STREET GOSSIP

As the day set for the vote on the bond issue approaches the The bid of W. H. Bailey for especially desired not only to enarguments grow more and more heated and figures grow more and changing road in Clark's appli- joy the excellent program but to more exaggerated in size until the opponents are almost willing to cation is accepted at the price hear reports of the committees predict a complete financial and business wreck for the town if the named, \$285. J. T. Syncox and which will outline the program question carries while those favoring it threaten to leave the town C. E. Clarke, and J. L. Dawson for next year's work. to its own decay and seek pastures new if it fails. ''Let us have peace.''

Whether the bond issue wins or is defeated we will probably all change and report according to ment of Agriculture. Mr. Miller is. get what we want to eat and wear. The different sides of the law question have been thoroughly gone over both in the columns of In re bridge across Chappa; at the head of the sixth District THE DEMOCRAT and at the public meeting held in Conner's Hall. wamsic. C. F. Bailey, G. M. Agriculturial High School, in No one who has read this paper and attended this meeting can say Ratchiffe and F. Abel are ap- which capacity he has been a they do not understand the situation or its probable effect upon the pointed commissioners to confer leader in the movement for betfuture growth of the town or the prosperity of its citizens. If with the commissioners appoint the number of voters here who prefer to have the town's growth ed by Stafford county and report along the line of a better and depend entirely upon the agricultural improvement in its neighbor- according to law. hood is greater than of those who believe that "The Lord helps | Ordered that Julia Carter those that help themselves," why let us all be content and still allowed two dollars per mont dwell in unity; harmony being the strength and support of all in- beginning August 1, 1913, until of a committee of the Woman's stitutions.

There are just one or two points that we still have in our system that we will set down here for the benefit of those who have not thought of them. One is: we have heard on the streets the state ment that you can not take \$75,000 out of this town without ruining it. People don't stop to consider that at least \$60,000 of that money will be spent right here at home to pay for the labor of man and beast. Local capital will be given the preference in the purchase of the bonds, and isn't it as well to pay in interest what we are now paying to insurance companies, pump manufactures, Standard Oil Co., and others of a like stamp

Another is: we have heard some people say that a ten inch pipe is too small for a sentic sewer for this town. We venture the assertion that some of the people using this argument, never saw a sewer in their lives and can't to save their lives figure the difference in the carrying capacity of an eight and ten inch pipe, but still they set their opinion against that of a trained engineer o practical experience. The question of the size of the sewer pipe is a fixed mathematical fact known to any practical engineer; it is not a local problem at all. Also to any reasonable person the experience WR Garson, poor claim co rf. of other towns ought to be sufficient. Don't get this septic sewer EL Barnes, Coles zf... confused with a general sewemfor there is a great difference in the JM Reid. poor claim co rf. amount of sewerage they are meant to carry. There are some parts LL Payne, Brentsville of almost all cities. Washington included, that have only septic & w

utilities have become neccessities and the pressure for them will constantly increase each year until they are finally put in. We are EK confident that every woman in town. whether a bread winner or JSE not, is in favor of all three improvements so we might as well have to over and done with first as last.

THE MEXICAN SITUATION

just now is the Mexican trouble. Mr. Bryan doesn't appear to re- wE gard it with any particular interest but all other officials seem to Palm feel that it is a grave question and one worthy of considerable effort and study. The Monroe Doctrine is ever present and it begins EM to look as though we would either have to recognize the Huerta Government or stand for having some holes torn in that Doctrine. While real armed intervention by our Government is hardly to be thought of it seems as if it is time that we either protect all foreign- AN ers in Mexico, or allow other nations to so far infringe upon the Monroe Doctrine as to protect their own people. It also seems us that Mr. Bryan owes his first duty to the business of Secretary He knew what the salary was when he accepted the job and is not midst of tropblesome times to make a three weeks' lecture tour. Mr. Rrvan has a great mind but it is this proneness for 'breaks' that has kept him from any high office in the gift of the people.
