuit Court of the County of Prince William, February 7, 1944.

Eugene Charles Grieme vs. Eugenia Florence Grieme In Chancery

The object of the above styled suit is to obtain for the complainant a divorce a vinculo matrimonii from the defendant upon the ground of wilful desertion continuing for more than two years, and for general relief.

And, it appearing by affidavit filed according to law that Eugenia Florence Grieme, the above-named defendant, is not a resident of this state, it is therefore ordered that the said Eugenia Florence Grieme do appear within ten days after due publication of this order, in the clerk's office of our said Circuit Court and do what is necessary to protect her interests. And it is further ordered that this order be published once a week for four successive weeks in the Manassas Journal, a newspaper printed in the County of Prince William, Virginia. And it is further ordered that a copy of this order be posted at the front door of the Court House of said County on or before the next succeeding rule day, and that another copy of this order be mailed to the defendant to the post office address given in the affidavit.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and soothe to soothe and heal raw, tender inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly silences the cough or you are to have your money back.

PROTECTION SAFE and SURE

If you are looking for cheaper and better consult D. E. EARHART Nokesville, Va.

MANASSAS NATIONAL BATTLEFIELD PARK

Recent visitors from distant places at the Manassas National Battlefield Park have included Waldo A. Sherman, Harbormaster at Fall River, Mass., E. E. Hall of Tulsa, Okla., H. L. Minton, Texas, Mr. and Mrs. John K. Marshall, College Park, Md., Larabee McMillan of Los Angeles, Calif., William R. Austin, Berkeley, Calif., and Dr. and Mrs. H. W. Snuggs and family of Greenville, S. C. Dr. Snuggs was formerly a professor at the University of Shanghai and was recently repatriated after being a prisoner of the Japanese for more than a year. The park has also been visited by convoys of Engineers from Ft. Belvoir. Word has been received that Lt. Raleigh C. Taylor, formerly Superintendent of the park, is "somewhere in Italy."

WILLIS-POSEY

At a very quiet service on February 13, Miss Estelle Posey, daughter of Mr. and Mrs. J. O. Posey, became the bride of Pvt. Joseph Willis of Camp McDowell, Napsville, Ill. The wedding took place at 3:30 at the home of Rev. Charles B. Robey of Baltimore, Md. The bride wore a two-piece suit of navy blue with matching accessories and a corsage of white gardenias. Pvt. Willis is the son of Mr. and Mrs. C. D. Willis of Station, Texas.

PETER TELLS JOHNNY CHUCK ALL THE NEWS

"MY, HOW thin you are!" exclaimed Peter Rabbit, as he and Johnny Chuck sat on the latter's doorstep in the far corner of the Old Orchard and watched Redtail the Hawk sailing up in the blue, blue sky over the Green Forest. "What did you expect?" granted Johnny Chuck. "Did you expect me to be fat after sleeping all winter with nothing to eat?" "No," replied Peter. "But you were so dreadfully fat the last time I saw you, that you looked as if a long breath would burst your coat right open, and now your coat looks as if you might feel lost inside of it. I suppose it's very nice to sleep all winter, but think of all you have missed."

"Er-r-r. I haven't missed much if it has been any colder than it is this morning," replied Johnny Chuck with a shiver. Peter's eyes opened wide. "You don't call this cold, do you?" he exclaimed. "Why, bless your heart, this is warm. It isn't winter any longer, for sweet Mistress Spring is here. If you call this cold, I wonder

"My, how thin you are!" exclaimed Peter Rabbit.

what you would call real winter weather?" "If it was any colder than this, I'm glad I slept through it," retorted Johnny. "Has anything happened since I went to bed last fall?" "Has anything happened?" Peter exclaimed. "Why, something happens every day in winter just as in summer. So many things have happened that if I should try to tell you all it would take me a week. The most astonishing thing was the way Farmer Brown's Boy caught Reddy Fox."

Johnny Chuck's face brightened up right away. "You don't say so! You don't mean to tell me that Reddy Fox actually was caught!" he cried. Peter nodded. "I certainly do," said he. "That's good news, Peter," replied Johnny. "Either Reddy Fox must have grown stupid, or Farmer Brown's Boy must be very smart."

Peter's eyes twinkled and twinkled as Johnny Chuck talked. "Yes," said he, "Reddy was caught, and Mrs. Peter and I saw him caught and carried off by Farmer Brown's Boy. As nearly as we could make out, Reddy was frightened to death. The last we saw of him, he hung stiff and still over the shoulder of Farmer Brown's Boy. Poor Reddy! It did seem too bad." Peter paused and then he began to chuckle.

