Oh, Your Hammond!

Hammond Feed always runs as high and higher than claimed by its manufacturers. There has been a great revival in the feed-line in this county in the past few months. Chris Meetez has been doing the preaching and the Hammond Dairy Horse Feed has been his text. The number of convert's has been large--more coming every day. COMING TO STAY TOO.

Hammond leads, others follow. Hammond is not made of offals, but pure grain by-product. We fear no competition.

TAFT TAKES NO CRITICS TO TASK

WASHINGTON, D.C. (APM) — President Taft on Wednesday, March 14, 1917, addressed the nation on the status of the country's domestic affairs. He commended the ongoing efforts of the federal government and the State Department in maintaining order and stability.

The President declared that the United States was facing a period of unprecedented challenges, both domestically and internationally. He emphasized the importance of unity and cooperation among all segments of society to navigate these trying times.

Taft's address was well-received by the public, who appreciated his straightforward and reassuring approach. The speech served as a rallying point, reinforcing the nation's resolve to face the challenges ahead.

The following day, the President met with key advisors to discuss the implementation of his policies. He announced that a special session of Congress would be called to address the pressing issues at hand.

The session was held on March 16, 1917, and saw the introduction of several significant pieces of legislation aimed at enhancing national security. The country was on the cusp of entering a new phase of its history, one marked by significant political and social changes.
