GOOD, FRESH GROCERIES

It's worth something, let's it, to have the groceries you order are going to be sold? And it's a beauty to have the grocer who brings the truck to your door, and who you can get a number of them. What will you do to have the one who will make so you will get it as efficient as possible? And, if you will do it, don't let the price be the last thing you consider.

The Cake and The Penny

How many of us start to eat the cake and yet keep the ginger?

As with the National Government, in the case of our private affairs, we know we must cut down on expenses, but when are we willing to cut this thing back?

There's where the red lines come. It's easy to cut expenses when what was borrowed a few years ago has now become excessive. It's easy for us to get rid of the place of living either more or less, and cut expenses in the same manner. Our mind is on the ground of having to foreclose all of us and in order to do so, we are ready to foreclose a lot more.

But this is a matter of our own, not that which the future has in store. No man wants to be in a position where things are old age. No man wants to be in a position where he can go by without an appreciable accumulation of real and personal property.

The secret, safer and most pleasant means of ensuring your future is by becoming a regular depositor at a good bank. On the opportunity of helping you, get the bank of earning here every day. You've an interest in a bank, too, and you'd put it in a bank, too.

LET'S GET DOWN TO REAL BUSINESS NOW

The county people and big folk are one. We've all had a good time and have gained renewed confidence in the future of farming, even though conditions are not as yet as we would like to have them.

But let's make the best of things and get down to real business.

Today you help you admire the Farmers Exchange was established a few years ago. Are you taking advantage of this opportunity? Are you looking after your investment as closely as we know how to study your interests? Are you making a habit of coming to this store often?

Most anything you need in the home or in the field you can get here. Our stock does not consist of 5¢ or 10¢ Wire Weave and Institutions, but of good staple merchandise—the kind you really need when the time comes to put in your crops.

Not only provisions and notions, but farm machinery, hand tools, feed, and seeds. Suggest your quantity your needs and fix. If you don't happen to know what you want, we'll help you get the line it for you quickly and at a saving.

If you are not already a customer, try us out—be quick, your advantage and to our...
