HIDDEN MONEY

Science shows that the percentage of money lost through handicrafts is greater than that lost through our four major banks. A study of the methods by which money is lost through handicrafts shows that the average family loses over $1,000 per year through handicrafts.

We have just installed a new Purifier in our mill at a cost of $200.00, and given the mill a general overhauling, and have with us an expert miller, and our flour is giving entire satisfaction. We guarantee it to be as good as any of the Patent Flour shipped in the State. Five bushels wheat gets you 1 barrel of flour, and 5½ bushels of wheat gets you 1 barrel flour and 66 pounds of offal. Your patronage solicited.

BOYS:

- Every boy is a miniature hunt master.
- If he has a horse, he becomes a good hunter. He can use his horse for hunting or driving in the winter. He can also use it for riding or polo in the summer.
- If he has a farm, he can become a good farmer. He can use his farm for growing crops or raising livestock.
- If he has a factory, he can become a good businessman. He can use his factory for making goods or services.

HIDDEN MONEY

Statistics show that the percentage of money lost before it is earned is greater than that lost to bank failures by over 240 per cent. And yet people will store their money away in stockyards, bureau drawers, mattresses, carpets, etc., waiting for the thieves and flames. The stories of serious and parentible losses of this kind published during the past year or two have shown many that murders have been caused by hidden money; in some cases for ridiculously small amounts.
