The high pressure system that has dominated the region for the past few days is expected to move out later in the week, bringing cooler temperatures and a chance of rain.

you ever notice how "charms" favors those who are prepared to trust in their possibilities for earning money, or "charms" favor those who are not prepared to trust in their possibilities for earning money? Very few people have the time or money to do both, but there is a distinct advantage in the ability to do one. The secret of success is knowing which "charm" to trust in. The people who are "charmed" with the idea of earning money, and the people who are not, are on different planes of existence. The people who are "charmed" with the idea of earning money are more likely to succeed than those who are not. The "charm" of earning money is the key to success. THE

The only Importer in the South that handles the above five Breeds. Write me about your wants. Correspondence solicited.
