The Manassas Red Sox broke the streak held over them by defeating the Stafford A. C. Club in a 7½ inning game here Sunday at Swansboro Field 4 to 3. About 250 fans were on hand as the game got under way. The Red Sox took over the lead in the 2nd inning as Carlin Posey singled and Russell Loveless reached base on an error and both in finally scored on a sacrifice hit by Bobby Wilt and a single by Stutler.

The Sox made it 4 to 0 in the 3rd inning as Dallas Rosey was hit by a pitched ball. Howard Johnson singled and stole second and both men romped home on Larry Well's well-timed single to the field.

Stafford fought back with 3 runs in the 4th inning as Rayner singled, P. Hefflin sacrificed, Sam singled, Kendall singled and P. Hefflin singled.

The Red Sox now enter the 5th, which will be a 3-game series.

Virginia's Ferries to Display Pictures of State Shrines

RICHMOND—Virginia's fleet of State operated ferries and other ferries plying Hampton Roads and the Chesapeake Bay in the future will be decorated with beautiful pictures of Virginia shrines and scenic attractions, as a step in the Virginia Travel Council's campaign to hold the visitor longer in the Old Dominion. These ferries carry a major part of the tourist trade from Norfolk to the Virginia Historic Peninsula and are the connection between Cape Charles and Norfolk and the beaches.

The pictures are being placed in the cabins of the state ferries as the State Highway Commission reconditions its boats. The first of them will be placed next week. The pictures will be selected by the Virginia Travel Council, which is attempting to utilize them to lure the visitor to include Richmond, the Shenandoah Valley and Southwestern Virginia in his tour of the Old Dominion.

Subject matter being used on the first boats includes the capitol of Richmond, Jamestown, St. John's Church at Richmond, scenic views of the Shenandoah and of Southwestern Virginia, pictures of Fredericksburg, Leesburg, Winchester and a number of other points.

R. F. Nelson, managing director of the Travel Council, said that the project has been made possible through the cooperation of various Exchange Clubs throughout the State, who have helped in its financing. The pictures will be especially processed to protect them from the effects of salt air and dampness.

The Virginia Travel Council already has placed several hundred pictures of Virginia in tourist facilities throughout the State and shortly will begin utilizing space on bus terminal walls in Virginia and adjacent states for pictorial presentation of Virginia's charms.

Turnout Good At Precinct Polls Thruout County

Although close in some precincts, voters of Prince William County overwhelmingly turned down the proposal to change the present form of county government to an executive form by a vote Tuesday of 921 to 397. A majority of 524 voters out of 1328 voted against the change.

The precincts at Nokesville, Manassas, Brentsville, Haymarket, and Waterfall ran closest, with Nokesville and Haymarket voting in favor of the proposed change by a vote of 38 and 53 for as opposed to 33 and 46 against, respectively.

The final count at Manassas showed 222 for and 299 against the change.

Turnout Good

Interest in the election ran high. Many phone calls were made to The Journal office until late Monday night.

Heaviest voting was done at Quantico, Manassas and Occoquan where a total of 847 votes were cast. Although the vote at Manassas was largest and represented almost half of the total votes recorded, the vote had little effect upon the outcome of the election because of its narrow margin against the change.

The election turnout, which was considered "good" by many, was facilitated by excellent weather and compares with the last county-wide election in which 1585 votes were recorded.

Home Agent Gives Advice

Baking soda can be a big help for many cleaning jobs around the kitchen, says Miss Leona Kline, home agent.

Soda may be used as a gentle scourer for stains on china, pottery, glass or cooking utensils of enamelware or glass that would be scratched by rougher scouring materials. For example, tea or coffee stains on china cups may be removed by rubbing with a damp cloth dipped in soda. Soda also helps soften food that has scorched on enamelware or glass. Fill the scorched utensil with water, add a teaspoon of soda, and let it soak an hour or two. Then heat the water gradually, loosening the burned food with a wooden spoon.

Additional Uses

Washing in soda and water has long been known to housewives as

a good way to "keep things sweet." It is recommended for washing the refrigerator, or rinsing out vacuum bottles.

Information for Veterans

Trans going to school or college fall under the GI Bill provide themselves with an expense money at the time they receive their first subsistence checks from the Veterans Administration, which said that veterans going or re-entering training in schools or colleges in September expect their first subsistence of the fall term early in November.

These checks will cover subsistence payments for the period from opening of school through October 31. The next checks will be issued early in December, covering subsistence for the month of November and thereafter at monthly intervals for the rest of the year.

Veterans in a few schools which early in September will receive subsistence checks in October covering the days of attendance in September. This is in cases where the school opens early and graduation has been completed in the veterans' papers to be received by the VA on or before September 20.

In my application for the NSLI dividend, I don't see my services serial number is required. Please tell us if it is required and where it should be placed.

