## STATE GETS INCOME OF \$250,000 FROM DOG LAW

### Six Months of 1919 Net Three Times Sum Received in Year Under Old Statute.

According to figures just issued, the Department of Game and Inland Fisheries, which has charge of the enforcement of the dog law, collected in dog taxes between July 1, 1919, when the law became operative, and December 1, 1919, a total of \$256,070.26. The year previous to the enforcement of the new law \$77,994.82 was collected, which is \$178,775.45 less than the amount collected under the new law.

A total of 160,801 tags were issued, while from the funds received \$18,550.85 has been paid out for sheep and other stock killed by dogs. Fees paid out for the cost of tags, receipt cards, books and other expenses total \$22,590.29, leaving a balance of \$125,829.12, which, under the law, will be devoted to county roads and schools.

Wardens have obtained 3,335 convictions for violations of the dog law in which a total of \$13,434.50 in fines was imposed. Dogs killed numbered 2,631.

Detailed statistics for this county follow:

Total collected, \$1,700.50; collected last year, \$1,012; increase, \$688.50; tags issued, 1,332. No report of amount paid out for damages and fees. Balance, \$1,700.50. Warrants, 49; convictions, 31; fines imposed, \$190; dogs killed, 9.

## JAILED AT CULPEPER

### "Lucky Sam" Out of Jail Repeats Post Office Offense.

A colored man with one arm off at the wrist, giving the name of "Lucky Sam," walked into the Culpeper post office last Friday morning shortly before the office opened for business, and without any delay began to break the glass in a number of lock boxes, in which there was mail matter, says the Culpeper Exponent. When arrested he simply said he was "looking for money."

He was placed in jail to await the action of the United States grand jury at Alexandria. After communications with authorities at Washington it was learned that the man had been released from jail at Alexandria the day before he came to Culpeper, having served a jail sentence for committing the same offense at the Manassas post office.

## MRS. MAXWELL DEAD

### Aged Resident, Native of Ireland, Buried at Woodbine.

Mrs. Jane Maxwell succumbed to a brief illness February 5 at the home of Mrs. Margaret A. Bauserman, near Manassas, where she had been living since the death of her husband in 1912.

Mrs. Maxwell was eighty-two years old and the widow of Robert Maxwell, of the Independent Hill neighborhood. She was born in Ireland December 20, 1837, and came to America as a child of three years, moving to Virginia as a bride about fifty years ago. No near relatives survive.

Funeral services were held at Woodbine on Saturday, Rev. DeForest Wade, of the Manassas Presbyterian Church, officiating.

## RICHMOND BOY WINS

### Mark Lutz Writes Best Essay on Physical Education.

A cash prize of \$250 offered by Senator J. E. West, of Suffolk, through the state department of education and health, to the high school student writing the best essay on "Why Should the Legislature Make Liberal Provision for the Physical Education and Health Development of the Pupils in the Public School" has been awarded to Mark Lutz, a student of John Marshall High School in Richmond. A number of Manassas children were interested in the contest.

## HEAD OF FAMILY IS PNEUMONIA VICTIM

### Mother and Six Children Continue Ill of Influenza and Pneumonia.

William B. Griffin thirty-four years old, died Tuesday of pneumonia and was buried Wednesday at Cannon Branch, Rev. J. M. Kline, of the Church of the Brethren, officiating at the ceremonies at the grave. He is survived by his wife, who was a Miss Hottle, and six little children.

Mrs. Griffin and two of the children have pneumonia and the other four are also sick. The family came here from Richmond about a year ago and have been living in a tenant house on Clover Hill farm, where they were found Sunday by Mr. R. L. Johnson in a pitiable condition, every member a victim of the prevailing epidemic. Friends and relatives were unaware of their plight and no doctor had been summoned.

Every member of the family continues quite ill. Friends and neighbors have taken charge of the situation and with the aid of Dr. Harper, county physician, and Miss Audrey Drake, Red Cross nurse, everything possible is being done for them. The baby of the family, now four months old, is being cared for at the home of Mr. J. B. Johnson.

## MANASSAS BOYS AGAIN WIN BASKETBALL FRAY

### Defeat Alexandria Quint 19-9—To Battle With Washington Champions Here Today.

The high school boys' basketball quint added another victory to their list when they defeated the Alexandria High School five on the Alexandria floor Tuesday night by a score of 19 to 9. The team—with the following lineup: Sanders, I. F.; Hooft, R. F.; J. Lewis, C.; Haydon, L. G., and Larson, R. G.—worked in machine-like fashion throughout the game, but it was not until the last quarter that they showed their best. The first quarter ended with a 2-0 score in favor of Manassas, while the end of the second quarter it stood 3-5. In the third quarter it was 7-9. Sanders dropped in five out of six free tosses and also three field goals. Hooft threw one field goal and Larson caged three field goals. Haydon and J. Lewis were also at their best.

