Good! The Atlantic is between us. Europe is recovering from its emboli. America! A land of peace and plenty! Peace and plenty beats war and famine.

LET US HAVE PEACE

The greatest calamity in history is being enacted in Europe. Five of the great nations of the world and several of the smaller ones are grappling in the grip of death.

Death and destruction stalk abroad now, and famine and pestilence will follow.

Wars of the past will be as the games of children when compared with the present struggle.

Men will go down like blades of grass before the modern engines of destruction, and a once fair land will be peopled with widows and orphans and the maimed from the field of carnage.

It is terrible to contemplate! Some hand should stay the conflict, but whose hand shall it be?

President Wilson, sitting by the bedside of his dying wife, was impelled by his sense of duty to pen a strong plea for peace. It was without effect.

But there is one power which can stop the war, if it so desires, and that is the money power.

If the great bankers of the world will unite and close their vaults to the kings and emperors whose personal jealousies have plunged their patriotic citizens into the deadliest strife of the age, this war will soon end.

Nations cannot fight and feed armies without money, and when money fades away rational sense returns.

The banks of the United States have wisely set the example. Their vaults have been closed.

If the money barons of Europe will follow their example we will have peace.

It is time for action.

THE WORLD IS GETTING BETTER

Certain reformers who are receiving large emoluments for their reform work declare that the world is growing worse every day.

The truth is the world is getting better all the time. The good people overwhelmingly outnumber the bad.

To prove this just run over in your mind the names of all your friends and acquaintances and see how few really bad individuals you know.

Then you will get the average of the country over. Vice is advertised, because the lawbreakers are arrested and the newspapers print glowing accounts of crimes, many of which are slight, but which are featured up to fill the news pages.

If all the good that people do were published and made prominent on the front pages of the newspapers, you would believe there was very little evil in the world.

Look for the bright side of life and you will find plenty of it. Turn the bad side over to the reformers and quit worrying about the problem. Help make the world better and others will join with you.

"GUILTY"

Helen Rowland, a writer of some note, very gracefully and sweetly hands us the following:

"A bachelor is a sheep in wolf's clothing who goes through life in the eternal, harrowing fear that every woman he meets is about to lead him to the altar for sacrifice."

Guilty! And again guilty, and trice guilty!

Man is a sheep, a worm, a vain and useless creature, fit only to be trod under the heel of the fair Helen and her sister Helens.

But woman, glorious woman! Nothing on earth is so sweet, no heavenly star is so bright; no work of man is so wonderful as this beautiful creature whom God created and called "woman."

Woman is the light of the world, and without light mere man would be plunged into eternal darkness.

Praise be that we have woman! Incomparable woman!

A MODERN NECESSITY

The value of advertising is felt at three ends—the merchant, the consumer and the publisher.

Through the medium of his advertisements, the merchant acquaints the consumer with the wares he has for sale, with their values and their attractive features, and is himself constantly in touch with the consumer.

The consumer reads of the goods he wants, learns where to find them, and saves the time of fruitless hunting from place to place.

The publisher is the go-between, the medium of communication between the buyer and the seller, a sort of public convenience. Strange as it may seem, he, too, has his uses.

Advertising accomplishes more good and better results for all people than any one feature in commercial life.

It is a modern necessity, made so by the constantly increasing demands of a discriminating public.

The consumption of Alcoholic liquors in 1913 was over twenty-two gallons for every man, woman and child. These statistics are too imaginative. They include the women and children, but daddy is the one who falls over the furniture.

UNITED STATES WELL PREPARED FOR WAR PLANS HAVE BEEN MAPPED OUT War College in Washington Attended Constantly by Officers of Highest Rank in the Army and Navy.

The military authorities of the United States have in readiness plans of operations for war with any nation on earth. Some persons see in the European trouble the menace of an immediate world war. As far as the United States is concerned, one never can tell.

Do the people of this country know the work of the War and Naval colleges of the United States? There is a war college in the city of Washington which is attended constantly by officers of the United States Army, most of them men of the highest ranks.

Near Newport there is a Naval College, where plans for sea campaigns against the naval power of one by one are laid. Frequently there are joint conferences of the War College students.

There are said to be 3,500,000 aliens in the United States subject to military duty in Europe. These aliens came to this country to be free, consequently they should remain in the United States and grow foodstuffs with which to feed the world.

Tomorrow some happening should force this country into war with Russia there will be forthcoming from the Army and Navy departments a complete plan for offensive and defensive operations. With the Russian land service, the station, armament and tonnage of every vessel of the Russian fleet. The points of least weakness at the moment of least knowledge could be given. The food supplies of the enemy would be tabulated and everything of known service to the American army and navy would be under the hand and eye of government authorities.

