

AN AUTOMOBILE RIDE.

Think you, sweetheart, I can forget
That automobile ride
Adown a moonlit country lane
When you were by my side?
The moon was flooding hill and dale
With softest golden light,
All nature seemed in gala mood,
And sensuous with delight.
Your mood was gentle, trusting, sweet,
You never seemed more fair,
And when I looked into your eyes
Your soul was mirrored there.
Your little hand so white and fair
I gently pressed in mine,
I felt it tremble 'neath my touch,
Your heart had answered mine.
Just then a dart into the shade,
And then a sweet caress,
Your sweet, fair face upturned to mine,
My lips to yours I pressed.
My senses trembled with delight,
My pulses throbbled with bliss,
Two hearts made one that summer night
By that divinest kiss.

Wood's Seeds.

Seed Wheat.

The Seed Warrants we offer are from the best and most productive crops grown in the finest wheat-growing sections of Virginia, and are carefully selected by us to remove all impurities and small and inferior grains, so as to supply our customers only with plump and well-developed seed wheat, which should yield considerably more per acre than ordinary wheats imperfectly cleaned. All of our Seed Warrants are selected from good yielding crops, which with our methods of cleaning, makes the Seed Warrant which we offer very much superior to ordinary seed wheat.

Write for Wood's Crop Special giving full information and prices of Seed Wheat, Seed Oats, Winter Barley, Rye and all seeds for Fall sowing. Prices and samples of any seeds desired, mailed on request.

HOW TO MARK YOUR BALLOT

Scratch all candidates for President and Vice President except Woodrow Wilson and Thomas R. Marshall.

Do not scratch any of the electors.

If you scratch the President and Vice President of any political party the electors will be counted as they would be counted if the names of the electors had been scratched.

Do not scratch Claude A. Swanson, candidate for the United States Senate.

Scratch all other candidates for Congress, but do not scratch the name of Charles C. Carlin.

No names considered scratched unless the pen or pencil mark extends through three-fourths of the same.

The Plate Printers Indorsed Honorable Charles C. Carlin; They Are Proud of Their Action and Will Repeat Their Action—His Labor Record Is 100 Per Cent Pure.

(From The Plate Printer)

What are these mutterings and whisperings we hear in out-of-the-way corners, complaining against the Plate Printers' International Union for endorsing and standing back of Honorable Charles C. Carlin for reelection to Congress from the Eighth Congressional District of Virginia?

Does he not richly deserve the support of the plate printers of the United States in general and the unqualified endorsement and backing of the plate printers and other employees of the Bureau of Engraving and Printing at Washington in particular?

Is he not the author and sponsor for the Carlin Bill for the protection of the plate printing trade in this country and to prevent it from being exploited and prostituted for the benefit of foreign capital and alien labor? Was it not Carlin who conducted the case in behalf of the plate printers in the Judiciary Committee of the House and presented it to the committee and secured a favorable report upon the bill with the recommendation that it be passed? If he did nothing else for the plate printers outside of introducing and standing back of this measure, for their protection, he would be justly entitled to their unanimous support and endorsement.

Carlin has not only introduced the Carlin Bill for the protection of the plate printers, but he helped to save them and other employees of the Bureau on Monday, February 15, 1916, from being discharged and thereby cut out of making a living for themselves and families.

Can any member of the present Executive Committee and the plate printers who accompanied it to the office of Congressman Carlin, forget how they were received by Mr. Carlin on Monday, February 15, 1916, at 5 p. m., and what he said when he heard that there was likely to be a discharge of plate printers and other employees in the Bureau of Engraving and Printing.

Those present will remember that he said if we are going to do anything to prevent the disaster, which is sure to follow a discharge of men and women in the Bureau, we must begin at once. It had been raining in torrents since the afternoon of that day and he went with the committee from his office to the Senate Committee on Appropriations where Senators Martin and Swanson were awaiting them by appointment made by Mr. Carlin over the telephone.

