ANNOUNCEMENT

Why the Voter Should Vote Against the City Saloon.

We take pleasure in calling attention to the excessive legislation, and the ease of operation by Exempted Saloons, safety, if properly installed. The law not only allows, but actively enforces the operation in a manner that ensures the safety of public health and morals. The saloons are subject to specific regulations and are required to conform with the National Electrical Code. If the city does not comply, the consequences will be severe.

ECONOMY

Visit Our Fixture Display

A EUROPEAN TRIP
FULLY DESCRIBED

Continued from front.

A more beautiful city can scarcely be found in the world than Geneva, the city of the lake, and the scene of many of the most important events in the history of Europe. The city is situated on the northeastern shore of Lake Geneva, and is the capital of the Republic of Switzerland.

The city is divided into two parts by the Rhone, a river which flows through the city from east to west. The western part of the city is the old town, which was founded by the Romans in the 1st century B.C., and the eastern part is the new town, which was built by the Swiss in the 14th century. The old town is the site of the ancient Roman city of Carsulae, and the new town is the site of the ancient Roman city of Cormorium.

The city is famous for its beautiful scenery, its charming climate, and its many historical and cultural attractions. The city is the site of the famous International Exhibition of the 17th century, which was held in 1580, and the site of the famous International Exhibition of the 19th century, which was held in 1851.

The city is also the site of the famous University of Geneva, which was founded in 1559, and the site of the famous Library of Geneva, which was founded in 1560.

Quality

It's the best of both worlds. Like a 1920s car, it looks futuristic but still has the charm of a classic. And like a classic, it's built to last. This car is a perfect example of how design and function can come together.
