Red Cross Shy Over \$1600 To Reach Quota

This week's report from Red Cross Fund chairman, Mrs. Joseph Mills Hanson, shows Prince William to have in hand to date \$1,720.90, or 32 per cent of its goal of \$3,300. About one-half of the solicitors enrolled in the campaign are still working, and are being allowed time beyond the end of the month in order to give them opportunity to make neighborhood coverage as thorough as possible, Mrs. Hanson said.

Districts nearest their individual quotas are Manassas, with 74 per cent of its \$1,650 goal, and Brentsville, with 54 per cent of its quota of \$350. Other district totals include Gainesville, \$80.05; Dumfries \$93.65 and Occoquan, \$88.50. Unallocated funds amounting to \$87 are also included in the total.

2-Way Radio Installed At PWEC Plant

Prince William Electric Cooperative is justly proud of its recent addition of two-way short wave radio equipment. This consists of the transmitter and receiver at headquarters and the new 120-foot tower and antenna. Each service truck and car is equipped to send and receive messages from the office, from another crew or from a "handie-talkie" carried by one member on inspection trips.

During normal operations this radio equipment will save the Co-op operational expenses and speed up service connections as it enables the work crews to maintain continuous contact with each other and headquarters.

In case of power failures or during storms, it will be possible to restore service to any part of our 700 miles of lines serving approximately 3,000 families much quicker and with less expense to PWEC. The amount of travel required to carry out the various operations will be greatly reduced as a radius of 30 miles can be reached from headquarters about 15 miles from truck to truck and approximately 10 miles from the "handie-talkie," thereby increasing the Cooperative's ability to render desired service more efficiently.

Councilmen Frances Saunders and Wallace Hook, acting as a committee of the Town Council to secure a successor for Town Manager James Ritter, are reported much encouraged in their search. There have been eight applicants to date.

Centreville Club Women Taken For Female Convicts

A trio of civic-minded Centreville club women were this week taken for female convicts from the Occoquan Work House.

Mrs. Thomas Clure, Mrs. O. D. Yarbrough, and Mrs. E. D. Gough, members of the Rocky Run Garden Club, were busy on Wednesday cleaning, raking, and planting shrubbery on the state-owned triangle at Centreville. Clad in slacks, the ladies looked, as one of the group put it, "not very well-dressed." A passing motorist stopped and inquired of the ladies whether or not they were from the Occoquan Work House, and whether lady prisoners were required to work on State roads. "We just hauled," one of the ladies told the Journal.

The air patrol of the State Forest Service went into action in this section Monday and covered a large area spot-checking illegal brush fires.

Using the Manassas airport as base of operations, the Air Patrol used a plane equipped with a loud speaker in the wings as a means of communicating with ground forces, who were stationed at different points through the county. When a fire was spotted from the air, the observer in the plane would use the speaker system by which he could instruct the party burning brush illegally to put out his fire.

Chief Fire Warden Gordon Patton, who rode as observer, would then report the violation by loud-speaker to men stationed at strategic points. These men were District Forester P. J. Wilfory, Jr., and Foresters C. Pennock and George Blain. They in turn would be directed to the location of the fire while the plane circled overhead and directed the fire-fighter groups.

Mr. Wilfory stated that the air patrol will spot check from time to time. He pointed out that most of our forest fires came from illegal brush burning and every possible step will be taken to stop these violations.

Contract Let For Overhead At Woodbridge

The State Highway Commission this week announced the award of a \$218,206 contract for an overhead bridge and 0.583 mile of approach road to take the northbound lane of the Shirley Highway above US 1, near Woodbridge, to Guy H. Lewis and Son, McLean, Va.

Before contracts can be signed and work started, however, bid prices must be approved by the United States Bureau of Public Roads. The Federal agency will finance a portion of construction costs.

The 241-foot bridge will have a clear roadway of 28 feet, with two and a half foot safety walks.