"What are you laughing about?" demanded Johnny Chuck. "I was thinking of the way Reddy celebrated that night with a feast on one of Farmer Brown's chickens," replied Peter.

Johnny Chuck's face fell. "What's that?" he cried so sharply that Peter laughed right out. "I said that Reddy celebrated that night with a feast on one of Farmer Brown's chickens," repeated Peter.

"But I thought you said that Reddy was dead!" cried Johnny. "I didn't say anything of the kind," retorted Peter. "I said that he was caught." Then he told Johnny the whole story. When he had finished, Johnny Chuck sighed.

"I thought," said he, "that I should have one less worry this summer, but if Reddy Fox was as smart as all that, I guess I shall have to keep a sharper eye on him than ever. But I'm rather glad, after all, that Reddy wasn't killed. It wouldn't seem quite the same without him about. Now, tell me the rest of the news."

So Peter told him how Mrs. Green was caught in a snare and set free again, and all about the hard time and everything else he could think of. When he could think of nothing more, he bade Johnny good-by and strolled for the Green Forest to see if any of the other sleepers were awake, while Johnny hustled around to try to find a hole to eat.

ON THE HOME FRONT

USO Hostess—Oh, I recognize you, Sergeant. You're one of the three men I gave a pig to last week. Sarge—That's right, ma'am. There were three of us, I'm the only survivor.

What a Fit! Bill—Why didn't you wear your new shoes today? Joe—They're so tight I figure I'll have to wear them a few times before I can get them on.

CENTREVILLE

The Woman's Society of Christian Service of the M. E. Church met at the home of Mrs. Harmon Franklin at Fairfax on Friday, March 10, 1944. Plans were made to have a covered dish supper at the school house April 1st.

Rev. Hugh Cummings spent the week end at the home of Mr. and Mrs. Robert Dye.

Shirley Dye, who is attending Stuart Hall at Staunton, is spending a ten day spring vacation here with her grandparents, Mr. and Mrs. Robert Dye.

Roy Korzenorfer who is in the Navy is home on a short furlough. Word has been received that Earl Caperton of the Navy who was re-

ported seriously ill a few weeks ago is improving.

Mrs. Hazel Mohler Frey is greatly improved and is able to leave the hospital.

Mr. and Mrs. Alphoncus Mulholand are the proud parents of a baby girl born March 4th.

Holy Communion was celebrated at St. John's Sunday afternoon at 3:00 p. m. Rev. Carpenter, the rector in charge, officiated.

STOCK SALES PAVILION

The Tuesday sales at the Stock Pavilion ran up to a \$10,000 total and included several hundred hogs, 40 head of cattle, five horses and considerable furniture. Chickens were slow and only 1,900 dozen eggs were sold against 2,484 dozen last week.

The foregoing accounts were allowed by the following votes:  
AYES: J. Murray Taylor, Chairman, J. F. Fick, John W. Ellis, W. M. Johnson, C. B. Roland and R. S. Hall.

IN RE: TRANSFER OF FUNDS TO COUNTY SCHOOL DEBT AND BUILDING FUND.

It appearing that at the regular meeting of this Board on December 9, 1943, an appropriation was made in the sum of \$1,200.00 for the purpose of housing a County Community Cannery, which project is being carried on in cooperation with the School Board on the grounds of the Nokesville High School; and

It further appearing that the building to house the Cannery is now under construction and bills for material and labor are becoming due;

It is therefore ordered that C. A. Sinclair, Treasurer, be and he is hereby directed to transfer from the General County Fund to the County School Debt and Building Fund the sum of \$1,200.00 to be used towards the financing of this project.

AYES: J. Murray Taylor, C. B. Roland, John W. Ellis, W. M. Johnson, J. F. Fick and R. S. Hall.

IN RE: X-RAY MACHINE.

To further the work of the County Health Unit: Be it resolved that Dr. Podolnick is hereby authorized to buy a Westinghouse portable X-Ray Machine for use of the County Health Unit, as per estimates today submitted.

AYES: R. S. Hall, J. F. Fick, W. M. Johnson, John W. Ellis, C. B. Roland and J. Murray.

IN RE: FUND BALANCES.

Bulletins from the League of Virginia Counties.  
Nothing further appearing the Board adjourned to meet again on Thursday, March 16, 1944 at 10 o'clock A. M.