The team was accompanied by quite a number of rooters, among whom were Mr. and Mrs. A. A. Hooft, Mrs. R. B. Larkin, Mrs. W. M. Johnson, Capt. Haydon, Misses Catharine Weir, Katherine Ayres, Marjorie Brower, Dorothy Sanders, Helen Glaetli, Bertha Watts, Mary Covington, Mary Seleckman, Emma Yates, Ethel Robinson, Clara Rexrode, Muriel Larkin, Zola Eskridge, Alma Lunsford, Frances Pierce, Lillian Hutchison and Louise Ayres and Messrs. Leon Waters, Taylor Weir, Carroll Sanders, Bowling Hooft, William Sweeney and B. H. Lewis.

The freshman girls were defeated by Lee school, Alexandria, in an afternoon game on the same date.

A team under the name of Bealeton High School, but said to have only one student of that school in the line-up, defeated the Manassas boys last Friday afternoon by the close score of 31-33.

Tonight the locals play Tech. High, so far the undefeated leaders of the Washington Inter-High School Basketball League.

## AUTO LICENSES LATE

Shariff C. A. Barbee has received a communication from Secretary of the Commonwealth James, saying that the Richmond office is unavoidably late in issuing automobile licenses to applicants.

Mr. James advises that when a car owner actually made application for his 1920 license at the proper time, sending the fee required, he is not to be prosecuted for running on his 1919 license when he is unable to obtain the 1920 authorization.

## DATE SET FOR COUNTY FAIR

### President Robertson and Secretary Sanders Attend Session at Danville.

Representatives of fairs in Virginia and West Virginia gathered at Danville on Monday to attend the annual meeting of the Virginia Association of Fairs. The Prince William Fair Association was represented by Mr. E. Lynn Robertson and Mr. H. W. Sanders, president and secretary of the county organization.

Many problems were discussed and the dates of the various fairs were decided, the Prince William fair being scheduled for Wednesday, Thursday and Friday, September 1, 2 and 3.

The Richmond state fair this fall will run ten days and many other fairs will run longer than the usual four days in order to guard against the serious financial result of rainy weather. It was also held by the organization that the educational features of agricultural fairs are well worth maintaining longer than four days.

Figures presented to the fair officials in session showed that over 600,000 persons visited fairs in the two Virginias last year. The value of fair property is estimated at little short of \$1,000,000, while the receipts from fairs in the two states was \$769,500. The amount paid out in premiums was \$91,200, while operating expenses amounted to \$38,550.

That the price of admission should be increased fifty per cent was a decision unanimously reached, on account of the increased cost of operation, securing free attractions and other expenses, which otherwise would place fair associations seriously in debt.

The association elected the following officers: President, Henry B. Watkins, Danville; vice-presidents, J. P. Carico, Galax; J. Calloway Brown, Bedford; C. R. Howard, Fredericksburg, and D. W. Lupton, Winchester. G. B. Ralston was elected secretary for the fifth time. The next annual meeting is to be held at Bluefield, W. Va.

## JUDGE PAYNE NAMED TO WILSON'S CABINET

### John Barton Payne, of Illinois, Former Virginian, to Succeed Secretary Lane.

John Barton Payne, of Chicago, has been selected by President Wilson to succeed Franklin K. Lane as Secretary of the Interior. The new cabinet member is the youngest brother of Mr. Hugh Payne, of Manassas.

Judge Payne was born sixty-five years ago at Orleans, Fauquier county, and left Virginia nearly thirty years ago. He practiced law first in West Virginia and then in Chicago, was judge of a Chicago court and later general counsel of the emergency fleet corporation and of the railroad administration. He is now chairman of the United States shipping board.

## GETS BIG SALES HONOR

### Mr. F. R. Hynson, of Occoquan, Is Star Delco-Light Dealer.

Mr. Fred R. Hynson, of Occoquan, Delco-Light dealer, has the honor of qualifying as a member of the Kilowatt Club, composed of the star Delco-Light salesmen throughout the United States and Canada, who have sold during 1919 1,000 watts of business, according to the company's measure of sales. As a reward for this record among the company's 3,000 representatives, Mr. Hynson will go to Dayton, Ohio, the first of March for the annual Delco-Light sales convention where the Kilowatt Club members to be honor guests.