Highway engineers pointed out that the bridge is not an interchange, but was designed for northbound and southbound through traffic only. The northbound lane of the Shirley will pass over US 1, while southbound traffic on the Shirley will merge with southbound traffic on US 1 at grade.

Traffic moving south on US 1 and wanting to turn back north on the Shirley will have two secondary roads, with interchange on the Shirley, just north of the intersection of the Shirley and Route 1.

Pending completion of the bridge and new roadway, traffic will continue to be guided by stop and go lights. A temporary northbound lane will be built from Route 1 at the traffic light north to the end of the concrete lane now under construction. A permanent connection will be made with US 1 just south of the bridge.

At the present there are 29 officers and men on the rolls, comprising residents of Manassas, Nokesville and other parts of Prince William County.

Two Wounded In Dance Hall Shooting Here

State police and the Prince William County sheriff's department are busy pressing investigation of the shooting at a colored dance hall near Manassas Monday night, which resulted in the serious wounding of a teen-age couple.

The wounded are Hazel Hall, 16, and Edward Cox, 17, both colored, of Merrifield, in Fairfax County. Both are in an Arlington hospital. The girl had a flesh wound in her left side, and the boy, more seriously hurt, was shot thru the back.

Arriving on the scene soon after the shooting were State Trooper P. P. Herndon, accompanied by Manassas police officer Gerald Peters, Haywood Washington, 22, colored, of Merrifield, was arrested by Fairfax County police and charged with the double shooting. According to the officers, Washington denied firing any shots.

Trooper Herndon and Prince William County officers, Deputies Robert Alvey and Ralph Shumate, revealed today that an additional arrest had been made in the shooting and that further arrests are probable as the investigation continues. The dance hall, located 2 miles south of Manassas on highway 702, is operated by Gerald A. Johnson, colored.

Watts Takes Over Operation Of Airport; Announces Plans

The Manassas Airport is now being operated by Dudley D. Watts of Washington, who has leased the field from the town. The lease, which became effective January 1, 1951, was authorized by the Town Council and will run for a period of one year, with the privilege of renewal on expiration.

Watts told the Journal recently that he proposes to establish a maintenance shop, flying school, and air sight-seeing service here to be known as the Watts' Aviation Service. Originally scheduled to open officially April 1, the lack of facilities and "the very sorry field" have caused postponement, he said. A Lynchburg native, Watts has followed careers in aviation both in civilian life and in the army, and is widely experienced in flying and airplane maintenance. He told the Journal that although the project is still in its embryonic stage, considerable interest has already

High Praise Given Program On Recreation

Members of the Manassas Recreation Association, at their annual meeting on Wednesday night heard Miss Marian Preece, district representative of the National Recreation Association, pay high tribute to the progress made during the past year in planning and executing a comprehensive community recreation program.

She said "It would be a credit to a community many times this size, with responsible paid leadership." The local program has been carried on to a large extent by volunteers. The only paid leadership was provided by two directors in last summer's activities, when instruction and participation in many recreational skills and games was given to hundreds of boys and girls.

Miss Preece also lauded the variety of activities offered, the baseball, softball and croquet teams, the swimming, skating and bowling parties, story hour, book club, teenage dances, the handicraft work shop, the Field Day at Swallow Field and the Hobby Show. Singled out for special commendation were the historical tours, which have been guided by Jack Rattcliffe.

Officers elected at the meeting were: President, Jack Merchant; vice-president, Ralph Hoss, Jr.; secretary, Miss Fern Slusher; treasurer, Ned Bradford. Elected to the Board were Miss Aileen Taylor, Mr. Ian Ross, Miss John Galtner, Abby Conner, Miss Catherine Dennis Baker and Frank Hoss, Jr.

Movie Is Shown By Red Cross in County

The movie film, "A Life in Your Hands," portraying the need for blood and how it is collected, is being shown in the county by Carlotta E. Gnad, county Red Cross chairman.

