MEAT SANITATION

Just because the weather is cold is no reason why our meat - or any other thing we eat - should be any less healthy. Our meat is subject to a thorough protection both in consumer and in stockmen.

True it is that meats are less apt to spoil when cold. But there are many instances where the necessary precautions to keep their health under other conditions will be followed to the best advantage. You will always find good meats which are kept in the best sanitary way.

E. R. Conner & Co.

Two Kinds of Carriers

Electric and steam railways are common carriers. In the electric bus and truck that transport passengers and freight from one place to another. Electric buses are more efficient and have a lower operating cost than steam buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses. Steam buses are more efficient and have a higher speed than electric buses.