Ten minutes after the arrival of the plate printers Mr. Carlin was pleading their case before the chairman of the Senate Committee on Appropriations and asking that the estimates for printing which had been cut by the House be restored in order to prevent a discharge. He secured a hearing for the plate printers' committee which was had the next morning at 11 o'clock before Senator Martin's sub-committee.

The plate printers were heard upon the merits of their case and, according to promise, the Director was sent for and he appeared before the committee the same afternoon and what happened is now a matter of history.

Small wonder the plate printers are singing Carlin's praises and indorsing him. They would be without gratitude and manhood if they acted otherwise. The plate printers are clearly within their rights in what they have done and what is more, other labor organizations in Washington and elsewhere in the United States have also endorsed Carlin. The Central Labor Union, of Boston, Philadelphia; the Central Federated Union of Greater New York, the Chicago Federation of Labor, and the Washington Central Labor Union have endorsed his bill for the protection of the plate printing industry and this is a very respectable showing for the Carlin Bill.

Besides, the labor record of Honorable Charles C. Carlin in Congress and as a public spirited citizen is one hundred per cent Simon pure, and no one who is acquainted with his history and the history of legislation since he entered Congress can deny our statement.

He assisted in framing and passing the Clayton Antitrust Bill. He is an enemy of the Taylor system and his voice and his vote in Congress have always been against it and on the right side of every question. He is the friend in need and the plate printers have reason to be grateful to him for his efficient and able assistance in their behalf and what he has accomplished for all of the employees of the Bureau.

Like every man who does something worth while and who has made his mark by dint of hard work, he has a few enemies and he would not be worth his salt if he had none. To have enemies is one of the fascinating and attractive things about big men, and we feel sorry for the man who is without enemies—for he has done nothing to be singled out from among those men of whom it can only be said that they once lived. This is not the case with Honorable Charles C. Carlin.

(Chloe E. Lay Hodge, Secretary Bethlehem Good Housekeepers' Club)

The Bethlehem Good Housekeepers' Club met Tuesday at the pleasant home of Mr. and Mrs. W. W. Davies, where we were delightfully entertained by our hostess, Mrs. George C. Round. The business of the afternoon centered mainly around the success of the cook book, the result of the enterprise and faithfulness of the committee, Miss Roberts and Miss Isabelle Hutchison.

Mrs. George Smith and Mrs. Ballantyne Patterson were the guests of the afternoon. Mrs. Sanders was made an honorary member.

The ability of our hostess as a housekeeper was displayed when with the delicious ice cream came three varieties of cake, unsurpassed in taste and form.

Your Wife Should

have a bank account and pay her bills by check. It's the modern, business-like, economical way. It tends toward careful management, gives a better idea of the relation of income to outgo, provides a receipt for each payment, as well as a record of date, amount, etc. And it often leads to the creation of a substantial reserve fund with which to realize a fond ambition or meet an emergency. The lady of the house is invited to call and learn how easily she may open an account in this strong bank, and the conveniences which we place at her command absolutely without charge.

Our slogan is, "It is a pleasure to serve."

GREENWICH

Miss Violet Ross entertained a number of friends at a Hallowe'en party last Friday evening. The house was beautifully decorated with autumn leaves and the porch was decorated with grinning pumpkins.

After all the guests had arrived they were invited into the spacious dining-room where their fortunes were told by a witch. Then the guests were presented a paper, representing a corn stalk and containing ten sentences, and two prizes were awarded in a guessing contest. The capital prize was won by Miss Mae House and the booby prize was won by Mr. V. A. Hopkins.

A change of identities was played, after which a large cake with twenty candles was brought in. Each person took a puff and the number of candles left burning represented the number of years before they should marry. Messrs. J. L. Mayhugh and B. M. Leach left three each. The cake also contained a penny for a miser, a needle for an old maid, a bean for a farmer or for a farmer's wife, and several other articles. Miss Fannie Nalls got the bean, Miss Violet Ross got the needle and Mr. V. A. Hopkins drew the penny.

