ALCOHOL IS DOOMED

A press dispatch from Russia brings the interesting news that the czar has issued an order driving intoxicating liquors out of the Russian army: This is the first occaisen on which any such general order has

ever been issued to the Russian troops. But the emperor has been led to issue it by the neccessity of adding to the efficiency of his huge army. Field Marshall Lord Kitchener demonstrated in his various Soudan compaigns, culminating in the crushing of the Dervish Mahdi at Omdurman in 1898, the military advantages of total high we'll need an airship to find it. abstinence from alcohol when on active service, and since then there has been a disposition on the part of the military authorities comes a European war to eat 'em up. in all countries to discourage the use of alcohol among officers and men, modern methods of warfare and arms of precision demanding an extremely level head and steady hand, rather than reckless gallantry, prompted by what is popularly known as 'Dutch courage.'

What have the defenders of booze to say in answer to this very conclusive evidence of the evil of alcoholic drinks?

If the soldier must give up alcohol because it interferes with his efficiency, why should not the civilian promote his efficiency by giving it up? And if it is demonstrated that alcohol is an evil, and only an evil; if it is proven that it lessens the productive value history. of the citizen: who will say that the nation should look upon this great evil with indifference merely because a few people want to stuffs we shall insist on a prompt return to safe and sane forms of demn opium, morphine and cocaine if we are to worship at the shrine of whiskey and beer? SHOPPERS WHO ARE NOT SHOPPERS

People who save the pennies have the dollars.

But to have the dollars you must save the or the pennies you must know how to shop.

Some shoppers are not shoppers. They are just spenders. Money comes easy and goes easier.

They make plenty of money, yet live from hand to mor Sometimes the hand does not reach the mouth.

Their pockets are large, but have no bottoms. Sometimes the money does not reach their pockets at all. It is spent before it is