### 'Inoculated' Legumes Capture More Nitrogen

#### Bacteria Living in Soil Often Impotent

Greatest need of farmers in meeting their wartime crop production goals is nitrogen—and their ablest allies in meeting this need are the legume bacteria, capable of taking nitrogen from the air. Inoculation of alfalfa, clovers, soybeans, peas and beans with selected strains of nitrogen-fixing bacteria often enables their legumes to harvest from one to two hundred pounds of nitrogen per acre.

Legume bacteria vary in their ability to aid legumes in taking nitrogen from the air. According to a report by Wayne Umbreit in Wisconsin's latest edition of "What's New in Farm Science"—"on the average, only about one-fourth of the root-nodule bacteria found in the soil

The roots of this red clover plant are full of nodules, showing excellent bacterial action. The clover seed was inoculated before planting.

are good nitrogen-fixers, one-half are fair and the remaining one-fourth poor. This means that if farmers depend on bacteria in the soil to inoculate their legume seed, under most conditions they are likely to get only from one-fourth to one-half as much nitrogen as they might with good, fresh cultures."

Since there is no way of determining before seeding whether the soil contains sufficient numbers of the right kind of bacteria—and the average cost of inoculation is no more than ten cents an acre—farmers can well afford to invest in this low-cost form of crop insurance. Either the humus or agar type of inoculant gives satisfactory results. Umbreit points out that root-nodules bacteria are not "at home" in the soil—they are "refugees" there during the periods between legume crops. They may find survival most difficult in acid soils, which makes inoculation almost essential under those conditions. Even then the soil should be limed to assure successful stands of legumes.

### WEDDING ANNOUNCEMENT

Mr. and Mrs. Zedekiah Tristar Higginbotham, Jr., of Manassas, wish to announce the engagement of their lovely and charming daughter, Miss Frederica Flindus Higginbotham to Mr. Prometheus Philander Vanderwilt III, the son of Mr. and Mrs. Prometheus Philander Vanderwilt, Jr., also of Manassas.

The wedding ceremony will be held on Friday evening, March 31, 1944 at M.H.S. Auditorium at eight o'clock. Friends of the couple and the public are invited for the small admission fee of 28 cents for adults, and 11 cents for children under twelve.

This wedding is the main attraction of the Junior-Senior All Boy Show sponsored by the Junior and Senior classes of Manassas High School. Watch this paper for further news of this gala event.

### ADMINISTRATOR'S SALE

Having qualified as Administrator of the Estate of T. A. Metz, deceased, all persons indebted to his estate are requested to make prompt settlement to the undersigned and all persons having claims against the estate are requested to present their bills properly certified, to the undersigned for payment.

MASON METZ,  
702, F St.,  
Baltimore, Md.

### AGRICULTURAL ADJUSTMENT AGENCY

It is necessary to have all the 1944 Farm Plan contacts completed before March 31, 1944.

We feel that it is urgent to get all of these Farm Plans contacts completed before March 31, 1944.

We feel that it is urgent to get all of these Farm Plans finished before that date since every effort is being made to have an estimate of the essential commodities that will be grown this year in Prince William County. At the same time these are filled in you may place an order for lime for this year.

Any farmer that has not filled in one of these forms should make it a point to come to the AAA office to do so, at once.

We are also making subsidy payments on the number pounds of butterfat and the CWT. of whole milk sold during the months of January and February.

FREE BOOK ON DEAFNESS

\* Few people are actually "deaf."  
\* Most people called "deaf" are only hard of hearing. Whether you are now very hard of hearing or are just losing your hearing, important discoveries of the U. S. Government National Deafness Survey make possible the greatest help ever afforded to the hard of hearing.

### ONE-A-DAY Vitamin A and B Tablets

EACH tablet contains 35% more than the minimum daily requirements of these two essential vitamins. Insufficient Vitamin A may cause night blindness, may lower resistance to infection of the nose, throat, eyes, ears and sinuses. Vitamin D is necessary to enable the body to make use of the calcium and phosphorus in our food. Insure your minimum requirements of these two important vitamins by taking a ONE-A-DAY Vitamin A and B Tablet every day. Economical—50¢ or less—per month. Convenient—you take only one tablet a day. Pleasant—children actually like the taste—and so will you. IMPORTANT—when buying vitamins, compare potencies and prices. Get them at your drug store.

