### MAN IS HIS OWN CRITIC

Man is his own severest critic. The worst indictment of New York is contained in the New York newspapers.

This is true of every other city and town. Also of every business and profession.

If you want to hear a town damned go to those who live there and give them your ear.

If you want to hear the black side of any business, spend an evening with a man who makes his living it it.

Everyone naturally supposes that the cities are far behind the rural districts in morals, health, thrift, industry, and all the qualities which we associate with a progressive and healthful society.

As a matter of fact, the census tells a different story, showing that in many, if not most respects, the cities are superior to the country.

The cities, however, advertise their wickedness more vigorously than the country and so we get a wrong idea.

Nature in the rough state is not the attractive mistress that we give her credit. The country improves under man's hand.

When the city people go to the country they build better homes, with more conveniences and better sanitation than the country people. True, one reason is because the city people can afford luxuries denied the country people, but money does not get results unless the tastes and standards are right.

The cities have their tenements, with filth and dirt, but have you ever been in a shack in the country where the livestock gets better attention than the children? The further you get from the influence of the city the more common such conditions become.

Take the same class of people who make our city tenements, transplant them to the country and they will duplicate the squalor of the city.

Ask any of our soldiers who saw service in Europe about the sanitary and moral standards of the average European peasant and his descriptions will shock you.

Man hasn't made as big a fizzle as he has marked up against himself. His discontent is a healthy sign and the germ from which improvement must grow. But now and then he can afford to take a creditable inventory.—Type Metal Magazine.

### MARYLAND AND VIRGINIA DAIRYMEN

(By R. S. Hynson, Local President)

The directors and local presidents met at the Association's plant Wednesday, May 4th, in a long session from 10:30 to 4:30 with no intermission; it was a very busy day and a very profitable one, we think, for the association.

The discussions were very active; things were called by their names, but no "feeling" was shown by any member; it was fully recognized by every one at the meeting that it was simply a case of really ORGANIZING or make up our minds to be treated just as the dealer felt disposed.

We have never signed up on the new pooling contract, between 60 and 70 per cent of the milk that comes into Washington. Loudoun county, that has stood OUT all the time—not a contract signed—is now coming in and will soon be signed up 80 to 90 per cent. This will materially increase our percentage.

An active "reorganization committee," consisting of the president, manager and five producers was appointed to get everything in readiness for the change to the "pooling contract." This committee is to have everything in shape when the time comes to start the new organization into active work.

At this time there are 1700 gallons of milk coming to the association plant; that means that the producers of this 1700 gallons are sending to the plant and accepting what the plant can get out of it, rather than place it on the market. If this 1700 gallons was offered for sale to the dealers it would mean just this: The writer would hunt a place for his 115 gallons, as would the other producers of the 1700 gallons. To get a buyer we would have to cut price; that would mean your milk would be cut, or you and others to make up the 1700 gallons that was placed on the market, would be to cut off.

Now, these are cold, positive facts and you know it. Do you want this 1700 gallons put on the market?

Do you not realize that those who are shipping to the plant are sacrificing for you?

With the "pooling contract" this would be no hardship, but the new organization is not functioning yet and can not until we get 85 per cent of the milk signed up.

Until that time the old organization must run. To run, it must have money.

Some faithful ones have paid brokerage and

by din economy, expenses have been kept down—but there has accumulated a small deficit—this big surplus makes more expense and we must have money. The association wants and expects every member to send in the cash or note for the brokerage of one cent a gallon on his milk for March and April and do this at once—then each month thereafter send the one cent a gallon until the "pooling contract" goes into effect, which will be for the fall contract.

It is a choice of one cent brokerage and keep the old association going, or save your one cent and force 1700 gallons on the market and either be cut off or cut four or five cents a gallon on your milk.

These are plain facts and you must take your choice. Don't make the director come to see you; his time is valuable and he gives it gratis; go to him and pay the two months' if you have not done so.

