THE SUNSET OF LIFE.

After a lifetime of upright living and honest toil, how sweet it must be to look back over the years with the sublime consciousness that one's life has been worthy! In the end it matters not whether money.land C. J. Meetze & Co. and cattle have been accumulated. The true measure of success is how largest lists of properties well located, noble and self-sacrificing a life the individual has led. To have been make your selections. They can furnish a lover of one's fellowmen and little children, to have seen and enjoyed you in anything from one acre up, and the beauties of this wonderful world, is not to have lived in vain, even at any price your demand calls for. though success did not come in a material way. Are you so living day will pay you to see them either to buy by day that when the time comes for taying aside all earthly duties it will be with the indelible record of having done your best?

PRIZE OFFER

The NEWS takes pleasure in announcing a prize of a valuable book to the reporter of a Boys' and Girls' Agricultural and Home Economics Club who proves to be the best reporter during the remainder of the year 1921. The conditions of this contest are as follows:

1. The contest is open only to bona-fide and duly elected reporters of the Boys' and Girls' Agricultural and Home Economics Clubs of Prince William county.

2. No reporter is eligible until he or she has signified by let-

3. Three things will be considered in determining the prize winner: (a) How thoroughly the important facts of each meeting are reported. (b) How promptly the individual reports are sent in. (c) How well the individual reports are written, including correct use of the English language, good spelling and proper punctuation.

4. The contest closes December 31, 1921, the prize winner to be announced in the January 5, 1922, Issue of the NEWS. All reporters of the county clubs are urged to get into this contest. The harder you work for this prize, the more you will help your club and the more you will learn about reporting. The book to be awarded will be one that you will find of practical held, and the honor of being the best boys' and girls' club reporter is not to be underestimated.

Unexcelled for Baking

White Rose Flour, which is made by us only, is unexcelled for all kinds of baking. It is milled for average year-round family use-loaf bread, biscuit, pastry and cake. It is ground from good clean grain that is thoroughly sifted and is packed in the most sanitary manner.

An all purpose flour is what the average housewife most appreciates. To know that a sack of White Rose furnishes the basis for all baking, is indeed a comforting thought in many a Northern Virginia home. Are you one of the happy users of this highgrade flour ?

White Rose is Reasonably Priced

In these days of practical economy, the old saying "a penny saved is a penny earned." carries special significance. Buyers of White Rose flour save money, in comparison with other high grade flours. And they get all that the average cook asks of a flouradaptability to all types of baking.

White Rose is now for sale in most sections of Northern Virginia. Very likely your grocer has it in stock right now. If he has not, send us his name. We will gladly take care of your orders direct until he can supply you.

Ford Producing 4,000 Cars A Day

Present Production Greater Than for Same Period

Ford is building cars at full speed. And, according to an efficial statement from the factory at Detroit, the demand for Ford cars and trucks still exceeds the output. despite the fact that a new high level of production has been reached.

By the first of May the figures representing daily production were in the neighborhood of 4,000 a day, so the May schedule was set at 101,125 cars and trucks, not including the output of the Ford Canadian plant or any of the foreign assembling plants. The output mounted daily: May 12th brought forth 4092, the greatest number that have been produced in one day so far this year. Since the month has 25 working days, present indications point to a new high record.

A comparison of Ford production figures for 1920 and 1921 discloses the fact that for April, 1921, the output was greater by 34,514 than for the corresponding month of a year ago. The output for May, 1921, will probably overshadow May, 1920, by between fifteen and twenty thousand cars and trucks.

Approximately 43,000 men are at work in the Detroit plant of the Ford Motor Company. The factory is operating on full time, six days a week and three shifts a day. "We were never in a better condition than we are right now," said Henry Ford, recently.

Decline in Wheat Crop Outrook-Plowing Well Advanced.

Virginia wheat declined 6 per cent John Primich and Mary Primich. weather, according to the May report of the United States Bureau of Crop Estimates. The May I condition of 86 styled suit is to reseind and set aside indicates a yield of 12 bushels per acre.
This yield applied to the estimated acreage of 875,000 gives a forecast of the loss, or parcels of land to the land to t bushels or 8 per cent less than the final estimate for 1920. The forecast for the United States is 629,287,000 bushels, or 9 per cent more than in 1920, 14 per solutions. The forecast for the countries of per cent more than in 1920, 14 per solutions. The forecast for the countries of per cent more than in 1920, 14 per solutions. The forecast for the countries of per cent more than in 1920, 14 per solutions. The forecast for the countries of per cent more than in 1920, 14 per solutions. The forecast for the conveyed to said complainants by said defendants, in the countries of Judge of Circuit Countries of per cent more than in 1920, 14 per solutions. cent less than in 1919, and 11 per cent ants a certain house and lot known The greatest decline in the condition street, and eight city lots, in the city l.

The greatest decline in the condition of Virginia wheat has occurred in the Shenandoah valley, which is the largest producing section of the state. The freeze of April 11 and 12, which caught the crop in a very advanced state, followed by the long dry spell, damaged the crop considerably in this section. The prospects for a good yield are not very encouraging, for the crop has a yellow appearance, which frequently indicates Hessian fly and rust.

Street, and eight city lots, in the city of Gary, in the state of Indiana, and repay to said complainants the sum of \$200,00, with interest thereon from August 31, 1918, until paid, which said defendants be required to pay to said defendants be required to pay to said complainants the sum of \$4,200,00, with interest thereon from August 31, 1918, until paid, and to said complainants the sum of \$4,200,00, with interest thereon from August 31, 1918, until paid, which said defendants be required to pay to said complainants the sum of \$4,200,00, with interest thereon from August 31, 1918, until paid, which said defendants be required to pay to said complainants the sum of \$4,200,00, with interest thereon from August 31, 1918, until paid, which said defendants be required to pay to said complainants.
