The Virginia National Guard Adjutant General has authorized the Manassas guard unit to activate as an operational detachment. This is a temporary measure, Capt. William Hale says, until the National Guard Bureau will authorize the 90 mm. gun battalion applied for. Manassas' application for a Mobile Weapons unit was denied last week. Minimum requirements for an operational detachment are one officer and six men. Capt. Hale expects a date to be set next week for an inspection of the operational detachment. Inspection by Guard officials is a necessary step toward Federal recognition, he says.

Although five men from Prince William have been ordered to report on September 28 for induction into the armed forces, draft board chairman Mrs. R. Worth Peters says there is no indication of how many men will be called from this County in the months ahead. No quotas have been received for October or later months. Forty-one men from here have reported to Richmond for preliminary physicals during the past two months and of these about one-half have passed and may be called to duty.

Sheriff John P. Kerlin thinks his deputies should have uniforms to prevent embarrassment when the officers are called upon to halt strange motorists or otherwise question people unknown personally to the officers. Sheriff Kerlin asked the Chamber of Commerce on Tuesday to support him when he goes before the Board of Supervisors with the request. The Chamber unanimously agreed to back the Sheriff, but suggested that he investigate the cost of uniforming Deputies Wright, Hoskins, and Alvey before going before the Board. C. E. Gnadt told the Chamber that some sort of police uniforms seemed needed since the deputies sometimes must stop out-of-state motorists on U. S. Routes 29 and 1.

R. C. Powell, cashier of People's National Bank, upon his return from a five-day banking conference at the University of Virginia, told the Chamber of Commerce that the leading economists and statisticians attending the conference had presented a picture of despair for America in the days ahead with increasing government controls and rationing, leading to a loss of personal freedoms.

Nokesville FFA Win At Warrenton Dairy Show

Eight members of the Nokesville FFA Chapter took thirteen head of their FFA Project Dairy Animals to Warrenton last Saturday for the Northern Virginia 4-H, FFA Dairy Show. They won numerous ribbons and \$114 in cash prizes.

The high light of the show for the Nokesville Future Farmers was winning the Holstein County Herd over five other herds. The Prince William FFA herd was made up of an aged Cow owned by Harry Miller, Jr., a senior Heifer owned by L. R. Cowne, Jr., a junior Heifer owned by Jimmie Flickinger, a junior Calf owned by Harry Miller, Jr.

The FFA Guernsey herd consisted of an aged Cow owned by Lloyd Green, a senior Heifer owned by Charles Caton, a junior Heifer owned by William White, a senior calf owned by Charles Caton, and a junior calf owned by William Davis. This herd took third place out of five exhibitors.

Harry Miller, Jr., topped the class of five aged Holstein Cows, while Junior Cowne topped the class of fifteen Junior Yearling Holstein Heifers with a mighty fine Heifer which gave Judge Paul M. Reeves quite a problem on picking the Champion Junior Heifer.

Charles Caton and William White were second and third with their stylish Guernsey Heifers in the type class, while William White, Lloyd Green, and Leonard Yunker each placed in the Red and White class.

Jimmie Flickinger, Charles Caton, William White and Harry Miller, Jr., were all in the finals for the Pitting Class, with Charles Caton, William White and Junior Cowne being in the final lineup on Showmanship.

Jay Garman, an FFA Graduate of last year, was busy last week preparing himself for College, consequently did not prepare his animal for the Show. However, Jay went along and helped the other members prepare their animals and showed an animal in each of the County Herd Classes.

These same FFA members will exhibit their animals at the Fredericksburg Fair, September 18 to 23, and again at the Atlantic Rural Exposition, September 23 to October 7.

On Monday, October 2, Charles Caton, Junior Cowne, and Harry Miller, Jr., will compete in the FFA Dairy Judging Contest at the Atlantic Rural, as a result of having won second place in the Dairy Judging Contest at the State FFA Rally held at V. P. I. in June.

