IT IS AMUSING

It is right amusing to read Secretary Wilson's summing up of his sixteen years as head of the agricultural department of the government. He takes all the credit of the increase in agricultural Williamoducts that the country has made as well as all the great progrees the farmers attained in scientific farming. As a matter of fact, it is the opinion of many thinking men that this department has been one of the least efficient although one of the most expens-Ive that the government supports. Look at the work of fust one of the bureaus: for instance, the poultry department. Fifteen years ago this bureau issued its first bulletin and it was the verist twaddle: positively of no value to anyone and of interest to very few. This has been true of nearly all the bulleting of this bureau. but they continued to hire more assistants and just what these men time a number of the state experiment farms have been doing fine are of real value to the farmers who had neither the time nor the and it is also a fact that some of the state agricultural schools have and all of his helpers and have not spent \$25,000,000 per year doing it. There is, perhaps, something to be said in Mr. Wilson's favor. but he seems to be so self-satisfied and complacent on the eve of and hope that his successor will put more snap in the work and do

THE parcels post law goes into effect on January 1. Almodu the big mercantile houses of the city are asking for advertising space in every newspaper in the country. The United States is divided into somes and a fixed rate of postage for a given distance is provided, which will exclude the big drygoods houses in a me asure from doing business in that territory or some because of the excessive rate that is charged.

AT the caucus held by the Senators last Thursday a committee of five was appointed to consider what policy is to be followed in regard to the confirmation of appointments by President Taft. This committee is to outline a plan for the opposing of all the nominations sent to the Senate by the President at this session for confirmation, with the exception of Army, Navy and Consular appointments. It can be stated upon the highest authority that no Virginia postmasters of other Virginia appointments that the President may name will be confirmed by the Senate.

The Love Letters of a

WE begin in the November issue a series of real love-letters written over fifty vears ago by one of our national heroes to his sweetheart during the period of '61 to '65. This great general will go down to posterity as having accomplished one of the most brilliant feats of arms in the history of the world. He was as great a lover as he was a general, therefore these letters combine authentic history and exquisite romance. They
