## FARMER HERE USES L-P GAS AS TRACTOR FUEL

### Draft Status Changes Must Be Disclosed

A draft call for Prince William County of about 15 boys to take physical examinations, out of which possibly three would be drafted, is expected by the Prince William County Draft Board momentarily, according to Mrs. R. Worth Peters, the secretary. It is almost certain before Tuesday.

The draft board, consisting of C. C. Cline, chairman, of Triangle, J. W. Avey, of Catharpin and Murry Leach, of Greenview, will hold its first meeting on Tuesday, July 18, in room 5, Manassas National Bank Building. They will start at once at classification of those who have not been classified since their registration when they became 18 years of age.

At the rate of six or seven a day young men are coming to the draft board seeking information about what they should do. Mrs. Peters, whose work had previously been restricted to 12 hours per week, had again been put on full time and is now at her office from 9:30 a. m. until 4:30 p. m. daily.

Everyone subject to the draft is requested to register at once; any who have changed their marital status, or changed address, or changed jobs are urged to notify the draft board immediately. All between the ages of 18 and 26 positively must register at once.

According to Sergeant George of the Army Recruiting Service there has been no increase in volunteer enlistments as the result of the Korean situation. The Army is still requiring the highest mental qualifications and, according to Sergeant George, only one of four applicants

### Hook's Alarm Traps Escaped Convict in Car

Two escaped convicts from Road Camp 26 near Haymarket were arrested by police Tuesday night after eluding searchers and two packs of bloodhounds for about 12 hours. Neither escapee was armed.

Sidney Allen Moore, 18, of Rockingham County serving eight years for housebreaking and burglary, was taken by Manassas police officers James Colbert and Charles Simms as he sat in an automobile belonging to 23 Wallace Hook in front of Hook's home on Grant Ave. at about 11 p. m.

The other, Raymond Ernest Ransom, 21, of Richmond, serving five years for house-breaking, was captured by state trooper P. F. Herridon about midnight Tuesday on Route 234, one mile south of Manassas. Ransom also escaped from the Richmond jail about a year ago.

Hook says he was preparing for bed when his wife heard a noise in the car parked in front of the house. Hook shouted out of an upstairs window, just as the police were cruising down Grant Ave. Moore was apprehended immediately.

When they escaped at 11:30 a. m. Tuesday the men had been working on a bridge on Route 234 at Sudley. According to E. J. Carter, superintendent of Camp 26, the two men jumped from under the bridge and ran into woods behind the Sudley Church. Bloodhounds were brought up at 1:30 and led searchers until rains at 3 p. m. washed out the scent.

### FLASH

The missing case which contained the film "Sea Biscuit" which mysteriously disappeared at the time of the Pitt's Theater fire was discovered Thursday afternoon during another fire in the upstairs bedroom of a house on Church street behind the Safeway Grocery store.

Firemen responding to an alarm at 3:30 o'clock Thursday and had almost extinguished the fire when searching for dying embers looked into a closet and discovered two film cases, one marked "Warner Brothers release No. 907 'Sea Biscuit'" also one empty spool and crank to turn the film spool. These were charred.

Firemen have not determined the cause of the fire to which they responded Thursday but believe it to have been started. The damage was slight.

There are two known residents of the house, and possibly others. The known are W. T. Warder and his son, described as about 21 years of age. The elder Warder was present when the firemen arrived but his son was not.

Policeman James Colbert, who was present with the firemen, took possession of the film case and took it to the office of Town Manager Ritter where it is being held for examination by fingerprint experts. The case was not opened to determine whether the missing film "Sea Biscuit" was inside, because of fear of confusing the fingerprints on the case with those of the investigators.

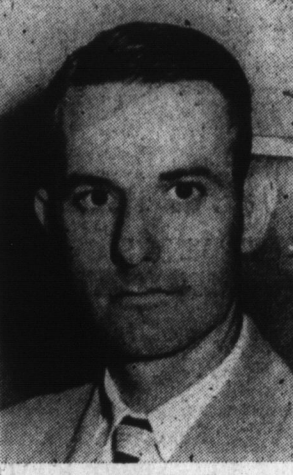

The police immediately notified T. I. Martin, of Culpeper, the manager of the Pitt's Theater chain.

The disappearance of the Sea Biscuit film at the time of the Pitt's Theater fire was one of the mysteries of that mysterious blaze. Henry Marple, the projection man at the Theater, had said that he had left the film in its usual place when the theater closed on the night of the fire to be picked up by the distributor, but when he and firemen returned to the theater after the fire was discovered they were unable to find any trace of the case.

The sentence came after numerous complaints that men and boys are exploding firecrackers and torpedoes in congested areas with apparent impunity and in violation of Virginia law.

### Transfer of GI Loans to Wash. Turned Down

The Veterans' Administration Regional Office at Roanoke has turned thumbs down on the request of the Prince William County Chamber of Commerce for a transfer to Washington of the GI loan financing applications from this area.

The decision was reported to the Chamber of Commerce on Tuesday by C. E. Gnadt, secretary, who presented a letter dated July 6 from the Veterans' office in Roanoke. The reasons were:

G. I. Loan applications could not be separated from other functions of the Roanoke office without disrupting the entire office.

The advantages to be gained by transferring the loan financing to Washington are far outweighed by the disadvantages in the opinion of the regional office.

