MANASSAS, VA., FRIDAY, JUNE 19, 1914.

ONE DOLLAR A YEAR

BOARD OF HEALTH ACTS

Takes Measures for Protection of the Public in Barber Shops And Other Places.

For the protection of the public and for the prevention of diseases carried by barber's tools and similar instruments, the State Board of Health has adopted new regulations which are to be enforced in barber shops, hair dressing establishments and public bath-houses in the state. The full text of these was given out recently.

The Board adopted these regulations at its last meeting, but its officers have not insisted upon their enforcement until full publicity was given to the requirements. Placards are now in press and will soon be sent out, containing the text of the regulations. One of these placards must be posted in every shop coming under the provisions of the law. The regulations for barber shops, hair dressing parlors and public bath-houses in full are as follows:

1. No person with any disease of the skin of the face shall be shaved in a public barber shop.

2. Barbers must wash their hands thoroughly with soap and water before attending any person.

3. No alum or other astringent shall be used in stick form. If used at all to stop flow of blood, it must be applied in the form of powder.

4. The use of powder puffs is prohibited.

5. No towel shall be used for more than one person without being laundered or sterilized.

6. The use of sponges is prohibited.

7. Mugs and shaving brushes must be thoroughly washed after use on each person.

8. Combs, razors, clippers and scissors shall be thoroughly cleaned after every separate use thereof.

9. Floors must be swept or mopped every day, and all furniture and woodwork kept free from dust.

10. Running water shall be provided wherever it is possible to be had.

11. All bath tubs shall be thoroughly cleansed with soap and water after each separate use.

12. All tools or instruments used by barbers outside the shop in serving any person suffering from infectious or contagious diseases are required to be thoroughly and efficiently disinfected with 15 per cent formaldehyde or by boiling immediately after using the same.

13. No person suffering from any infectious or contagious disease, including tuberculosis or venereal diseases, shall serve any barber shop, public bath room or bath house or hair dressing parlors in this State.

The regulations for manicurists and chiropodists are very similar in scope and content. In particular, they provide that no person suffering with any disease of the skin shall be treated in any public manicure or chiropodist shop. Persons suffering from infectious or contagious diseases, including tuberculosis, are prohibited from working in these establishments, paragraph 9 provides that "all scissors, clippers and other instruments and utensils shall be thoroughly cleaned after each separate use either by being disinfected with a 15 per cent solution of formaldehyde or by boiling immediately after using."

The Board announces that it will send a copy of the regulations for posting to all establishments the address of which it can ascertain. Proprietors, however, are urged to forward their names and addresses in order that they may be sure to receive copies of the regulations and be familiar with the requirements. Failure to observe the regulations is a misdemeanor, punishable in any court of proper jurisdiction.

PORTNER'S WILL IS FILED

Property Goes to Children at Widow's Death or Remarriage—Other Bequests.

The will of Robert Portner, dated March 28, 1892, was filed yesterday in the Probate Court. His wife, Anna Portner, is bequeathed the Portner residence at 1104 Vermont avenue northwest, with the contents, and a farm in Virginia, till her death or remarriage, after which this property is to go to the children.

The will gives 50 shares each of the capital stock of the National Capital Brewing Company, and the Robert Portner Brewing Company to the testator's sister, Mrs. Felixine Wilkerning. The balance of his stock in these companies is to be held in trust by the National Safe Deposit and Trust Company, for the benefit of the sister, who is to receive \$3,000 in cash, and her three children, each of whom is to receive \$1,000 in cash, and for various other relatives in this country and Europe.

The residue of the estate is left in trust with the same trust company, also named executor, for the benefit of the widow and others of the immediate family. —Washington Post.

GOOD CROPS ELSEWHERE

Weather Bureau's Weekly Bulletin Shows Drought Conditions in This State.

Favorable crop-growing weather throughout the South except in Virginia, where the severe drought continues, was reported today for the week, which ended Monday by the Weather Bureau's weekly bulletin.

It says: "Local showers in the central and eastern portions of the cotton belt greatly improved the outlook, and early planted cotton is generally reported as in good condition, but the later planted is still backward and generally in need of rain. In the western portion of the belt the weather continued highly favorably in Texas and Oklahoma, and the crop is now generally well cultivated and recovering rapidly from the previous adverse weather. In Arkansas and Louisiana, heat and continued absence of sufficient rain prevented material growth of the plants and boll weevil are reported as numerous in some localities.

"In the truck-growing region of the South some improvement occurred where sufficient rain fell, but as a rule, the several crops are suffering for rain, especially in Florida, where the drought continues largely unbroken.

"In Virginia severe drought still continues, seriously affecting all crops.

"Tobacco setting progressed in Kentucky, but elsewhere there is considerable delay on account of drought.

Eastern's New Instructor.

—Miss La Berta Meth, of Omaha, Neb., will be Eastern College's new teacher of general art and manual training. Dr. Roop informs us that Miss Meth is a literary graduate of a Nebraska college, of the Omaha Art School and of the Cooper Union Art School, New York. She has also completed a course in Pratt Institute in the arts and crafts work, has had eight years of successful experience as a teacher of public school drawing and manual training, and is "a young woman of high principle and strong character."

IMPORTANT TO FARMERS

Absolutely Necessary to Take Steps for Protection From Hog Cholera.

It is of vital importance to all hog raisers to keep his stock free from disease and more especially from those which are contagious and cause such heavy losses annually. Hog cholera is more prevalent, perhaps, than any other and is a great drawback to this industry in any state. It is readily communicated from one herd to another, and through the medium of buzzards, dogs, polluted streams and many other means, it is easily carried from one neighborhood or county to another. A more direct means of spreading the disease is carrying the infection from the pen or hog lot of a neighbor on the shoes and clothing where one has tramped around looking at his sick hogs.

The farmer himself is, to a large extent, responsible for the spread of this disease. He fails to bury the bodies of dead hogs, and leaves them where buzzards, crows and dogs have access to the carcass, become infected with the cholera germ and in a short time it is scattered over a large extent of territory. Every farmer with hogs suspected of having cholera should, if possible, establish a strict quarantine and prohibit any one from having access to the lot which is infected.

Reports from the State Department of Agriculture indicate a heavier demand for anti-hog cholera serum than heretofore and it appears to be prevalent in several sections of the state. This serum can be obtained from your Department of Agriculture at Richmond at the cost price of thirty (\$.30) cents per dose of 20 cubic centimeters, which is sufficient for a pig weighing not over 50 pounds. This will protect your hogs for several months against cholera and is highly recommended by the Department. A syringe has also been provided for giving the treatment, which is sold at the cost price of \$2.00. Full directions are sent out with each shipment for giving the treatment, which contains a table of doses for the different weight hogs. All orders are for cash and unless check accompanies the order the shipment will be made by C. O. D. express or parcel post. The serum is only put up in bottles containing five and 25 doses each.

It behooves the farmer, therefore, to take immediate steps towards the protection of his herd. If there is any possible danger of exposure to cholera, always bury your dead hogs with a liberal supply of quick lime. Clean up your hog lots, pens, feeding troughs and so forth, with a reliable disinfectant and scatter lime near the pens and

No Nasty Masses.

—A meeting of a committee of the Virginia Grand Lodge of Masons, which was held at Lynchburg to consider a location and plans for the erection of a home for aged indigent members of that order in the State, has brought attention to a remarkable condition, for out of the investigation up to this time is developed the fact that there seems to be not a single Mason in the 30,000 in Virginia who needs such assistance as would be provided in the proposed home. This statement is made by a member of the committee after going over carefully all of the data collected by the committee in its preliminary work.

UNPREPARED TO RESPOND

Amusing Story of a Country Village and an Idle Fire Department.

The little rural town of B. proudly owned an old-style hand fire engine, which, however, had hardly been called out "professionally" since its purchase, twenty-five years before. It was housed in the barn of old Silas Hornby, the general storekeeper of the village; and there, from long disuse, it had accumulated dust, rust, cobwebs, and other things.

One day, some one discovered that an abandoned, tumble-down shanty on the extreme edge of the town was afire. Naturally such an extraordinary happening aroused great excitement, and nearly the whole population of B. started at a run, either for the scene of the "conflagration" or for the "engine house." The members of the volunteer fire department, led by Joel Nash, their chief, naturally headed for the latter place. The old storekeeper was the last to hear the news of the fire. He sat dozing behind the counter at the post-office end of the store, when Nash and the others burst in upon him.

"Sit! Sit! Gimme the key to the barn!" cried Nash. "That old shack in Plunkett's pasture is all ablaze, and we want the ingyne quick!"

"Hey! Fire! Ingyne!" repeated Hornby, halfdazed, and perhaps hoping it was only a bad dream. "Ye want the ingyne, ye say! Good! Good! My ingyne, now! Who'd ha' thought—"

"Yes, yes, it's afire, and we want it right now!" interposed Nash, heedless of the confusion of his pronouns. "Gimme the key, can't ye? Where is it? Say, ye needn't git so frustrated about it, Si," he added, as he saw the old man's extraordinary perturbation. "'Tain't dangerous; the fire ain't going to hurt no one. There ain't nothing nigh to ketch, nor no wind to speak of; only we've got to git there with the ingyne mighty quick, or it'll be all burned down and out. What in time ails ye, Si? What are ye so upset about? Don't I tell ye there ain't no danger to nobody nor nothing?"

"It ain't that," faltered Hornby, casting a pleading, apologetic look round over the group that had been crowding into the store at Nash's heels; "but ye see, the fact is," he went on to confess, shamefacedly, "there hadn't ever been a fire in town, not since I could remember, and not thinking there'd be liable to be any call for the ingyne, and me being unusually short of good storage room this fall when the crops come in, I—well, the truth is, Joel, at this present moment the old tub is chock full of—"

Proper Disposal Required.

Attention is called to an act of the Legislature, Chapter 13, Acts 1912, which requires the cremation or burial of all dead animals of fowls which die from any disease. This law, however, does not apply to any county until it has been adopted by the Board of Supervisors. It is very important, therefore, that the matter be brought to the attention of your Board and that they be urged to adopt its provisions and provide for its rigid enforcement. The practice of allowing carcasses of dead animals to be exposed at a prolific means of scattering contagious diseases all over the community, especially hog cholera. Immediate action should be taken.