### RATES ORDERED DOWN

The Interstate Commerce Commission has sprung a surprise on the country by completing its study of the problem of freight rate reduction and announcing its finding sooner than was expected. A sweeping reduction in freight rates throughout the country is ordered, the new rates to be effective July 1. The commission also declared that railroad rates in the future would be based on a return of 5 3-4 on the aggregate value of the lines, as compared with the 6 per cent allowed under the Ech-Cummins law, which provision recently expired. The reductions ordered vary in their application to the different districts in which the country's system of transportation is divided for rate-making purposes, but they average a general reduction of about 10 per cent.

In fixing the rate of return at 5 3-4, the commission evidently reached the conclusion that the new rates ordered would not defeat that return, but on the basis of net railroad earnings for the first quarter of the present year, it must have had in mind in its computation some other factor influential in guaranteeing such return not disclosed in the order. It will be recalled that the President suggested some time ago that the rate-making and wage-regulating bodies should get in closer touch with each other, with a view to more active cooperation in finding a solution for the problems with which each is concerned. It may be that, acting on this suggestion, the Interstate Commerce body has informally conferred with the Labor Board and received an intimation as to what the finding of the latter body will be on the question, of wages and working rules. That is, at least, a reasonable supposition; for upon no other hypothesis than that a considerable reduction in the costs of railroad operation is contemplated could the sweeping reductions in freight rates be justified, in the light of the showing the railroads have made as to their earnings under existing rates. While it may be possible for the roads to reduce these costs to some extent by more rigid economies, the burden of such costs must inevitably be met by a cut in the wages of employees, which were increased by approximately \$2,000,000,000 a year on the basis of the high cost of living that prevailed in 1920 when the increases were authorized.

So, unless the way has been opened up for reducing the costs of operation by the institution of a wage cut, the public will be incredulous that the railroads can under the new rates maintain the efficiency service the country demands without impairing the net returns on their investments below the figure decided upon by the commission as reasonable.—Richmond Times-Dispatch.

### LAUGH AND LIVE

#### IDENTIFICATION

Little brother's chum appeared unceremoniously in the parlor where big sister was entertaining her Sunday afternoon beau. "Is Bobby here?" he wished to know. No, Bobby was not at home, and then, oh, unfortunate impulse, big sister desiring to show her visitor her sweet graciousness even in the bosom of her own family, solicitously inquired:

"Who shall I tell him called?" Bobby's chum twisted his cap, doubtless unaccustomed to such rare courtesy, and desiring to identify himself to his chum while remaining incognito to those queer adults, at length replied:

"If you'll just tell him that the guinea pig's got the little ones, then he'll know who it was that called."

#### NOT HIS BOSS

The judge was evidently getting a bit fed up with the jury, and at last he announced:

"I discharge this jury!" A tall, lean member of the twelve then rose. "Say, judge, you can't discharge me!" "Can't discharge you? Why not?" thundered the other. "Well," replied the jurymen, pointing to counsel for the defense, "I was hired by that guy over there!"

#### SHE CLEANED IT

"You always have that same waitress in the restaurant, don't you?" said the business man.

"Always," replied his friend. "She's very careful to bring me clean food."

"How do you know?"

"Why, today I saw her brushing the dust off my piece of custard pie with her apron."

#### AN APOLOGY

He—"Excuse my cigar!"

She—"Oh, you may smoke, or I shouldn't have given it to you. It is one of father's, you know."

He—"That's why I am apologizing."

The Rev. T. H. MacLeod preached at usual hour in Presbyterian Church Sunday morning, the subject of his sermon being the laxity in the religious training of the child in the home.

The Woman's Missionary Society met in the afternoon, at this meeting a letter was read from Miss Marie J. Currice, who just recently entered the missionary field at Rubio, Venezuela, S. A. She gave a very interesting description of her journey from New York to Rubio, the last lap of the journey being sixteen miles by horseback. There were other articles given of the South American work also among the Spanish speaking Americans of our own country.

Rev. V. H. Council preached in the Baptist Church at night.

