Certain-teed Roofing is Spark-Proof

Certain-teed will protect your property against fires due to sparks dropping on the roof from passing engines. It also helps to prevent fires spreading from building to building by means of sparks and burning embers.

Where fires have started in other parts of the building, Certain-teed Roofs tend to smother them and thereby prevent serious damage to other property.

This type of protection is appreciated by all property owners and particularly by those who are outside of the zone of adequate fire-fighting apparatus.

But Certain-teed Roofing is more than an aid in the prevention of fire. It also protects from rain or snow and is guaranteed for five, ten or fifteen years, according to weight.

It costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he can't fill your entire order from stock, he can get what you want quickly from a nearby Certain-teed distributing center.

LETTER BY CARL ALLENSWORTH

Former Manassas Boy Gives Brief Sketch of His Life.

Vienna, Va., Feb. 17, 1920.
Ziegler Publishing Company, New York City.

Dear sir:—I received your very pleasant and courteous favor of the 9th inst., and note your request for a sketch of my career. Candidly speaking, Mr. Holmes, I do not think I have accomplished enough as yet to have my experiences published, but if you think the information contained herein will be of any service to the readers, you are at liberty to print it.

I was born in Manassas, Virginia, in the year 1898. When but an infant I contracted a cold which settled in my eyes, and despite the efforts of many physicians I gradually lost my sight. In 1907 I was sent to the Virginia School for the blind; there I took the regular school course, together with music and industrial trade, and in 1918 I was graduated in vocal music, piano tuning and piano player construction. From that institution I was also awarded a music medal for that year, of which I am very proud.

Since that time I have been tuning and selling pianos, and my business is increasing right along. Almost all of my work is in the country districts and I have some very amusing experiences, for some times I ride in fine automobiles, the next day perhaps a road wagon, and occasionally have a long walk down a muddy road, but in this time and day of Fords and electricity a man is bound to get some jars and shocks.

Last spring I tuned a number of pianos in Hagerstown, Maryland, and in a letter just received from Mr. John E. Nigh, of that city, he states that my work was perfectly satisfactory and the people want me to come back this spring; he further states he has a number of new patrons.

I am a factory representative of the Warren Piano Company, located at Warren, Penn., and just recently sold two high grade pianos. If there are any blind tuners who want to take up selling pianos also, I would be glad to give any one, on request a bit of information which might be of some service to them.

In addition to my tuning visits I am running a broom shop, in which I work when tuning is slack, and in bad weather, I find, Mr. Holmes, that this is not only a paying proposition, but it is a diversion of work and furthermore had it not been for my broom machine I would doubtless have been through out of work quite a few days this winter.

I put an advertisement in the county paper and I received such a quantity of corn that it became necessary to employ a school boy to help out for a time. I still have plenty of corn to make up, and by the time I shall have finished that it will be time for me to take my tool box and strike the road again.

I would like to thank the fellows who have given us the benefit of their experience, for I have gotten a good deal of valuable information from reading back numbers of the Ziegler. It is a fine thing that we have a medium of exchange wherein we can get the ideas of our fellow workers. And now I wish I could sling a few of those flowery words the writers use when they commend a people who are doing a good work, for if I could I would send you folk of the Ziegler office a shower of congratulations that would knock you off your feet. But I am not strong on verbal logic—a brace, so I'll just wish you the best of success in the splendid work you are doing for the blind of America, and I would like to see any long haired poet wish you any more.

Yours very truly,
CARL ALLENSWORTH.

FOURTH RED CROSS ROLL CALL

Mr. E. A. Rust, of Haymarket, Director for Prince William Chapter.

Mr. R. A. Rust, of Haymarket, has been appointed director of the Fourth Red Cross Roll Call for Prince William County Chapter. This announcement was made by Potomac Division headquarters, yesterday, who stated that more than 75 per cent of the Red Cross chapters in Maryland, Virginia and West Virginia had completed their organization for this annual event, which consists of renewing memberships of enrolling new members.

Volunteer workers are urgently needed to make the roll call a success in this county and all those who desire to solicit memberships should communicate with Mr. Rust, who will furnish them with supplies and credentials.

With its peace time program fully completed the great relief organization, which has more members than all the combined agencies in the nation, is carrying out a health enterprise in co-operation with other health agencies, that will eventually be taken up in every community in the United States. Included in the general plans for promoting the public health are the Junior Red Cross, the extension of home service to civilian families, health centers, public health nurses, home care of the sick and dietetic classes and first aid methods. The Red Cross is also finishing its obligations, to the soldiers, sailors and marines in the military hospitals of the country; is continuing home service in the camps for our peace time forces and is still conducting a system of foreign relief.

