## Tuesday Final Day to Get Wheat Loans

Farmers have until next Tuesday, January 31, to take out loans and purchase agreements on their 1949 wheat crop. The same closing date applies to price support programs for 1949 crop oats, rye, barley and soybeans.

On the 1948 crop, loans and purchase agreements were available only through December 31, 1948, but the price support period was extended through January this year to give farmers greater price protection and market stability. The lengthening of price support availability also enables farmers to apply the proceeds of their 1949 crop price support and sales on 1950 income taxes, since most farmers are on an annual rather than accrual income tax basis.

Farmers holding crops under purchase agreements, who intend to deliver to the Commodity Credit Corporation, must file their intentions with the local PMA county office within a 30-day period prior to the maturity date for loans.

Both loans and purchase agreements on 1949 corn will continue to be available through March 31, 1950.

## F.B.I. Studies Bank Hold Ups

There have been 490 bank robberies at Quantico, according to Ken Jones, a magazine writer who writes of the exploits of the robbers of the "State Bank of Rangeville," in a recent issue of one of the national magazines.

The State Bank of Rangeville is at the Marine Corps Base at Quantico and both the robbers, and the bank officials are F. B. I. Agents who are studying the many techniques of bank robbers, the better to combat them.

Holdup techniques are different in the case of the robbers. Some undertake to solve the case while the remainder of the class stands by to criticize and learn. If the case isn't solved within three days, the class considers itself disgraced.

## Hattie Alley Memorial Is Under Way

A memorial fund to assist Christian young people in India prepare for medical service has been established by friends and relatives of the late Mrs. Hattie Z. Alley, a Church of Brethren missionary to India since 1917. It is to be known as the "Hattie Z. Alley Memorial Scholarship Fund."

Mrs. Alley came to Prince William County in 1899 with her parents, the Rev. Isaac A. and Mary Magdalene (Wenger) Miller. With the exception of two years at Bridgewater College, she lived with her parents at Nokesville until her marriage to the Rev. Mr. Howard L. Alley in December 1915.

Although Mrs. Alley had no medical degree, she was both doctor and nurse to thousands of men, women and children of India who needed her help.

The purpose of the memorial fund, it is announced, is to help India help herself by assisting some of her finest young men and women prepare to serve their own countrymen. These young people can secure their training in Christian medical institutions in India at much less cost than medical education in this country. Also since the devaluation of the English pound the India rupee is worth only twenty-one cents, it is a good time to invest dollars in Christian service in India. Contributions to this fund will be gifts that keep on giving life.

Contributions should be addressed to the Rev. Howard L. Alley, 1808 Scott St., Huntington, Penn.; or to Mrs. Alley's sister, Mrs. Arthur Sines, Nokesville, Va.

### 30 Firms Talk Over Problems Of Wage Law

Thirty business leaders of Prince William, Fauquier and Loudoun counties, whose firms are engaged in interstate commerce, met at the Stone-wall Jackson Hotel Tuesday night to discuss the new Federal Insurance Contribution Act which became effective January 25. It was signed by President Truman last October 26, and establishes federal control of wages, hours of work and child labor. The meeting lasted from 6:30 o'clock until 10 p. m.

John Y. Green, of the First and Merchants National Bank, of Richmond, frankly stated it was difficult to explain the effects of the act upon business because the law is complicated and has many ramifications. Little has been done he said by the federal government to clarify its provisions, but it can be reasonably expected that its enforcement will be rigid and particularly in the interests of the employee.

The new law is a combination of all laws regarding contributions of employer and employee toward social security, overtime payments and when traced back goes to the old NRA or the Blue Eagle Law, which was tested in the Supreme Court in the famous Schechter case, a chicken dealer of New York. It was this case that was cartooned in the papers of the time by the use of a dead chicken.

Only a few firms in this area are concerned with the provisions of the law because it involves only those businesses engaged in interstate commerce.

It was the consensus of the meeting that the problems likely to arise out of enforcement of the act will have to be handled on a trial and error basis.

## Delinquency In Teen Age Group Grows

Juvenile delinquency is on the increase and responsibility can be placed upon both parents and the community, William H. Pryor, of the Richmond branch of the FBI, told the Manassas Lions Club Wednesday evening.

Lack of parental supervision, broken homes, divorce and drinking is where parental responsibility rests but failure of communities to provide recreational facilities which causes children to hang around pool halls and tap bars is an equally important cause of juvenile delinquency. Mr. Pryor said, has been steady through 1948 and 1949.

J. W. Ritter, chief of police of Manassas, otherwise Town Manager, induced Mr. Ritter to come to Manassas for the talk. Another guest was Turner Wheeling, deputy sheriff. N. T. McManaway, presided at the meeting.

