

THE ARCHBALD CASE

The impeachment, conviction, dismissal from federal office and declaration that he be disqualified forever for any office of honor, trust or profit under the United States Government of Judge Archbald of the Commerce Court, really sets a milestone in our history.

Judge Archbald was impeached on thirteen charges by action of the House of Representatives last July. The constitution provides that the lower house shall start such proceedings and that the Senate shall act as a trial court.

PRETTY WEDDING AT THE PLAINS

Miss Mary Worth Hulfish and Mr. George Ayres Troth Married in Grace Episcopal Church Sunday—Home Party.

By HAYMARKET CORRESPONDENT. Grace Episcopal Church of the Plains was very tastefully decorated with evergreens and roses and lighted with candles on Wednesday evening, January 29, at 6 o'clock, when it was the scene of a very pretty wedding.

The contracting parties being Miss Mary Worth Hulfish, daughter of Mr. H. H. Hulfish, and Mr. George Ayres Troth, a popular salesman of the well known firm of J. H. Crilly, of Alexandria.

The bride, wearing a dark blue tailored suit and picture hat, and carrying bride's roses and lilies of the valley, entered the church on the arm of her father, who gave her in marriage. She was attended by her sister, Mrs. John Edward Lewis, as maid of honor, who wore a gown of dark blue mesaline and shadow lace and carried American beauty roses.

The groom had as his best man Mr. Lawrence A. Hulfish, of Haymarket, a cousin of the bride. Messrs. Clayton Paxson and Robert Lake, of Loudoun county, served as ushers. The Rev. J. J. Norwood officiated. The wedding music was furnished by Mrs. James Andrew Hulfish, of Alexandria.

Immediately after the ceremony a reception was held at home of the bride after which Mr. and Mrs. Troth left amid a shower of rice and good wishes for a southern trip.

Among the out-of-town guests were: Messrs. Worth and George Hulfish, Mrs. Wm. B. Smithers, Miss Annie Lewis, Mrs. James Andrew Hulfish, of Alexandria; Mrs. William Harper Dodge, of Washington; Miss Annie Troth, of Accotink; Miss Lucy Dogan, of Groveton; Mr. and Mrs. Geo. Ayres, of Manassas; Miss Eleanor Wilkins and Mr. Luther Lynn, of Cathayin; Misses Margaret and Rose Shirley, Ruth Hulfish, Nellie Bell, Irene Demory, and Messrs. Lawrence Hulfish and Herman Shirley, of Haymarket; Mrs. Jno. E. Lewis, Mr. and Mrs. John Alexander and daughters, Virginia and Pauline, and Messrs. Clay Paxson and Robert Lake, of Loudoun county.

Another guest at the wedding was "Aunt" Hemmie Perry, who, in the antebellum days, belonged to the great-grandfather of the bride.

Previous to the wedding Miss Hulfish entertained the following guests at a house party: Misses Margaret and Rose Shirley, Nellie Bell, Lucy Dogan, Annie Troth, Irene Demory, Ruth Hulfish, Messrs. Clayton Paxson, Robert Lake, Lawrence Hulfish, George Ayres Troth, and Mrs. John Edward Lewis and Mrs. James Andrew Hulfish.

MANASSAS HIGH ADDS ANOTHER

Game Fast and Exciting—Married by Roughness—Round, Adamson and Williams Star for Local Clubs.

Manassas High School added another victory to their string last Friday night when they defeated Remington High School at basketball by a score of 32-14.

The game was a fast and exciting one, although marred by roughness on both teams at times. Although the home boys were much lighter they put up a much better game than Remington.

During the first half the game was very close and looked as though they would wind up about even. On account of sickness and other causes several Manassas first team men were unable to play and substitutes were put in. Round took Haydon's place at guard, while Moon was shifted to center with Wilcoxen, Button and Blackwell at forward. All of the subs made a fine showing.

Round was one of the stars for Manassas, guarding his man at all times and keeping constant watch on the ball. On one occasion he threw a beautiful goal from one end of the field to the other and brought forth loud applause.

Adamson and Williams played very usual star game at all times and outshone the others. Adamson made the majority of the goals, throwing eleven baskets, and during the second half scored repeatedly when put in the most difficult positions. In this half Manassas played rings around Remington and scored almost at will.

Remington played no one that started, although the quint put up a good game and made the contest most interesting. W. M. Brown was referee.