The Fourth Red Cross Roll Call begins on Armistice Day, November 11, and ends on Thanksgiving Day, November 26.

KILL THE RAT CAMPAIGN

October the First to December 31st—October the First to December 31st.

Miss Lillian V. Gilbert, County Home Demonstration Agent.

During part of the months of November and December 1919 a "Kill the Rat Campaign" was put on by the boys and girls of Prince William county. This through the co-operation of the teachers of the county schools was a big success; resulting in the capture of more than 18,000 rats and mice.

Again this Fall an endeavor is being made to put over even a more successful campaign than that of 1919; and it is especially urged that every one make a special effort during the time to rid their premises of rats and mice. A special appeal is made to the children of the county schools to aid in this campaign.

Farmers and housewives make a special effort to rid their premises of rats and mice. Help to make this campaign worth while. Encourage the boys and girls in every way possible. See that small prizes are offered in your school; also see that the tails of all rats and mice you kill are delivered at the school nearest you. Help yours to be the banner school in the county.

At the September meeting of the county board of supervisors an appropriation of \$75.00 was made as awards for rat extermination, to be used as follows: For the one getting the largest number in each district \$5.00, for the next largest number \$3.00, and for the next \$2.00. For the one getting the largest number in the county \$15.00. The contest to begin October 1st and close December 17th.

The county home demonstration agent hopes to get into all the white schools of the county during the first few weeks of the campaign, but urges that every one get busy and not wait for her coming.

The negroes of the county are requested to take part in this campaign for getting rid of the rats and mice which prove such pests especially to the farmers and housewives. From time to time reports will be given out through the county papers showing who is ahead in the contest. Boys and girls of the county get busy.

SIMPSON-KLINE

Mr. Marvin Simpson and Miss Flora Kline, both of Manassas, were married Monday evening October 11, at 8:15 o'clock at the residence of Rev. T. D. Clark, who performed the ceremony. They will make their home here. Mr. Simpson is employed by Mr. L. E. Beachley.

Mrs. Nathalia I. Petter, campaigning the states for cleaner morals, will give a short talk along her line of work at 7:20 tonight at the Dixie Theatre.

COMMUNITY FAIRS NEXT WEEK

At Bethel on Friday, and Gold Ridge on Saturday, October 23.

Friday and Saturday of next week are expected to be gala days as a Community Fair is to be held each day. At Bethel on Friday and Gold Ridge on Saturday.

While the communities border on each section in which the fairs are to be held all county people are cordially invited to attend. The plan of the fair committees is to make these fairs Agricultural, social and educational. Arrangements are being made to take care of all exhibits and it is urged that all interested be sure to bring exhibits. These should all be on the grounds by 9 a. m. of the morning of the fair. Good speaking, music, athletic sports and other forms of entertainment and amusement will be on the grounds; also luncheon will be served for the benefit of the new school building.

Dr. William D. Sanger, formerly associated with the Harrisonburg Normal School, now dean of Bridgewater College, will speak at both of these fairs. Dr. Sanger is an old resident of the county and writes that he will arrive in Manassas at 6 o'clock Thursday evening and remain until Sunday morning. It is hoped that every one possible will put forth an effort to hear Dr. Sanger. These communities are, indeed, fortunate in securing the services of so capable a man.

A feature of the fair that is being stressed is the better baby contest, which will be held at each fair. All mothers in the county desiring to enter their babies are invited to do so. Babies may be entered in the following divisions:

First Division—Children six months of age, up to and including one year.

Second Division—Children thirteen months of age, up to and including two years.

Third Division—Children twenty-five months of age, up to and including three years.

Fourth Division—Children thirty-seven months of age, up to and including four years.

Fifth Division—Children forty-nine months of age, up to and including five years.

Score cards and certificates of examinations will be mailed to each mother as soon as the proper signatures can be gotten. Better baby prizes will be given to the highest scoring boy and girl in each division. All mothers who had babies examined last year at the county contest are urged to enter their babies in the next division this year, thus continuing the examination. Contest opens at 9 a. m. and will continue throughout the day. The following physicians have charge of the contest at Gold Ridge: Drs. R. E. Wine, W. Fewell Merchant, S. S. Simpson and L. F. Hough. It is hoped that the doctors in the districts of Occoquan and Dumfries will take charge of the contest at Bethel. At both of these fairs exercises will continue in the evening and speaking, community sings and etc., will be features of the evening.

