with the laws of the town, the NEWS will each week publish a portion of the Gode of the Town of Manassas, as was brought out in booklet form in 1918. Mention will be made of amendments to the code. where amendments have been made and where the NEWS can obtain definite information covering such amendments.]

CODE OF THE TOWN OF MANASSAS.

(Continued from last week.)

Sec. 98. Upon application of any land owner of said town who is willing to purchase the material for putting down concrete sidewalks adjacent to his property or to pay the cost for such material, the Council will gay for the work and labor necessary in putting down said concrete sidewalk, the same to be constructed under the super- Also Aesop's Sable, "The Hare vision of the Street Committee.

Sec. 100. Any person giving or holding an entertainment for cents. private gain at which there is dancing or at which games of any kind are played shall pay a license of twenty-five dollars. Any person giving or holding any such entertainment, without first having procured the required license, shall be fined not less than ten nor more than twenty-five dollars.

Ses. 101. No shade trees, the property of the corporation of Ma- 11 and 22 cents. nassas, shall be removed except upon the permission of the Council obtained in regular meeting.

Sec. 102. It shall be unlawful for any person, within the town of Manassas, to spit, expectorate, or deposit any sputum, saliva, mucus or any form of mucus, saliva or sputum upon the floor, stairway, o any part of any theatre, public hall or building, or upon the floor o any part of any railway station or any public conveyance, or upon any sidewalk abutting any street, alley or lane of said town. Any person violating any provision of this ordinance shall, upon conviction, be fined not less than one nor more than five dollars, together with the costs of prosecution; and in default of payment of the fine imposed Also, Fox News Admission, 11 and may be imprisoned in the town or county jail for a period not ex- 22 cents. ceeding five days. Provided that in any railway station there shall be provided cuspidors or spittoons before the penalties herein pro vided for can be enforced for violation of this ordinance in such rail way station.

Sec. 103. It shall be unlawful for any person to manufacture, use, 150,000 roted in the recent Democratic sell, offer for sale, transport, keep or give away any ardent spirits primary. The great silent vote is for contrary to the laws of the State of Virginia, within the town of Manassas. Any person violating any of the laws of the State of Virginia = with reference to the storage, sale, keeping, conveying or offering to I am sorry, young man," said the give or sell any ardent spirits in said town shall be deemed guilty of druggist, as he eyed the small boy over a misdemeanor, and, upon conviction, thereof, shall be fined not the counter, but I can only give you less than fifty dollars or confined in the county jail for a period not half as much castor oil for a dime as I to exceed thirty days, or both, in the discretion of the Mayor of ius- used to." tice trying any person for such violation.

If any person shall violate any of the provisions of the Act of the "The stuff's for me."—Watchens The General Assembly of Virginia, approved March 10th, 1916, and which aminer. became effective November 1, 1916, known as the Prohibition Law. he shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than ten, nor more than fifty dollars or be confined in jail not to exceed thirty days, or both.

Sec. 104. The Mayor is authorized and empowered, whenever in our own on appendix is an opposite in physician and opposite is a physician and opposite i

his judgment public necessity demands it, to employ special police or nolice service. All hills incurred under this position shall be not or police service. All bills incurred under this section shall be presented to the Council for payment.

Sec. 106. No permits shall be issued or granted for the erection of buildings of any character to be used and occupied by any person, other than one of the Caucasian race, on property bordering on any of the avenues, streets or alleys in the town of Manassas, except as follows, to wit: West of Grant avenue—South of Lee ave—

The Story of Breathes there a man with soul so dead Who never to himself hath said: Our States

