Hi Beverly,

The Haislip-Hall log cabin does not have a state site number.

I have no information on 076-0046, 076-0047, 076-0048. In fact I can't even find the number in the State's database. I have emailed the state to see if they have additional information. What information do you have?

076-0037, is located on Log Mill Road, in open space. According to the 2009 aerial photo the structure no longer stands. Attached is the state site form. This is not the Haislip-Hall log cabin.

076-5017, is located at 17018 Waterfall Road. Attached is the state site form. This is not the Haislip-Hall log cabin.

Justin

Subject: Log cabins in PWC

Hello Justin,

I was wondering if you could give us a bit more detail on the files of

Log Cabin 076-0037, or Log House 076-0046, 076-0047, 076-0048 and Log House 076-5017.

I've just created a file for the Haislip-Hall log cabin currently at the Brentsville Courthouse Historic Centre and I don't know if one of these files is for that home.

Any specifics on the above files would be appreciated – no rush.

Thanks,
 Bev

rear ell addition that is 1 1/2 stories. The main structure and southeast addition has a central stone interior chimney that appears to have at one time been an exterior end stone chimney for the log structure. The rear addition also has an exterior end brick chimney with a hood. The original log structure has an elevated entry door which is accessed by stone steps; the addition to the southeast has an entry that is ground level and accessed by a 1 story, 1 bay porch. The gable roofs are covered in standing seam metal. Windows are irregular and appear to be sash double-hung wood 6 over 6.
