**HIDDEN MONEY**

Statistics show that the percentage of money spent by employers is greater, than that spent by employees, by over 200 per cent. And yet, people will argue. They draw their conclusions from the missing money, from the gifts, the presents, the great parties, etc., etc., etc. But, as a matter of fact, the money is there, and they are not taking care of their interests. They show that the money has been lost, or hidden, or stolen, or whatever you want to call it.