> By JONATHAN BRACE XLV.—OKLAHOMA

after terms of President homa was opened up. Good farm land available under the Homestead Act was difficult to find so the United States bought from the Indiana, who had been segregated in Indian territory, a large tract of some 40,000 square miles that had been used largely by the Indians as pasture for their cattle and horses. This was called Oklahoma, a word meaning "fine country," and was arranged to be ready for sale to homesteaders at 12 o'clock noon

of April 22, 1889. Troops were placed on guard to prevent any settlers entering before that time for more than 100,000 "boomers" as they were called, came from all over the country to obtain farms or places for business. On the stroke of the hour, bugies sounded and the mad rush by men, women and children to lecate claims began. The government had arranged land officers at many places at which claims could be filed for the farms or city lots, and all that day these were besteged by fighting mobile to register their selections. Before nightfall hundreds of farms were staked out and Oklahoma City and Guthrie were well on

their way to become cities. Thus was developed this region which came into the possession of the United States as a part of the Louisiana Purchase in 1808 and which was set aside for so many years as Indian country. Previous to the forma-Oklahoma territory. C gress had forbidden white setlers in this part of the country, and this edict was enforced by federal troops. As the demand for more land was felt and as the indians decreased in numbers. indian territory was added to Oklahoma territory, and in 1907 it was admitted to the Union as the State of Oklahoma, adding another star to our flag, which for eleven years had contained ferty-five. The state has flourished to such an extent that it has ten presidential electors.

A. Henry, Manassas, Va., R.3, box 14. This can become a reality, not just a saying, if we, the citizens of the county will really work for it; if the teachers throughout Prince William and the leaders in the community league work will start NOW arousing the interest of the various communities in the idea. After all, it is more a question of the citizens of each communi-

ty grasping the idea than anything else—feeling within themselves that if other communities have had good fairs theirs can too. Let the leaders actually lead in this useful and truly educational work; and another year Prince William will have a score or more

representative community fairs instead of the three just past.

THE PRESIDENT'S THANKSGIVING PROCLAMATION Monday President Harding issued the annual Thanksgiving

proclamation, designating "Thursday, the 24th day of November, to be obsessed by the people as a day of Thanksgiving, devotion and prayer." Truly does our President say "Ours has been a favored nation in the bounty which God has bestowed upon it. The great trial of humanity, though indeed we bore our part as well as we were able, left us comparatively little scarred. * * * * * We have been raised up and preserved in national power and consequence, as part of a plan whose wisdom, we can not question. * * * * opportunity for very great service awaits us if we shall prove equal to it."

While the season has not been a very favorable one, as compared Manager with the past few, we, in the United States of America, as President Harding says, have been especially favored, and if there is any nation that should be thankful for blessings that have flowed from a divine providence it is ours. May each and every family of Prince William set aside Thursday, November 24, as a day of true thanksgiving in fact as well as in name!

DO YOU APPRECIATE OUR CLIMATE?

zens do not boast of its being a duplicate of Southern California; it have never laid claim to being a region of wonderful health-giving climate. And, yet, we who live here and who have also lived elsewhere know that one of the most valuable assets of this section is the fine climate, and the consequent good health of its residents.

In Prince William, where the altitude is sufficient to insure a cer- CHAS. H. ADAMS tain degree of dryness of the air, extremes of heat and cold are rare. We do have real winters that bring snows and summers that make the "ole swimmin' hole" popular, but violent changes are to be creditand to other sections, and destructive storms practically never visit us. When we talk of Prince William to outsiders do not let us fail

to lay atress upon the climate, for a good climate like ours is not common, and will be more readily appreciated by those not accustomed to such, than we may think.

How to Be Healthy WE CAN SERVE YOU

The Crusade of the Double-Barred Cross Practical Talks on Disease Prevention Prepared by the VIRGINIA TUBERCULOSIS ASSOCIATION

WHY A PERIODIC HEALTH EXAMINATION?

By DR. EUGENE L. FISK THE man who asks, "Why is it important that I have my body examined once a year?" we answer, "Why is it important that cows be inspected; Nowadays we take it as a matter of course that mankind should

protected from disease by inspecting his food and drink. How silly then leave the man himself uninspected! Unfortunately there are many channels through which disease can reac an in spite of up-to-date sanitary precautions. Sometimes the focus of disease has been established many years ago and only lights up when the bedy to

overworked badly fed or abused in some way. From the standpoint of tuberculosis alone it is worth while to have periodic health examinations to detect the early signs of such trouble. One hundred and fifty thousand people die annually from this disease in the United States The tremendous preventable death loss, however, from other chronic organic diseases is an eyen greater reason why periodic inspection of the human hadis a fundamental. common sense measure.

