

Residential Insulation Certificate

Version 2023-5-1

| | |
|------------------------------------|---------------------|
| INSULATION CERTIFICATE - HOME DATA | |
| MODEL _____ | PERMIT NUMBER _____ |
| SITE ADDRESS _____ | |

A. Building Thermal Envelope R-Values and Solar Heat Gain Coefficients of Fenestration

| Item | Date | Type Insulation/Glass | R-Value. U-Factor |
|------------------------------|------|-----------------------|-------------------|
| Slab | | | |
| Crawl Space | | | |
| Basement Walls | | | |
| Floor | | | |
| Exterior Walls | | | |
| Roof | | | |
| Ducts (Unconditioned Spaces) | | | |
| Windows | | | |
| Doors | | | |
| Opaque Doors | | | |
| Skylights | | | |

Post Construction Duct Air Leakage Test Results: _____ (Cubic Feet per minute/100 Square Feet of Condition Floor Area)
 Building Air Leakage Test Results: _____ (Air changes/Hour)

B. Equipment and Energy Efficiency Rating

| Equipment | Efficiency Rating |
|-----------------------|-------------------|
| Furnace | |
| Cooling | |
| Service Water Heating | |

C. Additional Equipment Installed

| Type | Indicate Yes / No (Efficiency shall not be indicated for gas-fired unvented room heaters, electric furnace, and electric baseboard heaters) |
|---------------------------------|--|
| Gas-Fired unvented room heaters | |
| Electric Furnace | |
| Baseboard electric heater | |
