HAGGARD DIES IN WEST, BRIDGEPORT

Marcel Y. 'Buck' Haggard, 78, was killed March 17th in an automobile accident near Bridgeport.

The body was cremated as the coroner has determined the cause of death.

The funeral was held at the Church of Christ in Bridgeport, with Dr. J. E. Martin, officiating.

Horrible accident which claimed the life of the man was described by police as follows:

The Haggard was on his way to earn a living from his home in Bridgeport.

The accident occurred when the car plowed into a tree.

The car was then transported to the hospital where the man was pronounced dead.

The service was attended by many friends and relatives who were deeply saddened by the loss.

THE REAL LIFE OF HAMMOND

Hammond Feed always runs as high and higher than claimed by its manufacturers. There has been a real revival in the feed line in this county in the past few months. Chris Meteez has been doing the preaching and Hammond Dairy Horse Feed has been his text. The number of converts has been large, and his coming day by day.

Hammond is not made of silk, but pure grain by-products. We fear no competition.

THE NAMELESS GRAVE

BY WINIFRED LAURENS

Will we see the South in the future? Hopefully, there will be more attention given to the history of the Civil War and the impact it had on the region. The ties between the North and South during the war were strong, and the loss of life was significant. The South was divided and it was not until after the war that it began to come together. The story of the nameless grave is a reminder of the sacrifices made and the impact it had on the region.

A VIEW OF ARLINGTON ON THE POTOMAC

With the start of Memorial Day, it is a time to remember the sacrifices made during the Civil War. The South was divided and it was not until after the war that it began to come together. The story of the nameless grave is a reminder of the sacrifices made and the impact it had on the region.
The Hanging of Pat Doolan

Pat was the kind of man you couldn’t help but love. He was always there for his friends, and he always did his best to help out in any way he could. But on this particular day, things were different.

It was a typical day in the town, with people going about their business. Pat and a group of his friends were out for a walk, enjoying the sunshine and the fresh air. They saw a small boy who seemed lost, and without thinking twice, Pat went over to help him.

"What’s wrong, little fellow?" asked Pat, his voice full of concern.

"I can’t find my way home," replied the boy, tears streaming down his face.

"Don’t worry, we’ll find you a way," said Pat, leading the boy to the nearest building.

But as they entered the building, a group of men rushed out, shouting and cursing. They had seen Pat and the boy together, and they were angry.

"What’s going on here?" asked the building’s owner, his voice filled with concern.

"The boy is lost," said Pat, "and I’m trying to help him.

"No, you’re not," said one of the men, his voice filled with anger. "You’re Pat Doolan, and you’re going to hang today.

Pat was taken aback. He had no idea what was going on. But he knew one thing for sure: he wasn’t going to let anyone take away his freedom.

And so, Pat Doolan was hung, his life cut short by those who didn’t understand the value of kindness and compassion.

**To the Dairymen**

The Sucone Dairy Feed has Class! It Brings Best Results!

This is abundantly shown in every practical test as well as in the results obtained by the successful dairyman. It pays no attention to the marginal or indifferent, exceptions of a dozen in inferior grade of "Dairy". Milk and Curd and Butter and Cheese are the results that follow when the grade of feed is raised. To the farmer who has given the matter serious consideration and who knows the quality of his feed and the results of the same, this will be a natural outgrowth of his experience.

What is Doing in Promoting Developments in Virginia

The Penn-Vir Coal, Oil and Gas Company has placed in position so satisfactory, the principal part of its machinery necessary to the beginning of active operations in setting forth coal, oil and gas. But the lease does not begin to until the company has sufficient funds to its treasury to guarantee the mining of more than a few wells. To begin with funds only to sink the one well would possibly jeopardize the whole undertaking to such an extent that there could be no feeling of success in working on the whole property for the next year. The present expenditures will involve the investment of about $20,000, so that it will be absolutely necessary that each and every shareholder and the company be as solidly secured in the proceeds or absence of oil, gas or coal. This result has not been taken for granted, but our largest and lowest-hanging fruit has been secured. The present active operations are necessary and important to the development of the company's property.

The company needs your support. I am sure you do not wish to be a misera. There will be no withdrawal of your personal support from the company. We are prepared to work for the development of the company's property, and we have every reason to believe that the results will be satisfactory. The company is working with the utmost diligence and is making every effort to develop their own interests.

Please follow the instructions below and you will be rewarded with the benefits and advantages of being able to invest and so strongly needed in the profitable and remunerative fields of your investment.