Here are a few of the often unsuspected troubles that such an examina sinuses); weak foot; flat foot; chronic appendicitis; latent constinution inherculosis: heart affections; high blood pressure, lew blood pressure; arterial changes; ductiess gland changes; anemia; kidney changes; nervous and mental disturbances. All of these conditions and often many of them com-

bined have been found in people supposing themselves to be in average

condition. Even the individual who shows slight if any actual impairment

of importance has possibilities of development which are brought out be

such a survey. Many people are sound to be doing a lot of things that well lead them unwittingly into trouble. Only custom and tradition stand in the way of making the thorough eriodic overhauling of the body and the life of the average citizen just as routine a measure as the analysis of the financial condition of a business

Close to 200,000 neonle have been examined by the Life Extension Insti mte and practically all-were in seed of some counsel or guidance with regard to their physical condition or manner of living and more than half were to meed of actual medical attention,

Fall is here. After a good night's sleep breakfast tastes mighty good—piping hot coffee, rolls, eggs and bacon. Not just any old kind of bacon but sweet, mild-cured bacon that gives that zest to the meal that all good cooks strive for.

In choosing our bacon, as with all other kinds of meats we sell, quality is given chief consideration. We know that it pays many times over to exercise the greatest care in this matter of selection, for most housewives of today are discriminating buyers and while they practice economy, they know that buying the cheapest of anything is just the opposite of being economical.

If you are one of our many regular and satisfied customers you know that our prices are in keeping with the quality meats we sell. We cater to all, and make our prices just as low as we can without sacrificing our ideals—quality and cleaniness at all

Whatever you may want in the way of fresh or cured meats, we have it. Try us and see how satisfactory it is to deal here.

School Children's Eyes

Make- this school year easier for your child by having his EYES attended to now. If you protect the naturally defective eye of youth, you are repaid with a strong eye in after life. Abuse the immature eye, and it will necessitate glasses—not for a few months only, but for a lifetime. Many a child has been a dullard at school and a failure in after life simply because some defect in vision made it impossible to see things clearly. The brain gets most of its information through the eyes, and if the eyes are defective, the child is woefully handicapped. Don't neglect your eyesight.

 Consult Dr. O. W. Hines, Graduate Optometrist, who will be at the New Prince William Hotel. Manassas, Va., November 7th and 8th, 1921 Hours: 10 a. m. to 5 p. m.

IN THE SPRING TIME

In the spring, the seed is sown. Things start to grow and life is radiant. This, in the life of man, is babyhood and young childhood. Children are getting their education and are forming habits that will stick by them for life—and will MAKE or MAR their future. This is the time when it is most easy to begin the systematic saving of money, when the opening of a bank account for the child is a wise move:

SUMMER COMES QUICKLY

Summer soon comes—the season of rapid growth and the attainment of maturity. Correspondingly, the little boy and girl now grow to manhood and womanhood. Here education is completed and careers are embarked upon. Here, foo. much depends upon whether or not the individual learns the value of money and saves a portion of his or her earnings.

PALL THE SEASON OF MATURITY

Fall is the season of maturity. - In the fall of life men and women are no longer in the formative stage; their growth has been completed and they are largely following in the paths they have previously made for themselves.

WINTER AND THE AGE

Then comes winter the season of inactivity. The boy and girl of the springtime of life are no longer producers. For the rest of their sojourn here they are dependent savings and investments, or upon the generosity of felatives and friends.

The question is—"What are YOU doing for the winter of life?" It is bound to come. Is there a better way of preparing for it than by becoming a regular customer of a strong bank like ours?

Feel free to telf us of your plans. We will gladly assist you in every way we can to help make your future what you wish it to be.

Announcement

In line with the general trend of all business to give the public the lowest possible prices, we are pleased to list herewith a sweeping reduction—averaging nearly 50 per cent. on FORD labor repair operations.

For several months, lower prices on all FORD parts—averaging 15 to 25 per cent. reductions—have been in effect. With the lower labor repair operations now announced, at a minimum cost you can have your car put in tip-top shape. Look over the prices for the different repair operations listed here. You can see just what the labor cost is going to be be-