ACCIDENT AT NOKEVILLE

Young Man Killed by Fumes in Well—Skull Fractured in Fall—Funeral.

Harold Gough, 26 years old, son of Mr. Joseph Gough, of Nokesville, met his death Saturday morning while working in a well on the property of Mr. L. N. Wittig, near Nokesville. To avoid possible accident, the well had been covered the evening before and the air was foul as a result of the dynamite used. He remarked the heavy odor when lowered into the well and his fellow workman urged him to come out quickly lest he be overcome.

As he neared the surface he slipped into unconsciousness and dropped to the rocks below. It took some time to lift his body to the ground and shortly after the rescue he breathed his last. Upon examination it was found that his skull was fractured.

The funeral was held Sunday afternoon. The service was conducted by Rev. L. R. Markwood, of the Methodist circuit, and interment was made at Gainesville.

RAILWAY EXHIBIT ABROAD

Handsome Display Made by Southern at Peace Exposition in London.

At the Anglo-American Hundred Years Peace Exposition, now open in London, the Southern Railway System has the only exhibit made by an American railway and much attention has been attracted by the handsome display of Southern agricultural, horticultural and mineral products. The exposition will be open until November and will be visited by millions of people who will thus have the advantages of the South put before them.

The exhibit is enclosed by polished balls and pedestals of Tennessee, Alabama and North Carolina marble, set on oak posts connected by brass railing. Beneath the railing are blocks of granite from North Carolina and South Carolina quarries. Show cases at the front corners contain specimens of cotton stalks seven feet high filled with bolls. Other cases and tables contain tobacco, fruits, corn and other grain. The useful minerals found in the South such as iron ore, coal, talc, mica, rutile, zinc, silica, kaolin and other clays, granite, limestone and such other minerals and stones as have an active demand in commerce and art are shown.

There are displayed on the walls on easels and attached to the railings dozens of agricultural, scenic and city views of the South, including panoramic views of cities, harbors, industrial and mountain scenery. All the views are large, all are colored and all are intended to give a good idea of the attractions, resources and development of the southern states.

Temperance Addresses.

Mrs. Emma Howland, a speaker of note in the temperance field, is to address the special meetings under the auspices of the Woman's Christian Temperance Union. Her appointments follow: Sunday, 11 a. m., Sudley, and 7:30 p. m., Grace M. E. Church, Manassas; Thursday, 7:30 p. m., Nokesville; Sunday, June 28, 11 a. m., Occoquan; Monday, June 29, 7:30 p. m., Belle Haven Church, Kopp; Tuesday, June 30, 7:30 p. m., Woodbine Baptist Church.

—A party from Manassas High School spent yesterday at Bull Run. The trip was made by motor.

BENNETT SCHOOL CLOSES

Successful Session Over—Teacher and Student Glad of Well-Earned Rest.

Report cards, many bearing the happy words "Promoted to — grade," were distributed among the 330 students of Bennett grammar school yesterday and the merry youngsters departed to enjoy a happy vacation.

A successful year is over and teacher and student are glad to be out. The teachers the past session were Mrs. C. M. Larkin, principal, eighth grade; Miss E. W. Garth, seventh grade; Miss A. Selina Taylor, sixth grade; Miss Kate N. Wilcox, fifth grade; Miss Beatrice Limstrong, fourth grade; Miss Hattie B. Wilcox, second and third grades; Miss Grace B. Moran, first and primary grades, and Mrs. Templeton Hodge, instructor of music. The promotions follow:

Promoted to high school—Karl Kincheloe, Thomas Lynch, Leslie Morrill, Clarence Meets, Emmett Rice, Douglas Roszel, Aylett Wilson, Frank Rexrode, Mattie Athey, Elizabeth Buck, Rita Brown, Ella Garrison, Roberts Haislip, Katherine Larkin, Margaret Lewis, Edith Merchant, Victorine Nicol, Sallie Shoemaker, Mamie Steele, Grace Todd and Ruth Leith.

Promoted to eighth—Elsie Rosenbawer, Laura Willis, Elizabeth Clark, Pauline Beachley, Stuart Muddiman, Emily Round, Elizabeth Larkin, Burke Steele, Benna Steele, John Broadina, John Bell, Eugene Wine, Burchell Leachman, Leonard Utterback and Robert Saffer.

Promoted to seventh—Lilla Ashby, Effie Breeden, Elizabeth Covington, Gladys Johnson, Lanier Moran, Mary Roszel, Kathleen Spies, Jessie Weir, Lillian Wheeler, Benham Ayres, Thomas Carter, Warren Coleman, Richard Morris, Roy Rexrode, Charles Trimmer, John Wilson, Winfred Young and James Jasper.

Promoted to sixth—Burdette Athey, Forrest Athey, Robert Brown, Edwin Connor, Harcourt Dickens, Victor Haydon, Ralph Larson, Howard McLearn, Gilbert Merchant, Walter Reed, Marvin Rice, Beverley Walker, Harvey Young, Blanche Arnold, Katherine Ayres, Caroline Beachley, Celia Beavers, Lucy Breeden, Macon Broadina, Sadie Hixson, Myrtle Kincheloe, Lillian Larkin, Fannie Taylor and Baulah Whitmer.

Promoted to fifth—Richard Utterback, Reginald Armon, Oden Breeden, Hilda Lewis, Jack Merchant, Joseph Lewis, Carle Young, Stewart Payne, Emmett Cather, Taylor Weir, Mary Bell, Martha Rexrode and Ruth Shaver.

Promoted to fourth—Laird Arey, John Shaver, Georgia Harell, Jessie Payne, Sarah Leachman, Elizabeth Pore, Helen Coleman, Clara Rexrode, Elizabeth Shoemaker, Hope Fleming, Elizabeth Cornwell and George Larkin.

Promoted to third—Rose Rice, Christine Moser, Ruth Kincheloe, May Brown, Susan Ish Harrison, Garnette Brown, Carleton Athey, Paul Arrington and John Gode.

Promoted to second—Lona Todd, Nellie Whitmer, Betsy Payne, Madeline McCoy, Lucy Larkin, Christine Bryant, Thelma Bryant, Claudine Hewitt, Margaret Hibbs, Elizabeth Coleman, Margaret Cornwell, Horace Adamson, Edgar Wilson, Everette Thomasson, Charles Roszel, Harry Rexrode, Glen O'Neil, Nicholas Lewis, Ashby Lewis, Wilmer Jasper, George Johnson, Willard Cross, John Breazeale, Garland Baker and Dennis Baker.

Promoted to high first—Lula Hixson, Martha Haislip, Robbie Sprinkel, Archie Reid, Loring Payne, Lewis Myers, Archie Muddiman, Paul Kincheloe, Everette Embrey, Hawes Davison and Edgar Harey.

EGGS BY PARCEL POST

A System of Marketing That Offers Possibilities of Better Prices for the Producer.

That eggs can be marketed successfully by parcel post and that this method frequently secures a better price for the producer and fresher article for the consumer has now been demonstrated to the satisfaction of the experts in the U. S. Department of Agriculture. The Department conducted tests that covered a period of five months. At the end of that period it came to the conclusion that the parcel post was of particular value to the man whose flock was too small or who lives too far from express service to permit him to ship his eggs in the regular commercial case which holds 30 dozen eggs.

In the course of these experiments the Department shipped 9,131 eggs in 466 lots. Of these 327 or slightly less than 2.6 per cent were broken, but only 209 or slightly less than 2.3 per cent were absolutely wasted. The others, though broken, could still be used. The percentage of breakage, moreover, will be greatly reduced, it is said, when the employees of the Post Office become more accustomed to handling such fragile matter.

That the eggs should be properly packed is of course essential. This implies time, care and some expense and is one reason why no attempt should be made to market by parcel post any but the finest quality of eggs, for they alone will bring remunerative prices. Moreover, if the customer who buys in small lots finds that any considerable portion of his purchases is undesirable or even unattractive in appearance, he will not trouble to ask for deductions on that account; he will simply discontinue his orders. The producer, therefore, must see to it that all the eggs the postman delivers are what he represents them to be.

This can only be done by candling them. Candling, the process of testing eggs by passing light through them so as to reveal the condition of the contents, is omitted by many producers who rely on care in collecting to eliminate all bad eggs. It is, however, impossible to avoid an occasional accident and candling is therefore advisable as an extra precaution. A simple outfit can be made out of a small hand lamp and an ordinary pasteboard box sufficiently large to be placed over the lamp, after the ends have been removed, without risk of fire. In order to supply air to the enclosed lamp, notches should be cut in the edge on which the box rests. A round hole is then cut in the box at the level of the lamp frame and the candling done by holding each egg against this hole while the rest of the room is in darkness. The light from the lamp reveals the contents of the egg and those that show any defect can be rejected.

If possible only infertile eggs should be sent to market. Fertile eggs deteriorate rapidly in warm weather and are subject to much loss. A broody hen on the nest or accidental exposure to a high temperature may start incubation and cause the egg to spoil and injure the shipper's reputation. It is advisable, therefore, to retain the fertile eggs for home use or dispose of them in some other way than through the parcel post. This is, also true of soiled eggs. Eggs should never be washed when intended for high-class trade, since the process removes a natural mucilaginous coating and opens the pores of the shell.

After this thorough elimination of the unfit, the eggs that remain should be carefully packed in a container of corrugated pasteboard, metal, wood or other suitable material. The post office regulations require this container

to be so wrapped that nothing can escape from the package and each egg in addition to be wrapped separately in excelsior, or some such material. Any soft paper serves the purpose quite well. As for the container itself, there are many kinds on the market and the Department of Agriculture investigators have not attempted to decide which is the best. Instead they refer inquirers to the various State experiment stations which have available information on this question.

In packing eggs it is well to sort them as far as is practical according to size and color and to keep for home use those which are irregular in shape, unusually long or thin-shelled. Containers that have been badly stained by broken eggs should be replaced by new ones and the package wrapped as neatly as possible. In short every effort should be made to deliver as attractive a package as possible into the hands of the customers. The extra expense will be little and the returns in increased trade great.

