SANK DRILLS FOR EARLY TREASURE

Louie Rolls for the Lost Seventy

By Bernard W. Rollins

Within the last week or so, a large number of searchers have been working very diligently in the search of the Thirty-Seven Mine, as well as in other sections of the county, in an effort to locate the lost treasure of the Thirty-Seven Mine. These searchers have been working very hard, and many of them have spent long hours in the search of the lost treasure. It is hoped that they will be able to locate the treasure soon.

The Thirty-Seven Mine was a very large and valuable mine, and it is believed that the treasure was lost when the mine was worked. The searchers are working very hard, and they are hopeful that they will be able to locate the treasure soon.

The treasure is believed to be worth a great deal of money, and it is hoped that it will be located soon. The searchers are working very hard, and they are hopeful that they will be able to locate the treasure soon.
THERE ARE OTHER FEEDS—BUT

Oh, You Hammond!

Hammond Feed always runs as high and higher than claimed by its manufacturers. There has been a great revival in the feed line in this county in the past few months. Chris Meetez has been doing the preaching and Hammond Dairy Horse Feed has been his text. The number of converts has been large—more coming every day. COMING TO STAY TOO.

Hammond leads, others follow. Hammond is not made of offals, but pure grain by-product.

We fear no competition.

White Loaf leads in the Family Flour Line

Try it and be convinced. Ask your Grocer for it.

White Rose leads in its Class—Comes Cheap and is Good

Milford Water Ground Corn Meal

You know all about it. The thousands of bushels we sell is evidence enough to convince the public.

Real Estate Bargains

If you are planning to buy real estate, you can have money left over after preserving a list of lots and farms properly. We have a most attractive and desirable list of farms and lots here, and can supply any demand in any locality.

We have many applicants for property which does not require improvements, making it most desirable for the blending sellers to list their properties with us. Remember, when sending us your property to sell, write for blank list, fill in the blanks and return it to us. We will get the best results for you.

DEATH THREAT BY CHINESE AGAINST ALL ALIENS

WASHINGTON

By Telegraph

The International Hotel and Boarding House in Portland, Oreg., upon a previous advertisement offering a reward for the apprehension of all Chinese, has been abolished under pressure of the Chinese. The Chinese are said to have made a threat against all Chinese in the United States, as well as against all other races, and that all of the Chinese in the country will be killed if the international hotel and boarding house is not closed. The Chinese are said to be determined to carry out their threat, and that all Chinese in the United States will be killed if the international hotel and boarding house is not closed.
AN ELEVATOR

OF SERVANTS

by ESTHER SANDERS

Servants and coffee had a strange
story about them. It is believed
that the invention of the coffee
pot was the first step toward the
development of the elevator of
servants. The coffee pot was a
great improvement over the
earlier methods of preparing coffee,
and it soon became the standard
method of preparation. However,
the coffee pot was not without its
deficiencies. It was difficult to
control the temperature of the
coffee, and it was necessary to
carefully measure the amount of
water and coffee to be used. In
addition, the coffee pot was not
portable, and it was not possible
to prepare coffee in different
locations.

The next step was the invention
of the coffee maker. The coffee
maker was a significant improve-
ment over the coffee pot. It was
capable of brewing a large
quantity of coffee at once, and it
could be easily transported from
one location to another. However,
the coffee maker was still not
perfect. The coffee maker did not
provide a uniform temperature
for the coffee, and it was difficult
to control the amount of
water and coffee to be used.

The final step was the invention
of the coffee brewer. The coffee
brewer was a significant
improvement over the coffee
maker. It was capable of
producing a consistent quality
of coffee, and it was easy to
control the amount of water
and coffee to be used. In addition,
the coffee brewer was portable,
and it could be used in a variety
of locations.

The invention of the coffee
brewer marked the end of the
elevator of servants. The coffee
brewer was a significant
improvement over the coffee pot
and the coffee maker, and it
provided a solution to the
problems associated with these
earlier methods of preparing
coffee. With the coffee brewer,
the need for a servant to
prepare coffee was no longer
necessary.

GREAT SENSATION AT

GREAT SENSATION AT

FT. WAYNE, IND.

Wonderful Discovery Made.

This copy from the Fort Wayne Journal-Gazette shows what has been
uncovered as a result of the discovery of the new species of dinosaur.

In the town of Fort Wayne, Ind., a group of scientists have
recently made an exciting discovery. The scientists discovered
a new species of dinosaur, which they have named the "Fort
Wayne Dinosaur." The dinosaur is a small bipedal creature
with long legs and a large head. The scientists estimate that
the dinosaur was about 10 feet tall and weighed around 500 pounds.

The discovery of the "Fort Wayne Dinosaur" has
caused a great deal of excitement in the scientific community.
Scientists from all over the world have come to Fort
Wayne to study the new species. The discovery has
opened up a new field of study, and scientists are
already making plans for further research.

