ATTENTIVE ATTENTION

The water supply of this town (as you well know) is inadequate to meet the demands, should a fire occur and may mean a conflagration. Your only protection, therefore, remains in placing the proper amount of fire insurance on your property and to know that it is properly written in the strongest companies, excepting none operating in the world. The fire protection of this town is now rated as first class. If the water situation is not soon improved it will mean a higher rating—therefore insure now.