*"Will your car let  
your country down?..."*

**"Maybe that question  
seems far-fetched—  
but believe me it isn't.  
And here's why..."**

★ **"Sure, we're all short of help these days—and I may need a little more time, but you can depend on me to do these jobs carefully."**

- Fresh oil—that's most important right now to save your engine from excessive, life-shortening wear.
- Verified Lubrication for your chassis is a must, too. Every moving part, every place where metal rubs against metal, needs the right lubrication to keep it from wearing out!
- Tires should be checked right away... maybe switched for longer life.
- The battery needs looking over, perhaps given a full charge.
- The radiator ought to be drained, all the sediment flushed out.
- Transmission and differential need checking, too.

**T**RANSPORTATION'S getting tougher every day. If you've got a car that runs, you've got part of the nation's vital transportation right in your hands. It's your duty to make it last. Yours and mine.

"There isn't much you have to do. But it must be done... and done now!

*"Let's check it off on the list at the left."*

"Come on in... today. This is Spring check-up time. Remember, keeping your car going is a job for both of us that's got to be done. And I can't help unless you let me!"

**To Prevent Runovers**  
Blueberry pie, like other pies made from juicy fruits, often gives trouble during baking by bubbling up and running over in the oven. As every housewife knows, this not only wastes juice but makes a scorched mass on the oven floor, difficult to clean off, and an unpleasant burned odor in the kitchen. Home economists of the U. S. Department of Agriculture suggest ways to make fruit pie that will not run over. First, thicken the juice slightly. Second, have enough openings in the top crust to allow the steam to escape, or make the pie without a top crust. Third, build up or reinforce the edge of the pie.

**To thicken the filling,** blend 1 to 2 tablespoons cornstarch with a little juice, then mix with the berries and add sugar as needed. The mixture may be cooked on top of the stove until thickened, or may be cooked in the crust during baking. Many cooks bake the crust first, then add cooked filling, and leave the top open. Others use a lattice top made with strips of pastry. If the pie is to be open top or lattice, a high fluted edge makes a wall to hold in the juice. If a top crust is used, several slits should be made in it, and a reinforced edge may be made by trimming the pastry about an inch wider than the edge of the pan, then folding this overlap under the moistened edge of the lower crust and pressing the three layers gently together with a fork.

**On Keeping Cheese**  
Since cheese for civilians will be less plentiful this year, the U. S. Department of Agriculture offers some tips on keeping it in best condition and avoiding waste from it from molding and drying. A little molding, melting or drying. Most of the cheese on the market this year will be American Cheddar. Rules for keeping it are much like those for keeping ham in the home. Cheese keeps best when cold and closely covered from moist air that encourages mold and dry air that hardens it. The home refrigerator waxed paper pressed closely against it is the best place to keep cheese. The moist cut surface helps protect salad oil rubbed on also helps. If left out in the warm kitchen some of the fat in cheese is likely to melt and run out. If cheese becomes dry and hard, it may be grated and sprinkled over spaghetti or other favorite cheese flavored dishes.

(See Recipes Below)

**Meals Without Meat**

Vegetables can be filling, too! If you are working on menus without meats, you can still give your family foods that will give their teeth into—foods with that stick-to-the-ribs quality.

Vegetables will give you minerals and vitamins aplenty. Some of them will even supply some quantities of protein, but fortify these foods with complete proteins from milk, cheese and eggs. There's not a recipe in today's column that will not satisfy your desire for color and zest.

An old favorite, bean roast, is especially good at this time of year. It contains no meat, but tastes as though it certainly had some:

**Bean and Bean Roast.**  
(Serves 5)

- 1 No. 2 can kidney beans
- 1/2 pound American cheese
- 1 onion, chopped fine
- 1 tablespoon butter or substitute
- 1 cup bread crumbs
- Salt and pepper to taste
- 2 eggs, well beaten

Drain the beans and put them with the cheese through the food chopper. Cook the onion in butter. Combine mixtures, add seasonings and eggs. Pack into a buttered loaf tin and cover with buttered bread crumbs. Bake in a moderate oven (350 degrees) about 30 to 35 minutes or until browned. Serve with tomato sauce.

**Save Used Fats!**

Eggs are dipping down in price and can be used generously as in the following recipe:

**Creamed Potatoes and Eggs.**  
(Serves 6)

- 2 cups diced, cooked potatoes (left-over potatoes may be used)
- 6 hard-cooked eggs
- 1 1/2 cups milk
- 2 tablespoons butter or substitute
- 2 tablespoons flour
- 1 teaspoon salt

Make a white sauce by melting butter, adding flour, and mixing in milk. Cook until smooth and thickened. Add salt, potatoes and eggs. Cut in slices. Let heat thoroughly. One-half cup of grated American cheese may be added for topping before serving, if desired.