REMARKABLE TRIBUTE TO PRESIDENT'S WIFE Before She Died The Democrat Cared Inside History of Great Reforms Instituted in Capitol by Mrs. Wilson.

Virginia tolls her bells and the American people mourn at the death of Mrs. Wilson. Our exchanges are full of tributes and eulogiums. This is not merely because she was the President's wife, but because of her worth to our people as an individual citizen.

The closing of three hundred houses of prostitution, the abolition of two hundred saloons, and the law wiping out the miserable alley system of Washington were due to the fact that there was a woman in the White House in active sympathy with the movement.

The Democrat congratulates itself and Mr. Dalzell that through our columns suitable credit was given the President's wife while she was yet at her home in the White House. Such tributes are better even than flowers on the casket or the most eloquent and well deserved panegyrics of the dead.

Nokesville, Va., Aug. 19, 1914. Editor Democrat, Manassas, Va. Dear Sir: Interpreting the absence of the advertisements of the Local Self-Government League from the recent issues of your paper as resulting from a stand against the opponents to State-wide Prohibition, Nokesville congregation of the Church of the Brethren, in council assembled, authorize its Temperance Committee to express to you the appreciation of its members, many of whom are subscribers to your paper, for your stand.

Expressed several years ago. We believe that a paper refusing to publish matter upholding a continuation of the saloon in our state much more desirable to come into our homes, and it is our earnest hope that the good people of the county may show their appreciation of such a policy by active support. Signed (Temperance Committee of Nokesville Congregation of Church of the Brethren).

MORE WATER NEEDED FOR CORN GROWING Mr. Brown Shows Farmers Why it is Important to Begin Making Preparations Now for Next Year's Crop.

What a pitiable sight to go over roads now and see vast fields of corn withering away under a hot August sun! One prospects for a bumper crop of corn we can only hope to save enough for the winter. It is true that we have had a bad season, but it seems that we have just such a season every year.

What SUBSOILING DOES. If you examine most soils you will find a hard pan underneath the top soil. The soil has been plowed the same depth for many times, and every time the subsoil has been packed just a little more until now the water cannot get through nor can the roots of growing plants penetrate this hard soil.

Manassas is to have for the first time in its history a chautauqua, which will be held next month. The affair, which lasts for three days, will begin about the seventh of the month; at the time when the schools open.

Ten of our leading citizens have guaranteed the entertainment, and it is now an assured event. Next week's advertising matter will be sent here and the committee in charge will at once go to work on the selling of season tickets. As this form of entertainment is new here it will undoubtedly take well, and if so more than likely will be improved over next year.

Our neighboring town of Culpeper, known for its thrift and progressiveness, is to have a chautauqua for a week, beginning this coming Saturday. Although Manassas has had ample opportunity to stage an affair of this kind it has never taken advantage in previous seasons, yet there can be little doubt as to the success of the initial attempts. Further developments and news concerning the matter will be found in the columns of this paper in the next issue, and following issues. The local committee will hold a meeting this Saturday to determine plans and arrangements.

PATHETIC DEATH OF MRS. ETTA C. MYERS AFTER ILLNESS OF ONLY FEW DAYS Funeral Held To-Day in Harrisonburg, Former Home of Deceased—Four Little Children Down With Disease.

A sad and pathetic death occurred here last Tuesday when Etta C. Myers, wife of D. J. Myers, died at her home on Main street after a short illness of a little over a week. Her death was caused by typhoid fever and at the present time four other members of the family, all children, lie stricken with the malady.

The residence occupied by the Myers family has for a long while been regarded as a source of typhoid fever, and the contaminated water there has caused cases of fever among members of almost every family that has resided there. The water supply will, undoubtedly, be condemned and closed by the health authorities.

MANASSAS TO HAVE 3-DAY CHAUTAUQUA COMMENCING PROBABLY SEPT. 17 Further Particulars Concerning the Big Event Will Be Published in the Next Issue of The Democrat.

SEMI-ANNUAL MEETING OF THE SCHOOL BOARD HELD IN MANASSAS ON MONDAY No School in County to Open Later Than October 1—Several Committee Reports Approved—Pay Bill.

