

Prince William County, Virginia General Index to Wills

1734-1951

Joan W. Peters, C.G.R.S.

Dedication

This *Prince William County General Index to Wills*, now arranged in a new reader-friendly format, is dedicated to Don, Tish and Bev, who make up the R.E.L.I.C. room professional staff, of the Bull Run Regional Library. This was very much a team project and I would like to thank them in this public way for their patience and unflagging support for this project.

Cover Illustrations

The illustration on the front cover is a scanned image of Henry Hager's Will, found in the Prince William County, Virginia Will Book C, page 108. The illustration on the back cover is a scanned image of William Sparkes' Will, found in the Prince William County, Virginia Will Book C, page 46.

Prince William County Will Books D-F (1744-1777) are missing/lost; however, two bond books survive for part of that period:

- Executor Bonds (for those who left wills), 1753-1786; and
- Administration Bonds (for those who did not leave wills), 1753-1782

Those two books should mention all persons who died in Prince William County who had any estate. Court minutes 1757-1759 are also lost; court minutes for 1759-1761 survive. *dlw*

FOREWORD

1. From the Arrangement of the Old

The microfilmed edition of the General Index to Wills for Prince William County 1734-1951 is arranged in a quasi-alphabetical order by surname and given name. That is, all of the surnames beginning with A are together and arranged by given name for A, B, C, D, etc. This same format is followed for surnames from B-Z. Pages in the General Index to Wills are divided into columns containing information for dates by years, Surnames and Given Names, and into columns for information for Wills, Inventories, Accounts, Final Accounts, Heirs, Inheritance Tax and the like for the decedent.

There are major disadvantages to using the index in this format. First, the index is difficult to read. For example, if you are looking for the heirs of Charles Allen, who died in 1801, you must go through all of the As, looking for Allen; Then, you must go through all of the Js to see if Charles left a probate record. If you are looking for Charles' ancestry, you must also go through all of the "A"s, looking at the given names, to find the rest of the Allens in the index. Secondly, the column format is also hard to decipher. The will book numbers are sometimes hard to read; the supplemental sheets in the index are *very* difficult to interpret. Occasionally, there will be a citation for the Will Book without a page number to go with it.

2. ... To the Re-Arrangement of the New

The General Index to Wills found in this published printed volume differs substantially in its arrangement from the original. While I have kept the column format, I have simplified it considerably. There are five columns: Date, Surname, Given Name, Instrument and Will Book and page #. The names have been alphabetized by Surname and Given Name. The probate records have been placed in chronological order by will book for each decedent under the column called "Instrument". Third, there is an abbreviated index on each page for surnames.

So, if now, if you are looking for Allens, the abbreviated index indicates that the Allens in Prince William General Index to Wills are found on page 6. Turn to page 6 to see if Charles Allen left any probate records. He did indeed: A will, inventory and sales account on different pages in Will Book H. The will is found on page 463, the inventory on page 484 and a sales account on page 541.

Furthermore, the index now shows all other Allens that left probate records. It appears that the earliest Allen in Prince William County, leaving a probate record was *George* Allen. The most recent Allen was *Charles B.* Allen who left a Will, list of Heirs and a record of Inheritance Tax in 1937.

3. What This Index Is and What This Index Is NOT...

This index is simply a rearrangement of the content of the original General Index into a more reader-friendly format. It is **not** an index for *all* the probate records in Prince William; only, those which appeared in the General Index to Wills 1734-1951.

It is also not a complete record since there are early will books that are no longer extant. Unfortunately, due to the ravages of the Civil War, federal soldiers plundered and burned Prince William's Courthouses. Court record books disappeared. Among those missing from Prince William County were will books D, E, and F. These will books covered people who died in Prince William during the colonial period, the Revolutionary War period and the time when the newly formed United States was being established.

4. To the readership...

It is my hope that the re-format of the General Index to Wills to that found in this volume will be helpful for researchers who wish to investigate their family's ancestry in Prince William County.