The afore-mentioned Future Farmers won 4178 and four purebred heifers at the recent Prince William County Fair, and have started planning their FFA projects for exhibition for next year's Prince William County Fair.

4,060 Enter County Schools; Overall Gain of 3 Per Cent; White Up 226; Negro Off 109

Final enrollment figures completed this week for Prince William County schools revealed a total of 4,060 students, which is an increase of 117 over September, 1949.

While County school officials last week predicted an increase of 10 to 15 per cent, the 117 additional students represent an overall gain of only about 3 per cent.

Larger gains have occurred in some localities, however, particularly in Manassas where Osbourn High School is up about 20 per cent and Baldwin-Bennett elementary school is up about 8 per cent. Osbourn has enrolled 447 students this year, compared to 370 last year, and Baldwin-Bennett has enrolled 712 this year, compared to 657.

The number of Negro students in County schools has dropped from 546 last year to 437, or a loss of 109. White students have increased from 3,397 to 3,367, or 226.

Although elementary school enrollments have steadily increased over the past five years, there appear to be even more increases to come. Pre-school age children have increased in number by about 35 per cent over 1949, according to figures of the 1950 school census completed last week. The 1945 figure for children in Prince William between the ages of 1 through 5 was 1,552. Today it is 2,096. This increase in the number of pre-school age children is the basis for the county elementary school building program whereby it is hoped to provide facilities for more elementary school students in the coming five years.

In the age group of 16 through 19 there has been a drop from 753 in 1945 to 501 in 1950. This decrease of about 33 per cent from five years ago is probably explained by the fact that Prince William youths in this age category are leaving the county, seeking employment elsewhere.

Yellow Jackets Open Season Here Sept. 22

With only five lettermen back from last year, Osbourn High School opens its 1950 football season here on September 22 with an almost entirely rebuilt team.

Coach Jim Leo said this week that although he's expecting a team at least as good, and maybe better, than last year's which won four, tied two, and lost three, he doesn't have enough key men to build his plays around.

"We've got three starters back from last year Leo said, "and two who played a lot of ball but we won't know what they were going to have until after our first scrimmage."

The first Yellow Jacket scrimmage is set for tomorrow at the school. The three returning starters are led by Rudolph Pittman, a 190-pound end, who captains this year's aggregation and who Leo describes as "a good all-around player." Also back is Haynes Davis, a starter at center last year, and Bobby Payne, a 170-pound back who was the Yellow Jacket's second highest ground-gainer last season.

Two other lettermen who performed frequently last year are Bobby Wayland, who earned his letter subbing for Jack Saylor, and Bo Black, another back.

Leo is counting on Payne to lead the Yellow Jacket running attack with help from Wayland and Black, while Wayland is tabbed to do the passing and kicking.

These five, Pittman, Davis, Payne, Wayland, and Black, are almost certain starters, Leo said, but the other six remain a mystery. "That's one reason why I'm particularly interested in our first scrimmage," Leo said, "We've only got a week left and I've got to be figuring on my starting team."

Practice started on September 5 for 43 aspiring Yellow Jackets and Leo and assistant coach Joe Forjans have been drilling them hard, working on a single-wing offense.

Weight of this year's team is expected to be about the same as last with the line averaging around 170 and the backfield close to 165.

Members of the squad are as follows:

Ends: Rudolph Pittman (capt.), Thomas Kelso, Charles Johnson, Thomas Baker, Lewis Gilbert, Norman Willette, Roger Woods, and Max McCendon.

Tackles: Wallace Beasley, Wallace Wright, Earnest White, Gene Barnett, Jeff Grady, John Cross, and Clark Fries.

Guards: Warren Harrover, Bobby Johnson, Lindell Holsclaw, Joe Buner, Lester Nicholson, Arthur Patton, and George Helms.

Centers: Haynes Davis, Paige Woods, Beverly Bourne, and Charles Quenterous.

