HOLD INSTITUTE FOR COUNTY TEACHERS

HOLD BURGLARS ROB WAGENER'S STORE

Modern methods of instruction in the form of 'practical' work are being introduced into the Agricultural Institute of this state, and the results are promising. The plan is to hold a series of practical sections in each county, where teachers will be given the opportunity to observe the work being done in their respective sections. The plan is to be carried on for several weeks, and the teachers will be encouraged to take part in the work.

Students will be divided into groups, and each group will be assigned a specific area of work. The groups will be supervised by the principal, who will visit each group regularly to see how they are progressing. The principal will also be available to answer any questions the teachers may have. The plan is to be continued for several weeks, and the teachers will be encouraged to take part in the work.

Agricultural work is essential for the development of the state, and the plan of providing practical instruction to the teachers is a step in the right direction. The plan is to be continued, and the teachers will be encouraged to take part in the work.

HUMOR OF THE DAY

Time For The Jury.

The following case is one of unusual interest to the officers of the law, who have been unable to secure a jury for twelve months and fifteen days. The defendant was arraigned upon the information of the state, and was found guilty of the charge. The defendant now stands trial before the court, which is sitting in the county courthouse. The case is one of unusual interest to the officers of the law, who have been unable to secure a jury for twelve months and fifteen days. The defendant was arraigned upon the information of the state, and was found guilty of the charge. The defendant now stands trial before the court, which is sitting in the county courthouse. Shoes and Gents' Furnishings

at MOST REASONABLE PRICES

MY MOTTO: Money's worth or money refunded.

100 Million Dollars

Worth of Shoes

These are stupendous figures, yet this is the yearly amount that the South spends for shoes. As a curiosity these figures attract you for a minute, but the most curious thing about them is that these quarters of this money is regularly spent away from the South and the South is that much poorer for it.

You trade at a Southern shoe store. You give your dealer your money. You probably buy a western or northern made shoe. When the dealer pays his bill that money, less a small per cent to the dealer, goes north or west. This is what is meant.

Keep your money at home. Let it work for better times, better wages, more factories, more work, for Southern people. Ask your dealer for Craddock shoes. Made in the South, by white labor, for Southern gentlemen. The value offered by any maker in the market for 50.00 and 60.00. Money spent for Craddock shoes stays in the South, and pays Southern labor, Southern grocers, bakers and butchers.

It builds Southern factories, homes and schools.

We can support more and better industries. Let's do our part.

CRADDOCK-TERRY CO.

Lynchburg, Va.
Penn-Vir Coal, Oil
and Gas Company

WHAT IS IT DOING?
PROMOTING DEVELOPMENTS IN VIRGINIA
ESPECIALLY COAL, OIL AND GAS

Vice-President, E. Raymond Bell, Manassas, Va.
Secretary, A. B. Bacon, Woodlawn, Va.
Treasurer, C. J. Bartholomew, Manassas, Va.

General Sales Agent, P. G. Smith, Warrenton, Va.

General Superintendent, A. L. Griswold, Manassas, B. C.

Let us say to every Virginian—and especially to the citizens of Prince William, Loudon, Fauquier, Fauquier, Stafford, Culpeper, Warren, Orange, Albemarle and other counties lying southeast of the ones mentioned—and to the cities of Washington, Alexandria, Norfolk, Richmond, Lynchburg, Fredericksburg and Charlottesville, that this Company has an opportunity to give you a benefit from the point of view of both the man of toil and every citizen that he makes a business of considering this proposition: What it would mean to him individually, what his county or city and lastly to the state—With the production of coal, oil and gas—the kind of coal, do anything for him. After considering these points he will see how important the existence of a successful business man's interest.

This company needs your support, and you may not do without a man as it were. There will be no wholesale or retail sale of leasehold, but as soon as the sale is made, you will buy the leasehold and sell it for what you think it is worth, and you will have a leasehold that will be worth money to you.

If you have an excellent coal and oil well, you may not know it, but you might yourself have property in which you are interested, and be worth more money than you think. You might have a leasehold that you have not sold, but, as you are told, you will have a leasehold that is worth money to you.

Mter being in this matter a single dollar, but research your property and try to develop your own property as well as you can. If you did not own it, you might not have a leasehold that is worth money to you.

This opportunity will not come to you along, and you may be a long distance, but if you do not act, you may lose your chance. Are you willing to wait so long before you get your opportunity? If you are, you may lose your chance.

This company has about 26,000 acres under lease, which will be thoroughly tested. Active drilling will begin within twenty days. The sinking of one well may solve the problem. You will not, but you may try the wood, and if you get the wood, you may have the leasehold that is worth money to you.
