HIDDEN MONEY

Statistics show that the percentage of money in the hands of governments is much less than that kept by banks. This is the result of the great expansion of the nation's financial system, which has been characterized by a steady increase in the volume of money in circulation. The central banks, through their activities, have been able to control the money supply and maintain a steady level of economic activity.

Avoid all such contingencies by depositing your money with

JOY AMONG THE COOKS

We have just installed a new Purifier in our mill at a cost of $200.00, and given the mill a general overhauling, and have with us an expert miller, and our flour is giving entire satisfaction. We guarantee to be as good as any of the Patent Flour shipped in the State. Five bushels wheat gives you 1 barrel of flour, and 5 bushels of wheat gets you 1 barrel flour and 66 pounds of offal. Your patronage solicited.

BOYS:

Every boy is a miniature business
man.

1. If he manages his little business
affairs with credit to himself, he
will be a good manager of big
affairs.

2. The best way is to have a 
business account, three times a
month and keep it growing.

3. One boy has a "trust
ing" in the form of every
collection, sensible boy to Prince
Williams Co.,
by helping him to save.