The Aid Society of the Presbyterian Church met at the home of Mrs. Quigg, Friday night last with a good attendance. The following officers were elected: President, Mrs. M. E. Quigg; vice-president, Mrs. D. W. Buckley; secretary, Miss Ruth Richards, treasurer, Mrs. G. A. Hall. The back room of the church was reported ready for occupancy and the primary classes occupied it Sunday morning for the first time. A vote of thanks was given Messrs. Webb and Hall and Mrs. Detwiler for the good work done in fixing up this room.

The Baptist club had a rather rainy night for their lawn fete, so according to announcement it was transferred to the Sunday School room of the church. It was quite a success in spite of the inclement weather.

Mr. and Mrs. Fred Georgia, of Olean N. Y. were Clifton visitors Sunday. Mr. Georgia spent his boyhood and early manhood days in Clifton. He with his father, built quite a number of the buildings in Clifton, he stated Sunday morning after service that they did the carpenter work on the Presbyterian Church.

It has been decided by the Road committee to build one mile of Macadam instead of four miles of sand and gravel finished road. This decision is very much of a disappointment to the people as it makes the road only a benefit to the few living on it and then only to get to the village as the three miles of mud a good part of the year between the connecting link of good roads is about impassable a number of months during the year.

Mr. J. E. Brown is harvesting a large crop of strawberries of fine flavor and size.

Jack Detwiler took his initial trip on the road this week as postal clerk. Misses Miriam and Frances Buckley spent the week end at their home here.

Mr. Irvin M. Quigg motored to New York for the week end with a party from Washington.

I want to correct a statement in my letter last week that for some reason was printed wrong, in the report of Mr. Miller's address to the Sunday School Convention, he said there were ninety-two million dollars spent in luxuries in the state of Virginia in one year and that if just half of that had been given to God's cause it would have helped very materially.

Lewis Quigg is building a garage for his new Ford.

Rev. V. H. Council came in town with a new Ford the beginning of the week.

The rains of last week brought up the corn with a rush, making an excellent stand.

Roger Cross has purchased an old car, fixed it up with a racer body painted it red white and blue and is making things move when he gets on the road.

Mr. Clyde Mathers killed a chicken hawk that measured four feet from tip to tip of its wings.

**BETHEL**

The farmers of our community are busy planting corn and gardening.

Prof. Throckmorton spent last week end at his home in Richmond.

Mrs. Will Dewey is spending some time with her sister, at Haymarket.

Those who attended the track meet and baseball in Manassas Saturday from here were Mr. G. C. Russell, Mr. Edward Sheppard, James and Randolph Sheppard, Misses Raysdale Grant and Carter, who reported quite a nice time.

Mr. Albert Sides continues quite ill. We hope to hear of him being out soon.

Mr. Terrell and family of Washington, have moved in Mr. Will Dewey's home place.

We are sorry to hear of the illness of Mr. Al Brockett, of Alexandria.

Mr. M. I. Glascock, of Washington, is visiting his son, David Glascock, and wife at his old homestead. We are glad to have Mr. and Mrs. David Glascock in our neighborhood.

Mr. Henry Leary was the guest of Mr. Edward Davis Sunday.

Rev. J. W. Bealle organized Sunday School at Bethel Church Sunday.

Mr. G. C. Russell motored to Loudoun county Monday.

## STATE NEWS NOTES

Mourners returning to Winchester Friday evening from the funeral of James Taylor Melville, prominent Frederick county politician and farmer, narrowly escaped being drowned when several automobiles became marooned in Hogue creek; which had become a raging torrent in a short time, following heavy rains. Two cars were half-way submerged and were in danger of being carried away by a swirling current when they lodged against a rocky embankment. Three women and a child were carried out by men who were accompanying them, and the cars finally were dragged out by horses. The stream rose unexpectedly.

Mrs. Sylvester Newton, sixty-four years old, widow of Abbie Newton of White Oak, Stafford county, near Fredericksburg, has the remarkable record of being the grandmother of seventy-seven grandchildren. Mrs. Newton, who is very active, appears to be much younger. She is the mother of ten living children, six of whom are daughters and four sons. In addition to her seventy-seven grandchildren, she has two great-grandchildren. Mrs. Newton has a married daughter making her home with her who is the mother of eight children.