The larger the shipments that the producer can arrange to make, the cheaper he can sell his eggs. Within the first and second zones of the parcel post service, a package costs five cents for the first pound and only one cent for each additional pound. Ordinarily eggs weigh about 1 1/2 pounds a dozen, which with the additional weight of the wrapping and container, would make a package of a dozen eggs weigh between two and three pounds. The postage on this would be 7 cents. If another dozen eggs were included in the package the postage would not be more than 9 cents, or 4 1/2 cents a dozen eggs.

To the value of the eggs and the cost of postage must be added the cost of the container and the wrapping. For two dozen eggs this may be estimated at 8 cents. With postage at 9 cents, it would, therefore, cost 17 cents to market two dozen eggs, or 8 1/2 cents a dozen. By shipping in 10 dozen lots, it is estimated that the marketing cost can be reduced to 4 1/2 cents a dozen.

Where the container can be used more than once, this cost can of course be somewhat reduced. Large sized containers will stand from two to four trips, smaller ones three to five, so that it will pay the producer to induce his customer to return the containers periodically. The postage required for this is of course deducted from the bill for the next shipment.

Although it is obviously advantageous both to the producer and consumer that the eggs be shipped in large quantities and consequently economically, it must be remembered in taking orders that the supply of eggs undergoes the greatest fluctuations. In times of scarcity it is not good policy for the producer to send all his output to one customer, neglecting his other friends, nor in times of plenty can he expect to dispose of his entire stock to his regular customers. These points must be given due consideration and the quantities that are to be supplied at each season of the year carefully stated in the contract. The same applies to the supply.

A good method of determining this is to take as a basis the wholesale price of eggs on the open market and add to this a certain number of cents a dozen for the new laid parcel post eggs. Care should be taken, however, to see that there is no possibility of any misunderstanding arising in regard to the basic price. To obviate this, the quotations published in a given newspaper or some other similar authority may be accepted.

Eggs are scarcest and highest in the fall. Chickens should, therefore, be hatched early enough to begin laying at this season. Moreover little difficulty will be experienced then in disposing of the entire output and it will in consequence be unprofitable to divert any of the supply

to home purposes. This difficulty can be overcome by preserving eggs in the spring, when they are plentiful and cheap. A solution of water glass, which can be obtained at drug stores for 75 cents a gallon, should be used for this purpose, each quart being diluted with with 10 quarts of water which has been boiled and cooled. The eggs should be packed in stone jars or crocks and the solution poured over them, or they may be carefully placed in the solution each day. Eggs kept in this way are perfectly good but naturally they do not command the prices of those newly-laid. The shells sometimes break in boiling, but this may be avoided by puncturing the end with a pin just before they are dropped into the water. The only drawback to marketing eggs by parcel post appears to be the time and trouble involved in packing them. This is compensated for by the extra price that can always be obtained for products that are absolutely reliable. At bottom, therefore, the shipper's success depends upon the care with which he safeguards the reputation of his products. Satisfied customers will soon build up his business for him. Any Post Office will furnish complete information in regard to regulations and rates.

and, as already stated, the several State Experiment stations have information in regard to the various types of shipping boxes. The results of the U. S. Government's investigation of the matter have been published in Farmers' Bulletin 594, of the Department of Agriculture, which will be sent free on request.

and, as already stated, the several State Experiment stations have information in regard to the various types of shipping boxes. The results of the U. S. Government's investigation of the matter have been published in Farmers' Bulletin 594, of the Department of Agriculture, which will be sent free on request.

THINK OF IT

30,000 Persons Publicly Recommend Our Remedy—Some Are Manassas People.

Over one hundred thousand have recommended Doan's Kidney Pills, for backache, kidney ills. Thirty thousand signed testimonials are appearing now in public print. Some of them are Manassas people. Some are published in Manassas. No other remedy shows such proof. Follow this Manassas woman's example.

Miss E. Goodwin, Main St., Manassas, Va., says: "I do not hesitate to endorse Doan's Kidney Pills. They are the most satisfactory remedy I have ever used and I know of several others who have been helped by them. There is not the slightest doubt in my mind of the efficiency of Doan's Kidney Pills in curing kidney complaint. I strongly recommend them for this trouble."

The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Miss Goodwin had—the remedy backed by home testimony. At all drug stores, Foster-McBarnes Co., Proprietors, Buffalo, N. Y.

Wood's Seeds

Seed Potatoes FOR FALL CROP.

The planting of Seed Potatoes in June and July is increasing to a wonderful extent. A great many farmers claim that they give better crops planted at this time than they do when planted in the spring. Potatoes planted in June and July mature in the cool weather of the fall, at a time when they can be harvested to great advantage.

The Seed Potatoes we offer are put in cold storage early in the season, so as to keep in first-class, vigorous condition.

"Wood's Crop Specialist" gives prices and full information about Late Seed Potatoes and all other Seasonable Seeds, mailed free on request.

THE HOPE OF RADIUM

Conscientious newspapers should be slow to give unqualified endorsement to the agency of radium as a cure for cancer. The ravages of this terrible, and still mysterious, disease lead its victims to search even more credulously for a panacea than do sufferers from tuberculosis. But treatment of tuberculosis is standardized and simplified, while treatment for cancer, save in its early stages, is purely tentative—and less than tentative where radium is concerned.

All the medical profession knows about radium in connection with cancer is that it appears to arrest certain forms of the disease in incipiency. Radium has yet to prove its efficacy where cancer has far progressed, and there is even beginning to be fear that, in some cases, its influence is more malignant than beneficial.

Scientists say that the use of the knife is the one assured hope of cancer, and even here results cannot be sincerely promised when the disease has gone long neglected or unsuspected. Early and complete excision is indicated, and under these conditions the percentage of non-returns is large and encouraging.

Radium may some day assume its true proportions as a healing agent in a large range of diseases produced by bacilli. Energetic experimenters are constantly working to ascertain its possibilities and limitations. But until these are disclosed, it is bad policy to persuade any person to abandon the more proved method of the knife for a hope that may prove illusory.—Times-Dispatch.

THE RETURN OF "TOMMY"

This is the month of commencements, and every old schoolboy and every college alumnus in the country feels a spark of sympathy kindle in his breast at this time of the year when he reads of the educational ceremonies, big or little, that carry his mind back to the day when he was saying good-by to boyhood and setting out on the serious journey of life. But we believe no other scholastic incident of the month will appeal so strongly to this feeling as the story of Wilson's reunion at Princeton Saturday with his old college friends and with his class of '79. And it will do so because it was so human and so natural, so free from artificiality, so touched with the spirit and the sentiment that everybody understands. It was not really President Woodrow Wilson who went back to impress his contemporaries and the younger generation with the heavy load of laurels that he has gathered since the graduating day of long ago. It was the return of "Tommy" Wilson, bringing back with him "Tommy's" old heart and sympathies, and anxious to revive the thoughts and feelings of that momentous day of youthful pride and anticipation. We wager he enjoyed Saturday's reunion more than anything for many a year past, and we wager the country is glad to note the return of "Tommy." President "Woodrow" is very dignified and impressive, but graduate "Tommy" comes closer to us, as he does to his classmates, and furnishes a touch of nature that creates a sort of general kinship in sentiment and sympathy.—Baltimore Sun.

You can't run a live town or anything else except a cemetery with dead men. A man is dead when he is destitute of public spirit, opposes improvements, and finds fault of things in general. The only proper way to deal with such men is to take them out and bury them. Dead also to self-respect is the man too lazy to work and who thereby, if he is married, throws all the burden on his wife.—The Sun News.

DAIRYING IN VIRGINIA

Only a very few years ago there was not a creamery in Virginia. Mr. Saunders, State Dairy and Food Commissioner, after a tour of the State, says that there are now being made in Virginia 1,000,000 pounds of butter annually. Mr. Saunders also makes the significant statement that practically all this Virginia butter is being sold outside the State. This means that a great deal of "new money" is being brought into Virginia every year in payment for the product of our creameries. This is better than "swapping dollars" among ourselves; but the fact should not be overlooked that hundreds of thousands of dollars are going out of Virginia every year for butter.

Why not have creameries enough to supply our home market? Why make butter eaters in other States pay the freight on butter from Virginia? Why make butter eaters in Richmond and Norfolk and Petersburg and Lynchburg and Danville and Roanoke and other cities and towns of Virginia pay for the long haul of butter from Western and Northwestern creameries?

We are interested in seeing our butter producers hold the outside markets which they now have and control also the Virginia market. This would mean more creameries and more money for Virginia dairymen.

The dairying industry in Virginia is in swaddling clothes. The extraordinary rapidity with which it has developed in the past few years leads us to predict that the day is not far distant when Virginia will be classed among the leading States of the Union in the value of its dairy products.—Richmond Journal, June 19th.

COMMEMORATIVE COINS

The United States has never made much of a practice of issuing special commemorative coins. The Columbian half-dollar, of course, is well remembered. For the St. Louis exposition a special gold dollar was coined, though it never reached the general circulation. But as a rule the government has used postage stamps rather than coins for commemorative purposes.

Now, however, a bill has been offered in Congress providing for the coining of a special quarter to commemorate the opening of the Panama Canal. The author of the measure is Representative Metz, of Brooklyn. He would begin issuing the quarter on the first of next year and continue it exactly twelve months. On one side of the coin is proposed a design commemorative of the canal's opening and on the other a design celebrating the century of peace between the United States and Britain.

It is too early to tell how popular the Metz suggestion will prove. It seems hardly possible that this bill can be enacted at the present session, in view of the press of other and more important business, and the opening of the next session comes so near the end of the year that the government could scarcely get ready to coin the new quarter at the time stipulated.

There seems no particular reason why postage stamps, rather than coins, should be used for commemorative purposes. If the coin be of low enough denomination to give it general circulation, its lesson of patriotism would seem to be as effectively taught as if intrusted to a sticker which ordinarily finds its way into some waste basket without delay. At least the virtue of practical indestructibility belongs to the coin.

Why not let the numismatist have a chance? The philatelist has enjoyed his virtual monopoly long enough.—Cleveland Plain Dealer.

