

RED CROSS TO AWARD MEDALS FOR SERVICE

Members Who Have Rendered 800 Hours Service Asked to Forward Applications.

The American Red Cross is awarding service badges to all Red Cross members throughout the country who gave 800 hours of service. The service medals are of gold and enamel in the national colors, a red cross in the center surrounded by a band of white and a band of blue, with the words, "Service, American Red Cross." The 800-hour badge is composed of the service medal attached to a bar pin by a broad band of dark blue ribbon one inch long. One white stripe is added to this ribbon for every additional 800 hours, with three stripes as a limit for any period of service.

Five medals have been awarded to the following workers in the Prince William Chapter:

Miss Mary Larkin, chapter secretary, badge with three stripes.

Mrs. R. S. Hynson, head of chapter production, badge with one stripe.

Miss M. E. Rixey, knitting supervisor, badge with one stripe.

Mrs. A. H. Harrell, supervisor of surgical dressings.

Mrs. R. B. Sprinkel, home service secretary.

Other badges will be awarded as soon as hours of service are recorded. Every member who worked 800 hours is requested to file his name with the chapter or with the branch or auxiliary with which he is identified. Branch or auxiliary chairmen after approving applications will then forward them to the chapter chairman, the chapter in turn to approve and forward requests to Division Headquarters at Washington, through which the medals given in this section of the country are distributed. It is suggested that officials assist in calculating the time spent by the workers. It is impossible, of course, to judge the time accurately, as time records were not kept. The cost of a badge is \$1.

It may be interesting to chapter members that all badges awarded by the Prince William chapter are for volunteer service.

HAYMARKET RED CROSS JOINS COUNTY CHAPTER

Piedmont Chapter Disbands and Branch Organizations Affiliate With County Units.

The Haymarket Branch of the American Red Cross, which has been a part of the Piedmont Chapter, with headquarters at The Plains, has now become a branch of the Prince William Chapter in order to take its part in the peace activities of the Red Cross, which are conducted mainly along county lines. The annual meeting of the Haymarket Red Cross is to be held on the evening of Friday, October 17.

The following notice, signed by Mr. R. A. Rust, chairman, and Miss Elizabeth G. Meade, secretary, was addressed to the membership under date of October 7:

"As the activities of the American National Red Cross are now conducted along county lines, the Piedmont Virginia Chapter has disbanded in order that its branches may affiliate with their respective county chapters. According to instructions from Division Headquarters that the branches should not disband, but become branches of the chapter of the county in which their territory lies, Haymarket is now a branch of the Prince William Chapter.

"A meeting of Haymarket Branch for the annual election of officers will be held at the parish hall, Haymarket, on Friday evening, October 17, at 8 o'clock. A summary of the work of the branch since its organization will be read, and work for the future explained and discussed."

THE GOVERNOR'S MESSAGE TO VIRGINIA CHILDREN

Following President Wilson's message to the children of the Junior Red Cross, Governor Davis has addressed the following letter to the Juniors of Virginia, which it is hoped will be read in every school in the commonwealth. The governor's message follows:

To the Boys and Girls of Virginia: During the trying days of the war many of you as Junior members of the American Red Cross rendered most valuable and unselfish service to your country in aid of the Allied cause. While the actual fighting has ceased, there remains much work yet to be done by the American Red Cross in caring for the impoverished, sick and suffering people in the war-devastated countries of Europe, and in this work there is an opportunity for every boy and girl in Virginia to render service in helping solve the problems of reconstruction.

The work program outlined for the Junior Red Cross members provides for a comprehensive scheme to furnish relief to suffering children throughout the world, and I appeal to all the boys and girls in Virginia to enroll or to re-enroll as Junior members of the American Red Cross in order to participate in this great service.

THANK YOU

"I like it so much, if I am 83 years old."

This is one of the finest compliments The Journal has received in a long time. It came with a dollar sent to renew the subscription of an old subscriber—old as a subscriber as well as venerable in point of years.

A country newspaper seeks to merit the confidence and regard of its readers by a fair and just accounting of the news of its particular field, by blazing the trail for any good public work which can be furthered by the publicity which the newspaper is able to give, and by a personal and friendly interest in its big family of readers, a large percentage of which the country editor, unlike the city editor, knows by name.

And when such friendly and sincere expressions of appreciation and loyalty drift into a country newspaper office, they are greeted as welcome signals that the train is proceeding according to schedule, the schedule being the standard which the paper is trying to achieve.

Also, it would not be amiss to say that criticism—honest, friendly, constructive criticism—is welcome as praise. For a danger signal saves many a wreck.

THAT HOUR COMES BACK

Whether we want to or not, our clocks will go back on October 26. Announcement that the clocks of the country will be turned back to midnight on the last Sunday in October has been made by officials in answer to many inquiries.

Apparently most of us are willing, and some eager, to welcome the change—as eager as the rest are set against it.

TO THE ALEXANDRIA GAZETTE

The Alexandria Gazette came out on Friday as a paper of thirty-two pages in four sections, a very creditable appearance which merits our warm congratulations. This special edition is a "prosperity" number, in celebration of community progress in the Gazette's field.

