THE FIG LEAF AGE

The following rhyme is showing the rounds of the press to show up the ridiculous fashions of the present day. It is said to have originated on the Pacific slope, and it certainly contains the freshness of the Western brook:

UNANIMOUSLY ADOPT MINUTE

The Board of Directors of the Southern Railway Company, meeting upon April 11, 1913, unanimously adopted the following minute:

John Pierpont Morgan, founder of the Southern Railway, died at Rome March 31, 1913, after a long life, full of distinguished honors and abounding in benefit to mankind.

Directors of the Southern Railway Company must add a special and particular tribute, for Mr. Morgan more than to any other is due the creation and the development of the Southern Railway, one of the first of the many reorganizations justly identified with his name.

The members of this Board share with the worldwide public in a sense of personal loss, and in extending to the family of Mr. Morgan the assurance of respectful sympathy.

ENTERTAINMENT AT HALFWAY

Under the auspices of the public school at Halfway, a very interesting and entertaining program was rendered on the evening of the eleventh.

The little school-house was simply packed; in fact a great many were not able to get inside. Supt. Smith being there took advantage of the opportunity and made a short talk on the importance of better and bigger school houses.

After the program refreshments were served and the proceeds of the evening amounted to thirty-one dollars and sixty cents.

THE FIG LEAF AGE

Beginning last Tuesday, moving picture concerns in Alexandria are not allowed to show films depicting crime or attempted crime. An ordinance to this effect was passed by the council of that place last month.

CONFEDERATE VETERANS' REUNION

Officials of the Southern Railway Company and the Queen and Crescent Route expect to handle the great crowds that will visit Chattanooga for the reunion of the United Confederate Veterans, May 27-29, with the same dispatch that the normal travel through Chattanooga Terminal station is handled as the result of arrangements made at a conference of transportation, mechanical and passenger representatives of these lines at which it was decided to form for this occasion a special organization similar to that which accomplished such splendid results for the Southern Railway at Macon during the reunion of 1912.

Experienced ticket sellers and baggage checkers will be brought from other points, special temporary facilities, and ample police protection will be provided, and a large number of expert passenger men will be on hand to assist the veterans and their friends in making arrangements for side and return trips, while special operating and mechanical forces will be detailed to assure the prompt movement of trains.

Special attention has been given to the arrangements for furnishing information as to the movement of trains. For this occasion the Southern and the Queen and Crescent will draw on their large organization, covering a great part of the United States, and will bring to the service of reunion visitors the full benefit of the experience gained in handling crowds on other similar occasions.

That shows that my Stallions are the best that money can buy, to suit my customers. WASHINGTON LETTER. The first session of the Sixty-third Congress got under way Monday at noon April 7th, in special session called by the president. The house was called order, and Champ Clark re-elected Speaker, receiving 205 votes, while Representative Wm. R. Rorer, Republican, received 111, Mr. Murdock, Progressive, 18, and Clark's son, Bennett, 17. Clark has been appointed parliamentarian to assist his father. The president announced that he would read his message, and motions were passed for a session, not however until Senators Lodge and Williams had read in criticism of the ratification of Connecticut, the 36th State, making three-fourths of all the states, of the amendment authorizing the direct election of Senators by the people, nothing remains to be done now except its promulgation by the Secretary of State as the 18th Amendment to the Constitution of the United States. Senator Bristow wants decisions of the Supreme Court reviewed by the people, and for this purpose he has reintroduced his amendment authorizing Congress to let the people vote whether they want the decision of the court or the act of Congress to stand as the law. Innumerable requests have come to Congressmen to vote for protection on articles produced by industries in their districts, to which many replies have been made that the industries of this country are strong enough to do business as profitably without aid from the government. By the recent holding of the Supreme Court, corporations which have leased their properties and only receive the rentals are not "doing business" within the meaning of the law, and are not subject to the tax. This means that about a million dollars already collected must be refunded.

COURT DECISIONS AND PAPER SUBSCRIPTIONS. Few readers of newspapers fully and clearly understand the laws governing subscriptions. Following are the decisions of the supreme court of the United States on the subject: Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscriptions. If subscribers order a discontinuance of their periodicals the publisher may continue to send them until all dues are paid. If the subscriber refuses to take the periodicals from the post-office to which they are directed, he is responsible until he has settled his bill and ordered the paper discontinued. If subscribers move to other places without informing the publisher, and the papers are sent to the former address, the subscriber is held responsible. The courts have held that refusing to take periodicals from the postoffice, or removing and leaving them uncollected for so prima facie evidence of intention to defraud. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it, and the subscriber will be responsible until express notice with payment of all arrears is sent to the publisher.

NOTICE TO SCHOOL TEACHERS. The spring examination for public school teachers for the year 1913 will be held in the Bennett Building, Manassas, on Thursday, Friday and Saturday, April 24, 25 and 26, beginning promptly at 8:30 a. m. each day. The subjects for the first day are: Geography, spelling, grammar and composition, theory and practice of teaching, child government and teaching. Subjects for the second day are: Drawing, physiology and hygiene, arithmetic, history of Virginia and United States history. Subjects for the third day are: Elementary algebra, science and English history or general history. The examination in theory and practice of teaching will be based upon Chancellor's Class Teaching and Management; in physiology and hygiene upon Ritchie's Human Physiology; in reading and drawing, the examinations will be on both methods and subject matter. In order that proper arrangements may be made for the convenience of the teachers, it is highly important that each applicant notify the division superintendent at least ten days in advance of the examination. GEO. G. TYLER, DIV. SUPT.

Insure Against Scale by Spraying

SAN JOSE SCALE is a factor that nearly every orchardist farmer and fruit grower has got to reckon with. As a progressive grower you must fight the scale until you have it under control, for when it gets into the trees in your orchard, it will never let you rest until it has killed every tree. The one sure way to control the scale is to spray while your trees are dormant with some effective material.

SHERWIN-WILLIAMS LIME-SULFUR SOLUTION protects your orchard from this pest. It is a clear, cherry-colored liquid that will not crystallize and form particles which clog the spray nozzle. It can be used successfully as a spray for fungus diseases and for sucking insects. It mixes readily with Arsenate of Lead and in this shape is especially effective as a combination insecticide and fungicide. If you have any scale on your orchard, or any fungus trouble, write us and we will give you further information and instructions how to spray.

ATHLETES HOLD TRACK MEET TUESDAY

In order to get a more direct line on the abilities of the High School and graded school athletes, a track meet was held last Tuesday afternoon between the first year of the High School and the grade department. The upper school boys were completely outclassed and were unable to secure first place in any event. The meet was a very interesting and successful one.

The grades showed up well and it is likely that they have a number of coming stars who will in some future day bring big honors to the High School should they enter that department.

Ollie Lynch for the graded school was the star of the whole meet, winning several firsts and was in the limelight at all times. He will be a star on reaching the High School with the proper training. He was first in the one hundred-yard dash, the half mile, 440-yard dash and the 220-yard run. He made all these races without much exertion and was easily winner. Lawrence Gregory and Green also did some good work for the grade boys. Those in charge of athletics at the schools are highly pleased with Tuesday's showing and this year promises to be a banner one.