**Save Used Fats!**

**Asparagus and Cauliflower With Rarebit Sauce.**  
(Serves 6)

- 2 tablespoons butter or substitute
- 2 tablespoons flour
- 1 cup milk
- 1/4 teaspoon salt
- 1/2 cup grated American cheese
- Few drops Worcestershire sauce
- Cayenne
- 2 bunches cooked asparagus
- 1 head of cooked cauliflower

**Food Supplies:** Sweet potato supplies this year will be good, thus bringing them within the range of every family in the country.

Potato supplies will depend on the May crop. Dried beans, peas, soy flour and grits, and peanut butter prospects are good. Sugar supplies will be about the same as last year, but more will be given for home-canning.

Fair supplies only of these foods are indicated: vegetables, cheese, cream, butter, ice cream, beef, honey, jams, jellies, rice, salad oils, salad dressings, short-cinnings, tea, cocoa and marjoram.

These foods will be scarce: onions—until April, bananas, canned fruits, lentils, fresh fish, white cornmeal, corn syrup, hominy grouts, coconut, pineapple, celery seed, cinnamon, thyme, black pepper.

**Lynn Chambers' Point-Saving Menus**

- Creamed Eggs on Biscuit
- Green Beans
- Wilted Lettuce Salad
- Enriched Bread
- Cherry Pie
- Beverage

Make white sauce of butter, flour and milk. Add cheese, seasonings and stir until melted. Pour over asparagus and cauliflower arranged on platter. Garnish with pimiento strips and parsley.

Eggs make splendid, nourishing food for lenter meals. Treat them gently—not too fast cooking and the egg will reward you well in texture and palatability.

**Spanish Eggs.**  
(Serves 4)

- 2 1/2 cups tomatoes
- 1/2 green pepper, chopped
- 1 small onion, chopped
- 1/2 cup chopped celery
- 1 teaspoon sugar
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1 bay leaf
- 1/2 cup bread crumbs
- 6 eggs
- 1/2 cup grated American cheese

Cook tomatoes, pepper, onion, celery, sugar and seasonings together for 10 minutes. Remove bay leaf, add crumbs and place in casserole. Break eggs on top, sprinkle with salt and pepper and cover with grated cheese. Bake in a slow oven (325 degrees) until eggs are firm and cheese has melted, 15 to 20 minutes. Mixture may also be placed in individual baking dishes.

**Save Used Fats!**

**Eggs With Spanish Rice.**  
(Serves 6)

- 1 cup uncooked rice
- 2 1/2 cups cooked tomatoes
- 1/2 small onion, sliced
- 1/2 teaspoon salt
- 1 bay leaf
- 2 cloves
- 2 tablespoons melted butter
- 2 tablespoons flour
- 6 eggs
- 2 tablespoons grated cheese
- 1/2 cup buttered bread crumbs

Cook rice in boiling, salted water until tender. Drain and rinse with hot water. Simmer tomatoes, onions, salt, bay leaf and cloves for 10 minutes. Strain. Blend butter with flour in saucepan and add strained tomatoes, stirring constantly. Cook until thickened. Arrange layer of rice in greased casserole and make six depressions in rice. Break eggs into each depression, then pour tomato mixture over all. Sprinkle with cheese and crumbs and bake in a moderate oven until eggs are firm.

**Save Used Fats!**

**Egg Shortcake.**  
(Serves 6)

- 6 hard-cooked eggs
- 3 tablespoons butter
- 3 tablespoons flour
- 2 cups milk
- 1/4 teaspoon salt
- 1/4 teaspoon pepper
- 1 tablespoon chopped parsley
- 1 teaspoon minced onion
- Biscuit dough (using 2 eggs flour)

Melt butter, blend in flour. Add cold milk and stir constantly, cooking until thickened. Add salt and pepper, five coarsely chopped eggs, onion and parsley. Heat thoroughly over hot water.

Prepare biscuit dough and roll 1/2 inch thick. Cut into 12 biscuits and bake these in a very hot oven until browned.

Arrange biscuits, one topping the other with a spoonful of creamed eggs between them. Top with more creamed eggs and garnish with a slice of egg.
