WAVING THE BLOODY SHIRT.

GENERAL DANIEL E. SICKLES, who, during the early sixties, imbedded his hands in blood by shooting to death Phil. Barton Key, on one of the principal thoroughfares of the National capital; and who, it is said, narrowly escaped the gallows for the crime, raised aloft the bloody shirt and flaunted it in the face of the South in a meeting of sixty representatives of the provisional New York State committee of the new progressive party in New York last Thursday.

Gen. Sickles is quoted as saying: "The old parties are not satisfactory in many respects. It is the first time since the war that a Southern man has been nominated for president. Mr. Wilson is a nice man; he is honest and affable. However, Mr. Wilson was born and raised in rebellion surroundings. He was born and raised on the wrong side."

"We northerners are never disposed to put a man who has been reared in the Confederacy, so to speak, whose people fought on the Confederate side, in the White House."

"We wish no repetition of the secession movement. This Union is one and inseparable, now and forever. That is the determination of the progressive party."

"This one-legged custodian of the welfare of this great and glorious nation seeks to guard its vital interests by barring Mr. Wilson from the presidency of the United States simply because he has the honor and distinction of having been born in the 'mother of states and of statesmen.' This is a mere appeal to the prejudices of ultra politicians, but thank God that over half a century, during which time the South has remained as loyal to the Union as New England, furnishing as valiant soldiers at San Juan, as she, and whose long-bottled Cervera's fleet in the harbor of Santiago, has done much to wipe out the line of prejudices between the warring sections in the great civil strife, and despite the vitriolic prophecies of this great New York statesman (?) Mr. Wilson will be our next president."

CONFERENCE or mass meeting will be held in Roanoke or Richmond by Virginia Republican progressives, on Tuesday, July 30, for the purpose of selecting representatives to the Chicago convention to nominate Theodore Roosevelt for the presidency.

TALK about swatting the fly and chloroforming the mosquito; what is to be done with the noisy roosters that start a concert with his neighbors of other roosters about the time one has turned over for a good sound nap before he is called to an early breakfast?

COL. ROOSEVELT says he is a political necessity. Well, hand us out a luxury for ours. After eating in the political kitchen for nearly half a century we think we should enjoy that luxury in the nation's banquet hall with Woodrow Wilson at the head of the table.

DEMOCRATIC delegates

It may be said, with shame, of the Virginia delegation to the Baltimore convention, that it waited until the forty-third ballot before casting the solid vote for Woodrow Wilson, an inveterate son of the state it represented. These same delegates, professing to be true to the interests of Virginia, may now, no doubt, place as dyed-in-the-wool advocates of the Democratic nominee, but the index finger of the political history of most of these delegates will point with some embarrassment to the fact that they fought Mr. Wilson in the primaries; in the state convention and in the national convention. They fought him openly and by stealth in what they could not openly fight them, and what, if found out, would have been a new faith at the point of the sword.

The repentance of these political Euans came at a time not to be fruitful of houses or preferment, but it is somewhat gratifying to know that the stain and stigma of relentless opposition to Mr. Wilson was removed from his mother state before the final ballot was taken.

We are speaking of the delegation as a unit and have no intention of passing upon those of the delegation who nobly stood by the Wilson craft at the height of the storm, when the waves of disapproval ran highest, and who stood triumphantly on her deck as she sailed into harbor with the banner of public preferment nailed to her mast by acclaim.

DEMOCRATIC

The child that was born on a spinning locomotive, out in Minnesota, surely had a flying start in life.

It is said that Teddy Roosevelt was raised on goat's milk which gives him that great proactivity in butt in.

"Back, back, back to Baltimore," is no longer a popular song with the New York delegation to the Baltimore Convention.

"All is not gold that glitters" was exemplified to the woman who is suing for divorce because her wedding ring has turned out to be brass.

It is said that the Woodrow Wilson vote in Rhode Island, will be so large that the judges will have to take them out of the state in order to count 'em.

A PHILADELPHIA angler claims to have caught a fish with a diamond ring in its stomach, and this angler has only belonged to the Anadis club about six months.

There is no reason to care why the people should vote for Roosevelt for a third term and every reason why they should not.

It is a case of "no good deed goes unpunished."

A CONNECTICUT man says he has been struck by lightning every seven years. Probably he has been a candidate for office all his life and it was the political kind which ran down the iron tissues of his spine to another earth.

WORKING men and working women want work, and steady work, but they want it under conditions that will permit them to get something out of life besides work; this they will do when Woodrow Wilson becomes president.

If you want to test the true friendship of a friend at the Horse Show ask him to lend you a V.

A GENIUS has come to the front with a seedless apple and is now working on the seedless raspberry. My, but he has a lot of study to do before him.

ONE feels like being awfully sociable at a Horse Show except with those whom he has owed a bill and time without number promised to pay it.