A regular semi-annual meeting of the Prince William County School Board was held in Manassas last Monday, at which time there were present Supt. G. G. Tyler, president; Corbin Thompson, vice-president; and the following district trustees: J. R. Cook, Brentsville; W. W. Abel and D. C. Cline, Dumfries; L. Ledmon and A. H. Payne, Occoquan; T. J. Wolfenden, Coles; W. L. Sanders and R. A. Rust, Gainesville; and D. J. Arrington, Manassas.

Mr. Thompson, of Occoquan, was re-elected vice-president of the body. The committee which was previously appointed to see about getting appropriations for the building of boys' dormitories for the High Schools, made their report and it was approved by the Board. The report of the committee appointed to settle the accounts of the County School funds was read and adopted, subject to the delinquent school tax. It was decided by the Board that no county school should open later than October 1, unless there be some good reason for a later date.

Manassas is to have for the first time in its history a chautauqua, which will be held next month. The affair, which lasts for three days, will begin about the seventh of the month; at the time when the schools open.

FARMERS ENROLLING FOR COMING CONTEST FIVE HANDSOME PRIZES OFFERED Interest Increasing Daily in Five-Acre Wheat Growing Contest for the Farmers of Northern Virginia—Counties.

Interest continues to increase in the farmer's five-acre wheat growing contest for the farmers of Northern Virginia—counties. Additional farmers are enrolling each day and are now making preparations for seeding. We want two hundred more farmers to enter this contest and see how much wheat you can grow on five acres of land. Some one said there was no limit to what an acre of land will produce, but we want to see what five acres will produce in the way of wheat.

WHAT THE CONTEST IS This is just a friendly contest to be conducted for farmers somewhat on the same line as the boy's corn clubs. It does not cost any farmer one cent to join this contest or to get out of it if he chooses. We hope to make him some money.

WHO IS CONDUCTING THE CONTEST W. M. Brown, Field Agent of the Farm Improvement Work of the Southern Railway Company, has originated this work and with the assistance of the County Demonstrators will carry it out. The business men in the town are taking an active interest in the work and many of them are offering prizes. Any information can be obtained at any time regarding the contest from W. M. Brown at Manassas, Va.

WHAT TO DO TO ENTER Make up your mind that you are going into this contest and write a postal card to Mr. Brown at Manassas, Va., to that effect. If there is any advice that he can give with regard to how to grow more wheat per acre, he is paid by the Southern Railway to serve you. Call on him, and his services will be free of any charge. Either Mr. Brown or the county demonstrator, whom they have one, will call on you at the earliest possible time and give such help as possible. We are ready to give help in getting the best seed, fertilizer, etc.

SOME DATE WILL BE SELECTED AFTER ALL WHEAT HAS BEEN THRASHED FROM EACH FIVE-ACRE PLOT WILL BE BROUGHT TOGETHER AT SOME CENTRAL POINT AND AN EXPERT WILL DECIDE WHO HAS THE BEST SAMPLES OF WHEAT. We expect to have a lecture at this time of wheat growing by some man who knows the business. Prizes will be given for the following: 1. Best yield on five acre corn stubble. 2. Best yield on five acre fallowed land. 3. Best yield on five acre of pea or bean stubble. 4. Best peck of wheat to be taken from the five acres. 5. Best sheaf bundle of wheat. For information, write to W. M. Brown, Field Agent, Manassas, Va.

Sneak-thieves last Tuesday night in an effort to gain plunder broke one of the big plate glass windows in the Wearich jewelry store and succeeded in taking a few Ingersoll watches which were in the window. The window at the time was fitted with cut glass which escaped damage, when the window was broken. No noise of any description was heard and the time of the stealing is therefore unknown. The season of typhoid fever is upon us and already several cases have been reported in different sections of the town. The total number known to date being six. Five of these cases are among members of the Myers family on Main street, near Church street, and the other in the western end of Manassas. Great care should be taken in the using of drinking water; the old preventative of boiling the water is being adopted by many housewives. Keep away the mosquito. On Friday and Saturday of next week is the annual horse show of the Manassas Colored Horsemen's Association. The entries, soon closed, will include horses of fine type from the adjoining counties of Loudoun, Fauquier and Fairfax. All of the classes are well filled and competition will be of the keenest variety during both Friday and Saturday's exhibitions. One of the big features of the program is the athletic events and a baseball game. A large crowd will undoubtedly be on hand for both days.

MORE WATER NEEDED FOR CORN-GROWING

Continued from first page.

man to do the work. This will cost probably \$2.50 per acre. I believe I am safe in saying that subsoiling will pay for one hundred to two hundred per cent on the investment. There is a subsoil attachment that costs \$6.50 which can be fastened to any steel beam plow. By putting in one extra horse one can do the plowing and subsoiling at the same time. In this way the cost will be practically nothing.