A record high budget and an increase in the tax levied from \$2.25 to \$2.90, revealing special levies for schools and a new jail, are shown in the tentative budget announced by the Board of Supervisors of Prince William county Monday.

Official adoption will depend on the outcome of the public hearing to be held April 30th, when the taxpayers will have an opportunity to express their opinions on the budget presented. The complete budget is carried on page four of this issue of the Journal.

The new budget calls for \$738,592, as compared with \$502,734 for the previous year.

Two special levies cause the tax increase, one of which is 50 cents to provide a capital outlay of \$57,000 for school construction, and the other amounting to 10 cents to provide \$19,500 towards construction of a new jail.

As explained by one member of the Board, the increase in budget now lies with the taxpayers and their expression of whether or not they are willing to pay the special levies totaling 60 cents, which will be required for schools and new jail.

The new tax levy was broken down as follows: \$2.05 for school operating expenses; 20 cents for general county expenses; 60 cents for capital outlays for schools and jail; and 5 cents for debt service. Giles District is exempt from the debt service levy, so its total tax levy will be \$2.75.

The tax levy on merchants' capital was reduced by the supervisors from \$1.25 per \$100 assessed evaluation to \$1.00.

Prince William Property Owner WAKE UP!

Mussolini is dead; Hitler is gone; and Stalin is the worst of all. But here in Prince William County DICTATORSHIP again raises its head under the guise of recommendations of the County Planning Board.

The best governed people are the least governed. But the purpose of the County Planning Board "IS TO REGULATE" the people of Prince William County by imposing controls, increasing taxes, and tying up the people in a straight jacket. It is the vicious zoning law again. Don't be fooled! If this ordinance is approved, you will lose control of your property.

If you value liberty; if you respect your tax dollar; if you want to keep the government of this county in the hands of the people rather than in the hands of a DICTATOR, then attend the public meeting at the Court House on Wednesday evening, April 4th, at 8 o'clock, and raise your voice against this insidious proposal.

COMMITTEE OPPOSED TO THE PROPOSED ZONING ORDINANCE

IN MEMORIAM
GEORGE L. ALEXANDER
In memory of George L. Alexander, who passed away one year ago, March 27, 1950.

Some may think we have forgotten. When, at times, they see us smile; But they do not know the headaches We suffer all the while.

They say time heals all sorrow. And helps us to forget. But time, so far, has only proved How much we miss you yet.

The world may change from year to year; Our lives from day to day; But still the memory of you, Shall never pass away.

**MERCURY WINS AGAIN
IN MOBILGAS ECONOMY RUN!**

**1951 MERCURY
WITH OVERDRIVE
IS DECLARED
"ECONOMY CAR
OF ITS CLASS"**

THIS year it's the 1951 Mercury with Touch-O-Matic Overdrive* that won first prize in Class "C" in the Mobilgas Economy Run!

Proving its pound-for-pound gasoline economy, this sleek Mercury scored amazing 59.868 ton-mile performance over a grueling 840-mile course staked out by the AAA. Virtually every kind of weather and road condition—7,000-foot ice-ridden mountain passes... sweltering, sand-swept roads of Death Valley—put the car to the test. But still, the new 1951 Mercury delivered the best ton-mile gasoline economy of any car in its class.

That's something to think about when you go to buy a 1951 car. It's good to know that the new 1951 Mercury can save you money for years to come—no matter where you drive it!

As if this amazing economy weren't enough, Mercury also offers new styling that's more than just skin deep. New riding comfort that's designed to give you a smoother ride longer. New value that can't be surpassed by any car.

Once again the facts have proved it—the new 1951 Mercury is "the buy of your life!" So drop in at our showroom and get the complete story.

*For "the drive of your life," Mercury offers you a triple choice in transmissions: Merc-O-Matic Drive, the new, simple, smoother, more efficient automatic transmission—or Touch-O-Matic Overdrive are optional at extra cost. There's also silent-case synchronized standard transmission.
