STRENGTH—Financial Strength

All bankers know that the depositors should know that the success of a bank is due either to the plan of its Capital or Surplus, but upon the character and amount of its Loans in proportion to its Capital. The Master Bank, in common with other banks, is conducted on sound and safe principles. Its surplus makes it strong and its capital makes it safe. Its policies are all of the highest character, and its reserve is ample to meet any emergency that may arise.

Our capital paid in $30,000
Surplus and undivided profits $15,000
Total $45,000

The Right Combination

Every manufacturer of shoes knows that the general public is so particular now about the style a person is wearing that he cares to in producing a shoe to suit the need. He can be made most comfortable, or he can be turned into something new and costly, but it will never wear out. He also knows that a nicely balanced combination of these three shoe virtues is about the hardest problem in shoe making.

The Southern Girl

$2.00. Shoe—$2.50

over the reputation and by many friends to the fine sense of proportion of style. H. S. Stoughton, president, and the directors.

You never see a better style—a classics, snappy shoe. There is more greater comfort than The Southern Girl will give. Once you wear a pair you'll say you never got better value in wearing—puts out of your shoes.

INDUSTRIAL EDITION

The latest industrial news ever published in this section of Virginia will be issued by The Daily News. The latest industrial news is毫 less than twenty-four hours old and will be devoted to the news of our states and industries of Prince William County, in new and imaginative illustrations, to a comprehensive review of the activities of our educational and religious institutions, our commercial establishments, and our agricultural and industrial interests. The Industrial Edition will be thoroughly covered by experts, and their presentations of the advantages of Manassas and Prince William County will be equally engaging and interesting. The Industrial Edition, a unique publication, is a reflection of what capital will work towards the future. It will attract hometown entrepreneurs. More than four thousand copies will be issued and distributed widely in localities where they may be expected to land soon. The practical, cost-conscious, and well-informed reader will find in this monthly edition an attractive feature of this Industrial Edition.

The people are saying a great deal about women joining in a movement to-day.

The people are saying it has helped them keep the wolf from the door and probably always will. It will be one of the most important events to occur in the history of the country. People are saying that this movement is the answer to the question of whether women are content with their lot. They have been helped to keep the wolf from the door and probably always will.

Too many adjustments of the Congress must have been easier for Uncle Sam. The Congressional Record, etc., have been adjusted to the demands for less and stepped up services cost the Government just 64 cents.

The stormy scenes marking the adjustment of the Congress, however, have been more than a credit to the Congress. The killing of the tariff bill board was a bitter disappointment to the President.

An extraordinary session of the Congress has been held for April.

There is no doubt that the great military and naval demonstration involving twenty thousand troops and forty armed cruisers will be the most impressive gathering of arms in the history of the world. The military revolution has reached a stage, it appears, where American interests in Mexico need protection. Large through concession from the two great nations have more than $500,000,000 invested in Mexico.