Backs: Bo Black, Richard Black, Ronald Black, Bobby Payne, Bobby Payne, David Barbee, J. W. Hurst, David Barrett, Bobby Reid, Brice Corder, James Marshall, Bill Dwyer, Fred McGothlin, Gerald Sproles, and William Speakes.

Following is the Osbourn High School football schedule for the 1950 season:

Construction Begins on New Wheat Chevrolet Building

Construction began this week on the new home of Wheat Chevrolet, Inc. of Manassas. The large, modern building will be located on Route 28, at short distance beyond the corporate limits, and is expected to be completed by January 1.

The \$75,000 building, to be erected on property adjacent to that of the Prince William Electric Cooperative, will incorporate the latest and most modern facilities for motorists. Dimensions of the building will be 80 feet by 140 feet.

C. L. Wheat, who came to Manassas from Waynesboro, Penna., on May 1, said that his great confidence in the future growth of Manassas "fully justified the building program."

Wheat, who lives on Grant Avenue with his wife and one child, bought the Chevrolet dealership formerly known as Hynson and Bradford, Inc.

The new building, Wheat said, will feature the most modern and efficient service facilities which will include a body and paint shop, a garage, a handsome show room, and a used car department beside the main building. The front of the main building will be covered with white vitrolite, trimmed in blue. William Hanback is the contractor.

In accordance with the corporate building code, the structure will be placed 50 feet back from the highway, but a modern drive-in service station will be situated nearer the road.

Wheat stressed that all materials and supplies, insofar as possible, would be purchased in Manassas. He also said that he expects to double the size of his nine-man staff of employees when the new building opens, and that the new employees would be obtained from the Manassas area.

"Our rapidly expanded business and our great confidence in the future growth of Manassas and vicinity," Wheat said, "fully justifies us in this undertaking. Our aim is to provide the largest and most modern facilities for motorists and Chevrolet owners in this area. Appreciation of past business is one reason why we wish to provide these excellent facilities for our friends."

Commission Says It Has Got Protests Over Rates

The proposed rate of 20 cents for telephone tolls between Triangle and Manassas which were to have become effective October 1 have been temporarily suspended by the State Corporation Commission.

Whether there will be permanent suspension of the proposed toll rates depends upon the extent of the protests which citizens of Manassas and Triangle make personally to the Commission at hearings to be held in Richmond at a date still to be set. Unless there is vigorous protest from all who oppose the toll rates the additional charge still may be put into effect.

The action of the commission was disclosed in the following letter to Mr. Fred R. Hynson, of Hynson Electric and Supply Company from J. L. Smith, assistant Chief Engineer of the Virginia Corporation Commission under date of September 8.

"Dear Sir: This will acknowledge your letter of September 6 objecting to the proposed toll charges filed by the Central Mutual Telephone Company, Incorporated, to apply on telephone calls between Manassas and Triangle.

"The proposed rates are not to become effective until October 1, 1950, and since this commission has received other complaints on the proposed charges, it now appears that it will be necessary to suspend the proposed rates and set the case down for hearing before the commission in Richmond. We regret that it will be impossible to hold such a hearing outside of Richmond.

"You will be advised at a later date of the time of this hearing."

A cheaper way for the Central Mutual Telephone Company to change over its steel lines to copper lines than by increasing the rates to subscribers was coincidentally disclosed last week—in Fredericksburg when announcement was made of the Fredericksburg and Wilderness Telephone Company obtaining an REA loan at 3 percent interest for 35 years to change over to a dial system. The following news item regarding the improvement in the telephone system there was published in the Fredericksburg Free Lance-Star and is reprinted by the Manassas Journal.

"Conversion of the Fredericksburg and Wilderness Telephone Co. plant to dial operation will attract nationwide attention this month.

"The change-over is the first telephone project financed with newly authorized Federal loans. It probably will be started tomorrow and be completed about September 15.

