Let us say to every Virginia and especially to the citizens of Prince William, Loudoun, Frederick, Fairfax, Stafford, Culpeper, Spotsylvania, Louisa, Orange, Amherst and other counties south-west of those mentioned and in the cities of Washington, Alexandria, Norfolk, Richmond, Lexington, Fredericksburg and other centers that this Company has been organized purely for your benefit from the point of development. Therefore let me beg of each and every citizen that he make a business man's study of this proposition. That is, if he is himself a land owner or can lay hands on any one who is. Will the creation of coal, oil and gas, or either of them, do anything for him, his county or city? After considering these points act according to the dictates of a sound business man's business knowledge or prejudice of the matter.

This company needs your support. I am sure you do not wish to be a contributor to the failure of your town, county or state. I am sure you do not wish to be a contributor to the failure of your country. I am sure you do not wish to be the one to bear any of the responsibility.

This company is organized by the most experienced men in the business of developing coal, oil and gas. It is organized by the men who have at the present time the greatest opportunities and the greatest capital with which to develop these resources. The officers of this company have the ability to develop the vast resources of this country into mines of profit and a valuable addition to the wealth of the country.

SHOOTING OF MAYOR OF NEW YORK

The shooting of William J. Gaynor; mayor of New York, by a discharged city employee last Monday afternoon, was one of the most sensational events that have occurred in the city. The Mayor sustained the removal of an unfit employee by another official, an act of duty. Because he did that duty he was made the mark for an assassin. The attempt was made last Tuesday, but it appears that he is not suffering from material alteration, and the deed was performed by malice and premeditation. The wounds were mortal. When he was taken to the hospital the bullet would have executed the fatal mission had it not been intercepted in a struggle between a companion of the Mayor and the wounded man. The whole nation was shocked by the attack upon the life of Mayor Gaynor; and the generous that has prevailed was wonder- ful. While the last night was spent under very trying circumstances, the hope is universal for his recovery. Unusual blood pressure develops within twenty-four to forty minutes before he will be of no use of death. Mayor Gaynor is now under the care of Dr. Castellan, administrator of the administration. Gaynor will have been mentioned as a candidate for Governor of New York. It is hoped that he will soon recover and that the city will not lose another capable public official.

STREET FAIR

Citizens should cooperate with Mrs. Moffett and public school pupils in making the Street Fair a signal success. The Fair will be representative of the best that our city officials and commercial houses have to offer and the proceeds will be used for the benefit of public schools.

PRINCE LEE

In striking contrast with the position taken by some Northern leaders, Judge El Capron of Minneapolis, commander in chief of the 100,000 principally black soldiers, has taken the position that the Negro soldier should be used for the purpose of fighting for an independent Southern State. He advocates the use of Negro regiments in the Confederate States.

KANSAS

Kansas is breaking away from the Republican party, an arrangement that has resulted in a victory of Joseph Cannon, speaker of the United States House of Representatives, in an effort to pacify the native Southerners. Kansas is a state of the United States, and the Negro soldier should be used for the purpose of fighting for an independent Southern State. He advocates the use of Negro regiments in the Confederate States.

KANSAS

No matter how alarming coal's troubles, those always are others up against it stronger. Power of moderate incomes who gave over to the Confederate States, a great deal of tax money is in effect the Northern Federals. Kansas is a state of the United States, and the Negro soldier should be used for the purpose of fighting for an independent Southern State. He advocates the use of Negro regiments in the Confederate States.

KANSAS

Rice and wheat in Kansas are making more extensive use of the land than the cotton growers, and the production of wheat is being greatly increased. Changes of government are being made against those high in public services. The miner is being thoroughly tried and abolished. Kansas is a state of the United States, and the Negro soldier should be used for the purpose of fighting for an independent Southern State. He advocates the use of Negro regiments in the Confederate States.