VIRGINIA LEAGUERS AFTER LOCAL STAR

NEWPORT NEWS WANTS BROWER. Last Year's High School Star Trained Contract by Manager Davis of Newport News Club—Success Predicted.

Frank Brower, the former Manassas High School star pitcher, who is now attending Washington and Lee University, has been made an offer from Newport News to play baseball with that club this season.

The Washington Herald has the following to say about him: "Frank Brower, a pitcher who hails from Manassas, who received a short trial with the Nationals last summer, has been tendered a contract by Manager Davis of the Newport News club, in the Virginia League, and will more than likely accept. Brower is a big right hander and is said to have a world of speed and curves. His many friends in Virginia say that he will set the league on fire."

It is the purpose of this club to have a team composed of youngsters and not an old-timer will be on the pay-roll. Last year and for the past three years Mr. Brower has pitched for Manassas High School while before the Board will please file their claims at the clerk's office. "OLD TIMES DOWN SOUTH"

Great Dialect Humoresque with His Famous "Old South Quartette" to Make Last Appearance Here Next Thursday.

Next Thursday night the people of Manassas will have the pleasure of hearing Polke Miller, assisted by Col. Tom Booker and his famous negro quartette, in Conner's Hall. This is Mr. Miller's last appearance before the public of Manassas and those who can should attend, and hear his sketches, stories and song illustrative of ante-bellum days in the South.

Both of these gentlemen are Old Confederate soldiers and together they make realistic their reproductions of old plantations and war time in the South.

The famous old Southern quartette composed of real negroes of the South, needs no introduction to the public, as they have pleased large audiences here in the past. They are taken from Tobacco factories in Richmond, and as types of his subject could not be improved upon. Their voices are sweet, though untrained, and are a result of nature, producing a harmony that goes straight to the hearts of the people.

Mr. Miller is known all over the United States as the best delineator of the Southern plantation negro that has ever appeared on the stage, and his quartette is the best that could be found anywhere. You should not fail to attend this high class entertainment, and see this company for the last time.

Round was one of the stars for Manassas, guarding his man at all times and keeping constant watch on the ball. On one occasion he threw a beautiful goal from one end of the field to the other and brought forth loud applause.

Adamson and Williams played very usual star game at all times and outshone the others. Adamson made the majority of the goals, throwing eleven baskets, and during the second half scored repeatedly when put in the most difficult positions. THE BATTLE-PARK

The bill which has been before Congress relative to the battle-field of Bull Run was first introduced by Congressman John F. Rixey in connection with a memorial of George C. Round made in December, 1901. The original bill only provided for the purchase and perpetual protection of the original monuments erected by the United States in June, 1865, and called for \$25,000, appropriation to acquire title to sufficient of the historic fields to allow visitors to see the main features of the battlefields without trespassing on private property.

Subsequently, when veterans from New York, Georgia and other states desired to erect monuments the bill was modified and a commission was provided for to mark out the battle lines and to locate the monuments which regimental associations might desire to erect. This bill, calling for \$50,000, was reintroduced by Mr. Carlin and a lengthy hearing was given its friends on April 13, 1912.

On Tuesday of this week Mr. Carlin called up the bill before the committee and after discussion the chairman, Hon. James Hays, was instructed to communicate with the War Department to ascertain its view on the proposition. A delegation from Manassas was introduced by our

John St. Timet, Adjutant of 1st Cavalry Camp Confederate Veterans, and W. N. Lippincott, Gen. E. W. Whitaker represented the national committee of the G. A. R. Lieut. George C. Round spoke for the land-owners, whose property had been taken possession of by the Government.

Congressman Carlin followed with a very earnest appeal with the result above mentioned. It is to be hoped that a favorable report may be obtained from Mr. Hays' committee.

EASTERN COLLEGE INSPECTED THURSDAY

State Inspector T. S. Settle Makes Favorable Report on Condition of College—High Standards—Strong Student Body.

About two weeks ago, Dr. H. U. Roop, president of Eastern College, invited the State Board of Education to inspect the work and standard of the college. According to a recent ruling of the Board of Education, the graduates of only such colleges as are willing to submit to inspection will be granted certificates to teach. Not all of the colleges of the State are willing to be inspected. Pursuant to President Roop's invitation, the State Board of Education sent its inspector, Prof. T. S. Settle, to inspect the college last Thursday. Dr. Roop received the following letter from him:

Richmond, Va., Jan. 31, 1913. DEAR PRESIDENT ROOP: I am just in receipt of the matriculation records of your students, and also of the information that lack of time prevented my seeing yesterday, thanks for the same and congratulate you upon your prompt action.