Mr. Spaulding, of Washington, has been awarded a Delco-Light sales award for 1919.

## CASH STORE

### IT SUITS THE PUBLIC

There can be no doubt of it. Our business has greatly increased under our new CASH AND CARRY SYSTEM—conclusive evidence that the public is more than satisfied.

Most people nowadays want to spend their dollars where they will buy the most. The increasing cost of commodities and the decreasing value of the dollar give the majority of us something to think about. Necessity, the mother of invention, this time has created the Cash and Carry Plan—a satisfactory plan for merchant and consumer and a money-saver, too.

Some of our competitors have begun to squeal, but we are doing business just the same.

We invite the public to inspect our sanitary meat counter, the only one of its kind in town. See how our meats are kept and know that your family is getting what you want them to have—fresh, clean and strictly sanitary food.

New prices—Cash and Carry Prices—will be quoted regularly. Compare them with others.

**Hay, Grain and Feed**

Mr. Farmer, much of your success this year depends on the way you treat your stock. Don't let the price worry you, but become a "crank" about quality, and demand it. A cheap feed in price may be very expensive in results. Let us fill your requirements with a product of quality, and insure you against an unsuccessful year.

"I must say for Hynson's that anything you buy here is REPUTABLE AND WORTH THE MONEY. I have never bought an item of the firm that was not GOOD."

We have worked along these lines for 50 years: strived with all our might and main to "collect" only top-notch merchandise in every line. They may cost a little more, but they are worth a great deal more, and this is the only merchandise we aim to offer. We do not buy jobber's garments that are "cut or made," so the jobber can get his profit, but only garments that are made to sell direct to the consumer—an article with the maker behind it. **TWO ROADS TO SUCCESS**

There are successful men who make the most of opportunities. And there are more successful men who make their own opportunities. On which side of the avenue do you live? If you haven't time to give to such trivial matters, then it will be a simple matter to answer for you. In either case you will be interested in a little story of a red headed friend of a friend of ours.

This story is the simple tale of an Eskimo, more particular than his fellows, who was in the habit of taking a monthly bath. As soon as this fact became known, so the story goes, every bathtub manufacturer in the world began to compete for his business. Salesmen traveled to Greenland to get his order, and great concerns cut each other's prices in their effort to land the tub-age.

In the midst of the excitement one bathtub concern conceived a brilliant idea. This doubtless was the original opportunity-maker in the tub industry. Instead of fighting for the lone order and centering all his forces on the one prospect that existed, this eccentric manufacturer proceeded through judicious advertising to persuade the other Eskimos to bathe, and by so doing created such a demand for bathtubs that he was able to sell all he could manufacture, probably accepting contracts on the 1920 basis of six months' delivery.

A homely tale, perhaps, but one with a moral which can be discovered without the aid of a microscope.

**FINE DAIRY RECORD**

Prince William may well be proud to hold her own among the steadily advancing dairy interests of Virginia. A recent report issued by the United States government shows that Virginia has a larger percentage of dairy animals that have been tuberculin tested and found free from tuberculosis than any other state in the union. There are now seventy-nine federally accredited herds in the state, with more coming. In the twelve months preceding March 1, 1919, a total of 22,571 Virginia cattle were tested under the co-operative plan, of which only 772, or 3.4 per cent, reacted to the test.

**MISTAKES**

When the plumber makes a mistake he charges twice for it.  
 When a lawyer makes a mistake it is just what he wanted, because he has a chance to try the case all over again.  
 When a carpenter makes a mistake it is just what he expected.  
 When a doctor makes a mistake he buries it.  
 When a judge makes a mistake it becomes a law of the land.  
 When a preacher makes a mistake nobody knows the difference.  
 But when an editor makes a mistake—Good night!—Ex.

**MORE THAN SKIN DEEP**

Although we have been taught of old that beauty is only skin deep, the United States Public Health Service comes forward with the assertion that beauty is more than skin deep. Natural beauty, according to health experts, is usually a sign of health that comes from keeping the body clean and getting plenty of outdoor exercise. With influenza and kindred ailments threatening on every hand, today is a very good time to pursue natural beauty in her fight and bid fast to every comforting sign we are privileged to catch.

Do you know that Prince William and girls in the county agricultural clubs raised thirty-five purebred pigs last year? Do you know that the county...

