### THE THAW CASE

THE DEMOCRAT has never given much space to the discussion family's millions it would have been buried in obscurity shortly be fore it began. The discreditable legal squable that his arrest Canada gave rise to was as spectacular as has been everything connected with his case since it began and was apparently carried or almost entirely for the purpose of getting a little more of his money It is said that he hired fourteen lawyers in Canada who carried him through numberless lower court trials until finally the Dominion immigration authorities obtained possession of him and, under the direction of their minister of the Interior, gave him the trial ac corded by law, decided that he was an undesirable who had entered the country improperly, forestalled any attempt to set the courts Bryan left the dinner immediately. against the immigration authorites, seized Thaw, clapped him into an automobile, transported him by practically the same route he CRIMSON CLOVER A came into Vermont, and there set him free. According to all accounts Thaw acted like the insane person he really is, wandered about in borrowed automobiles until finally he crossed the line into New Hamphire, where he was arrested and is being held until the courts can decide whether he can be sent back to Matteawan, where Subsoiling Best Way of Despenin he properly belongs. If New Hamphshire hasn't a law by which he can be returned to New York it, as well as other states, should

Equally discreditable was the attempt to prosecute Jerome on a trumped up charge of gambling, which the magistrate denounced be kept covered with a growing

It is to be hoped that Thaw will be returned to Matteawan and the incident closed, for such men at large, with unlimited means, the knowlege which has been deare a menace to the entire country.

### THE TARIFF LAW

The Underwood Tariff Schedule is now law and just what effect more attention. it will have on the industries and general prosperity of the country only time will tell. President Wilson has been the main factor in land, and the thinking should be so good as that adjoining in the the situation and the Democratic party has placed itself solidly be-long and serious—until it results same fields where no subsoiling hind him in every particular. With few exceptions members of con- in covering every acre of land in was done. I have seen this regress have waived personal matters, submitted to and voted for southern states with some growschedule opposed to their local interests. President Wilson said:

A fight for the people and for free business which has lasted a 1913 and 1914. long generation through has at last won, handsomely and completely. A leadership and a steadfastness in council have been shown cost the least amount of money. in both houses of which the Democratic party has reason to be very limay not be possible to put a proper time and that is the fall proud. There has been no weakness or confussion or drawing cover crop on every acre of land, of the year, when the subsoil is back, but a statesmanlike directness and seemmand of circum-

Senators Thornton and Ransdell, of Louisanna, voted against the bill on account of their state's hostility to free sugar, but Senator Poindexter, of Washington, and Senator La Follette, of Wisconsin. both Republicans voted for it because they regarded the Payne-Aldrich bill as little short of a crime, while they considered the new bill as reasonably protective. It is practically an impossibility tell before hand whether any tariff schedule will produce the desired effect or not or whether it will produce the required revenue. - but it is certain that the Democratic party in Congress has been consistant and done thoroughly what it started out to do and what the people demanded that it should do viz: revise the tariff downward. We hope the result will be all that the common people exnect for we believe President Wilson has made his fight with their interests constantly in view.

### THE PARCEL POST PROBLEM

Railroads are asking for a hearing in connection with the new percel post order of Postmaster General Burleson. The additional weight must be carried by the railroads. No provision has been made for the extra compensation and the roads are in a dilemma. They should not worry. They will be given a square deal. The parcel post is one of the greatest of government boons, and the second are perfectly willing that the railroads should be paid well for the extra service. When the express companies had their way they practiced extortion and the public has no symathy to extend to the express trust. The cormorant showed that it still had some one on guard in congress when the parcel bost bill was being whippe into shape. A "joker" was slipped into the bill which prohibits the sending of books or printed matter by parcel post. It was a clever exemption that was sneaked into the bill, but the postmaster general will shortly have congress remove the inhibition.

**PARAGRAPHS** It may be that some women wear slit skirts for order to attract DAKERY attention from their faces.

The idea of conserving calves is a good one, but some of the beef steak that is purchased in the open market suggests the thought that conservation can be overdone.

Somebody has figured that one man can do now what it took sixteen men to de fifty years ago. That may be true, when it comes work but it takes more men to do the loafing than it did fift years ago.

Miss Jessie Hardy Stubbs. of Chicago, says that even if it were true that woman was made out of man it must have been out of the backbone. Don't know about that, Jessie; there are occasions when one might get the notion that it was the funny bone.

A counterfeit half-dollar of almost perfect workmanship has appeared in Richmond, and has been largely circulated. It has fallen into the hands of several banks, where it was recognized as a counterfeit, and has probably been widely circulated among the of the spectacular Thaw case always believing that but for the stores and retail dealers. The courterfeit is so well made that it has the ring of the real article, the only difference to be found being in the weight, which is slightly off. Some of the coins bear the date of 1907, though most of them are marked 1911.

> Secretary Bryan proved his loyalty to the temperance cause Monday night at the dinner to the representatives of the permai ent exposition commission of France, given by J. J. Dickinson, per sonal representative of the Secretary Bryan and of the State De partment. Mr. Bryan togsted the French commissioners and rais ed his glass. The French representatives rose to salute. Bryan discovered that his glass contained champaigne. He lowered it The French envoys stopped drinking. They made no comment.