GOOD IN THE HUMAN RACE

The human race is a good race to belong to. It has plenty of vices, and many of them are hard to be patient with. But it has magnificent virtues. On a steamer that has just arrived in port the mate went down into a gas-filled hold and was suffocated. One after another five men went down, each to save the men who went before, and each perished, and the rest of the crew would have followed if the captain had not interfered. Every man knew the fate of the mate and heard the body of the next man fall from the ladder as he was overcome, and yet every man on board was ready to face death in the hold.—Philadelphia Record.

Drives 4,000 Miles Behind a Team of Goats

Washington, July 22—Having driven a team of Angora goats a distance of more than 4,000 miles, Captain V. Edwards, a ranch owner of San Diego, Cal., arrived here from San Diego yesterday.—News Item.

This is almost as ridiculous as the man who recently drove fifteen miles and back, taking almost an entire day, to pay a debt of ten dollars.

Had he been one of our customers with a check account he could have mailed the check for 2 cents postage, saved his time, his horses and still have a receipt for the money paid. A Check Account is a real convenience.

CONNER BUILDING

MANASSAS, VIRGINIA

BRIEF LOCAL NEWS

Mr. and Mrs. J. R. B. Davis now occupy the Ransdell property at the corner of Church and Battle streets. Childrens Day will be observed at Asbury M. E. Church next Sunday, June 21, at 3 p. m. All are invited. The members of the L. T. L. are requested to meet at Grace M. E. Church next Wednesday, June 24, at 3 p. m. Miss Virginia Valentine Walker entertained at a party Wednesday evening at her home on South Main street. Mrs. W. H. Brown died of tuberculosis this morning at her home near Orlando. She was about thirty years old. Mrs. Mary P. Marsteller has been quite ill the past week at the home of her daughter, Mrs. Gilbert Lunsford. Miss Sallie M. Allen died last Friday at her home at Gainesville. She had been suffering from progressive paralysis. The young students of Bennett Grammar School yesterday enjoyed a picnic in the grove on the property of Mr. Round. Dynamite used in the sewer trench on Battle street late yesterday afternoon played havoc with the postoffice windows. Dr. H. U. Roop will preach Sunday morning in the Presbyterian church. His subject will be "The Secret of a Happy Life." Little Miss Hope Fleming entertained her young friends at a party last Saturday at the home of her grandmother, Mrs. B. J. Holden. Rev. J. F. Burks will conduct services at Trinity Episcopal Church next Sunday at 8 p. m., and at St. Anne's Church, Nokesville, at 11 a. m. Miss Daisy Simpson, daughter of Mr. and Mrs. S. E. Simpson, who was recently taken to a Washington hospital, has returned to her home here. Members of Prince William Lodge, No. 271, I. O. O. F., are requested to be present at the Hall next Monday at 7:30 p. m. for a special meeting—degree work. Miss Emily Johnson, Prince William county demonstrator, leaves Monday for Burkeville where she will attend a meeting of the demonstrators of the Virginia tomato clubs. Mr. W. W. Davies is soon to open a sanitary grocery and five and ten cent store in the Weir building on West and Centre streets, formerly the place of business of Mr. E. Wood Weir. The third district Democratic primary, equivalent to election, held Tuesday, resulted in an overwhelming victory for Congressman Andrew Jackson Montague over State Senator Louis O. Wendenburg. Mr. and Mrs. J. O. Judik received slight injuries last Sunday while driving on Centreville road. The singletree broke and struck the horse which took a bad run, pitching Mr. and Mrs. Judik from the vehicle. The annual recitals of the music students of Miss Margaret Temple Hopkins are to be held in Conner's Opera House Monday and Tuesday, June 29 and 30. On the second night medals will be awarded to the primary students. Rev. H. L. Quarles has arranged to hold the usual Sunday evening service at Manassas Baptist church at 7 p. m. next Sunday that the congregation may have the opportunity of attending Mrs. Howland's temperance address which is scheduled to be delivered at 7:30 p. m. at Grace Methodist Episcopal church.

After practically having shared plans for resuming cavalry drills at Winchester this summer on account of the Mexican trouble, the War Department is making arrangements to have the camp ready for occupancy by the middle of July. Mr. C. H. Yarborough, jr., who successfully completed the past term as director of agriculture of Manassas High School, leaves Monday for Covington where he will teach agriculture during the summer months at the State Normal School. Mr. and Mrs. Henry Camper, Master Billy and little Miss Mary Anne Camper leave this afternoon to spend some time in Irvington. During their absence their West street residence will be occupied by Mrs. McElroy and daughter, of Georgia. The ladies of All Saints' Catholic Church are busy arranging a lawn fête to be held Wednesday, July 1. There will be special attractions. Come, bring your friends, have your fortune told, help eat the goodies, and enjoy the evening. More definite information will be given next week. Mr. Clarence W. Egan, general claim agent of the B. & O. R. R. Co., is to deliver a unique stereoptican lecture in Conner's Hall, the date of which is to be announced next week. His subject is "The Soul of the Animal Kingdom," or "Christian Charity Toward Dumb Animals." Young and old will be delighted to hear this season lecture, which is to be given for the benefit of the "Jennie Smith Home Fund," a feature to be explained later. The police last night were asked to locate Washington relatives of Michael Berry, fifty years old, who was picked up yesterday by the town sergeant of Manassas, Va. Berry is said to be ill. He told the Manassas authorities he had a son in business in Center Market, and gave his address as 902 Eleventh street southwest. Inquiry by the police failed to locate the son at any of these places. Washington Herald. Berry is still being cared for here. Representative and Mrs. H. D. Flood entertained at a dinner last night at the Chevy Chase Club, when their guests included Senator and Mrs. Key Pittman, the assistant secretary of state and Mrs. Osbourn, Gen. George P. Barnett, Miss Lucy Burleson, Miss Genevieve Clark, Miss Carolyn Nash, Miss Flora Wilson, Mr. and Mrs. Lorimer Graham, Mrs. Keeler of New York; Representative Whaley, Representative Connelly, Mr. Vouros, charge d'affaires of Greece, and Mr. John W. Clifton. News reached here yesterday of the death of Mrs. Eliza Shepherd, widow of Richard Shepherd who died Sunday morning at the home of her brother-in-law, Mr. Joseph Shepherd, near Minnieville. She leaves three sisters, Mrs. Mahlon Glascock, of this county, Mrs. Charles Norman and Mrs. Henry Myers, of Loudoun, and two brothers, John F. Gulick, of Kansas, and Milton Gulick, of Washington, D. C. Mrs. Shepherd is a first cousin of Mr. James F. Gulick and Mrs. J. E. Johnson, of Manassas. The music students of Mrs. Margaret Temple Hopkins are to appear Friday, June 26, in a little operetta, "The Quest of the Pink Parasol." The cast includes Miss Jessie Weir, the fairy queen; Miss Catharine Weir, Ruth; Misses Rose Rice, Garnette Brown, Helen Payne, Muriel Larkin (later poppy maid), Betsey Payne, Helen Cannon and Margaret Cornwell, poppies; Marvin Rice, gardener, and Miss Beulah Baker, queen's page. Songs are to be sung by Misses Jessie Weir, Catharine Weir and Muriel Larkin. Among the choruses is the song of some happy children going to a picnic. Among the children are Misses Ruth Hutchison, Eloise Giddings, Elizabeth O'Neil, Elizabeth Pope, Katherine Ayres, Victorine Nicol, Ethel Lion, Marion Burks and Kathleen Spies.

ABOUT PEOPLE WE KNOW Mrs. Stuart Bevans spent Saturday in Washington. Miss Ruth Round spent Wednesday in Washington. Mrs. W. M. Milnes was a Washington visitor yesterday. Mrs. C. E. Nash was a Washington visitor yesterday. Miss Lillie M. Jones has returned from a visit to Bluemont. Mr. E. N. Pattie and son, of Catharpin, were town visitors yesterday. Mr. W. S. Athey spent several days this week visiting relatives in Maryland. Miss Clara V. Lamb is a guest of her sister, Mrs. Roberta Gulick, at Lenah. Messrs. B. F. and J. P. Matthew, of Stone House, were town visitors Tuesday. Mrs. C. D. Marwin, of Clifton Station, was the guest of friends here Wednesday. Dr. H. M. Clarkson, of Haymarket, was a welcome town visitor Wednesday. Mrs. R. L. Gulick and son George, of Lenah, spent Sunday with Mrs. E. A. Lamb. Messrs. R. H. Haislip and Howard Haislip, of Catharpin, were recent town visitors. Miss Naomi Cooper and Mr. Grady Cooper left Tuesday to visit relatives in Washington. Mrs. A. J. Hockman visited her mother, Mrs. John Molair, near Suckair's Mill, Wednesday. Misses Pearl and Lily Fountain, of Baltimore, are guests in the home of Rev. and Mrs. T. D. D. Clark. Miss Mary Rosenberger leaves next Wednesday to attend the University Summer School at Charlottesville. Mr. L. W. Kasehagen and Master Jimmie Kasehagen spent Monday enjoying the sights of the National Capital. Miss Nellie Rosenberger, of Washington, was a guest this week of her parents, Mr. and Mrs. G. W. Rosenberger. Miss Muriel Arey has returned from Clifton Forge where she spent the past winter with relatives while attending school. Mrs. H. C. Linn and daughters, Misses Annie and Margaret Linn, of George Washington Park, visited relatives here yesterday. Mr. J. B. Johnson, Jr., graduate of Manassas High School and student at Washington and Lee University, is home for the holidays. Miss Mary Lewis was a recent guest of Mrs. C. E. Nash en route from the Harrisonburg commencement to her home at Montpelier. Miss Louise L. Walker has returned to her home in Barboursville after spending the winter here as a student of Manassas High School. Mr. Chester A. Amos returned last week from the University of Virginia and will spend the summer with his parents, Mr. and Mrs. Charles Amos. Miss Lou Moxley, formerly of this county but more recently of Alexandria, was in town yesterday. Miss Moxley will shortly take up her residence here. Miss Nancy Green, who spent the past session with Mrs. J. T. Maloney, while attending Manassas High School, has returned to her home near Paris, Fauquier county. Miss Emily Johnson left Friday for Fredericksburg, returning later with her sister, Miss Elizabeth Johnson, who taught the past session in the high school of that city. Mrs. E. A. Lamb has returned from Lenah, Loudoun county, where she visited her daughter, Mrs. Roberta Gulick. Little Miss Julia Roszel enjoyed the trip with Mrs. Lamb.