I thoroughly enjoyed my visit to your school and was much pleased with what I found. You have a good faculty, strong student body and are doing through with your studies. The State Board place Eastern College in the class between the Junior College and the University, and can see no reason why they should not act favorably on this recommendation. Eastern College has supplied us with many good teachers, and we are anxious to get more of them. I shall be glad to visit you again should you wish to continue your success. I remain, Cordially yours,

T. S. SETTLE, State Inspector. According to the inspector's recommendations, an A. R. graduate of Eastern College will be granted by the State Board of Education a ten-year certificate to teach in the public schools of the State. This certificate may be renewed from time to time for a similar period upon evidence satisfactory to the Board that the holder has been a successful teacher.

Ten members of last year's class are teaching successfully this year.

G. H. DORRELL DIES SUDDENLY. Last Monday morning G. H. Dorrell was stricken ill at his home in Washington and being in a critical condition was removed at once to Providence Hospital, in that city, where later during the morning he died. James R. Dorrell, of this place, a brother of the deceased, was at once notified and left on the first train for Washington.

Mr. Dorrell was born at Hamilton and had reached the age of thirty-six years. For many years he lived in Hamilton and later went to Washington where, for the past ten or twelve years, he has conducted a livery business.

Mr. Dorrell was well known to many in Manassas as he had made many friends in Washington. The remains were taken to his old home at Hamilton where today they will be interred in the cemetery at that place. J. R. Dorrell left today to attend the funeral services.

The ladies of the M. E. Church South will hold a baz-az in the M. I. C. building Friday, Feb. 21st. Dinner and supper served at 25 and 50 cents. The Domestic Science Class of the High School will not serve luncheon on that day, so the farmers' patronage is solicited for the baz-az. Public cordially invited.

WASHINGTON CEREMONIAL SCENE. Miss Mattie Lee Billhimer, of Bristow, Married to Mr. Bennett H. Puryear, of Orange, Saturday.

The Methodist Parsonage, Washington, was the scene, Saturday afternoon at 5 o'clock, of a quiet wedding when Miss Mattie Lee Billhimer, of Bristow, became the bride of Mr. Bennett H. Puryear, of Orange, the Rev. James S. Montgomery performing the ceremony.

The bride, a handsome brunette, is a daughter of Mr. and Mrs. William H. Billhimer, who recently moved to Prince William from Harrisonburg. She is a young lady of high ideals and talent and is much admired by a host of friends whose best wishes will follow her through her married life.

Mrs. Marshall, a sister of the bride, accompanied her to Washington, where they were joined by the bridegroom-elect and where the ceremony was solemnized. The groom is a traveling salesman for the American Tobacco Company and is well known and prominent in the commercial circles of this section. He is a young man of high moral attainments and has made many close friends in this community. Mr. and Mrs. Puryear returned to the home of the bride on Sunday evening and left Monday morning for Harrisonburg, where they will visit with friends and relatives of the bride for a short time. They will probably make their future home in Orange. Mr. Puryear's native town. THE DEMOCRAT extends its hearty congratulations and best wishes for a long and successful married life and also that one thing so essential to married life—happiness. BB

There are great quantities of insoluble plant food lying idle in our soil, and by plowing deeper or subsoiling we will let water and frost down where disintegration starts thereby making available a quantity of plant food that is in a locked-up condition. The humus content will be worked deeper in the soil which will help, not only in holding more water, but in the decaying or transforming of the insoluble plant food into a soluble form. Let us study this question of deeper plowing, and not only study it, but take action as well.

January has been exceedingly mild and open in the South, and if similar weather continues for February much field work can be done. The farm implements should all be gone over to see that they are in good repair, and some paint will not be out of place, if they have not already been painted since being used last. The harness may need repair that can be done now and save time in the spring when the busy time comes. Ditches not yet opened should be put in condition for the rains that are to come a little later. Many stumps can be taken out with a stump puller or with dynamite during these days and save time and labor in working the crop.

Oats, rape, Canada peas may be sown during this month and a great many vegetables may be put out in the South.

Dr. Hervis U. Roop will preach in the local Presbyterian Church next Sunday morning at 11 o'clock on the theme—"Not Ashamed of the Gospel of Christ."