Donations of books or magazines will be gladly welcomed by the American Red Cross at Camp Holabird, Md. The boys stationed at Holabird are eager for more literature, particularly magazines. They are said to have read practically everything on the post.

The government's profit in operating the Southern Railway amounted to \$10,637,976, in cash, according to the company's annual report just issued. Operating revenue exceeded \$126,500,000.

Mrs. Georgie Bleight Osborn, wife of Mr. Fields M. Osborn and only daughter of Mr. and Mrs. Samuel R. Bleight, of Haymarket, died Tuesday evening in a Washington hospital. Funeral services took place yesterday afternoon at St. Paul's Church in Haymarket. The service was read according to the beautiful ritual of the church by the rector, Rev. T. M. Browne, and four familiar hymns were sung by the vested choir. The body was laid to rest in the churchyard at St. Paul's.

Mrs. Osborn was a faithful member and regular attendant of St. Paul's Church and the last time she left her home before being carried to the hospital was to be present at a Sunday evening service.

WILL DEVELOP CAVERNS

Big Virginia Caves Purchased by Col.-Brewer, of Atlanta.

Col. E. L. Brown, of the Federal Reserve Bank at Atlanta, has purchased the Endless Caverns in the northwestern part of Rockingham county from Mr. Edmund J. Rosenberger. The caverns, which, because of conflicting interests in the estate, have never been developed, will now be electrically lighted and improved so as to attract tourists and the public. The cave is located only one mile from the Valley turnpike near New Market.

The caverns were discovered by accident October 19, 1879. For the variety and beauty of formation and the peculiarities presented, they are quite different and probably superior to any in the country. The so-called diamond room is 90 by 20 feet in size and forms a sort of vestibule to the main room, which is 75 by 210 feet with a ceiling 60 feet high. The extent of the caverns is such that they have been called "Endless," as the substance wonder has not been fully explored.

MISS AGNEW TO RESIGN

Report States That Home Economics Expert Will Go to Africa.

Miss Ella G. Agnew, assistant director of the extension division of the State Agricultural College and Virginia Polytechnic Institute, at Blacksburg, will tender her resignation within the next two weeks, says a news despatch.

Miss Agnew's duties consisted mainly in the organization of girls' and women's clubs throughout the state. Before taking charge of girls' and women's work in the extension division in 1911, Miss Agnew had engaged in Y. M. C. A. work in South Africa, and it is believed by her friends that she intends to return to her former position.

PLAN HIGHWAY IMPROVEMENT

The street committee of the town council has appointed a committee composed of Mrs. Bolling Lynn Robertson and Miss Amelia Fontaine Brown to solicit funds for the improvement of the principal highways of the town. Mrs. Robertson and Miss Brown hope to arouse a large measure of public spirit and to be able to report unanimous support of the good roads program which is planned. It is expected that this program will eliminate holes and ruts and the dust storms which have threatened the public health.

THE REAL TEACHER

A real teacher is one who knows her work and works her knowledge; who loves the bee in spite of its sting; who has originality and leadership and wishes to develop them; who not only stays close to nature but occasionally catches up with it; who can be generously sympathetic without being patronizing; who can sacrifice a few man-made pleasures for the greater joy of communing with God's great out-of-doors, and who understands that it is foolish to wait for one's ship to come in when it has never been launched.—Carbon Guide (Utah).

—Fire of unknown origin Friday afternoon destroyed the two-story barn on the West street property of Miss Julia W. Lewis, which is rented by Mr. and Mrs. Joseph C. Tullos. The blaze had gained considerable headway when discovered by Miss Mary Snook, of Bristow, as she drove by the house. The building burned rapidly and the flames threatened the nearby residence of Mrs. F. R. Coles and Miss M. E. Rixey and Asbury U. B. Church, breaking windows and burning vines that covered the residence. Prompt work by the fire department, however, checked the spread of the fire.

ANNOUNCEMENTS

To the Voters of Dumfries District: I hereby announce myself as a candidate for the office of supervisor of Dumfries district. As to my qualification to fill said office I refer you to my past record. Respectfully, C. F. BAILEY.

To the Voters of Prince William County: At the request of some of our citizens I announce myself as Independent Candidate for the House of Delegates from Prince William County, to be voted for at the general election November 4, 1919.

If elected, it shall be my whole aim and ambition to serve the people according to their wishes to the best of my ability. This time my name will be printed on the ticket, which was not the case at the special election in August.

Your support is cordially asked for and as I will not be able to make a house to house canvass I take this method as a partial means to inform the people of my candidacy. Respectfully, C. FITZWATER, Nokesville, Va.

Company B, 18th Regt., Va. Cav., C. S. A., 1861-'65.

A CARD

In view of various rumors to the effect that, if elected as supervisor from Dumfries district, I will have the route of the prospective state road changed from the Dumfries road to run by Joplin; and that I will spend more than a fair proportion of the District Road Fund on the road at Joplin, I desire to make the following statement:

First, the route of the state road has already been fixed by the State Highway authorities, to go by Dumfries, and neither the member of the Board from Dumfries district, nor the whole Board, will have any authority to change the route.