**THE TEST**  
 In the athletic room at Cornell there are these verses inscribed on a tablet:  
 The test of a man is the fight he makes,  
 The grit that he daily shows;  
 The way that he stands on his feet and takes  
 Fate's numerous bumps and blows,  
 A coward can smile when there's naught to fear,  
 When nothing his progress bars;  
 But it takes a man to stand up and cheer  
 While some other fellow stars.  
 It isn't the victory, after all,  
 But the fight that a brother makes.  
 The man, who drives against the wall,  
 Still stands up erect and takes  
 The blows of fate with his head held high,  
 Bleeding and bruised and pale,  
 Is the man who'll win in the by and by,  
 For he isn't afraid to fail.  
 And the shocks that your courage stands,  
 The hours of sorrow and vain regret,  
 The prize that escapes your hands,  
 That test your mettle and prove your worth;  
 It isn't the blows you deal,  
 But the blows you take on the good old earth  
 That shows if your stuff is real.  
 General Grant, according to the just published statement of his son, opposed encouragement of foreign immigration to the South because he wanted to see this section kept the citadel of undefiled and undiluted Americanism. Conditions justify his position and go to prove that he had much more far-sighted statesmanship than general opinion has given him credit for.—Times-Dispatch.

DAUGHTERS HOLD REGULAR MEETING

Historian Reports Many Literary Contests on Historical Subjects for 1926.

The February meeting of Manassas Chapter, United Daughters of the Confederacy, postponed from the first Wednesday of the month, was held Wednesday afternoon at the residence of Mrs. R. LeRoy Byrd in Centre street.

Mrs. W. M. Rice, chapter historian, gave a report of prizes, medals and rules governing U. D. C. literary contests of the year, including the Rose loving cup for the best essay written by a Daughter on "Stonewall Jackson;" the Anna Robinson Andrews medal for the best essay written by a Daughter on "The Battle of King's Mountain;" the soldiers' prize of \$20 for the best essay by a Daughter on "The South in the World War;" the second best essay to receive a prize of \$10 from Mrs. C. M. Roberts, of Arkansas; the Florence Goadler Faris medal for the best essay on "Jefferson Davis" written by a member of the Children of the Confederacy, and the Hyde medal for the best essay on Matthew Fontaine Maury.

The essays submitted, it was announced, must not contain over 2,000 words, the number of words to be shown in upper left corner of first page, and must be sent to the state historian to be forwarded to the historian general by September 1. All essays must be typewritten with fictitious signatures, the real name of the writer to be enclosed in a sealed envelope bearing the fictitious name.

Mrs. Rice announced that the February topic, "Southern Men in the World War," arrived too late for the preparation of such a program.

The chapter treasurer was authorized to forward a check for \$5 toward the salary of the custodian of the Lee mausoleum at Lexington.

The members voted to make an effort to beautify Lee avenue by setting out memorial trees. Mrs. Margaret Barbour was appointed a committee to obtain the necessary permit from the town council.

A resolution was passed commending the loyalty of Hon. C. A. Sinclair, Prince William representative in the House of Delegates, "as a son of the South and true American" in opposing the acceptance of the Susan B. Anthony amendment. The resolution stated that the Daughters are not associated in any way with politics, but "do stand vitally for state's rights."

Announcement also was made of the acceptance by Mrs. C. M. Larkin, principal of the Manassas graded school, of an essay contest for pupils of the eighth grade on the life of Admiral Raphael Semmes, of the Confederate navy. The prize is to be awarded through the U. D. C. by Ewell Camp, Confederate Veterans.

### PETERS REPORTS COST OF PROHIBITION TRIALS

Approximately \$5,500 to Be Used for Past and Pending Department Cases.

Prohibition Commissioner Peters spent \$3,534.36 to defend William C. Hall, prohibition agent, in his two trials for murder, according to a report filed Monday in the senate in compliance with the demand for an accounting. This sum is in addition to the costs to the state through its regular channels.

Commissioner Peters filed an itemized statement showing public funds expended by him, or which he has contracted to spend, both in defending the agents from criminal prosecution and in getting legal opinions from other than regular employes or state officials. Approximately \$5,500 was either spent or will be spent when pending cases are disposed of.

Commissioner Peters restated his determination to defend employes of the department in prosecutions arising out of the

enforcement of the prohibition law.

"In every instance prosecution of suits arose in connection with the discharge of duty imposed upon these officers of the law," said Commissioner Peters in his report. "I have defended them only after a thorough investigation had convinced me of their innocence."