THE Ladies of the M. E. Church South will hold a baz-az in the M. I. C. building Friday, Feb. 21st. Dinner and supper served at 25 and 50 cents. MANMARKET LEAGUE MEETS Citizens' League of Haymarket met at the school at 7:30 Wednesday evening. This meeting was presided over by Mr. F. M. Osfield, the newly elected president. The other new officers being Mr. Frank Peters treasurer.

The date of the spelling match is set for Friday, April 25. It will be held in the Kuffner building in Manassas and an admission fee of ten cents will be charged to all except the teachers and the contestants. There will be two matches, one for the primary grades at ten o'clock, and one for the grammar grades at 2 p. m.

There will be two prizes for each contest, a silver cup to be held by the winning school and a silver medal for the successful individual. The Shepp's spellers will be used. Mr. Tyler, assisted by Miss Heatwole, will be the pronouncer, with Misses Foster, of Occoquan, and Miss Jennie Ewell, of Hickory Grove, referees. The usual 15-cent lunch will be served by the Domestic Science class of the High School.

As a school day is taken for this event, and as the teachers will be paid as usual, each teacher is expected to have her school entered in the contest.

Rules for the contest have been given up as follows: 1. Each school shall send two pupils for each contest selected at the discretion of the teacher.

2. No children are eligible to the primary contest who have at any time been promoted to the advanced book.

3. Entries must be sent in to Mrs. E. May Dogan, Manassas, R. F. D. by April 15.

4. The words to be given out shall be marked in a new book by Miss Osborne prior to the contest, words of double meaning to be avoided.

5. In case such a word be given, the pronouncer shall define the word and give a simple sentence to illustrate the meaning.

6. One trial only shall be given on each word. If the speller correct himself after the word is completed the word is missed.

7. The speller must pronounce the word before spelling it. (Note: Each teacher is urged to use this method in preparing for the contest.)

8. In case of doubt, the referees shall decide whether the word be missed or not. Should the referees differ, the pronouncer decides the point.

9. Each contestant shall wear a badge with the name of his school on it.

Respectfully submitted, E. MAY DOGAN, Ch. Committee. EUGENIA OSBORNE, BESS BROWER.

BOARD MEETING There will be an important meeting of the Board of Directors of the Manassas Industrial School Association at the school on March 1, 1913, at 10 a. m., to consider the plans of reorganization, amendments and alterations of the charter, looking to the needs of the institute at the present time.

JESUS THE FATHER OF SAVED HUMANITY

By Regeneration He Will Give His Children Everlasting Life.

Behold in the Father or Life-giver of the Church, Who Has Already Begotten the Church by the Holy Spirit and Will Perfect Them as Spirit Beings in the Resurrection, but Jesus Will Be the Father, or Regenerator of the World—Humanity.

Cincinnati, Ohio, Dec. 8.—A pastor of the First Baptist Church here today reported the religious features here today. We report one of the addresses given at the service. He called the Everlasting Father. The pastor said that God's people today have a new Bible study. He said that the new light in texts long considered obscure. His text today was of this character. It gives Jesus the title, "Everlasting Father," of those who give everlasting life. At one time it seemed to contradict other Scriptures—"The God and Father of our Lord Jesus Christ," "The Father and God and our God," and other texts. But now in the clearer light of the Christian era.

The first Adam purposed to be the father or life-giver of a human race. But an ambition, intended with this purpose, as God had foreseen, but perished for. When Adam lost his own right to life, he could transmit to his children only a dying human body. The legal right to life is gone.

Humanity needs a Deliverer—not from eternal torment, not from punishment, doctrine of the Dark Ages with Scriptural sanction—but from sin and death. What the world really needs is a life-giver, exactly what God has in Jesus to be a FATHER, who will give to the willing and obedient everlasting life. The meaning of the word "Savior" is life-giver.

When the Logos accepted the Heavenly Father's offer to become the world's Redeemer, it involved the transfer of His life to human conditions. "The Word was made flesh" (John 1, 14), not sinful, imperfect flesh, but perfect, sinless, and obedient to the Father's will. The Logos accepted the Heavenly Father's offer to become the world's Redeemer, it involved the transfer of His life to human conditions.