Mrs. T. C. Jordan, of Lylesville, S. C., is a guest of her mother, Mrs. R. S. Smith. She will leave tomorrow to visit relatives in Washington, Baltimore and Pittsburgh. Rev. and Mrs. O. G. Hutchison leave this afternoon to be guests of Mr. and Mrs. G. A. Hutchison at Hickory Grove. They will return Monday to make their home in Smethport, Pa. Mr. and Mrs. J. P. Matthew, of Las Vegas, Nev., and Mr. and Mrs. R. M. Matthew and son and Miss Zenobia Sisler, of Roanoke, are spending some time at the home of Mrs. M. A. Matthew, near Stone House. Misses Gladys Sanders, of Buckland, and Edith Smith, of Nokesville, who made their home with the Misses Smith on West street while attending Manassas High School, have returned to their respective homes. Misses Rose and Rhea Wheat, Mrs. James May and Miss Louise May, of Dumfries, and Mrs. Ruth Embrey and little Ruth Virginia Embrey, of Minnieville, were guests the past week of Dr. and Mrs. W. F. Merchant, of Battle street. Mrs. George C. Round, Jr., and Master Edward Round who have been guests of Lieut. and Mrs. George C. Round, left Wednesday to visit Mrs. Round's relatives at Herndon, after which they will return to their home in Endicott, N. Y. Dr. and Mrs. H. L. Quarles were advised by cable of the arrival in Liverpool of their son-in-law and daughter, Prof. and Mrs. C. R. Baskerville, who sailed last Thursday on the Cunard steamer, "Aquitania" to spend several months abroad. Miss A. B. Kirk, head of the normal training department of Manassas High School, leaves today for her home in Richmond. Through her vivid personality and successful activities at the high school, she has endeared herself to a host of friends, and her departure is a source of deep regret. Eastern College MANASSAS, VA. Honorary members—Miss E. H. Osbourn, Miss Imogen Pierce, Mr. Kenneth Meredith, Mr. H. K. Pendleton, Hon. Geo. C. Round, Mr. J. C. Taylor, Supt. Geo. G. Tyler and Mr. J. Thurston Wolfe.

BARN DESTROYED.

Following the fatal accident on Saturday the Nokesville community was startled Sunday night by a fire which destroyed the barn, together with corn cribs, machinery, farm implements, turkeys, chickens and hogs, on the property of Daniel B. Grisso. About 11 p. m. the family was awakened by the baby's cries and became instantly aware of the flames that were consuming the barn. It was then too late to check the blaze and soon all the farm buildings, with the exception of the dwelling, were reduced to ashes.

The horses and cattle escaped unharmed while grazing in the field. The barn, only, was insured.

Mr. W. N. Lipscomb and Mr. George B. Jennings, special agent of the Royal Fire Insurance Company, yesterday visited Mr. Grisso and paid him in full the amount covered by his policy.

The right is reserved to reject any or all bids.

G. P. COLEMAN,
6-12-22 State Highway Commissioner

YOU CAN SHARE IN THE GREAT SAVING

On Commercial Fertilizers 'By The Use Of

CRIMSON CLOVER

Read Farmers Bulletin No. 579 on Crimson Clover Its Use - Address U. S. Dept. of Agriculture Washington, D. C.

A bushel of Crimson Clover Seed sown on four acres of ground will increase the succeeding yield of Corn or Cotton about the same amount as would a ton of complete fertilizer applied at the rate of 50 lbs. per acre. A good stand of Crimson Clover turned under will ordinarily double the yield of the crop which follows. The physical condition of the soil is also materially benefited. The Sandy Soils are increased in Humus and Nitrogen Contents. The Salty, heavy clay soils are rendered more open and friable.

Crimson Clover makes an excellent grazing crop, hay, ensilage and pasture for all classes of live stock. It grows more luxuriantly where muck when pastured on Crim. Clover. It furnishes an abundant supply of nectar in the spring.

Crimson Clover is valuable as a Winter Cover crop. It is especially valuable in Orchards where it is generally plowed under as a green manure crop. The plants retained for the use of the trees the following season much of the plant food, which would otherwise leach out of the ground during the Winter and early Spring. A good stand of Crimson Clover not only reduces the erosion and the building of the fields, but on sandy fields, the blowing of the soil by the wind is greatly lessened. The plants also serve to hold the snow to a greater extent than if the field was left bare during the Winter. Hence, more snow means more protection resulting in the important and great value of Crimson Clover.

Belgium's "Gold" Brand Standard
Crimson Clover
is exceptionally fine. It yields well, and produces bright golden berries. If you want the best Field Seeds of any kind always insist on getting Belgium's "Gold" Brand Standard Clovers and Grasses.

We Offer Enormous Stocks
Cow Peas, Winter Vetch, Timothy Seed, Red Clover, Alfalfa, Ayrshire, Red Top or Herd's Grass, Pure Kentucky Blue Grass, Orchard Grass, White Oats, Tall Meadow Oats Grass, Millet, Perennial Rye Grass, Dwarf Essex Rape, all varieties of Turnip Seed including Cow Horn Turnip, Southern Seven-Top, Yellow Globe Egg, Cabbage, Egg-Spinner, Winter Radish.

We both buy and sell Family Seed Wheat

Notice: Send two cents in stamps and name of the paper we will send you a 16 cent package of Belgium's Famous King of the Mammoth Pumpkin Seed, also a package of Belgium's Great Pumpkin Seed. Send for the name about all the seeds you want.

THE KITCHEN CABINET

ATURE arms each man with some faculty which makes him a specialty what would be impossible for another.

GOOD BITS FOR OCCASIONS.

For those who are fond of fruit soups this is one worth trying:

Cherry and Pineapple Soup.—Stone a cup of sour cherries (canned ones will answer as well). Cut one or two slices of pineapple into cubes and add to the cherries. Add a cupful or two of grated pineapple to the kernels of the cherry pits with a pint of cherries. Add a quart of water and cook 20 minutes. Mix half a cup of sugar with two teaspoonsful of arrow root, and stir into the hot soup. Cook ten minutes, strain and set aside to cool, or it may be served hot, garnished with the fruit.

Huntington Salad.—Chop very fine some white cabbage (there should be two-thirds of a cupful), add a softened cream cheese to the cabbage; mix well. Season with salt, roll into balls, sprinkle with paprika and serve with French dressing on lettuce.

Crab Meat and Red Peppers.—Remove the yolks from four hard cooked eggs, mash and add two tablespoonsful of fine bread crumbs, chop the whites fine, add three with a table-spoonful and a half of red pepper finely chopped. The canned will do nicely. Put into a saucepan four table-spoonfuls of butter; when melted stir in the egg mixture and cook until smooth, adding a little at a time a cup of cream, then add a cupful of crab meat, season highly and serve in patties or on circles of buttered toast.

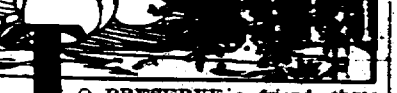

Cherry and Almond Souffle.—Cook a cupful of sugar and water together until it threads, then pour slowly over the whites of three eggs well beaten, when cold fold in a pint of whipped cream. Add a cupful of orange juice. Put into a small covered pan and pack in ice and salt for five hours. Turn out on a platter and press tiny fingers all around the mold, each with a candied cherry on top, and scatter chopped cherries and almonds over all.

Mexican Tomato Salad.—Rub a salad bowl with the cut side of a clove of garlic; line the bowl with lettuce. Dispose slices of tomatoes sprinkled with chopped green pepper and onion in the dish and garnish with thin slices of olives. Serve with five table-spoonfuls of olive oil, two of lemon juice and salt and cayenne to taste.

Cut bananas into balls with a potato cutter, roll in French dressing and nuts, and serve in nests of water cream with French dressing.

Nellie Maxwell

THE KITCHEN CABINET

TO PRESERVE a friend, those things are necessary: To honor him present, praise him absent and assist him in his necessities. —Italian Saying.

COMPANY DISHES.

Loberst Casserole.—Chop a small onion and fry until a delicate brown in a table-spoonful of butter; add a bunch of water cream finely chopped, one cup of cream, and stir until it bubbles. Season with salt and pepper and a pinch of turmeric powder. Add a pint of minced lobster; spread on beds of buttered toast. Sprinkle with cayenne and brown in a very hot oven.

Beet Salad.—Arrange cooked beets which have been finely chopped on lettuce. Cover with a half cupful of sugar and finely cut olives, then with mayonnaise dressing, garnish with chopped capers or hard cooked egg.

When making a plain white layer cake use the following for a delicious filling:

Pineapple Filling.—Cook a cupful of ground pineapple with a fourth of a cup of sugar ten minutes, then add a table-spoonful of lemon juice and stir in condensed milk. Spread on the consistency to spread. This may be used on top of the cake also.

It is a delicious filling for angel cake baked in layers or for a frosting on a square of angel cake. If you want the cake especially nice cut in small squares and cover all the surface with the frosting.

Neapolitan Cream.—Take a quart of plain vanilla ice cream and stir into it a half pound of peanut butter which has been put through the meat chopper twice. The candy gives the cream a beautiful color and it may be served in mortgage cups or in nests of spun sugar.

Anchovy and Cheese Casserole.—Make circles of toast and divide into quarters by putting rice egg whites in one and walk in the opposite and in the other two a relish made by mixing grated cheese with cream and seasoning with paprika and a tea-spoonful of anchovy paste. Over all sprinkle a little French dressing and garnish with half a stuffed olive.

NAPOLEON ON SUNDAY LABOR

Soldier and Statesman Saw No Reason for Stopping Those Who Desired to Work on That Day.