The "Fort Wayne Dinosaur" is a significant
discovery because it provides new insights into
the evolution of dinosaurs. Scientists believe
that the discovery will help them
better understand how dinosaurs evolved and
how they became extinct.

The discovery of the "Fort Wayne Dinosaur" is
expected to have a significant impact on
the field of paleontology. Scientists are
already making plans for further
research, and they are optimistic
about the potential for new
discoveries.

WE ASK YOU

To examine our Statement of Condition.

People who irratiate their money to a bank should know and understand its financial strength.

The annexed statement speaks for itself. On its strength you may safely say,

"We solicit your business"

"The Bank that Does Things."

N. R. Prescriptions! That's our business.

Soda Water

Everything about this soda water apparatus is of the purest and cleanest. Our Ice Cream is perfectly pure—nothing artificial is in its composition. Ice made from distilled water.

PRINCE WILLIAM PHARMACY

Manassas, Va.

WEYER-TEPPLETON

Miss Elsa Arnette Triplett, daughter of Mr. and Mrs. E. F. C. Weyer, a prominent young negro woman, was born in the home of the bride's parents, Rev. Thomas W. Anderson and Mrs. Eliza P. Anderson, in Manassas, Va., on the 17th day of July, 1898. The ceremony was performed by the Rev. Mr. Anderson and the home was filled with the voices of music and song as the happy and healthy baby was welcomed to the world.

We are proud to say that Miss Triplett was the only child of the marriage of Mr. and Mrs. Weyer, who have been blessed with a daughter. The family is made up of the following members: Mr. and Mrs. Weyer, Mr. and Mrs. E. F. C. Weyer, Miss Elsa Arnette Triplett, and two grandchildren.

The infant is a fine example of health and vitality, and is expected to do well in the future. The parents are proud of their new addition, and the home is filled with joy and happiness.

The infant will be a valuable asset to the family, and will no doubt bring much happiness to all who know her. The family is grateful to all who have contributed to this happy occasion, and they look forward to a bright future for their new arrival.

A set of 42 7 x 11 photos will cost $20.50.
Penn-Vir Coal, Oil & Gas Co.

What it is Doing in Promoting Developments in Virginia

The Penn-Vir Coal, Oil and Gas Company has placed its headquarters at Norfolk, Va., the principal part of the machinery necessary to the beginning of active operation is drilling for coal, oil, and gas. But it has been decided not to begin operations until the machinery is in place and the conditions are such as to make the project pay. The company is now in the process of developing the reserve of coal and gas found at the Norfolk Field, and the company's officers are working hard to bring the project to a successful issue.

This company needs your support. I am sure you do not wish to be a spectator. Then you will withhold your personal support both financially and by word of mouth. This company has no scheme to ensure your money for other purposes than the development of your own interest, that which you cannot do for yourself and your family. It is a grand and honest business of developing the whole field—the only one of its kind in the world. Let us think of the millions of dollars that will be spent in making the field a reality, and let us do our part in seeing that it is done.

There is an opportunity for all to share in this great undertaking, and we are ready to take all who are willing to help in the development of this field. The coal and gas found in the Norfolk Field are of the highest quality, and the company's officers are working hard to bring the project to a successful issue. We need your support to make this project a success.

READ CAREFULLY

Compare the holdings of the Penn-Vir Coal Oil & Gas Company (holding $25,000 acres) with the holdings of other companies engaged in the coal and gas business and you will soon see why the great promise of the Penn-Vir Coal, Oil and Gas Company will be.

SUICIDE

Calling it the picture of a young man to his home and crying out to her baby sister that she was "tired of life," a nineteen-year-
old girl in Washington, D.C., was found an essential suicide victim at
her home Tuesday afternoon. She left a note saying she was preparing to
end her life. She was identified as Miss Schen, 811 N. Kent St.,
her name not disclosed. She was pronounced dead at the scene of
the suicide. She had been seen in the neighborhood of her home
earlier in the day.

HOSPITAL CAMPAIGN

Gr头条消息：华盛顿医院的女病人们正在积极地参加医院的捐款活动。据医院的护士长说，女病人们今天都慷慨地捐款，这将为医院提供急需的资金。她们这种慷慨的行为深深地感动了我们，也让我们对医院的工作人员表示感谢和敬意。

MEMORIAL

Nature weeps on Memorial Day. Skies draped in somber black
storms come. A hearty great man enveloping the landscape like a
windswept sheet, a diaper. This is the story of a man who died
months before in the Confederate Cemeteries. Caring for the
dead is a noble duty. It is a duty that the nation carries out.

THE GYPSY CRED

A Virginia-gypsy queen is dead, and all her royal possessions
have been auctioned off. Her majesty was a living legend of the
romantic tribe. Her court was draped with red silk, her
porcelain wares, glinting with gold and silver, giving the impression
of a royal age. Her majesty was reduced to a heap of
trash. Her fine horses have been chloroformed. Gypsies, in
fact, most men, hold to the doctrine of romanticism that
prehistoric days. Her majesty was a living legend of the romantic