At 11 p. m. sandwiches, cake and candy were served in abundance. The party broke up at midnight, all having had a most delightful time.

The guests present were Misses Anna Mayhugh, Mae House, Grace Holtzclaw, Ella Reid, Mamie and Fannie Nalls and Messrs. J. F. Cockerille, G. H. Washington, B. M. Leach, Will Allen, J. L. Mayhugh and V. A. Hopkins.

CONFERENCE AT RICHMOND

Virginia Educators Will Hold Annual Session November 28 to December 1.

The eleventh annual meeting of the Educational Conference of Virginia, which is composed of the State Teachers' Association, Division Superintendents' Association, School Trustees' Association and the Co-Operative Education Association, will be held in Richmond November 28 to December 1, inclusive.

One of the very best programs ever arranged for the conference will be carried out at this session. Such prominent men as Dr. Hollis Dann, of Cornell University; Mr. John Kendrick Bangs, the well known platform orator; Mr. T. S. Settle, Field Secretary of the National Association of America; Hon. E. A. Miller, U. S. Agricultural Department; Dr. Thomas H. Briggs, of Columbia University; Dr. George H. Denny, President University of Alabama; Dr. L. W. Payne, Jr., University of Texas, and Dr. William McAndrews, of New York City, are some of the prominent speakers that will address the conference.

A special musical program will be rendered by the After-School Violin Classes, the Symphony Orchestra and a Colored Concert Company. A special luncheon will be given by the Merchants' Association for all those attending the conference.

Many of the departments of this conference have been combined, so that there will not be such a large number of meetings in session at the same time as formerly. This will enable those attending the conference to exercise more liberty in visiting the various sectional conferences.

The superintendents will have their first session on Tuesday but the general meeting will be held Wednesday morning at 11 o'clock so everybody who expects to attend the conference should plan to reach Richmond Wednesday morning and remain through Friday night.

The After-School Violin Classes will render a special musical program Wednesday and Dr. McAndrews will deliver his address Friday night, followed by a special musical program in which the old time Southern melodies will be sung and played by a colored musical organization, so that from the very opening session on Wednesday until the closing session on Friday night the meeting will be brimfull of interest and pleasure for all who attend.

In order to enable a large number to attend the conference the railways of the state have offered greatly reduced round-trip rates, which will be on sale November 27-29 with the final return date being December 3. This rate can be ascertained from your station by inquiring of the agent.

NEW MAIL ORDER FRAUD

Minneapolis Concern Offers Silk Petticoat for a Dime.

The number of dead letters returning the Washington city post office, as a result of the "petticoat for a dime" fraud, has passed the 200,000 mark. More than 35,000 letters have been returned to Washington in one day. As far as possible the letters are being returned to the senders.

According to the postal authorities, the fraud consists in that a Minneapolis firm sending out the original letters promising a \$4.50 silk petticoat for a dime and five new letters into an "endless chain," and as far as persistent search can reveal no one has really received the promised reward.

Postal authorities have said that their only hope of stopping the avalanche of letters which has completely snowed under the Minneapolis postoffice is by giving newspaper publicity to the fraud.

It is said that several young women in this neighborhood have been victims of the fraud.

JONES SPEAKS TO FARMERS

Discusses County Demonstration Agents and Their Work and Qualifications.

(By B. K. Watson, Secretary N. V. F. I.)

The recent farmers' institute was very fortunate in having as the speaker of the occasion Mr. Jesse M. Jones, director of the agricultural extension work of the state. Mr. Jones spoke on fall plowing and cover crops in the forenoon.

The question of fall plowing is a question to be decided by each farmer on his own farm. However, as a rule, it is advisable. On some lands and under some conditions, as when the land tends to run together, fall plowing is not to be recommended.

One of the objects of fall plowing is to enable the land to hold the rains of the winter for use of the crop the following spring and summer. There is not a great deal of difference, so far as the land itself is concerned, between fall and early spring plowing. Early spring plowing pays a great deal better than late spring plowing.