Second, if elected, it will be my earnest aim to see that the District Road Fund is fairly and equitably distributed over all the roads in the district. WM. CROW.

Indiana Tractor and Plow

The INDIANA TRACTOR AND PLOW can be used in any field regardless of size or shape and will completely plow a small lot as well as a large field. The plow hooks very close to the tractor, making it light in draft, also pulling plow from center of tractor, eliminating all side draft and allowing plow to turn even furrows.

The operator is in position to see operation of plow as well as tractor.

The tractor runs level with one wheel in furrow, subsiding each furrow with spade lugs and making it self-steering.

The plow has power lift so that it is not necessary for operator to stop control plow in turning, there being but one small lever which causes plow to enter ground in a very short distance; the same lever raising plow. This outfit being sufficiently light to allow the farmer to have his plowing nearly done by the time he could go on the ground, should we build this outfit twice as heavy.

THE INDIANA ALL-ROUND TRACTOR

The INDIANA ALL-ROUND TRACTOR is the nearest perfect power unit for farm purposes. It delivers the maximum of tractor efficiency with the minimum of tractor weight. It couples to all horse-drawn top-working, planting, seeding, cultivating and harvesting implements already in use on the farm. It also does light belt work and will perfectly plow all the ground that it is possible to successfully plant and cultivate.

One man can operate the INDIANA ALL-ROUND TRACTOR in connection with farm implements. This saves the wages of one man for the reason that it is possible to operate both tractor and implement from the implement seat.

CROWDS AT FAIR

Boys' Corn Club Members Send 275 Individual Exhibits to State Event at Richmond.

Yesterday was Farmers' Day at the State Fair in Richmond. Thousands of farmers and their families from all sections of Virginia and from adjoining states were in attendance. For them the exhibits of the products of the best farms in the Old Dominion held the greatest charm. But they did not neglect the farm machinery or the cattle and live stock. They saw all and will go home to improve their methods.

The various exhibitions under the general direction of the extension division of the Virginia Polytechnic Institute are features of the fair and scarcely anything on the grounds surpassed them in interest. Experts in every line of farm work were in attendance to give advice and make demonstrations.

Charles E. Seitz, agricultural engineer of the Virginia Polytechnic Institute, was in charge of the exhibition of farm tractors, said to be the largest collection of the different types of machines ever gathered in the state. The tractors vary in size from the powerful machine hauling a group of gang-plows to those intended for use in the garden, which are manipulated by one man, just as the ordinary plow.

In the exhibit of the boys' and girls' farming clubs, established all over the state under the direction of the county agents, the young farmers are proving to all that they are coming into their own. The corn exhibit of the boys' clubs is the largest ever assembled. They are 275 collections of 14 ears of corn each. The majority of the corn is exhibited flat on tables in order that it may be minutely inspected.

Of the 275 individual exhibits of corn shown, 167 are those of white boys and 108 of colored boys. There are only about thirty individual exhibits of corn grown by the best farmers of the state at the fair. In comparison with this work of the boys stands out as a signal achievement.

Unusually good order prevailed during the day only two arrests were made by the police. These were for disorderly conduct on the midway. Wednesday night was the gayest old party of the fair remember experienced in the amusement zone. Confetti filled the air and feather ticklers on long sticks were in the hands of many of the strollers. Not a show on the course went without its crowds.

To the man interested in military affairs the model camp of the army proved a big attraction. A rolling kitchen and all the field equipment used by army units was shown in the camp. At the headquarters of the army recruiting service a number of men applied during the day for Victory buttons, and these were given on the presentation of discharge papers.

Judging of cattle and live stock went on almost without intermission. The live stock exhibit is the largest one ever brought to the state fair and it will be Friday afternoon before the work of judging the cattle, sheep and swine will be completed. A judging ring has been built near the main cattle building, and there the animals are brought for inspection.

A stand has been erected there to care for any farmers or others interested in watching the work of the judges as they distribute their blue ribbons to the choicest specimens from this and other states. One of the largest exhibitions of cattle came from Long Island and the others are from the Middle West.

Canned goods packed by Manager Palmer V. Boyd and four youthful assistants at the School and Home for Homeless Boys at Covington, Va., attracted the major portion of the attention in the farm products building. Manager Boyd was for five months a prisoner in a German prison camp, and in connection with the farm products raised by the boys which are being shown he has assembled a number of souvenirs of his stay in the prison camp. A daily ration of bread, about the size of a man's fist, and the wooden shoes which Mr. Boyd wore were inspected by hundreds.

Many babies were brought into the baby station in charge of the Federation of Mothers' Clubs and the Parent Teachers' Association. They were feasted on milk and crackers and a number of the smallest were put to sleep in the cots provided. Many requests to find lost babies came to the women in charge and fortunately, with the assistance of the police, the stray ones were found.