THERE is some tall guessing as to who is most likely to become the happy possessor of that handsome and stately cup to be presented by President Hazen.

The fact that there was only one plate among the prizes to be awarded at the Horse Show goes to prove there is more desire for vessels for liquid than for cake.

A LARGE wheat crop is predicted this year which goes to prove that the political hot air had no effect upon the growth and development of this important cereal crop.

How provoking it is, when spreading out the family dinner at the Horse Show, grounds, to find that the bottle of milk (?) had been left at home in the refrigerator.

Do We Do Our Duty?

"By C. E. L. H."

The question that confronts us day by day is every line of life is: "Do we do our duty?"

Many perform "the daily round and common task" with conscientious exactness. Fewer are able to put love, that sweet ingredient which renders duties light and easy, into each task. It is the motive that makes our actions light or heavy; forced or voluntary, irksome or pleasant. If we can learn to think of every

duty as good, and a part of our character building, we can more easily sing when about our work, and laugh at the trivial calamities common to life in all homes.

I could get some appointment for evangelistic work in some of the large churches." The reply came: "We may have the joy of sharing with others, flowers so freely given: rather than wait for greater work that may never come." So with love as the motive power, we come to the third letter in our word, "Outstretch." Yet, let us outstretch a loving hand. If holding a real flower it will give great pleasure, but if no flower is there but "love, rejoice and give it freely." There is a wonderful language in the hand, outstretched with palm upwards, it indicates true interest, welcome, love. Let us go with outstretched hands to those who need us in our dear homes, to the sick and sad; the lonely, poor and degraded, praising God that we can be of service. How many there are who cannot enjoy the beautiful growing things, the trees with graceful awnings, the flowers with their many hues and forms, the outlines of the distant hills against the pale blue of the cloudless sky. This because of sightless eyes or closed ears of frail health, or from the confining nature of their heavy home burdens, some cannot find time to move about at will.

Coming to our next letter let, "F," we find that our love to man, our hearts to man, and elsewhere, share with them our joys and privacies. Let us not lose opportunities for saying a helpful word when we carry the posies that silently speak sweet remembrance.

For the letter E we have Encouragement, yes encourage them with words of hope, accompanied with substantial help if needed, and love, from the very heart of the rare red rose we may carry in our hand.

And from our homes to we ever look abroad and see ourselves, are there no hearts to cheer? No, we call it the "Rose of Sharon."

Once Mrs. Ballington Booth, whose wonderful success in prison work is well known, came to see us. She was a degraded woman, or "I am too busy to run around away from home where I have all that I can do." Or perhaps it is said, "The Flower Mission is well enough for those who have nothing else to do." Are these good excuses, and do they quiet the conscience?

Let us spell our word, "Flowers," thus:

F-for Find
L-for Love
O-for Outstretch
W-for Win
E-for Encourage
R-for Rose
S-for Sympathy

That the Flower Mission may not be a pleasant sounding name to a lifeless organization, we must not be satisfied with any of these excuses. We must not be willing to bear the name of "Flowers" without following in the foot steps of Him who went about doing good. We must find those who need us, and in order to find we must seek, and having found we must offer our flowers with gracious words and courtesy, not with condescension or patronizing manner.

Some may say, "I have no flowers or fruit or even a gift to take." True, yet better than flowers with their passing beauty or fruit or other gift are the loving words from the heart, the soothing hand, the good advice and encouragement. They sink into the heart and live in memory long after the perfume of the flowers has vanished.

"Love is the greatest thing in the world," said Drummond. It can easily be distinguished from mere duty. It has the true ring, that proves its sterling worth. "Duty makes us do things well, Love makes us do them beautifully," is one of Phillip Brooks' living thoughts. How true it is! The heart that beats with love is the one that does not wait for great opportunities, but seeks and finds and uses the seemingly small ones close at hand.

Not long ago two friends were talking of good influence and good deeds. One said, "I wish

you could get some appointment for evangelistic work in some of the large churches." The reply came: "We may have the joy of sharing with others, flowers so freely given:

rather than wait for greater work that may never come." So with love as the motive power, we come to the third letter in our word, "Outstretch." Yet, let us outstretch a loving hand. If holding a real flower it will give great pleasure, but if no flower is there but "love, rejoice and give it freely."

Every unselfish thought and plan carried into effect returns to our own soul to fill it with joy and peace, and enrich our lives, so inspiring them to future deeds of love. "It is more blessed to give than to receive."

Madame Willig.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds, and other throat and lung diseases is the most popular medicine in America. "I cured me of a dreadful cough," writes Mrs. J. F. Davis, Stickney Corner, Md. "After doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection it unequalled.

By "TOODLES."

Eastern College Athletic enclosed by a ten-foot can-

Manassas defeated the

old-famed Indian tribe by a

score of 3 to 2.