"In an observance initiated by the Rural Electrification Administration, through which the loans are administered, September 20 has been designated 'REA-Telephone Day' at the Fredericksburg Agricultural Fair.

"A parade, music by the Marine Band, and speeches by officials prominent in the rural telephone field are planned.

"Fredericksburg and Wilderness obtained a \$55,000 loan from REA to help finance the conversion.

"It marks the beginning of a rural loan service which REA officials expect will eventually be as widespread as the rural electrification program.

"Although the Spotsylvania County company was not the first to get a loan from the agency to extend and improve telephone services, it is to be the first in the country to put over its services and put the improvements into effect.

"Only fast work by the company made the distinction possible, REA officials said. The Federal agency announced availability of loans in April 11 and the change will come into more than five months later. Actually, the project was planned before the Federal loans became available.

"F. and W. was founded in 1908. Today it serves 170 subscribers in the Chancellor section and west into Orange County.

"In addition to new dial exchange at Five Mile Fork and the ending replacement of old-style homes with dial sets, the loan will finance rehabilitation of 40 miles of line and construction of 9 miles of new line for an additional 130 subscribers, many of whom have been waiting for service."

PMA Advice Is To Lime Land Any Time Now

Farmers of Prince William County are advised to lime their land any time now, even though it may be some time yet before winter cover crops are sown. L. J. Pattie, Chairman of the PMA county committee says lime benefits land most when it has had a chance to become thoroughly mixed after several cultivations.

The Chairman added that taking delivery of lime at this time of year instead of in spring helps to spread out the operating load at lime plants.

It's also about time for farmers to begin checking on conservation practices which they plan to carry out this fall. He suggests that farmers not delay in making arrangements for seed and fertilizer in connection with fall seeded crops which qualify for payments under the Agricultural Conservation Program.

Farmers who have not placed their orders for lime and fertilizer with the local PMA office are urged to do so as soon as possible in order to assure fall deliveries.

Child Welfare has been taken as the project of the Haymarket Woman's Club for the coming year. Beginning September 27 at the home of Mrs. Audrey Kerr the club will hold a series of monthly parties to raise funds to support their activities.

Conservation Of Water Is Advocated In State Report

Two more reports on Virginia's water resources were released by the Advisory Council on the Virginia Economy this week, and both indicated the need for water conservation.

Previously, State Geologist W. M. McGill had submitted a report to the council's water resources committee which pointed out that the ground-water level in some parts of Virginia has been steadily falling, and therefore some shallow wells are dry.

Now a report by Donald S. Wallace, Commissioner of the State Division of Water Resources, quotes figures showing the tremendous increase in use of water in recent years in Virginia. One industrial plant now uses 4 million gallons daily, as much as the City of Richmond. About 30 inches of Virginia's annual 45 inches of rainfall is always returned to the air by vegetation, in wet years or dry, leaving the remainder to run down in streams or return to the ground to recharge wells. Increasing use of this ground water, without good conservation practices, can lower the available supply dangerously.

Water costs only about 5 cents per ton compared to \$15 for gallons, according to Mr. Wallace, yet "we rise up in wrath when our city council decides it has to enlarge its water supply and finds it has to double or even triple its water rates, from 5 cents to 10 cents or possibly 15 cents per ton."

Charles E. Moore, manager of the Roanoke City water department, in a report on the economic use of water, discussed the various systems of water supply in towns and cities over the State. He came to the conclusion that "only under a self-supporting, metered water system, with the consumers paying for the actual amount of water they use, can waste be avoided and municipal systems be run efficiently and economically. (Manassas has the meter system for measuring water consumption.)

The information in the two reports has been considered by the Advisory Council's water resources committee, whose findings will be studied by the Council in making its recommendations to Governor Battle. The Advisory Council on the Virginia Economy is a 52-member body of Virginia business, civic, and farm leaders, supported jointly by the State and private industry to find means of improving the Virginia economy.