A \$12 million addition to the Virginia Electric and Power Company's tremendous Possum Point power generating plant has been started and when in operation in 1951 will bring generating capacity of that big plant up to 120,000 kilowatts. The new unit is a duplicate of the present plant which was completed in 1948.

The new generating unit will take a year to construct and is not expected to join the generating and transmission system of the utility until late in 1951.

Announcement of the plans to supply the people of this area with additional power facilities was made in an interview which the editor of The Journal had in Alexandria with J. W. Howard, vice president of the electric company.

The enlargement of the plant will be of benefit to Prince William County taxpayers under the present property assessment structure of 40 per cent of the property value and a tax rate of \$2.50 per hundred.

Prince William County is now receiving approximately \$120,000 a year in taxes from the Virginia Electric Power on its present Possum Point plant which cost \$12,000,000. The additional \$12,000,000 investment in facilities will bring in another \$120,000 in tax revenue when the rolls are made up after 1951. The total will then be \$240,000 annually.

It was learned also that the Virginia Electric Power Company is adding a 60,000 kilowatt unit to its system at Chesterfield, near Richmond, and a third unit at Bremo Bluff.

While Manassas is not served by the Virginia Electric Power thousands of farmers and business firms of Prince William County in other localities do get electric service from its lines.

All farmers are invited to attend. The session will be from 9:30 a. m. to 4 p. m. There will be round table discussions. P. H. Hart and William W. Lewis, VPI Extension agronomists, will lead the discussions and talk on soil and crop improvement in Prince William County. The meeting is under the guidance of County Agent Frank Cox.

## Public Health Problems Before Club

The Spring-like weather brought out a large attendance at the Women's Club meet Monday evening at the Parish Hall.

Dr. Walter Johnson, Director of the Public Health Service in Prince William County, spoke briefly on the various types of work being done in the County and told of the tuberculosis-detection methods by which it is hoped to check the spread of disease. He also told of the V. D. Clinic and Orthopedic service, and said all school children have been examined for eyesight deficiencies. One child out of every ten has faulty vision Dr. Johnson said. The lack of an adequate system of transportation for indigent patients to and from the clinic was stressed, and Dr. Johnson appealed to the Women's Club to spearhead a drive to deal with this unfortunate situation which is seriously handicapping the Health Service. Discussion followed Dr. Johnson's talk, and many suggestions were made. The matter was referred to the Committee on Health, of which Mrs. A. O. Bean is Chairman. This committee will investigate all details of the transportation subject and report its findings to the Club at the next meeting.

Mrs. Joyce Jensen, wife of Lt. Harvey Jensen, sang two numbers, "Homeing" and "My Hero," by Strauss.

The 4th District Institute Meeting will be held in Manassas on March 29th. A letter was received from Austria thanking the Club for the box of clothing, candy, food, and sewing and writing materials, which was turning over to a Children's Home and Orphanage in Linz in time for Christmas.

Refreshments were served by the hostesses, Mrs. J. L. Gregory, Mrs. A. A. Hoff, Mrs. Enehea Henry, Mrs. Frank Hoss, Mrs. Florence Gue, and Mrs. Floyd Hardesty and Mrs. J. M. Hanson.

## Garden Club Replaces Trees

The Manassas Garden Club has replaced seven dogwood trees along routes leading into Manassas, it was announced Tuesday, as the Club met at the home of Mrs. E. H. Marsteller.

The Club also resolved to do some tangible work with the nature class of Bennett School next semester.

Mrs. Paul J. Cooksey, president of the Club, was chosen as representative to the convention of Piedmont District Garden Clubs in Richmond, Feb. 25. Another delegate will be chosen later.

Mrs. Ian Ross gave an illustrated talk at the meeting on "Flowers of Hawaii." Mrs. Ross is a former resident of Hawaii. The Club also received a reading course on flower judging school requirements.

The Club heard that the Federation of Virginia Garden Clubs will convene at Natural Bridge May 15, that the National Council of Garden Clubs will meet in Richmond April 23-27, and that the National Flower Show will be held in the Washington Armory March 23-29.

Mrs. Charles Compton was guest at the meeting.

## Haymarket Wins Two; Drops Two

Haymarket came out even for the week as it dropped a basketball twin bill to Purcellville Thursday night and then won two from Lovettsville Saturday. The sharpshooting Purcellville teams won the boys' game 78-35, and the girls' 64-34. But Saturday Haymarket came off the floor all-victorious by beating the Lovettsville girls 22-15 and the boys 58-24. The boys' win was assured in the fourth quarter when the fourth Lovettsville player fouled out. Lovettsville called the game when its manpower became so depleted by fouls.