A small tornado played havoc with property and telephone and electric light wires about noon Thursday along the river road in Spotsylvania county, near Fredericksburg. It swept roofs from a number of barns and other buildings, and uprooted trees. The tornado originated about six miles from Fredericksburg, and extending down the river from that point and several miles up the river. At Mansfield Hall farm, home of the late Capt. R. C. Vance, it blew down several large trees and tore up shrubbery. While attempting to rescue some little chickens, Mrs. Bishop was struck by branches of a falling tree, but escaped injury. The tornado lifted the roof from a concrete house at the fork in the road leading to Port Royal and Bowling Green, and also unroofed a barn on Belvidere, the farm of S. S. Berger.

John W. Dillard, a Lynchburg business man, who lives on an Amhurst county farm, has a hen which is mothering a litter of five puppies. The hen gets very busy when the puppies are fed, clucking to them and helping them to find their place of bread and milk. The hen adopted the puppies when she was shut up in the doghouse to break her from sitting, and now she declines to be separated from the litter.

African Zulus, who have been studying at Hampton Institute, gave a play at the tabernacle in Danville Monday night under the supervision of Prince Madikane Cele, a full-blooded Zulu, who came to Danville about eight years ago, and claimed as his bride a colored woman of that community. The prince, since married, has become a missionary and has been devoted to spreading the gospel in Africa. The proceeds of the entertainment in Danville are going towards the establishment of an industrial school for Zulus in East Africa.

Doctors are attending two children of the family of Isaac W. McDonald, living near Romney, W. Va., for injuries. While a four-year-old daughter was playing in the yard a day or two ago, she upset a bucket of lime that was being slacked, and was severely, but not fatally burned. The following day her seven-year-old brother was kicked by a horse, breaking his leg.

Sandy Andrews, 13 years old, of 1517 Green Street, and Charles Bullock, 10, colored, living at 1806 Green Street, Portsmouth, Va., were injured Sunday when an object they found believed to have been a hand grenade or a bomb of some sort, exploded. The boys found the explosive under a wooden culvert at Green and Duke streets. They wanted to see what was inside of it. Sandy Andrews' hand was blown off completely. The other boy received injuries to his face, arms and legs.

## TO THE Farmers of Prince William County:

¶ Have you ever stopped to think what benefits you have derived from the Farmers' Union? Stop and think the matter over with yourself of how many dollars you have to your credit actually saved by the organization of the Farmers' Union.

¶ Look at the legislation we are getting in our favor now. Were we ever recognized before? No. But believe me those fellows down yonder in Washington have been calling on the farmers and asking them what they want done.

¶ Man alive, LISTEN! I want to tell you right now that if it was not for the Farmers' Union today, what would you be paying for your fertilizer? Who brought those fellows to time? It was the Farmers' Union and believe me, this grand old Union is handing it right on to its brother farmer. You fellows who need fertilizer should see your Exchange. They have your needs at heart; they have the price and you will be benefited in three ways instead of one. Ask the manager and he will tell you.

¶ Gentlemen, listen; don't stick your nose too close to the grindstone. Keep your eyes and ears open. Study the questions of the day that are coming before you. Be on your guard. Join the Farmers' Union. Help yourself as well as others.

¶ TO THE LADIES OF THE COUNTY: We invite you to join us. We need your help. Hunch that man of yours and tell him you are on. Stand with your Union, the farmer has got to rise. Don't let Capital sit on us always. The farmers control the wealth of the world. All they need is organization.

¶ Brother farmer, listen. Let's have a heart to heart talk. When you trade at your Exchange you buy as cheap as you can anywhere else. The profits come back to you, so why not join the Union and become a stockholder in your local Exchange?

¶ Brother, we could make our organization the biggest thing in old Prince William county if you would come in and join us. We can market everything we have to sell and eliminate all middlemen. Look up your local secretary and treasurer and tell him that you are on and that he can bank on you, now and forever more. We are for just laws and good citizenship.