The Hall case tried at Manassas, which involved the trial of one of four prohibition agents charged with slaying two suspected law violators near Fishers Hill, Shenandoah county, on March 26 last, was the most expensive to the prohibition department, there having been two trials of the defendant. Ten cases in all are reported.

Louis O. Wendenburg, of Richmond, for professional services at the two trials of Hall, received the sum of \$1,000. Walton & Walton, of Woodstock, received \$500 and Meetze & Didlake, of Manassas, \$300 for their professional services at the same time, making the counsel fees \$1,800. The balance of the \$3,534.36 was accounted for by railroad fares and hotel bills for wit-

nesses and other legal expenses. In one case Commissioner Peters had gone outside of his office of the state legal department to get an opinion. In that instance he paid Wyndham R. Meredith, of Richmond, \$500 for an opinion concerning the rights of inspectors and deputies to search trains on which ardent spirits were being unlawfully transported.

The groundhog has surely given us a record-breaker in weather. We have had an unusual amount of hail, snow, rain and ice since his lordship was supposed to show himself.

Some of the flu victims here are convalescing and many are just beginning to have it. Among those who are recovering are Mrs. Zeph. Wells, Mr. and Mrs. D. W. Mathers and Paul Quigg. Mr. and Mrs. Ambler are still very sick. Mrs. Charles Croson, Misses Alice Mantilly and Alice Merchant, Mrs. C. L. Crose and Mr. Luther Fairfax are among the recent victims. Mr. Upp is able to resume his work.

Owing to the terrible condition of the weather last week, elders of the Presbyterian Church notified Rev. Mr. McCleod that it would be better not to attempt to hold services on Sunday. When Sunday proved to be a better day than expected a song service was held after Sunday School and the Woman's Missionary Society met with Miss Kelley during the afternoon.

Mrs. O. S. Woody has sold her house in Main street to Mr. Jos. Beasley, who will take possession April 1.

13 Less Coal 12 More Heat

You can save from a third to a half of your fuel and have a much warmer home than ever before if you will install a CALORIC.

The CALORIC is the remarkable furnace that heats without pipes, through only one register. It circulates heat by Nature's own method, forcing warm air up into the entire house and drawing cool air down into the furnace to be reheated and purified.

The CALORIC heats practically all types of homes, bungalow or three-story house, up to eighteen rooms. It heats kitchens and bath bedrooms just as comfortable and warm as the rest of the house. Also heats churches, factories, stores and other business buildings. More than 50,000 already installed.

The CALORIC can be installed in new or old houses—no cutting of walls for pipes and no interference with present system of heating. It burns coal, coke, gas, wood or kerosene, and costs from one-third to one-half the fuel.

Or, if that be found for any reason to be not feasible, then by such other conventions as will allay friction and make permanent good understanding."

**Motor Car Standards Are in the Hands of the Consumers**

"It is within the power of the motoring public to make automobiles measure up to their requirements," says C. K. BOHNE, of Nokesville, Va., local dealer in Chevrolet passenger and commercial cars.

"The success of any automobile depends on the degree to which it gives purchasers what they want and need.

"In buying a car see that you get all that your money calls for. If you are not a judge of mechanical construction find out from owners what service their cars afford. The testimony of not one, but many owners is necessary to establish a reliable reputation. The reputation and resources of the manufacturer are guides to the quality of the car.

"Service and economy are the chief points to be considered.

"Of what use are all the comforts and conveniences of equipment if the car itself doesn't stand up? What enjoyment is there in them if the car itself is a continuous extravagance?

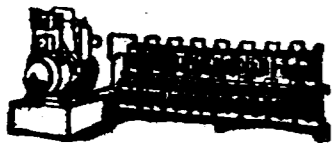

"Complete satisfaction can only be experienced with a car that not only includes every essential of modern equipment but which affords dependable and inexpensive performance.

"These are the standards by which a car should be judged. Purchasers can secure cars that measure up to them if they insist upon it.

"Satisfy yourself that the car you decide upon is fully equipped at the start. But above all make sure that the motor and other vital parts of its construction are such as to insure you dependable, economical and lasting service in return for your investment. By doing this you will advance the standards of the industry and benefit the motoring public as a whole."

**CARLIN ENDORSES WOMAN SUFFRAGE**

Former Representative Advises Opposition to "Bow Gracefully to Inevitable."