The game was very close during the first six innings, the home team drawing blood in the first and their again in the ninth. It probably seemed that Indians were toying with home boys to make it interesting, but surprised them when, try as they were unable to win.

Paint Pot and Tweedie Dee with Masters Jack Keys of Dumfries, and Warren Merchant, of Manassas, was worth coming miles to see.

The dinner hour on the second day was the most hilarious as well as good-humored of the entire occasion. With the rain beat- ing down from the sky, the

game was suspended for a short time while the Indians were

returning home from a visit with their cousin, Mrs. T. E. Garnett, in

the mountains of western North Carolina. "The Land of the Sky,"

In the PUBLIC EYE

"SCOTTY'S" MINE IS A MYTH

"Death Valley Scotty" told a Los Angeles grand jury the other day that the president of a life insurance company had grubstaked him for years, though that New York mining engineer was not a member of the company's board of directors.

Scotty also testified that he had tried to persuade the officers of the Death Valley Scotty Gold Mining and Developing Company to locate a few mines in the desert.

He gave the mining schemes the appearance of genuineness, but alleged that they refused to do so, saying it was unnecessary.

Scotty told the grand jury that his "mine in the ground down in Death Valley" was a myth, which has been used for years to fill the pockets of the promoters.

With the exception of F. C. Goodwin,

the secretary of the company, and its treasurer, Goldworthy, the officers of the mining concern, have apparently dropped from sight.

Scotty's confession contained this other bit of interesting history:

He never located a mine; either in the Panamint range, the Funeral

Mountains or anywhere else; he never owned a mine, was not a miner, his only

mined sandstone, while all the mining schemers were formulating

plans upon which they should profit by this above.

And all Scotty got, he says, was an amount of money that could not be identified by a lottery title than a "hand out."

Scotty said the most he ever had at one time was \$3,000, and that the below-mentioned roll he bought was accompanied with one dollar bills.

MAJOR-GEN. LEONARD WOOD

A word just at the present moment:

might not be out of place concerning

Maj. Gen. Leonard Wood, U.S.A., who

is also an everyone known an M. D.

and a surgeon.

The speaker declared that in common

with the majority of ministers he had misinterpreted this and similar

Scriptures to refer to all the ungodly

of mankind and to imply that they are

writhing in torture in a hell whose

location is unknown and which he now

sees to be a human creation without

any basis of fact.

The speaker analyzed his text and

showed that it was addressed to the

Jews, that they for sixteen centuries

had been God's favored nation in har-

mony with His promise to Abraham.

He well knew advantages every way

over all the other nations—not only in

the fact that the promises were given

to them, but also in the fact that they

were sent the Prophets with their

concerning measures.

Notwithstanding all these favors but

comparatively few of that nation were

ever converted to the acceptance

of God, to Messiah's joint-heirs in His

Kingdom. As the natural seed of

the tree they were grafted in.

God, to His own heart, accepted

them, that they might be the

holders of the Kingdom, and to these

presented Himself. All of His

miracles and teachings went to them,

yet only a few were in such condition

of heart that they could receive this

Message.

In the context Jesus referred to the

fact that the Gentile centurion who

had a servant who was ill, and that at

the breaking out of the Spanish War

was a regiment of men who knew how

to ride and how to shoot—planned and

organized and prepared themselves

to march to the front.

There was a member of New York

clubmen, who were fond of outdoor sports.

The only son of the club, who was

in command of the regiment, was killed

in the charge at San

Juan Hill, was in that regiment. The story is historic. After the war Dr.

Wood was made governor general of Cuba and became a brigadier general in the regular army.

After that came his service in the Philippines, then followed his appointment as commander of the department of the south, and then chief of the general staff.

MR. CHUNG, CHINA'S MINISTER

Genuinely to the surprise of the diplo-

matical public, Dr. Wu Ting-Fang was

not sent as minister from the Chinese

republic to Washington, but Mr. Chung

Min. Wu, former Foreign Minister of

the new republic. No ex-

planation was forthcoming as to why

the change had been made, and al-

though Dr. Wu and Mr. Chung were

both well known at the capital, and had

many friends in the diplomatic corps,

it was to the great consternation of

things that Jesus referred. He used

the highly figurative language com-

mon in the East. What St. Paul said

about the "blindness of the Gentiles"

and "the foolishness of the Jews."

His words were:

"The Jews have had all of these

experiences. We are glad if we see

in God's Word a glorious prospect for His

ancient and covenant people. St. Paul

calls this promise to our attention in

Romans xi. 25-28. He tells us that

God's covenant with Israel cannot be

broken, but will be established, and

that the Gentiles will receive the

mercy, Divine favor, at the hands and

through the agency of the Church—spiritual Israel—part of whom have

been selected from the Jews and some

from every nation—all sanctified

and sanctified.