Haymarket high scorers in the Saturday fray were: Hoffman with 11 for the girls, and for the boys Luceford had 6, Hoffman 4, and Smith 1.

## Nokesville Wins Hot Zavada Gets 31

Nokesville's Zavada hit the bucket for 31 points Saturday, in leading his team to a 81-45 win over the previously-undefeated Middleburg boys, Calhoun with 16, and Seitchick with 15, made the win easy for Nokesville.

In the lead off game Middleburg girls slipped by Nokesville 47-45, in a game which the losers protested on grounds of rules violation.

# Announcing - 1950's First and Foremost Fine Cars

# The NEW Lincolns

ON DISPLAY FRIDAY

Nothing could be finer—inside or out—than the beautiful new 1950 Lincoln and the magnificent new 1950 Lincoln Cosmopolitan on display starting tomorrow in our showrooms.

Outwardly, their superb new body styling stamps them as being the most distinctive fine cars in America.

Inwardly, their rich new upholsteries and appointments make them the most luxurious, too. For their brilliantly fashioned new "Salon Styled" interiors are definitely the most beautiful in the world.

And on the road, their new range of performance is unquestionably in a class by itself. In the thick of traffic, or on the wide open highway, they are a sheer joy to drive...instantly alert...powerfully responsive. Just a few minutes behind the wheel will convince you that nothing could be finer in action than the great high compression Lincoln "INVINCIBLE 8" engine combined with HYDRA-MATIC...with freedom forever from gear shift and clutch pedal!

And nothing, you will also discover, could be easier than Lincoln's new velvet-touch steering...or more comfortable than its new weather control system...or more restful than its new Fiberglas soundproofing...or more relaxing than the wonderfully soft Lincoln springing.

If you haven't yet made an appointment with us, by all means do so now. Once you drive the new 1950 Lincoln or new 1950 Lincoln Cosmopolitan, you, too, will be certain that nothing could be finer. And we promise you'll be pleasantly surprised about the prices.

\*Optional at extra cost

*Nothing could be finer*

BE SURE TO COME IN AND SEE THEM...

From where I sit... by Joe Marsh

Give Us Back Our Sidewalks, Slim!

I wrote that over an article in the *Clarion* last week, but I didn't like doing it. After all the may it was aimed at—Slim Henderson—is a good friend of mine.

Slim came into quite a windfall last month, and bought the old Clarke place. The deed gave him title to all the land—right down to the street. Then Slim started to take up the sidewalk to make his lawn look better.

I felt it wasn't fair to the town and said so in my article. Next morning Slim comes around and wants to know what I mean—getting folks riled against him. I felt ornery myself, and we had quite a set-to over the whole business.

From where I sit, that was foolish. Once we'd cooled off (over lunch and a bottle of beer at Andy's Tavern), Slim decided the sidewalks should stay—for the common good and I promised next time I'd take a good look at the other fellow's point of view before writing any articles about him!

### \$245,000 May Be Co. School Allocation

A tentative estimate of the yield to Prince William County from Governor Battle's school construction grant program is \$245,000, according to County Superintendent of Schools Worth Peters.

There are likely to be changes made by the General Assembly to the recommendations and so the \$245,000 figure cannot be considered final, said Mr. Peters.

Ninety percent of whatever funds are granted under the program will be on a per pupil basis, the remaining 10 percent to be allocated additionally through an "equalization fund" on a formula designed to aid those counties and cities with the highest self-taxing rates supporting their local school systems.

The date upon which the school grant enrollment figures would be based is December 1, 1949. The school enrollment on that date was 3778, an increase of 13 1/4 percent over June 1948 when the enrollment was 3,335. It is this increase in enrollment upon which the amount to be allocated to Prince William county for school construction is estimated.

## Good-bye, John Barleycorn

After sober reflection (no pun intended) The Manassas Journal has decided to say, "Thank you, no more, please," to our advertising agency friends who want to use our columns for the advertisement of hard liquors.

If they ask us why, as they are apt to do, we have our answer ready. When this Commonwealth authorized the sale of liquor, it established a system of state-owned stores, prohibited the sale of liquor by private concerns, and in general discouraged alcoholic-beverage makers from exploiting their products in Virginia.

True, the press was exempted from the prohibition against advertising liquor. But the letter of the law is perhaps not so important as its spirit.

We think the spirit of the law—which reflects the feeling of the people—is that while liquor is for sale, its availability is not to be flaunted in the faces of potential consumers.

What is for sale in the state whiskey store is listed on an official price card published by the state.