Opinions are still very divided as to the advisability of enforcing in Paris the "Semaine Anglaise," or English Sunday rest, commencing on Saturday afternoon. In this connection it is interesting to recall the ideas of Napoleon on simple Sabbath holiday, reproduced in Optimum. He considered that the French nation was not distinguished by an immoderate love of labor and therefore in no danger of suffering from overwork. In 1807, when the minister of public worship was besieged with complaints from the bishops of the way in which work went during the fetes prescribed by the Concordat, he wrote to the emperor for advice, and received the following reply, characterized by the common sense that governed all Napoleon's life:

"I do not force the priests to give absolute to those who transgress their precepts, but I will not be obliged by them to condemn to the nether regions the peasants who choose to work on any day of the week to keep themselves and their families. Such questions have really nothing to do with me, but I am the law, and I give to my people once and for all leave to work without interruption. The more they work the less vices they have, and if I had to take sides, I should be against Sunday rest, for it is enough to cast a glance over the different classes of society to perceive how much more damaging than useful is the observance of Sunday as a day of rest."

And the emperor concluded his letter with a misquotation from Horace: "Remember what Boscuet said: Eat, drink and be merry, for tomorrow we die." It must be remembered, though, that in Napoleon's day the struggle for life was not nearly so arduous as it is today, and seven days a week in his time, voluntarily given or not, were scarcely equal to the six of modern exigencies, with a seventh or half of it thrown in if the place is to be kept against hungry competition.

Solved. Mary and Martha, aged five or six, were playing church with their dolls. Martha's doll was a beautiful one that water would not hurt, while Mary's was only a rag doll. Martha solemnly carried her doll and put her in the washpan to be baptized. Her doll being Baptized. Then came Mary's turn. "Oh, I can't wet my doll," she cried.

"What are you going to do?" the preacher said. "I'll let my doll be a Methodist and have her soul deplored," Exchange.

Walrus Slaughter. That the walrus is rapidly nearing extinction is the warning sounded by the Daily Industrial News of Nome, Alaska. That paper describes the slaughter caused by one crew in a single season. The catch amounted to 723, of which 450 were cows with calves. Many were fatally wounded or shot dead and never recovered. A full grown bull walrus weighs a ton. The walrus is a tempting bait to the hunter because of the amount of wealth found in the skin, the oil and the tusk in the tusk. The disappearance of the walrus means the extinction of the Eskimos who depend largely on this animal for food supply, fuel, lights, boats and teacher.

Preserving the Public Health. The New York Medical Record notes that while great improvement has been made in public health throughout the civilized world in recent years it can not be doubted that if each individual felt it to be his duty to concern himself in this question the advance would be more remarkable. The average citizen, however, has come to realize that his cooperation is required in order that the general health of the community may best be conserved. He is beginning to understand at least that good sanitation is better than cure.

His Part in the Concert. First Boy—You ought to come to the concert we're going to give at our school. Second Boy—You got to be in it? "Yes. We're got to give a concert."

"Oh, it's all about sanitation and hygiene and things and other country things. It's fine." "I'm only in the first scene, early morning." "What do you do?" "I crow."

Bible Brings Record Price. Seven books sold for a total of \$27, 200 at the recent Hae library sale. Two of these books were Bibles, one of which, a Götting Bible printed in 1700, brought the highest price.

MODELS POPULAR IN FRANCE

Child's Frocks That May Easily Be Reproduced in Almost Any Material Designed.

On the left of the accompanying cut is a dainty little French frock, with a plaid skirt, a black velvet bodice and a tulle gump. It could easily be reproduced at home in plaid and plain blue serge—the skirt of the plaid in dark blue, green and a little red—the bodice of the plain blue serge. The gump could be made of wool.

The puffs in the sleeves can be effected by means of tapes, run through

castings in an ordinary full gump sleeve, pulled up and tied on the wrong side. When the gump goes to the laundry, the tapes can be removed.

On the right is a frock of blue and white taffeta. A band of white taffeta embroidered with blue, is used about the bottom of the skirt and the same embroidery is used on the waist. The frock could be reproduced in yellow or blue or pink, and white tulle with blue edging, embroidered in red, or trimming.

FANCY BASKETS IN VARIETY

Almost No End to the Ornamental Designs From Which Selection May Be Made.

Now that nearly every useful household article—not intimately associated with the kitchen—is expected to be also ornamental, fancy baskets are very much to the fore. For holding flower pots there are most artistic looking receptacles of dark rattan, Japanese woven, and the like so that water shall not seep through. Flower pots also fit into many of the well-shaped, brilliantly dyed Northwest Indian baskets, as well as the queerly decorated and oddly-shaped ones made by the Mexicans and the Aleutians. Some of the baskets from the far North are ideal for "scrap" holders, and others, flat at two sides and rounding at the ends, may be suspended from the wall and used as newspaper racks. Of work baskets in queer weaves and attractive colors there is an endless variety, but the best are bowl-shaped, very capacious and always perfectly balanced on a flat bottom. So bright are their colorings that to trim them is like carrying coals to Newcastle, but if it is a good scheme to line them with soft plain silk. Comparatively few of the less expensive Indian baskets have lids, but one may easily be made by covering a paste-board circle with plain silk and attaching it by a single hinge of ribbon.

WHITE SILK FOR THE BABY

Engleite Little Coats, With Deep Peterline Capes, Make Comfortable and Dainty Garments.

White faille silk is the favored material for coats for babies, and these are usually adorned with a deep peterline cape, which may be edged with baby Irish lace or finished by hand-embroidered scallops. Sprays of ruche or ruche-looking flowers are often seen above the front of these coats and trim the collar and cuffs. The hats designed to accompany them are fashioned generally after the Charlotte Corday or poke bonnet styles, the trimming, of course, depending upon the color combination used on both dress and coat. For simple every-day wear the plain or the dress, and the more easily it can be laundered the more practical it will be. A dainty little dress which can easily be made at home is better than the most elaborate sleeves simply to be found in garments of this character. The neck opening, neatly rounded, extends over rather far on the shoulders, thus assuring the little one of reasonable comfort in the warm days of summer. A hem and sleeve finishing of bands of batiste or a different color—usually blue or pink—are the only accessories in the way of trimming that are made.

Memorable Seals. The great slowness effect of some of the new corraugs, which draws the material to the summit of the shoulders in classical draperies, makes a buckle necessary. In some cases these buckles are composed of precious stones, gold or silver filigree work, or they may be mounted on glass. Here we have an equally effective, although much less expensive buckle. Purchase five-eighths of a yard of diamond grinning. Cut out your buckle from stiff buckram. Then sew on your trimming in rows close together.

COLOSSAL EXHIBIT PALACES FOR PANAMA PACIFIC EXPOSITION

Marvelous Works of Art to be Shown at San Francisco

Thirty-six of the World's Navies Will Participate Officially Upon a Stupendous Scale—World's Most Noted Architects Create City of Palaces the Like of Which Man Has Never Beheld—England to Exhibit.

The photographs upon this page reveal just a few of the thousands of marvels that will be seen by the millions who visit the Panama-Pacific International Exposition in San Francisco next year.

The opening of the Panama canal is regarded by the nations as one of the most stupendous events in the history of the world, and in recognition of the great work at Panama there will be exhibited in San Francisco such a display of the world's progress as has never been seen before.

The news that England will exhibit at the Panama-Pacific International Exposition is evidence of the amazing interest that is everywhere taken in America's Panama canal celebration.

Thirty-six of the world's great nations will officially participate in the exposition. Here is the list: Argentina, Australia, Austria, Bolivia, Brazil, Bulgaria, Canada, Chile, Costa Rica, Cuba, Denmark, Dominican Republic, Ecuador, France, Guatemala, Haiti, Holland, Honduras, Italy, Japan, Liberia, New Zealand, Nicaragua, Panama, Persia, Peru, Portugal, Salvador, Siam, Spain, Sweden, Turkey, Uruguay, Venezuela and Great Britain. The nations have appropriated enormous sums. The Argentina, for example, has appropriated \$1,300,000 gold for its display; Canada has appropriated \$600,000 and construction is far advanced on the great Canadian pavilion.

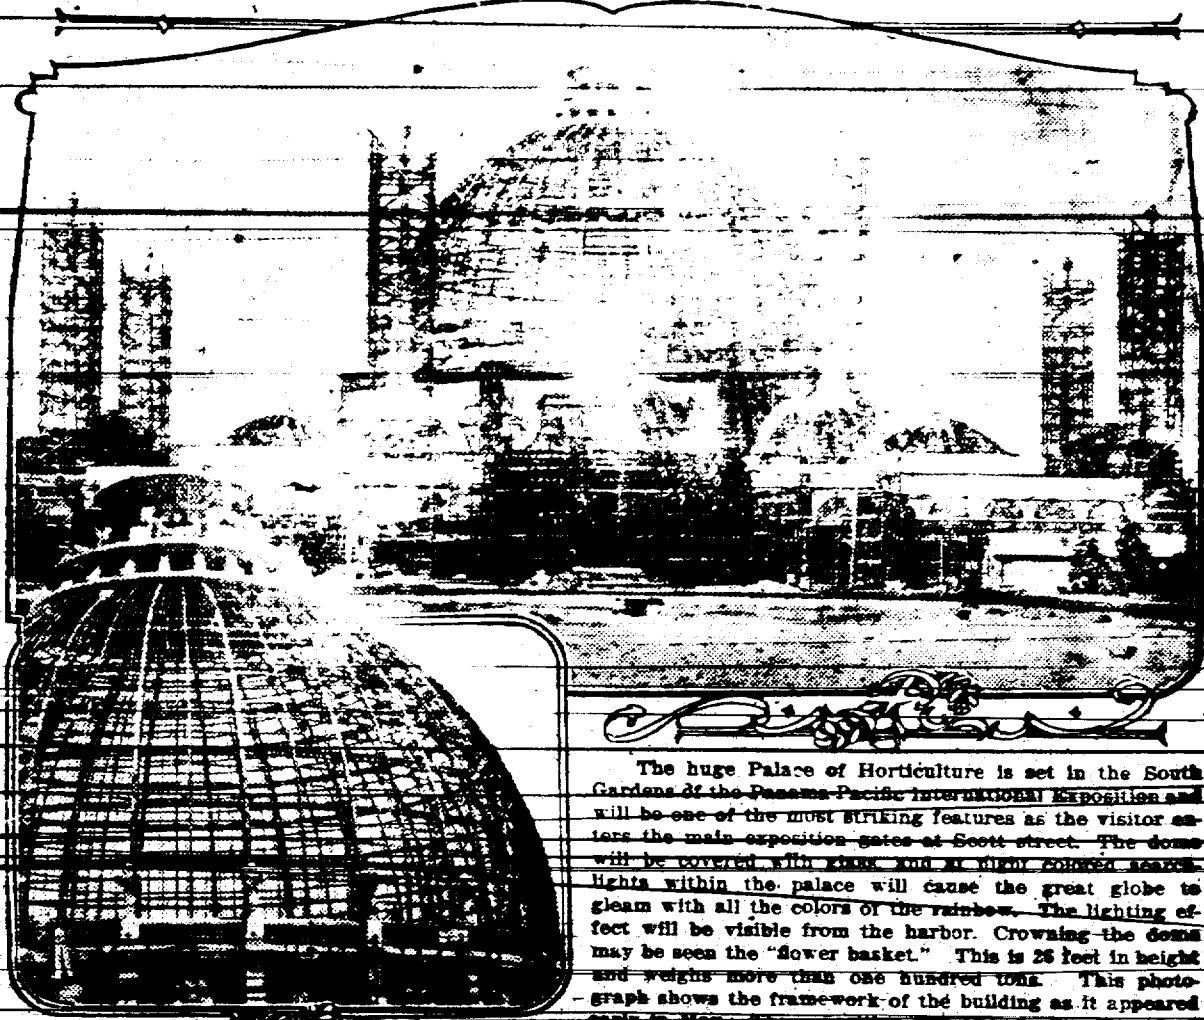

The natives of every civilized country on earth will be enabled at San Francisco to behold a surpassing view of the progress of their native land.

