**THE POETRY CORNER**  
 The little corner of The Journal devoted to favorite poems continued to show the wide variety of favorites among our big family of readers. This week's poem is "Footsteps on the Other Side," submitted as the favorite poem of Miss Maud Lee Norman, R. F. D. 3, Bristol. Miss Norman is another reader of the poetry corner who failed to send the writer's name with the poem, and we charitably conclude that this is another poem whose author is unknown.  
 Folks, when you know the author's name, be sure to send it with the poem. We are grateful to the poet for giving us a thought worthy of first place in any man's heart and we would not withhold the small tribute of recognizing his immortal relationship to the lines he has shared with us.

**Footsteps On The Other Side.**  
 Sitting in my humble doorway  
 Gazing out into the night,  
 Listening to the noisy tumult,  
 With a kind of sad delight,  
 Wait I for the loved, who comes not,  
 One whose step I long to hear,  
 One who—though he lingers from me—  
 Still is dearest of the dear.  
 Soft he comes, now heart be quick,  
 Leaping in triumphant pride,  
 Oh! It is a stranger's footstep—  
 Gone by on the other side.  
 All the night seems filled with weeping,  
 Winds are wailing mournfully—  
 And the rain and tears together  
 Journey to the restless sea.  
 I can fancy, sea, your murmur,  
 As they with your waters flow;  
 Like the grief of single beings,  
 Making up a nation's woe.  
 Branches, bid your guests be silent,  
 Hush a moment, fretful rain,  
 Breeze, stop sighing—let me listen,  
 God grant, not again, in vain!  
 In my cheek the blood is rosy,  
 Like the blushes of a bride.  
 Joy! Alas, a stranger footstep  
 Goes by on the other side.

Ah! How many wait forever  
 For the steps that do not come,  
 Wait until the plying angels  
 Bear them to a peaceful home.  
 Many in the still of midnight  
 In the streets have laid and died,  
 While the sound of human footsteps  
 Went by on the other side.

**Pull Together for an American Merchant Marine**

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$2,000,000,000.  
 Everybody agrees that we must keep this fleet on the seas.  
 If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—We shall be in the position of a department store whose goods are delivered in its competitor's wagons.  
 Congress is considering legislation which will perpetuate our war-built merchant marine.  
 Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.  
 This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.  
 Send for free copy of "For an American Merchant Marine."

Out with Old-Ma Nature

"Just think of it, Bill. One more perfect day, and then—back to the sad, old grind—to restaurant food, city air, and that listless 'how-I-hate-to-get-up-in-the-morning' feeling. Out here in the woods I really live. The old blood fairly zips through my veins. I eat like a horse and sleep like a rock."

"Of course! In the wilderness you are living as Ma Nature intended you should live. You eat the right sort of food, really work your muscles, and get a proper amount of sleep. Before you came out to the wilds you were poisoned."

"Poisoned! What do you mean?"

"Self-poisoned—food waste stagnating in your colon. It's a trouble that afflicts most sedentary people. You see, mental workers like us don't develop any abdominal muscles to speak of. That's bad. Then we don't eat the sort of food Nature intended we should eat—and that's bad. So sluggish bowels soon begin to plague us and constipation is the result."

"How about laxatives?"

"You know what happens when you take those drugs. You get a partial movement, or one so violent that your system is exhausted for a day or two after the first spasm. The next dose has to be stronger, because the bowels are weakened."

In time you are a confirmed victim of the laxative habit and constipation is chronic.

"Well, what is the answer, then, for us slaves of the desk?"

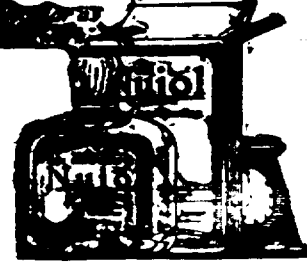

"Nujol. It will put you right as a trivet, as it has done me. Nujol works on an entirely new principle. Instead of forcing the system, it simply softens the food waste. This helps the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system."

"That sounds like common sense."

"None better. Nujol prevents constipation because it helps Nature maintain easy, thorough bowel evacuation at regular intervals, which someone has called 'the healthiest habit in the world'. It's absolutely harmless and pleasant to take."

"Say, that must be great stuff. Write the name down on a piece of paper, and I'll buy a bottle or two when we get back. I want to keep the regular habits I've picked up out here."

Nujol is sold by all druggists in sealed bottles only, bearing the Nujol trade mark. Write the Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger".

# Strictly Cash

## TO OUR CUSTOMERS AND FRIENDS

On and after July 1, 1920, we will conduct our business on a strictly cash basis

Many of our competitors and brother merchants have resorted to this plan, owing to the fact that keeping books and making collections are very slow and expensive. We expect to cut down on our profit, and instead of keeping books we are going to give it to the buyer, which puts money in your pocket and is less trouble for us. All machinery will be sold on the basis of the customer giving a trade acceptance due at settling time without interest. We are sure it will not be as much trouble to the buyer as keeping a book account. Give us a call when you need anything in the machinery line. Our motto is FULL WEIGHT and FULL MEASURE. Our aim is to please you; and if we please you tell others, if not, tell us.

## Certain-teed Roofing Resists Fire

Certain-teed Roofing is fire retarding and spark proof; consequently your fire risk is greatly reduced when Certain-teed roofs your buildings.

Burning embers carried by the wind from nearby fires are always a menace to old fashioned, inflammable wood shingle roofs. Certain-teed forms a permanent protection against sparks and embers and all such carriers of fire.

Because of the great risk of general conflagrations in congested districts, and of the lack of safe fire protection in the outlying and rural districts, you should get this Certain-teed protection on your buildings.

In addition to being fire resisting, Certain-teed is a most economical roof. It resists all forms of weather attack—rain, sleet, snow, sun, etc. It is guaranteed by the manufacturer for 3, 10 or 15 years, according to the weight you select.

There is a scarcity of many types of roofing products—you can always get Certain-teed Smooth Surfaced Roofing, the most economical and serviceable roofing to be obtained.

See your dealer at once. He either has Certain-teed or can get it quickly from a nearby Certain-teed warehouse.