Doesn't Your House Need Painting?

All throughout the country, homes and out-buildings are fast decaying through lack of a protective coat. Failure to paint is merely adding to the up-keep cost a few years hence—and reducing the value of your structures from month to month.

Fall is the ideal time to paint. If you can not get a painter to do the work, do not let it go undone—find some way of doing it yourself. Too much is at stake to neglect this longer. You paint not for beautifying primarily, but for surface protection.

\$31.40 Will Buy the Paint If House is of Average Size

Using Longman & Martines Semi-Paste Paint, which is guaranteed pure and the equal of any paint made, a house of average size, say 25 feet wide, 30 feet long and 20 feet high, will require but 5 gallons of L. & M. Semi-Paste Paint @ \$5.20 and 3 gallons of Pure Linseed Oil @ \$1.80, making the total cost of material only \$31.40.

Is not the present the time to save the surface with L. & M. Paint?

NIGHT-RIDING BOLSHEVISTS
During recent weeks there has developed a phase of Bolshevism among the farming population of several of the cotton-growing states that is manifesting itself in the inauguration of a reign of terror and destruction of property that has become a serious menace to law and order, as well as to the interests of the industry in whose behalf the movement professes to be inspired. This lawlessness has taken the form of posting notices on gins, warning their owners to close down operations until the price of cotton is forced to a 40-cent level. Refusal to heed these warnings, the ginners are notified, will be followed by the destruction of their gins by application of the torch. In numerous instances, in several of the states, these threats have been carried out.
It is a truism that any movement founded in lawlessness, however real may be the grievances which lie back of it, defeats its own purpose and in the end reacts injuriously upon the cause in whose behalf it is mistakenly conceived and prosecuted. Lawlessness creates anarchy, and anarchy brings tenfold more evils upon the community which tolerates and supports it than it cures. No worthy movement ever gains strength by countenancing lawlessness in any form. That will prove true in the case of the outlawry that is now spreading through the south.
There may be influences operating in the cotton market which tend unduly to depress prices, but, if so, with existing laws and their own power of self-reliance, the farmers have ready-forged the weapons with which to combat these influences; and in their assertion they have back of them the undefeatable law of supply and demand. They are not lacking in councils of intelligence as to how to make use of these powerful weapons to restore the market to its normal functioning, with the certainty of such price tendencies as changing conditions of supply and demand justify.
If the process of gradual marketing be pursued, for which adequate financial support will not be lacking, the market will respond with naturalness to the restoration of a stable price basis. In no other way can this object be effectually attained to the advantage of the cotton growers, and the sooner they unite to suppress the lawless movements in their midst, the better for them.—Richmond Times-Dispatch.

BRIEF LOCAL NEWS

—At a called meeting of the board of supervisors Tuesday, October 12, the subject of the rat campaign was discussed, after which the board unanimously decided that one rat should count as five mice throughout the campaign. Teachers will please see that all pupils get credit for their work accordingly. For instance, every rat counts five points, two rats ten and etc.—

Because of the large classes this year and the consequent heavy work of the teachers, the reports from the graded school will be sent out every six weeks instead of every month, as heretofore. Parents wishing to know at shorter intervals about the progress of their children are invited to confer with the teachers by writing or by visiting the school. The first reports of the high school as well as the graded school will be sent out the first week in November.—Miss E. H. Osborn, Principal.

Mr. Taber spoke at the Baptist Church in Haymarket Sunday on the subject, "Back to Christ." His text in part:

There is a constant and a continued struggle necessary to keep religion pure. In Old Testament days the people would constantly wander from the worship of the true God, and would indulge in the grossest kind of practices that passed under the name of religion. It was the business of the prophets to call back the people to the worship of the true God.

Today as in olden times eternal vigilance is the price of religious purity. Sometimes the church lays too much stress on money, on physical things, and not enough on spiritual things.

To divorce Christianity from Christ is impossible. To keep religion pure, keep to the Gospel of Christ.

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for 146,065 cars and tractors. The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country. Henry Ford Says: "The war is over and it

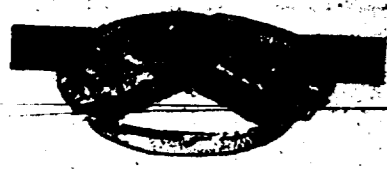

is time war-prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interest of all it is thus a real practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards."

We are at your command, with regular Ford efficiency, to help you and eagerness, to fill your orders.