The Veterans Administration has broadened the requirements that must be met by farms where veterans may take on-farm training under the GI Bill. The newly expanded requirements now may include farms where the feeding, breeding, and management of live-stock is the main farm business. The same applies to poultry farming and other types of specialized farming commonly followed in the area. Previously, only farms where tilling of the soil was the chief business were eligible for on-farm trainees.

1950 Wheat Acreage Allotments Mailed

Prince William County farmers are now receiving allotment notices giving the amount of wheat they may seed this fall for the 1951 crop, the local office of the Production and Marketing Administration has announced.

Individual allotments in most cases do not vary a great deal from 1950 and represent a fair division of the county allotment based on each farmer's recent wheat production history.

Mr. L. J. Pattie, PMA county committee chairman is asking farmers to cooperate under the 1950 wheat program by seeding within their allotments. "By doing so they can be sure of getting price support at least equal to the level this year," he said, "and they will be assisting toward continuing our present sound wheat market, both from the standpoint of supply and price."

"Better Balance" makes MERCURY just right for you!

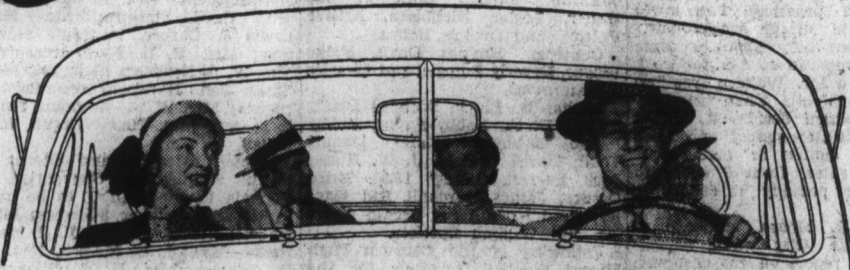

1. You get the right riding comfort!

Almost the very moment you set foot in the Mercury you know you've found the car you've always wanted! Big! Roomy! Leg roomy, too! And so quiet! So utterly QUIET! You hardly know you're moving—so smooth and silent is that Mercury ride.

2. You get the right roadability!

Try it on a curve . . . a rough road . . . a tight spot in downtown traffic. This big Mercury handles them all—and with ease. "Stedi-Line" steering . . . "Cushion-Coil" springing . . . a super-rigid chassis make owners call it the smoothest riding car they ever drove!

3. You get the right power!

You've got "get-up-and-go" to spare in Mercury! Its big, V-type, 8-cylinder, made-only-for-Mercury engine is right for the car—and the car is right for the engine! Mercury is "America's No. 1 Economy Car!" Drive it yourself—and see why!

Service to subscribers will be increased from 14 hours a day to 24 hours and the present toll charge between the P. and W. system, and C. & P. Telephone Co. exchange here will be dropped.

The new and improved service in the Chancellors exchange is considered by REA officials as a major milestone in the agency's loan program, which was authorized by Congress last year and came about because fewer American farms had telephone service in 1945 than in 1920. In 1945, 31.8 per cent of the country's farms were served, according to a survey by the REA. In Virginia, 33.5 per cent of the farms had telephone service in 1945. It is estimated that 141,216 farms in Virginia did not have telephone service on the latter date. The situation in the rural telephone field is comparable to that which existed in rural electrification in 1935 when REA came into service.

In the telephone field, as in the electrification field, REA loans are for periods up to 35 years and bear 2 per cent interest.

Ballet Class To Open Here

Arrangements have been made with the Marion D. Venable School of Classic Ballet to have a branch school in Manassas. Miss Betty Wright, a soloist with The National Ballet Company and also a faculty member of Miss Venable's Washington school, will conduct the classes.

Miss Venable established her school in Washington fifteen years ago. It has become nationally recognized as a school for outstanding training in ballet as well as other types of theatrical dancing. She has trained many students who have entered the various fields of the profession, motion pictures, musical productions, opera companies, ballet companies, and, most recently television.