Your service serial number or others must be placed in the box or boxes in answer to A on your application. Failure to answer this question properly may make it necessary for VA to look its files for your number and may cause considerable delay. If I have obtained a GI loan to purchase a farm, am I still eligible to receive training in an agricultural college?

Yes, if you meet the qualification requirements of the Service's Readjustment Act of 1944, as amended.

Does the fact that I receive a substantial income have any bearing on the amount of compensation I get as a veteran with a service-connected disability? No. Since your compensation is determined by the degree of disability, the amount of income you have does not affect the amount of compensation allowed you.

MOVABLE TENANTS
Westley, R. L. — While a wreck crew tore the house down and then, William Cook, 70, his son, George, 41, first-floor tenants of the two-story house, had refused to move, went on their breakfast, William Stapp, the owner, unsuccessful in his attempt to have the Cooks evicted, said he would just "tear the house down around them."

Pres. Truman OK's Religious Education

Chicago.—The importance of religious teaching in the struggle with forces of selfish materialism is emphasized in a letter from President Harry Truman endorsing the 19th annual observance of Religious Education Week, September 25-October 2.

The letter was released today by Dr. Roy G. Ross, General Secretary of the International Council of Religious Education, which sponsors the observance through its 40 member denominations and more than 700 territorial councils of churches and religious education.

Declaring that the democratic way of life has the same motivations as those of religion, the President stated that "The spiritual ideals which impelled our forefathers to seek freedom of worship in this country must constantly be renewed if our democratic institutions are not to decay."

Churches To Participate
"Particularly in this crucial year of 1949 will united celebration of Religious Education Week serve a practical purpose," the Chief Executive wrote. "It will demonstrate the incontestable validity of religious teaching in our struggle with the forces of selfish materialism, both at home and abroad."

This Number One Christian education event is being celebrated throughout United States and Canada. Starting with the traditional Rally Day events the last Sunday of the month, thousands of communities and tens of thousands of churches will sponsor many types of special projects to show the significance of Christian education in the life of the people and the nations.

To The Homemaker

By Virginia Post, Home Economist
Virginia Electric & Power Co.

September weather calls for Fall foods and the family will welcome some new dishes on the menu. Why not try baked sausage links in acorn squash and cook some baked apples in the same oven? These foods are all plentiful now and combine well.

This meal requires little preparation and is good to have when time is short.

Baker Sausage Links in Acorn Squash

3 acorn squashes, medium size.
12 small sausage links (more if desired).

Cut squashes in halves lengthwise; remove seeds. Precook in small amount of boiling water for ten minutes. Drain. Put sausage links

in large frying pan on front surface unit. Cook 2 minutes on high heat. Remove and pour off fat. Place squash halves cut side up in rectangular pan; put 2 sausage links in each half squash. Bake in 350 degrees Fahrenheit 40 to 50 minutes or until done (longer if started in a cold oven).

Baked Apples With Nuts

6 large baking apples.
6 teaspoons sugar.
Nuts.
Butter or margarine.
Mash and core apples; place in baking dish. Fill cavity of each apple with nuts and 1 teaspoon sugar; dot with butter. Bake in 350 Fahrenheit oven 40 to 50 minutes or until tender.

H. D. Club Training Meeting Held

A leader training meeting for the fifteen Home Demonstration Clubs in Prince William County met September 8 at the home of Mrs. Paul Espenshade at 10:30. Seventeen leaders of the fifteen clubs enjoyed the help given at the Training Meeting which was planned by Miss Leona M. Kline, home demonstration agent.

Miss Ruth Jamison, house furnishing specialist, state extension service, Blacksburg, gave the leaders information on two subjects: "Planning the Living Room" and "Good Lighting."

She stressed that every living room should be made as livable as possible, and that many times by rearranging furniture already in the room, this can be accomplished.

On the subject of "Good Lighting" it was pointed out that we might have enough lamps but not sufficient light to perform the various tasks which our eyes must perform.

Brief Mention

Mr. Maury Wells left Wednesday for Louisville, Ky., to attend the Kurlies Paint Convention, being held there this week.

Billy Johnson left this week for Blacksburg, where he will enter V. P. I.

Milk Great Aid To Young Students

Since this is the time of year when America turns its attention to its youth, their schooling and preparation for future usefulness, perhaps it is significant to emphasize how important the subject of milk becomes to the mental and physical development of the economic generation—the young men and women who will be facing domestic and world problems which now rest so heavily upon the shoulders of their parents.

School time is reminding of the fact that among all of the American traditions, and blessings, none are more vital to the building of a great nation than the right of every child to an elementary education, and glory be! participation in the Federal school lunch program, not the smallest item of which is good old Grade A milk with its millions of golden globules of creamy goodness.

As schools reopen, the Maryland and Virginia Milk Cooperative observes that not only the bodies of young people resuming their studies need a normal amount of milk, but an added ration is advisable for mental development.

The leaders learned how to judge the amount of light by learning to use a light meter.
