See the current Building Development Fee Schedule at www.pwcgov.org/BDDFeeSchedule for fees due at submission

To: PWC Code Official

An Industrialized Building is to be installed in advance of the completion of the building that will house the residential sales function, and site utilities are not presently available. The Industrialized Building will be removed within one year or less from the issuance date of the Certificate of Occupancy per VUSBC Temporary Structures.

In accordance with the 20__ Virginia Uniform Statewide Building Code (VUSBC), I hereby apply for the following code modifications (checked boxes) which are in keeping with the spirit and intent of the VUSBC regarding public health, welfare and safety. Attached is the required supplementary information.

- Provide an accessible water cooler in lieu of a drinking fountain; copy of contract is attached.
- Provide an accessible chemical toilet in lieu of the water and sewer connections; Health Department Pump and Haul Permit is attached.
- Relief from providing a service sink, as required by the International Plumbing Code; cleaning service contract is attached.
- Eliminate the second exit, which is not code required due to the short travel distance and low occupant load, by removing the lighted exit sign, removing the operable door hardware, fixing the door in a closed position and attaching a permanent sign, "NOT AN EXIT."

 Signature