The Washington school has a number of artistic teachers, all masters in their own specialized type of dance art.

Miss Venable is founder and director of The National Ballet Company, an organization formed to give opportunity to young dancers and provide further artistic and cultural development of the dance for Washington and vicinity.

Miss Peggy Nicholson of Centerville and Walton K. Weber, son of Mr. and Mrs. Max Weber of Manassas, were married on Wednesday evening, September 6, at 7:30 p. m. Mr. Weber, a graduate of Osborn high school, is now employed by the Library of Congress. After a northern wedding trip, the newlyweds will reside in Catharpin.

Fleishman-Garber

By Mrs. Fred Shepherd
Miss Helen K. Garber, daughter of Rev. and Mrs. I. J. Garber, of Bridgewater, Route 2, became the bride of Allen M. Fleishman, son of Rev. and Mrs. D. D. Fleishman, of Nokesville, in a double ring ceremony at the Sangerville Church of the Brethren on Friday evening, August 25.

The Rev. I. J. Garber, assisted by the Rev. D. D. Fleishman, fathers of the bride and bridegroom officiated at the ceremony. The church was decorated with palms, candelabra, baskets of white lilies, white gladioli and clematis.

Mrs. Nell Corbett, of Bridgewater, played the wedding march and Miss Ruth Stull, of Frederick, Maryland, sang "Through the Years," "Indian Love Call," and "The Lord's Prayer" at the end of the ceremony.

The bride, given in marriage by her father, wore a gown of white slipper satin, the fitted bodice of which had a bertha with lace yoke. The sleeves were long and pointed over the hands. The gored skirt fell from the waist into a long train. Her only adornment was a string of pearls worn by her mother on her wedding day. Her veil of bluish was fingertip in length and fell from a sweetheart headpiece which was made of satin which matched her dress. The bride's bouquet of white roses was centered with a white orchid.

For her going-away outfit, the bride was attired in a burgundy suit with navy blue accessories. Her corsage was a white orchid.

The matron of honor was Mrs. Harry N. Arey, of Bridgewater, and the bridesmaids were Mrs. Paul E. Kline of Manassas, and Mrs. Jesse B. Geisler of College Park, Maryland.

The dresses of the bridesmaids were fashioned on the same lines as that of the matron of honor and were aqua in color. Their arm bouquets were also of mixed garden flowers and tied with yellow ribbon.

The bride's mother wore a gown of navy trimmed in white, with black accessories and a corsage of red roses. The groom's mother was dressed in light blue with white rose corsage.

A reception was held at the home of the bride following the ceremony.

Herbert Ridder of Oakland, Maryland, served as best man while ushers were Norman Halterman, Mathias, West Virginia, Kurtz Alderman, Floyd, Virginia, Charles D. Geisler, College Park, Md.

Following a southern wedding trip the couple will make their home at Bridgewater. The bride attended Bridgewater College and is now a stenographer in the office of the dean at Bridgewater College. The bridegroom is a senior at Bridgewater College.

Stock Cars To Race Sunday At Longview

The first stock car race ever held at Longview Speedway will be seen there this Sunday at 2:30 p. m. EST when Joe Wright and his Northern Virginia Stock Car Association open the fall meet.

Longview officials say the racing organization has promised to bring 30 to 35 cars to Manassas for the five scheduled races.

John Counts, Longview manager, says many spills and crashes are expected, because of the dirt track here. Stock cars, he said, usually race on asphalt and the dirt track will be an added hazard.

The same racing outfit is due to race here each Sunday until December.

Revival services will be held in the Clinton Baptist Church beginning Sunday, September 17, at 11 a. m. The pastor, the Rev. Howard Caviness, will be assisted by the Rev. John D. Edens of Manassas, who will deliver the sermon. Services will be held each evening during the coming week.