Transfer of one function would involve changes in vocational education, hospitalization and other activities which are so intertwined with the administration of state and county funds that the confusion would be tremendous, in the opinion of the regional office.

### Sadd and Caviness Talk Stonewall Jackson Sale

The Journal learned at the time of going to press that discussions are going on between Walter Sadd, owner of the lease to the Stonewall Jackson Hotel, and Charlie Caviness, manager of the hotel, for Caviness to acquire the lease and become both owner and operator.

Caviness came here about two months ago at the request of Mr. Sadd to manage the property and he has been very successful. Neither Mr. Sadd nor Mr. Caviness would discuss the matter other than to say that the subject was discussed before Mr. Caviness came to Manassas from Orange.

### L. J. Pattie, PMA Head, Joins In Warning of Dangers in Farm Work

Every farmer and his family have hundreds of different farm jobs to perform, each requiring knowledge and skill. Last year thousands of our farm people were killed or injured

in doing these things, merely because they or someone else failed to do simple things the right way.

L. J. Pattie, PMA County Chairman, made that observation in calling the attention of Prince William County farmers to National Farm Safety Week, proclaimed by President Truman as the week beginning July 23, 1950.

The Prince William PMA County Committee is joining other Federal, State and local organizations in operating in an effort to eliminate preventable farm accidents and to make the farm a safer place to live. "Safety is a year around proposition," Mr. Pattie said. "But we take this occasion once a year to remind our farm people to stop carelessness and to check on the accident hazards on their farms. Most of us know the safe way to do things but we are inclined to forget. That's why we have Farm Safety Week."

### Torpedo

Robert L. Aurand, about 25, of Keymar, Md. pleaded guilty to charges of throwing a torpedo from the window of a northbound truck in which he was riding, while passing through Triadelphia on July 11.

The torpedo exploded beneath the feet of Mrs. Christine Wolfe of Triangle, who was strolling her baby beside the highway. Both of her legs were hit slightly by fragments from the explosion.

Wright immediately swore out a warrant to deputy sheriff J. C. Wright who caught the truck near Woodbridge and jailed Aurand.

Aurand, he had not only violated Virginia statutes but had acted contrary to all rules of decency and good conduct.

### Nokesville

families of all the children attending school appreciate the effort put forth by those who are helping out with the school.

Miss Joyce Moyers and Miss Rosa Lee Beahm spent the weekend with the family in Arlington. Rosa Lee is spending the summer at home. She will teach the second grade at the Groveton School near Alexandria next Fall.

Miss Ruth Graybill writes from Parkersburg, West Virginia that she is having a wonderful vacation.

## Truckers Find 234 As Weight Station By-Pass

After several days of crack-down on trucks exceeding the legal weight limit after being trapped at a weighing station near Woodbridge on Highway No. 1, some truckers have taken to a new route that by-passes the weighing officials and so far has enabled them to avoid arrest.

The number that have done this is undetermined but complaints have reached Prince William County officials that Highway 234 from Dumfries to Manassas and north is rapidly being torn up by the heavy loads.

Northern truck drivers who have learned of the rigid enforcement of the weight law are avoiding the Woodbridge weighing station by turning off Route 1 at Dumfries following Route 234 through Manassas and connecting with Route 15 which takes the trucks out of Virginia via Point of Rocks.

As many as 800 violators a week have been arrested at the permanent weighing station at Woodbridge since the station opened July 1. Many paid fines on the spot but 150 cases came before Trial Justice Compton on Monday morning of this week. The fines imposed by the trial justice ranged from \$5 to \$100. Police have informed Justice Compton that he may expect to have as many as 200 cases a week between now and August 1. Trial Justice court is held Monday, Wednesday and Friday of each week.

Virginia law sets the maximum load for trucks at 18,000 pounds per axle or 40,000 pounds for a three axle vehicle and 50,000 pounds for a four axle or more vehicle. Under this law, which became effective July 1, truckers are liable to fines of 2 cents per pound overload if less than 5,000 pounds and 5 cents a pound of overload if more than 5,000 pounds.

Many truckers unable to pay fines at the weighing station have been sent to jail and as a result the larger trucking companies are posting bonds to insure the release of their drivers.

## Two Sprays Needed To Defeat Beetles

The time to spray corn for Japanese beetles is when the silks first appear and not after clumps of beetles gather on the full grown ear, according to aerial crop duster Harold H. Hersch, who claims spraying then provides protection against beetles which will come in search of the tender silk.

If the farmer waits until the beetles gather on the corn, then two dustings are necessary: one to destroy the beetles already present, and another to insure future protection since the first does not penetrate the first layer of beetles deposited on the corn.

## Modern American Family Minus Electricity

WHAT WOULD you do without electricity in your home? Well—you could use candles. And build fires. And entertain each other. Substitute elbow-grease for all the jobs electricity does automatically.

You'd be surprised how much it would cost, in money, time and trouble. In fact, it almost takes a cartoon like this to remind us how much electricity does—and how little it costs.

In your whole family budget, VEPCO electric service is about the smallest item—and the biggest bargain. What else gives you such value in comfort, health, ease and fun—as cheap electricity in VEPCOland!

NOTE: This family does not live in territory served by Veeco, where the supply of good electric service is adequate to meet the requirements of every customer.
