FARMING OPPORTUNITIES

We are constantly hammering away at this farming game, but it is a question of vital importance to the present as well as the future of us all. Mr. Wilson advises people to cultivate a taste for mutton, but although mutton is good most of us object to a steady diet of wool-fat and the demand for beef is are useless. The spot moves with the Colonel bound to continue. This being the case the fact that we have harped on for some time is increasingly solid, viz: raise more and better cows. Popular Government, this year, to win, must depend on the truth being sold about Wilson. We must publish his record and platform broadcast so that no one can controvert it.