If you have a sod to plow under for corn, it will be well to plow some time this fall and subsoil. If the plowing can be done early enough to see rye, a crop of rye can be sown to be plowed under in the spring.

There are two things I want to urge our farmers to do now: first, to do fall plowing and subsoil to get some humus into the soil in the form of barnyard manure or green manure. If you will do that, the drought will not affect the crops so much next year.

Prepare for crops next year.

UNVEILING LATIMER MONUMENT

The unveiling of the monument to Joseph White Latimer, "The Boy Major of the Confederacy," which took place at Harrisonburg last Saturday, was attended by delegates from the Manassas Chapter of the United Daughters of the Confederacy, who, with delegates from the National Chapter, were guests of Turner Ashby Chapter of Harrisonburg. The twelve-foot Vermont granite shaft was erected through contributions of the Virginia Chapters, U. D. C., the people of Harrisonburg, members of the Alumni of Virginia Military Institute, and others. The word Latimer, cut in polished letters four inches high and one inch in relief, is inscribed on the front of the monument, while two sides of the center piece bear the following inscription: "Erected by Grateful Hearts to the Memory of the Boy Major, one of the South's most heroic soldiers. Love Makes Memory Eternal."

THE RURAL PRESS

The Rural Press a Most Useful Agency on the Farm—The Press, Pulpit and School a Trinity of Influence That Must Be Utilized in Building Agriculture.

By Peter Radford
Lecturer National Farmers Union
A broad campaign of publicity on the subject of rural life is needed in Virginia today to bring the problems of the farmers to the forefront. The rural press, the pulpit and the school are the three agencies which should be utilized in building agriculture.

The rural press, the pulpit and the school are a trinity of powerful influences that the farmer must utilize to their fullest capacity before he can occupy a prominent position in public affairs. These gigantic agencies are organized in every rural community and only await the patronage and cooperation of the farmer to fully develop their energy and usefulness. They are local forces working for the best interests of their respective communities. Their work is to build and prosper the community of the farmer in Virginia. STOMACH TROUBLE

FOR FIVE YEARS
Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.
Pomeroy, Ky.—An interesting advertisement from Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodor's Black-Draught, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me. Theodor's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept by every family chest. Get a package today. Only a quarter."

Constipation in summer-time is more dangerous than in the fall, winter or spring. The food you eat is often coarse and indigestible. It is in your stomach. Then you are apt to drink much cold water during the hot weather, this injuring your stomach. Colic, fever, ptomaine poison and other ailments are natural results. Po-Do-Lax will keep you well, as it increases the action of the bowels, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose tonight. 50c at your druggist.

WHO CAN VOTE IN SEPTEMBER ELECTION

Many persons are still asking "Who is entitled to vote in the Prohibition Election?" Perhaps the simplest way to answer the question is to say that there are three classes and any man who is in either class can vote. These three classes are as follows: All persons who voted or had the right to vote last November. That means they were registered and had paid necessary taxes and hence did vote or could have voted last November. Besides the above class are those who paid by December 3, 1913, any capitation taxes which had been assessed or should have been assessed against them for the years of 1911, 1912 and 1913. Of course persons in this class must also be registered in order to vote. They can still register. All young men who became twenty-one years old since February 1, 1913, or who will be twenty-one years old by September 22 next, can vote by paying the year's capitation tax and registering. In order to register it is necessary for the voter to make application in his own handwriting to the Registrar of his precinct stating therein the following: 1. Your name. 2. Your age. 3. Date and place of birth. 4. Residence. 5. Name of precinct at present time and for the two years past. 6. Whether you have previously voted, and if so, the State county and Precinct in which you last voted. It is easy to get these few things clearly in mind and then go to the Registrar and in his presence write out the six things above stated.

LOOK HERE FOR IT

Many a Manassas Reader Will Be Interested
When the people read about the cure made by a medicine endorsed from far away, it is surprising that they wonder if the statements are true? But when they read of cases right here at home, positive proof is within their reach, for close investigation is an easy matter. Doan's Kidney Pills
Mrs. M. E. Akers, E. Center St., Manassas, Va., says: "I am willing at all times to give Doan's Kidney Pills my endorsement. This excellent remedy completely cured one of my children of a bad case of kidney trouble of several years standing after everything else had failed. My advice to every kidney sufferer is to buy Doan's Kidney Pills a fair trial." The above statement must carry conviction to the mind of every reader. Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Akers recommends. The remedy backed by home testimony, 50c all stores.