This editorial from the Washington Post of February 5, with reference to former Representative Carlin's advocacy of equal suffrage for Virginia women, will be of interest to Mr. Carlin's friends in this county and to all who are interested in the fate of the suffrage amendment in the Virginia legislature, which has already been rejected by the senate:

With true chivalry and with a practical appreciation of the facts, former Representative C. C. Carlin, of Alexandria, surrenders unconditionally to the suffragists and urges all men of Virginia to do likewise. In a letter to a member of the Virginia legislature he urges that a state woman suffrage act be passed at once, preferring that "the women of Virginia be enfranchised by Virginians" rather than "be enfranchised despite Virginians." It is a matter of common knowledge, he states, that it will be only a few months when a sufficient number of states will have ratified the suffrage constitutional amendment to make it effective.

Mr. Carlin frankly admits that while a member of the House of Representatives, serving as chairman of the sub-committee of the House judiciary committee having charge of the suffrage question, he did all in his power to prevent the submission of a suffrage amendment, which course he thought would not meet with the approval of the people of the south. But the country has passed beyond a discussion of the advisability of universal suffrage, he says, and there is no doubt that the amendment will be ratified by the necessary number of states.

There is reason as well as sentiment behind the suggestion of Mr. Carlin which is likely to appeal to the Virginia legislature. The suffrage fight is over. Politicians of both parties who keep in close touch with the people are unanimously convinced that ratification of the suffrage amendment will be accomplished soon, probably in time to permit women voters generally to take part in this year's presidential election. In view of this situation it would be much more gracious upon the part of the men of Virginia to confer the right to franchise upon the women of their state than to have it come to them through the action of other states. And it likewise would insure their participation in the selection of the next president.

"Let those of us who have heretofore stood in bold opposition bow gracefully to the inevitable," says Mr. Carlin in his letter, "and graciously surrender to the wishes of our own women rather than grudgingly submit to the determined purpose of those of other states."

Spoken like a true Virginian and like a practical man.

John Bowie Strange Camp Plans Interesting Memorial.

Commander Bartlett Bolling, of the John Bowie Strange Camp, the organization of Charlottesville Confederate veterans, has announced that the John Bowie Strange Camp will soon publish its memorial book named for Col. Strange and that subscriptions will be received by the Charlottesville Daughters of the Confederacy and by Mr. C. B. Laney, adjutant of the camp, to whom Commander Bolling accords much credit for making the interesting book possible.

The book is said to be replete with historic interest, containing a roster of the companies from Charlottesville and Albemarle, biographical sketches and fitting pictures of many of the Daughters and members of the camp and Confederate monuments. Among the names that feature the volume are Gen. T. L. Rosser, brilliant and dashing cavalry commander; Col. R. T. W. Duke, Col. J. S. Mosby, unique and daring partisan ranger; and Gen. J. E. B. Stuart, and

**VOTE ON DRY DEPARTMENT**

By a vote of 72 to 10 the Virginia House of Delegates Tuesday evening decided to continue the state prohibition department until September 1, 1922. This action came after amendments providing for abolition of the office September 1, 1920, and September 1, 1921, respectively, had been voted down. The Gilpin bill, providing for immediate abolition of the department, was withdrawn before debate on the question of extension began. The delegate from Clarke realizing that his measure had no chance of passing, Delegate Parke P. Deans, of Isle of Wight, offered a substitute for the whole, which provided for continuance of the department until September 1, 1922. It was this amendment that was adopted.

**CASH vs. CREDIT PLUS SPECIALIZATION**

It's the day of changes. New conditions are arising in the business world that have to be met by new methods of doing business. This not only holds true in the case of the merchant but also the consumer. In looking backward one can hardly realize the good old easy methods that prevailed before the Great War.

We felt when we started in business that the time was coming—and coming fast—when everyone who sold the necessities of life would have to SPECIALIZE. We did this and determined to sell meats and only meats. We feel that we have been justified.

**Consider These Points:**

Selling only meats we do not have to carry five or ten thousand dollars on our books. Doing a thirty day business my total losses have not been one-fourth of one per cent.

Therefore you pay for this—NOTHING

I keep one clerk who will combine to deliver very cheerfully your orders. If he did not do this I would have to pay him just the same

Therefore you pay for this—NOTHING

I do my own bookkeeping.

Therefore you pay for this—NOTHING

I am very frank to say that if I carried a big stock of other goods I would have to have more help but—I SPECIALIZE.

The proof of the pudding is the eating thereof. Come down and see me and if my prices are not as low as can be sold elsewhere I would be pleased to know it. You will still receive the same courtesy, the same attention and the same low prices served in the same SANITARY WAY.