Throughout the United States and in foreign lands millions of people are planning to visit the exposition next year. At a recent meeting of the Transcontinental Passenger association it was decided to make great reductions in railroad fares. The exposition opens on February 20 and closes on December 4, 1915.

The exposition today is one of the sights of the world. The passenger on a steamer through the Golden Gate beholds the vast domes of the exposition palaces rising like the domes and minarets of a fabled Oriental city. Before the main group of exposition palaces, which face north upon the harbor for more than one mile, a great sea esplanade has been constructed; this has been wondrously landscaped with thousands of rare trees and shrubs brought from distant parts of the world. Here multitudes will gather during the exposition to view by day the assembled warships of the world's navies and at night a wonderful series of colored illuminations visible forty or fifty miles away. The entire exposition grounds parallel San Francisco harbor for almost three miles.

A HANDSOME book of sixty pages illustrated profusely in colors and giving detailed descriptions of the Panama-Pacific International Exposition to be held in San Francisco from February 20 until December 4, 1915, and of the Panama canal and the canal region, will be mailed by the Panama-Pacific International Exposition free of charge to all inquirers. The booklet is intended as a general guide to prospective visitors and will also contain information concerning the great engineering feat which the exposition is to celebrate. Write to the Manager, the Bureau of Publications, Panama-Pacific International Exposition, Exposition Building, San Francisco, for the booklet.

FIRST NEWS PICTURE OF THE WONDERFUL PALACE OF HORTICULTURE

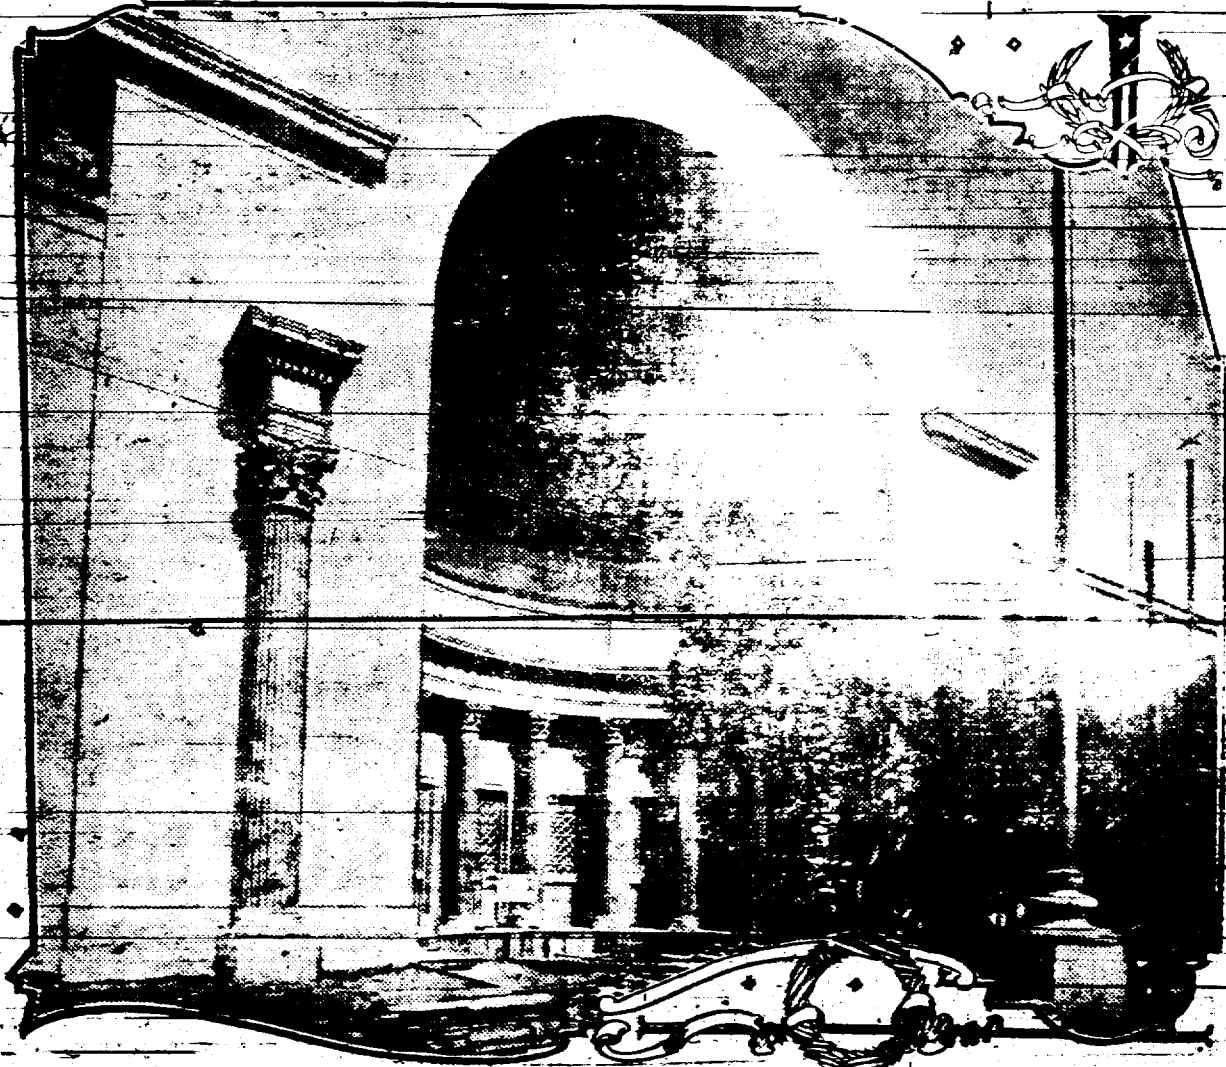

A Nearer View of the Dome.

Copyright, 1914, by Panama-Pacific International Exposition Company.

The huge Palace of Horticulture is set in the South Gardens of the Panama-Pacific International Exposition and will be one of the most striking features as the visitor enters the main exposition gates at Scott street. The dome will be covered with glass and by night colored searchlights within the palace will cause the great globe to gleam with all the colors of the rainbow. The lighting effect will be visible from the harbor. Crowning the dome may be seen the "flower basket." This is 25 feet in height and weighs more than one hundred tons. This photograph shows the framework of the building as it appeared early in May. The exposition will open in San Francisco February 20, 1915.

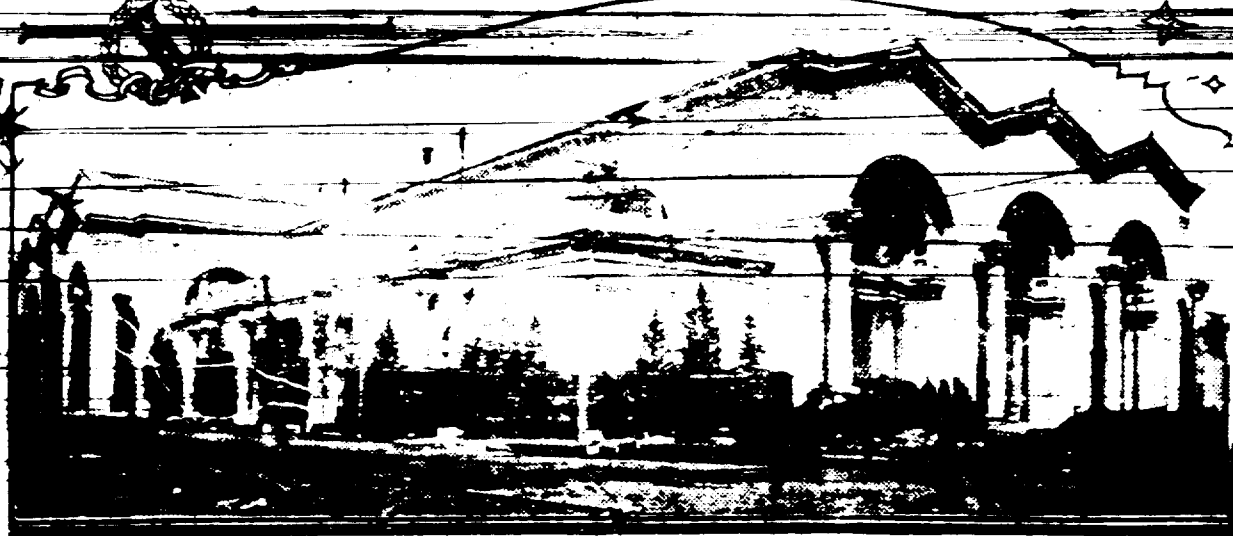

VIEW OF A HALF-DOME IN THE WONDERFUL PALACE OF EDUCATION.

Copyright, 1914, by Panama-Pacific International Exposition Company.