As every one man, Adam, conceived the trespass which involved the race, so the purchase of the man required only the life of one man. Jesus, therefore, as the Son of God, should apply the merit of that sacrifice to Adam and his race. Justice will turn over the world to Him. For a thousand years He will reign to subvert dominion, sin, and death, and to raise the living and obedient to human perfection as His earthly human.

As Jesus, the Lord of Glory, is the Second Adam, the Everlasting Father to the world, so the Second Eve is to be the Church on the spirit plane. Throughout this Gospel Age so election has proceeded, to the elect and power whom God will sustain worthy to be made partakers of the Divine nature, "kings of God, joint-heirs with Christ" (Rom. 8, 17). The Father will have mercy on the 144,000 of Revelation. There will not be the bride, the Lamb's Wife, until the end of this Age. The members of the Lamb's Wife will come. For "His Wife" will have mercy on the 144,000 of Revelation. There will not be the bride, the Lamb's Wife, until the end of this Age.

After the thousand years, mankind will desire to be Kingdom to the Father, as the Father desired the Kingdom to the Father. The Father loved Adam, as He will love humanity as he returns their loyalty to God and righteousness. This love, which will demonstrate who are the elect of everlasting life. The unworthy shall perish in the Second Death.

God has already made provision for perfect life to become the release of the world during the present age. The faithful servants referred to in Hebrews 11, 39-41, who cap-tivity of the glorious presence of the Redeemer, the Second Eve, and not de-stinated to make his calling and election sure!

BONEMEAL GOOD FOR SWINE

Good Results Obtained at Missouri Station by Feeding Each Animal One Ounce Each Day.

All kinds of bonemeal are used in the manufacture of fertilizers, but not all kinds are suitable as feed for swine. Bonemeal from a glue factory which has gone through the process in which acid was used, not only is not suitable for swine, but is especially green bone, that is ground finely enough, may be fed. Ground bonemeal is good.

At the Missouri station bonemeal was fed with very good results. About an ounce of meal was fed to each hog per day.

At the Nebraska station four lots of pigs were used to determine the value of wheat shorts, tankage and steamed ground bone as supplemental to cornmeal. The pigs fed on the lot fed on corn alone made about as satisfactory gain as any, although the lot which was fed on bonemeal in addition to the corn had the strongest bone.

Shorts strengthen the bone some, and tankage and corn produced about the same results. Where mixed grain rations are given, or skim milk or good pasture, all of which supply "mineral," it is of more value other than for the purpose of strengthening the bones.

RACK FOR OPEN CATTLE YARD
Advice, Found to Be Entirely Satisfactory May Be Used of. Elvay-Feet Poles.

A very satisfactory open yard cattle rack was recently used at the Elvay-Feet Poles, eight feet apart and two feet in the ground. To the outside rail 2x2's two and one-half feet from the ground and for the reason the lot fed on corn alone made about as satisfactory gain as any, although the lot which was fed on bonemeal in addition to the corn had the strongest bone.

SWEET CLOVER

There are many farmers who have good sweet clover pastures, and seem to be getting fair results from this crop for that purpose, but as a general thing, it is considered a noxious weed. Will eat sweet clover when they have become accustomed to it, but due to a slight bitterness, it is not usually relished as much as other clovers. We have known of instances where, after the stock had become accustomed to sweet clover, they seemed to eat it readily and do very well. In a comparison with alfalfa as a feed for live stock, alfalfa is far superior. Alfalfa must be pastured very carefully, because the cattle are apt to choke on it, especially when the alfalfa is in the early spring. A much more satisfactory method is to cut the alfalfa and feed it as a silage crop, or to cure it and feed it as hay. Experience shows that you will get a great deal more feed of an acre if handled this way than if the stock are allowed to graze the alfalfa.

In a comparison with alfalfa as a feed for live stock, alfalfa is far superior. Alfalfa must be pastured very carefully, because the cattle are apt to choke on it, especially when the alfalfa is in the early spring. A much more satisfactory method is to cut the alfalfa and feed it as a silage crop, or to cure it and feed it as hay. Experience shows that you will get a great deal more feed of an acre if handled this way than if the stock are allowed to graze the alfalfa.

There are many farmers who have good sweet clover pastures, and seem to be getting fair results from this crop for that purpose, but as a general thing, it is considered a noxious weed. Will eat sweet clover when they have become accustomed to it, but due to a slight bitterness, it is not usually relished as much as other clovers. We have known of instances where, after the stock had become accustomed to sweet clover, they seemed to eat it readily and do very well.
