WHO DOES YOUR THINKING

What is it that sets man above the rest of the animal kingdom Is it not the power to think? All through the history of the world there have been a few great thinkers, and there have been a great many who let some one else do their thinking for them. Which kind are you? Do you think for yourself? People who think for themselves are human beings living on a high plain; those who let others think for them are living in a rut where prejudice, fogvism, superstitution, fanaticism and ignorance prevail. The world is full of people who travel in the rut and seem to like it, although it is close scrouging.

The habit of thinking is not easy to acquire. It means that you reason, use the faculties of your mind, about things you see and hear. It means cultivating an open mind. It means self control. It means that you refuse to accept the ready-made thoughts of others until you have analyzed them. Are you letting some one do er man's pocket your thinking for you? The next time you notice yourself saying, "I think so-and-so, ask yourself the question, "Was that my thought Swat the loafer. or not?". We see all the time men who think, controlling those who do not-in business, in religion, in politics, in war, in every-being employed thing the thoughtful man rules. Sometimes and particularly in politics, he rules selfishly. Very often he uses the power he has anything to save. to enrich himself at the expense of those who do not use their reason. A hired agitator, in the pay of fanatics, or extremists—thing when we see it. whose narrow minds object to this, or that or the other thingplays upon the feelings of his hearers. The unthinking, after list ening to his tirade, exclaim, "He's right! I think there should be a law against it!" Do you think, or are you only reflecting the suggestions of the clever talker? The greatest show-man the world ever knew said. "The American people like to be humbugged" He certainly knew what he was talking about for he made a fortune in that business.

LET 'EM FIGHT

A few days ago-Oct. 4 to be exact millions of Americans sent up earnest prayers for peace.

And the fight was resumed with redoubled fury. And this inclines us to believe that the best thing for America to do is to sit tight and let 'em fight it out.

European nations are like a bunch of bull dogs turned loose in a pen. They will fight until one or the other is chewed up and soundly beaten, and the outsiders who attempt to interfere are likely to get bitten.

America has done its duty. Let 'em flight.

PARAGRAPHS

Wise men think. Fools talk.

When money comes easy it often doesn't tarry long.

This European war is very trying to the Mexican patriot. When there is nothing to say, what's the use of saying it?

Round, plump figures will be the vogue for women this winter Those who haven't them can "build up.

Afflictions never come singly. This time General Carranza wants to make a tour of the United States.

America spent a whole day praying for peace, and the pesky thing promptly lost itself in the melee the next day.