Two advantages of fall plowing are that the rush for time is not so great in the fall as in the spring—therefore it is well to have the plowing out of the way in the spring—and by fall plowing phosphorus and potash are made available, and insects are killed. Nitrogen, the most expensive element, leaches out of the soil very easily, therefore we should have some cover crop on our land.

Whenever possible a cover crop should be planted on the land. The advantages of a cover crop are that the land will not wash so badly, the plant food will not leach out, and we have something to plow under in the spring. One should begin plowing at the proper time in the spring, regardless of the cover crops.

The question of cowpea stubble came up and Messrs. Heuser, Ransdell and Steere gave their methods of treating same. After cutting the peas Mr. Ransdell limed his soil, disked it and put in orchard grass and alsike clover. Mr. Heuser ran spring-toothed harrow over his stubble and put in wheat.

Mr. Steere proposed to conduct the following experiment with cowpea stubble, which will be watched with interest by members of the institute. One-half he is going to leave bare during the winter, while on the other half he is going to seed rye and plow it under in the spring; planting both parts in corn. Mr. Steere will report his result to the institute.

During the afternoon session of the institute Mr. Jones spoke briefly of the demonstration work of the state. There are some 40-odd county agents in the state, 25 women agents, 8 specialists who cover the whole state, one state agent and director for the whole state.

There is being spent for demonstration work in the state some \$43,000 by the national government, some \$33,000 by the state, in addition to some \$30,000 by the counties of the state. To date Prince William county has no demonstration agent.

The agents are employed by the state and county co-operatively. Mr. Jones gave the following as some of the essential qualifications for a county agent:

Training—Credits in a recognized agricultural college equivalent to a four years' college course.

Experience—Actual experience equivalent to five years of farm operations.

Information—(a) Fundamental knowledge of the staple crops of a given section; (b) Nature and needs of soils; economic use; how to buy, mix and apply; (c) Legumes: the place they should occupy in crop rotation and in a live stock region; (d) Live stock: how to select; how to feed; how to care for and how to dispose of

to best suit local conditions; (e) How to identify, treat and advise farmers regarding the common diseases and insect pests that affect the farm crops and farm animals; (f) How to organize and plan the farm, the buildings, the garden and the orchard.

Personality—Knowledge of how to approach and organize various classes of people, a spirit of real service and experience as a community leader.

Knowledge and experience of co-operative methods in business and rural organizations.

Familiarity with the literature of farm management and experience in gathering information thereon. Ability to prepare newspaper articles for country readers. Experience as a public speaker and in organizing public meetings, also practice in the handling of stereopticon and other equipment and in the securing, and placing of agricultural exhibits.

The county agents, assembled at Blacksburg this summer, suggested the following as some of the things they consider necessary qualifications that a county agent should possess:

1. A Christian gentleman willing to make self sacrifices.
2. A healthy, modest, energetic man, with patience and enthusiasm.
3. A close observer with love for country life.
4. Scientifically educated to be a practical farmer.
5. Good mixer, who is always at home in any company.
6. Self-confident, with a "do or dare" spirit.
7. One who can have visions and make visions come true.
8. One who never becomes graduated in agricultural knowledge.
6. Not a resident of the county in which he is appointed.

Mr. Jones said that the minimum salary at which agents are being started in the state is \$1,200. This will secure a college graduate, one who has had very little experience after graduation, but who was raised on a farm. For \$1,500 a man with more experience can be employed, while for \$1,800 or \$2,000 an even better man can be secured.

Agents furnish their own traveling expenses. The last item alone amounts to from \$300 to \$600 a year.

The speaker, both in his forenoon and afternoon addresses, laid stress on the importance of the members of the institute carrying on experiments to determine the best farm practices for the community, and giving the institute the benefit of their experience.

Mr. Jones advised the institute to have "experience meetings," that each farmer attending the institute might get the benefit of his neighbor's success or failure in some given farm practice.

On motion, the institute gave Mr. Jones a vote of thanks for his addresses.
