Exceptions & Notes:

1723, 1724, & 1729: (Stafford County) Prior to 1731, portions of present Prince William County were part of Stafford County. Therefore, the 1723 & 1729 Rent Rolls and the 1724 Tobacco Tender list from Stafford County are included in this index to provide continuity of PWC people prior to the establishment of PWC. Negroes are listed alphabetically by first name (then alphabetically by owner) in an index following the main landholder index. (See pages 111-142)

1735 – 1736: (Rent Roll) The source number refers to the column number of the original document wherein the named individual is found.

1737: (Brent Town Survey) Individual tenants are shown by the Water Course along which their land was located: **T** = Town Run; **W** = White Oak Branch; **C** = Cedar Run; **S** = Slaty Run; **K** = Kettle Run; and **B** = Broad Run

1741: (Voter Poll) Individuals are shown by the initial of the candidate for whom they voted: **F** = Wm Fairfax, **C** = Col Jno Colville, **B** = Maj Blackburn, **P** = Val Peyton, and **H** = Thos Harrison.

1746: (PWC and FFX Landholder List of Persons living elsewhere.) Initials refer to the residence location. **KG** = King George; **L** = Lancaster; **N** = Northumberland; **R** = Richmond; **S** = Stafford; **Wc** = Westmoreland, Cople Parish; **Ww** = Westmoreland, Washington Parish.

1747: (Tithable List, Western Dettingen Parish) The source numbers refer to the column number in the original document wherein the named individual is found. Negroes are listed alphabetically by first name (then alphabetically by owner) in an index following the main landholder index. (See pages 111-142)

1751-1755: (Taxpayer List, Hamilton Parish) Original document has been lost. The source numbers refer to the page of *Newsletter of the Prince William County Genealogical Society*, December 1991, where the original data was published.

1761: (List of Voters) Individuals are shown by the initial of the candidate for whom they voted: **B** = Col John Baylis; **C** = Mr. Landon Carter Junr; **CA** = Capt Wm Carr; **E** = Mr. Wm Ellzey; **L** = Col Henry Lee; **M** = Mr. Thomas Machen; **P** = Col Henry Peyton; **T** = Majr Foushee Tebbs.

1765: (Tithable Lists) This index includes three separate lists. Source numbers refer to the compiler (**P**=Payton, **R**=Reno, and **T**=Tebbs) and the column number of the original document. Negroes are listed alphabetically by first name (then alphabetically by owner) in an index following the landholder index. (See pages 111-142) Additionally, landowners are identified with acreage.

1779: (Rent Roll) Page numbers shown refer to page numbers in *Magazine of Virginia Genealogy*, Volume 33, Number 3. August 1994, wherein the original data was published. (Available at RELIC or *Ancestry.com*)

Title/RMK: Supplemental information from the original document (e.g. title, remarks, suffix, location, marital status, etc.) which may help in identifying the individual.

Multiple page references for an individual in a single document indicate that the individual's name is located in multiple places within that document.

[Bracketed Data]:

The transcriber and/or the indexer has inserted [bracketed data] for clarification or correction of the original data.

Missing Data:

1738 – 1739: (Rent Roll) Original pages 1, 3, 5, 7, 9, 10, & 11 of the document were damaged, resulting in approximately 91 entries missing a name or portion thereof. Transcribers have made an effort to reconstruct the missing names by comparing surviving data with comparable information in other Rent Rolls. Note, reconstructed names are [bracketed].

Missing or illegible landholder surnames are indexed on page 109 and illegible Negro names are indexed on page 142.

Abbreviations, Contractions, and Terms:

A variety of abbreviations, contractions, and terms are used by the various record compilers throughout the collection of documents contained in the RELIC Collection of Prince William County People. The purpose of this finding aid is to assist the researcher by describing/defining these terms in 21st Century English. In some cases, a particular term may have more than one use and corresponding meaning, in which case the transcriber has attempted to include all variations that applied during the 18th Century.
