Our Meats
Please the Particular

Particular people are, as a rule, extra particular about the meats they buy. They are wise to insist that meats are properly handled and kept, meats should be set before payment at the meat counter. A reputable meat market should have a sign, "Sanitary Meat Market," on the counter.

Ford Producing
4,000 Cars A Day
Present Production for Several Weeks
Past Year

Ford is building cars at full speed. And, according to an official statement, the demand for Ford cars and trucks is still unsatisfied, despite the fact that a new production has been reached.

By the first of May the system of rolling daily production was in the neighborhood of 4,000 cars a day, but the May schedule was set at 10,000 cars and trucks, including the output of the Ford Canadian plant or any of the foreign exporting plants of the company. The Ford Motor Company produced 1,588,985 cars and trucks in 1922, the greatest number that has ever been produced in the United States. Since May 15th the May production figures for the first four weeks of May show 1,588,985 cars and trucks. In 1922 the output of cars and trucks was 2,640,637.