Our agency friends know that. So, from now on we will say to them, "We don't think our readers care about having liquor ads brought into their homes in our newspaper. Thanks just the same."

## From the Pastor's Study

By the Rev. Herbert E. Hudgins

Prince William County is a good place in which to live. Many residents feel that the only major disadvantage in living here is the large number of organizations, clubs, and groups that require time, attention, and support. However, this so-called handicap is a revelation that the people of the community are idealistic, reaching out "in the direction of dreams"—to use a phrase that serves as title of a new, religious book. A wholesome discontent with things-as-they-are is a good virtue when properly directed.

### Discontent

The great discoveries of exploration and science have been made because someone was not satisfied with some conditions that existed. When people become completely satisfied with conditions, they cease showing any improvement and become petrified or die; they "get in a rut." The sculptor Thorwaldsen was seen weeping on the great day when his masterpiece, his statue of Christ, was unveiled. When questioned as to the reason for this, he said, "In the past, whenever I have completed a work I have been dissatisfied with my achievement. But today I am satisfied with my work, and I know that henceforth my ability will decay."

### Dreaming

Here in Prince William County the people are anxious to improve themselves and their community. That is one reason we find from time to time a new organization coming into existence, a new dream being born. Sometimes these dreams do not result in a new organization, but simply take the form of a county-wide hope and longing. For example, many of us are hoping, dreaming, that some day there will be in our county-seat town of Manassas at least one safe railroad crossing to take the place of the five or more unsafe crossings in and immediately near the town; these present unsafe crossings were the cause of five deaths in a period of eight months last year; a toll out of all proportion to the size of the town.

Another dream: a wider highway on route No. 29, from Stone House to Gainesville. This would be inviting people to travel in Prince William County instead of keeping them away because they now want to avoid the death-trap road there.

### Everyone Has Dreams

Dreams? All of us have them. How many of us have wished we could soon have schools of which we would proudly say, "This is my

school!" And perhaps there would be fewer young people in jail or in trouble of various kinds of a year-round program of recreation, with building, equipment and full-time director could be secured.

Of course the highest dream is, that all of us might be better people; material improvements are of little worth if we do not have good people to manage them. In this connection all of us need to look in upon ourselves and then seek that Divine help which alone can help us be better than we now are. Your church can give you help at this point.

### Most Difficult Part

The most difficult part of dreaming is to move on in the direction of the dream, to make the dreams come true. Will the following signposts help you? (1) KEEP AWAKE. Keep your conscience alert and aware of things that are not as good as they ought to be. Do not beat down criticism, but accept it for the good it might do you. Try to see yourself, your community or your group through the eyes of other people; look at things objectively. (2) KEEP DREAMING. See things, not simply as they now are, but as they ought to be; see things through God's eyes. Keep on, in spite of opposition or public indifference. (3) COOPERATE with other kindred souls who want to move with you in the direction of your dreams. Our dreams are bigger than any one of us. We must pull together to make dreams come true. A good slogan to help make dreams come true: "It doesn't make any difference who gets the credit, just so the job gets done."

(Next week the Rev. James Duley.)

Dear Editor:

Something should be done about the dangerous railroad crossings in the Town of Manassas. In the past four months two people have been killed by trains colliding with automobiles and before this there has always been deaths, accidents, and near misses.

## COUNTY RESIDENT.

Dear Ed.,

Was interested to read the article in re. Scuffieburg, having lived there in my "younger days." Just happened to see it, and thought, before reading the article, some place else must have adopted the name, as one seldom hears it called that any more. I do not know how it got its name way back there, but if it was from "scuffin" it sure has simmered down now. Some of the oldtimers who used to have the round-stove discussions, and have passed on were my granddaddy Crummett, Dan Slifer, Robert and George Weeks. Then, as now, current events (no, not just plain gossip) were the order of the day, and hot issues of politics were never hotter any place else. However, they were without a Moderator then as now—as every man wanted to have his say—and did.

Am anxious to hear if any one really knows how "Scuffieburg" did get its name.

Mrs. NEWMAN HOPKINS

### Lush Promises of Sudden Health

MUCH of the advertising on subjects pertaining to health which we see and hear these days is misleading. Investigation will prove that many advertisers of medicinal products have no training in medicine, pharmacy, or chemistry. Thousands of dollars are wasted every year of asthma cures, oral treatments for diabetes, cancer remedies, and countless other nostrums. Please remember that there are no secrets in clinical medicine. As soon as the value of a remedy is satisfactorily proved, it becomes the common knowledge of all physicians. Don't be misled. When you need medical care, consult your own physician. When he writes a prescription, bring it to us to be filled.
