sufficiently covered. It was felt that it would be desirable to have a
larger group of students in the class, and that this would be of great
benefit to all concerned. It was also decided that the class should be
opened to students from other schools in the county, and that the
class should be made up of students of all ages.

students were dismissed. The class was well attended, and it is
expected that the students will continue to attend the class in the
future.