This photograph shows a half-dome in the colossal Palace of Education at the Panama-Pacific International Exposition in San Francisco in 1915. The world's most noted artists, mural decorators and sculptors were engaged to decorate the exposition palaces and, as a result, the huge structures are indescribably beautiful. The interior of the dome is embellished with a superb mosaic of brilliant colors, designed under the supervision of Mr. Jules Coeuris, the noted artist. The height to the top of the half-dome is 119 feet.

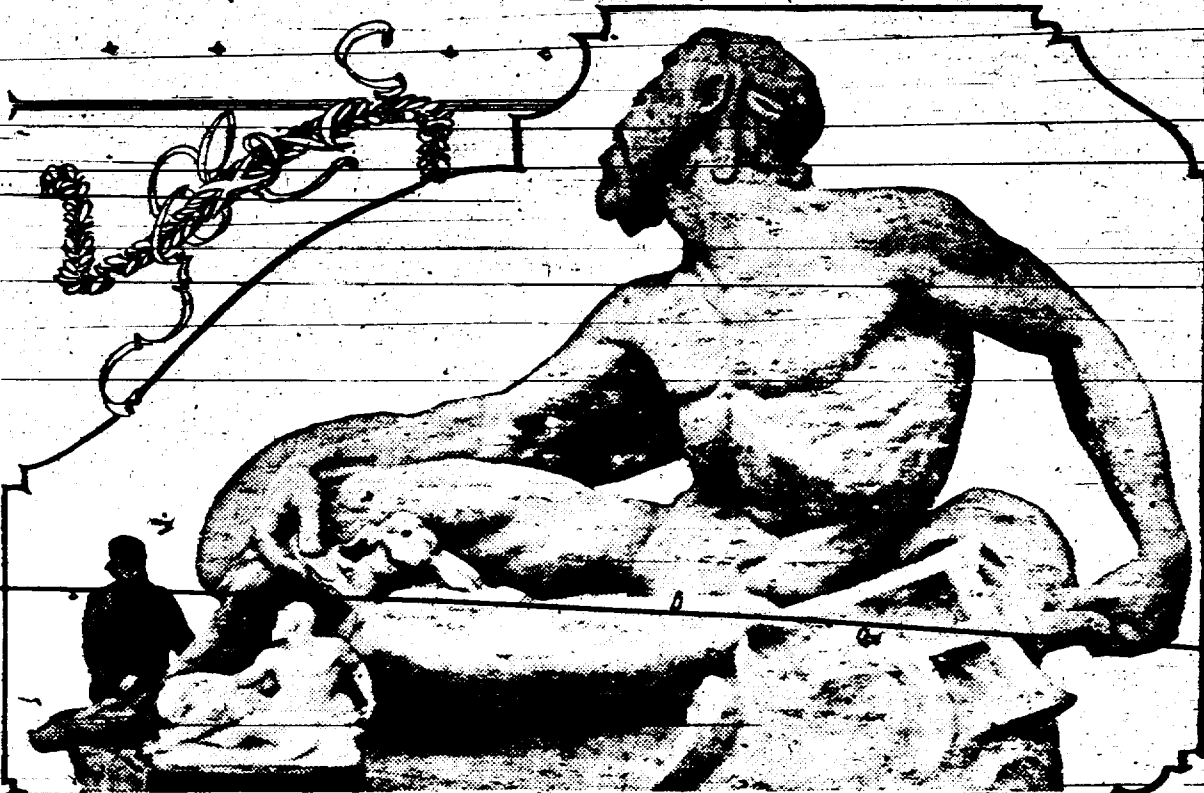

HUGE PALACE OF MACHINERY AT WORLD'S GREATEST EXPOSITION.

Copyright, 1914, by Panama-Pacific International Exposition Company.

The great Palace of Machinery as seen from its south facade. The mechanical triumphs of the world will be displayed in the great Palace of Machinery at the Panama-Pacific International Exposition at San Francisco next year. This colossal structure is almost a thousand feet long, four hundred feet wide and 125 feet high. The foundations of exhibits in the huge structure has already begun. These include the site of the world's largest steamship could easily be placed in this vast structure and with room to spare.

FAMOUS SCULPTOR'S CONCEPTION OF "WATER," FOR COURT OF THE UNIVERSE.

Scene in one of the sculptural warehouses on the exposition grounds. The figure above is that of a remarkable sculptural composition by Robert I. Aikin, one of the most brilliant of American sculptors. The figure, representing the sculptor's conception of "Water," is a companion piece to three other symbolical sculptures—"Fire," "Earth" and "Air." The four figures, typifying the elements, will flank the descents into a vast sunken garden in the superb court of honor, the Court of the Universe. On the left may be seen the original model from which the figure was cast.

Copyright, 1914, by Panama-Pacific International Exposition Company.

VAST SOUTH GARDENS OF THE MARVEL EXPOSITION CITY AT NIGHT.

Night view of South Gardens and main entrance to the Panama-Pacific International Exposition at San Francisco in 1915. Dominating the scene at the left of the picture is the Tower of Jewels, rising 460 feet into the air. Its architectural lines marked with thousands of glittering hand-polished crystals of many colors and its whole surface softly glowing with the reflected light from the sun, which are hidden from the spectator. Further down the facade at about the center of the picture, may be seen the two slender towers which guard the entrance to the Court of Palms and directly in front of the Tower of Jewels is A. Suring Caldesa's "Fountain of Energy." In the background at the extreme left may be seen the top of the triumphal arch of the Rising Sun surmounted by the group "The Nations of the East."

COURT ADJOURNS TO 20TH

Case Removed to Next District Court—Another Removed From Orange.

Judge J. B. T. Thornton presiding, the June term of the circuit court for Prince William county was again in session last Saturday. The summary:

COMMON LAW.

Norman Corbin vs. Alfred Voorhees—verdict for plaintiff.

In re Spencer A. Buckner et al—Lucy C. Buckner and Grayson Tyler appointed guardians of nephews—Spencer Ariss Buckner, Grayson Tyler Buckner and Arthur Herbert Buckner, aged 11, 10 and 6 years, respectively.

H. B. Hutchison vs. New York and Pennsylvania Company, a corporation—removed for trial to next district court of the United States for the Eastern district of Virginia.

In re estate of Annie Liming—on motion of Mary Jane Valentine, certificate granted—D. C. Cline for obtaining letters of administration on personal estate of said Annie Liming. E. G. W. Keys, William Crow and G. M. Ratcliffe ordered to appraise goods and chattels of deceased.

IN CHANCERY.

John Y. Roseberry et al vs. Wilbur S. Dodge et al—decree for settlement with distributees.

William C. Williams and Evelyn Williams, his wife; Bessie Williams Tayloe and George Tayloe, her husband; J. Saul Williams and Lewis B. Williams vs. J. Tate Mason in his own right and as administrator of C. R. Mason and Mary Mason, now Mary Mason Crittenden—removed from the circuit court of Orange county—compromise confirmed. E. H. DeJarnette, Jr., appointed special commissioner. Adjourned to June 29.

HAYMARKET HAPPENINGS

Mr. Lewis Burwell has returned from a stay of several weeks in Florida.

Miss Leafie Bean, of Catlett, is the guest of Miss Lillian Lightner.

Misses Mary Louise Rector and Nellie Rector are visiting friends in Washington.

Dr. W. C. Payne and Mr. Jack Gray motored to Charlottesville last Saturday and are attending the finals at the University this week.

Ensign Alfred H. Tawressey is the guest of the Misses Hall.

Thomas and Elmo Carruthers, of Charlottesville, are visiting their grandfather, Mr. C. E. Jordan.

The entertainment, given under the management of St. Paul's Guild, at the Parish Hall Thursday evening of last week, was a good success, both socially and financially. The amusing pantomime for children, "The Frog Who Would A-Weaving Go" which was presented the week before at the commencement exercises for Meade Craft School, was repeated, and received enthusiastic applause. The part of "Mr. Frog" was taken by Stuart Eagle; "Mrs. Mouse" by Lillian Holtsinger; "Miss Mouse" by Ester Eagle; "Grave Mr. Rat, who for Priest did stand," by Virginia Hall; while the parts of the "Cat and Kittie, who came bouncing in just as the wedding was about to begin," were taken by Mamie Osbourn and Martha Eagle. After the pantomime, a program of vocal and instrumental music was thoroughly enjoyed by the audience, each number receiving warm and prolonged applause. The vocal soloists were Mrs. Baker, of Lynchburg; Mrs. Willis, of Roanoke; and Mr. Jack Gray, of Washington. Piano soloists—Misses Agnes Hall and Jane Donnelly, of Haymarket.

All the news of the county fifty-two weeks for \$1.00—THE JOURNAL.

BUSINESS LOCALS For Sale.—The very desirable property of Walter Shannon, on West street, which has just been thoroughly repaired and painted, is now for sale. The description of property is as follows: Lot about 90x120 ft., situated on the east side of West street, with the following improvements: 10-room house with cellar, heated by furnace, good well at back door, fine garden, nice lot of fruit, ice house and storage house. Price, \$4,200, on reasonable terms. Would rent property to good, careful family for \$25 per month. C. J. Meetze & Company. 6-19-2t.

The best farm in Prince William county for sale at the price. For \$84 per acre we can sell you one of the best improved farms in Prince William county, consisting of 185 acres; about 130a cleared, 40a in cultivation this year, 55a in timber and small pine; new 6-room frame house with 2 halls, 2 porches and cellar; horse barn, 24x40, with shed entire length of barn; cow house, storage house, and all other necessary outbuildings; good well at house, and lasting water in every field; plenty of fruit, apples, peaches, cherries, plums and pears 1 1/2 miles from railroad, 1 1/2 miles from school. This farm is in an excellent state of cultivation and will have to be seen to be appreciated; there is \$1,000 worth of timber now ready for market; present owner has cleared \$4,000 on this place in the past 4 years; there is no incumbrance on the place; his wife's bad health is the cause of this property being for sale; if sold in 30 days, the corn crop will be thrown in at this price; and no one can better or as good as this is selling for \$75 to \$100 per acre. If you want to make an investment or want a good home for a small amount, now is your chance. We will be glad to show you. C. J. Meetze & Company. 6-19-2t.
